2025 2nd International Conference on Telecommunications and Power Electronics (TELEPE)

TELEPE 2025

Table of Contents

Message from General Chair	xxvii
Reviewers List	xxviii

TELEPE 2025

Research on Power Load Forecasting and Optimal Dispatching Modeling for Low-Carbon Smart Grid	1
<i>Jiachao Du (Zhengzhou University, China)</i>	
Millimeter Wave Communication Channel Estimation and Intelligent Optimization Algorithm Design for 6G Era	6
<i>Chunqin Cao (Anhui Technical College of Industry and Economy, China)</i>	
Design of Autonomous Inspection System for Offshore Wind Power Operation and Maintenance UAV Based on Multi-Objective Optimization	13
<i>Xinyao Dai (Harbin Engineering University, China), Huan Dong (Harbin Engineering University, China), and Yuhan Wu (Harbin Engineering University, China)</i>	
Research on Energy-Saving Optimization Strategy of Different Network Roaming Base Station Based on Dynamic Shutdown and Intelligent Scheduling	18
<i>Xudong Zhang (State Grid Hebei Electric Power Co., Ltd., China), Xinlei Bai (State Grid Hebei Electric Power Co., Ltd. Marketing Service Center, China), Guanghua Wu (State Grid Hebei Electric Power Co., Ltd. Marketing Service Center, China), Peng Tao (State Grid Hebei Electric Power Co., Ltd. Marketing Service Center, China), and Wei Guo (State Grid Hebei Electric Power Co., Ltd. Marketing Service Center, China)</i>	
Real-Time Monitoring and Fault Diagnosis Technology of Virtual Power Plant	24
<i>Yue Guo (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Xiangyu Yuan (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Zhaofeng Guo (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Bota Wang (Information & Communication Branch of State Grid Hubei Electric Power Company, China), and Xiang Li (Information & Communication Branch of State Grid Hubei Electric Power Company, China)</i>	

Design of Real-Time Sensing and Dynamic Modeling System for Multi-Source Data of Distribution Network Based on Edge Computing	30
<i>Guilin He (Guangdong Qingyuan Power Supply Bureau of China Southern Power Grid, China), Lei Han (Guangdong Qingyuan Power Supply Bureau of China Southern Power Grid, China), Peifa Shan (Guangdong Qingyuan Power Supply Bureau of China Southern Power Grid, China), Min Lei (Guangdong Qingyuan Power Supply Bureau of China Southern Power Grid, China), and Weisen Lin (Guangdong Qingyuan Power Supply Bureau of China Southern Power Grid, China)</i>	
Spatio-Temporal Data Modeling and Reinforcement Learning Optimization for Tree Hidden Danger Prediction of Transmission Lines	36
<i>Xiwen Lai (State Grid Beijing Electric Power Company Electric Power Research Institute, China; State Grid Beijing Electric Power Company, China), Hongda Li (State Grid Beijing Electric Power Company Electric Power Research Institute, China; State Grid Beijing Electric Power Company, China), Weiqiang Qi (State Grid Beijing Electric Power Company Electric Power Research Institute, China; State Grid Beijing Electric Power Company, China), Chunsheng Li (State Grid Beijing Electric Power Company Electric Power Research Institute, China; State Grid Beijing Electric Power Company, China), Kai Zhou (State Grid Beijing Electric Power Company Electric Power Research Institute, China; State Grid Beijing Electric Power Company, China), Ruizhe Zhang (State Grid Beijing Electric Power Company Electric Power Research Institute, China; State Grid Beijing Electric Power Company, China), and Pei Zhang (State Grid Beijing Electric Power Company Electric Power Research Institute, China; State Grid Beijing Electric Power Company, China)</i>	
Application of Neural Networks in Theoretical Line Loss Calculation and Energy Saving Loss Reduction Strategies in Distribution Networks	42
<i>Hangtian Li (Economic and Technology Research Institute of State Grid Hebei Electric Power Co., LTD., China), Lei Guo (State Grid Hebei Electric Power Co., LTD., China), Xing Pei (State Grid Hebei Electric Power Co., LTD. Baoding Power Supply Branch, China), Xiaobin Xu (Economic and Technology Research Institute of State Grid Hebei Electric Power Co., LTD., China), and Peng Xi (Economic and Technology Research Institute of State Grid Hebei Electric Power Co., LTD., China)</i>	
Resource Optimization and Real-Time Control Technology of Virtual Power Plant in Smart Grid	48
<i>Lei Li (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Zhaofeng Guo (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Yue Guo (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Xiang Li (Information & Communication Branch of State Grid Hubei Electric Power Company, China), and Shengwei Wang (Information & Communication Branch of State Grid Hubei Electric Power Company, China)</i>	

Optimized Configuration and Operation Control of Energy Storage Systems in Virtual Power Plants	54
<i>Hao Ning (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Jialin Chen (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Jian Zhang (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Yuxuan Ye (Information & Communication Branch of State Grid Hubei Electric Power Company, China), and Yixi Wang (Information & Communication Branch of State Grid Hubei Electric Power Company, China)</i>	
Research on Substation Hidden Danger Monitoring and Intelligent Early Warning System with Integration of Heaven and Earth Driven by Multi-Source Remote Sensing Data	60
<i>Yuewei Tian (Guizhou Power Supply Bureau of Guizhou Power Grid Co., Ltd., China), Sanjun Fan (Guizhou Power Supply Bureau of Guizhou Power Grid Co., Ltd., China), Yang Su (Guizhou Power Grid Co., Ltd. Information Center, China), Wenqiang Zou (Guizhou Power Supply Bureau of Guizhou Power Grid Co., Ltd., China), Yinghao Yu (China Southern Power Grid Technology Co., Ltd., China), and Zhi Yang (Guizhou Power Supply Bureau of Guizhou Power Grid Co., Ltd., China)</i>	
Research on Load Forecasting and Dispatching Strategy of Virtual Power Plant Based on Big Data	67
<i>Shengwei Wang (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Zhaofeng Guo (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Xiang Li (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Jialin Chen (Information & Communication Branch of State Grid Hubei Electric Power Company, China), and Yue Guo (Information & Communication Branch of State Grid Hubei Electric Power Company, China)</i>	
Modeling and Simulation of 10kV Bypass Cable Operation Conversion Joint Structural Box for Efficient Construction	72
<i>Zhengxiao Yang (Guizhou Power Supply Bureau of Guizhou Power Grid Co., Ltd, China), Zhengyi Shao (Guizhou Power Supply Bureau of Guizhou Power Grid Co., Ltd, China), Dewei Kong (Guizhou Power Supply Bureau of Guizhou Power Grid Co., Ltd, China), and Xudong Li (Guizhou Power Supply Bureau of Guizhou Power Grid Co., Ltd, China)</i>	
Research on Line Loss Anomaly Detection and Loss Reduction Algorithm in Low Voltage Substation Area Based on Local Outliers	78
<i>Quan Yao (State Grid Hebei Electric Power Co., Ltd., China), Xiaojun Li (State Grid Hebei Electric Power Co., LTD. Electric Power Research Institute, China), Nan Song (State Grid Hebei Electric Power Co., Ltd., China), Pengfei Sun (State Grid Hebei Electric Power Co., Ltd., China), and Tongfei Cui (State Grid Hebei Electric Power Co., LTD. Electric Power Research Institute, China)</i>	

Research on Virtual Power Plant Prediction and Scheduling Algorithm Based on Big Data	83
<i>Yuxuan Ye (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Zhaofeng Guo (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Jian Zhang (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Hao Ning (Information & Communication Branch of State Grid Hubei Electric Power Company, China), and Shengwei Wang (Information & Communication Branch of State Grid Hubei Electric Power Company, China)</i>	
A Distributed Wind Power Forecasting Method Based on ANFIS Optimization	88
<i>Jian Zhang (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Lei Zheng (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Shengwei Wang (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Lei Li (Information & Communication Branch of State Grid Hubei Electric Power Company, China), and Yuxuan Ye (Information & Communication Branch of State Grid Hubei Electric Power Company, China)</i>	
Abnormality Detection and Diagnosis Technology in Virtual Power Plant Monitoring System	95
<i>Yujie Zhang (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Xiangyu Yuan (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Yixi Wang (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Jian Zhang (Information & Communication Branch of State Grid Hubei Electric Power Company, China), and Hao Ning (Information & Communication Branch of State Grid Hubei Electric Power Company, China)</i>	
Study on Capacity Optimization and Resource Allocation Model of Electrochemical Energy Storage System on Power Grid Side	101
<i>Yan Cui (Development Business Department of State Grid Gansu Electric Power Company, China), Zhongdan Zhang (Development Business Department of State Grid Gansu Electric Power Company, China), Wangwang Bai (Development Business Department of State Grid Gansu Electric Power Company, China), Long Ma (Development Business Department of State Grid Gansu Electric Power Company, China), and Yaozhong Zhang (Development Business Department of State Grid Gansu Electric Power Company, China)</i>	
Simulation of New Energy Power Investment Monitoring and Decision Model Based on Power Big Data	108
<i>Jin Luo (Shanghai Electric Power Engineering Construction Consulting Branch, China), Shuming Yao (Shanghai Electric Power Engineering Construction Consulting Branch, China), Yimin Tang (Shanghai Electric Power Engineering Construction Consulting Branch, China), Xiaotian Chen (Beijing Jinghang Telek Technology Co., Ltd., China), and Jian Hu (Beijing Jinghang Telek Technology Co., Ltd., China)</i>	
Research on Grid-Connected Control Algorithm of T-Type Three-Level Inverter with Adaptive Parameter Optimization	114
<i>Zhenhua Zhang (Wuhan Institute of Technology, China)</i>	

Construction of New Electric Power System Model System and Synchronous Stability Control of Static Var Generator	120
<i>Yun Zhu (State Grid Jiangxi Economic Research Institute, China), Huiyuan Chen (State Grid Jiangxi Economic Research Institute, China), Qinghua Chen (State Grid Jiangxi Economic Research Institute, China), Hongxi Liu (State Grid Jiangxi Economic Research Institute, China), and Yongjian Qin (State Grid Jiangxi Economic Research Institute, China)</i>	
Intelligent Scheduling Algorithm for Multi-Time Scale Distribution Network for Electric Vehicle Charging Load	126
<i>Tianle Xu (Shandong University of Science and Technology, China) and Lixiang Xu (Shandong Polytechnic College, China)</i>	
Analysis of Improving the Accuracy of Computer Vision Based on the Optical Flow Analysis Rule	132
<i>Shasha Jiang (Henan College of Industry & Information Technology, China)</i>	
Application of 5G Network Slicing Technology in Industrial Internet of Things	137
<i>Jialin Chen (State Grid Hubei Information & Telecommunication Company Limited, China), Zheng Zhou (State Grid Hubei Information & Telecommunication Company Limited, China), Lina Hu (State Grid Hubei Information & Telecommunication Company Limited, China), Dekun Zhou (State Grid Hubei Information & Telecommunication Company Limited, China), Yi He (State Grid Hubei Information & Telecommunication Company Limited, China), and Yi Tang (State Grid Hubei Information & Telecommunication Company Limited, China)</i>	
Dynamic Resource Allocation in 5G Sliced Networks for Large-Scale IoTs	143
<i>Jialin Chen (State Grid Hubei Information & Telecommunication Company Limited, China), Jinhua Zhang (State Grid Hubei Information & Telecommunication Company Limited, China), Dekun Zhou (State Grid Hubei Information & Telecommunication Company Limited, China), Chen Chen (State Grid Hubei Information & Telecommunication Company Limited, China), Junguo Hu (State Grid Hubei Information & Telecommunication Company Limited, China), and Xiaorui Wang (State Grid Hubei Information & Telecommunication Company Limited, China)</i>	
Research on Scheduling Strategy of 5G Slice Resources in Deterministic Network Environment....	148
<i>Jialin Chen (State Grid Hubei Information & Telecommunication Company Limited, China), Dekun Zhou (State Grid Hubei Information & Telecommunication Company Limited, China), Hongwei Wang (State Grid Hubei Information & Telecommunication Company Limited, China), Jun Sun (State Grid Hubei Information & Telecommunication Company Limited, China), Lu Ye (State Grid Hubei Information & Telecommunication Company Limited, China), and Yi He (State Grid Hubei Information & Telecommunication Company Limited, China)</i>	

Application of High Reliability 5G Slicing Technology in Emergency Communication System	154
Bo Jin (State Grid Hubei Information & Telecommunication Company Limited, China), Jialin Chen (State Grid Hubei Information & Telecommunication Company Limited, China), Jie Xu (State Grid Hubei Information & Telecommunication Company Limited, China), Liang Dong (State Grid Hubei Information & Telecommunication Company Limited, China), Zhirui Zhou (State Grid Hubei Information & Telecommunication Company Limited, China), and Chen Hu (State Grid Hubei Information & Telecommunication Company Limited, China)	
Race Momentum Study Based on Discrete Hopfield Neural Network Modeling	160
Jun Chen (Nanjing Forestry University, China), Xin Feng (Nanjing Forestry University, China), Mengying Guo (Nanjing Forestry University, China), and Yuli Li (Nanjing Forestry University, China)	
5G Slicing Low Latency Transmission Technology for Virtual Reality	166
Bo Jin (State Grid Hubei Information & Telecommunication Company Limited, China), Jialin Chen (State Grid Hubei Information & Telecommunication Company Limited, China), Chen Chen (State Grid Hubei Information & Telecommunication Company Limited, China), Junguo Hu (State Grid Hubei Information & Telecommunication Company Limited, China), Ying Li (State Grid Hubei Information & Telecommunication Company Limited, China), and Xiaorui Wang (State Grid Hubei Information & Telecommunication Company Limited, China)	
Dynamic Modelling of Complex Systems Based on AHP, GRA Algorithm and Lotka-Volterra Model ..	172
Yinquan Hou (Xi'an Jiaotong-liverpool University, China), Ruiyu Gao (Xi'an Jiaotong-liverpool University, China), and Keyu Mao (Xi'an Jiaotong-liverpool University, China)	
Function and Practice of Large Model in Hydropower Dispatching Optimization under Man-Machine Cooperation Mode	176
Wei Liu (Institute of Software Chinese Academy of Sciences, China), Wei Dong (Institute of Software Chinese Academy of Sciences, China), Huan Xu (Institute of Software Chinese Academy of Sciences, China), and Yun Bai (Institute of Software Chinese Academy of Sciences, China)	
Research on Crop Planting Strategy Optimization Based on Multiple Optimization Algorithms	182
Biaohang Yuan (Tibet University, China), Qihong Lin (Beijing Institute of Technology, China), and Chun Yan (Tibet University, China)	
Intelligent Control Strategy Optimization of Hydraulic Transmission System Based on Deep Learning	189
Juan Ding (Harbin Huade University, China), Chunyan Huo (Harbin Huade University, China), Fanju Zeng (Harbin Huade University, China), Tianshu Li (Harbin Huade University, China), and Xiaolan Liu (Harbin Huade University, China)	
Research on Decision-Making in Production Processes Based on Simulated Annealing and Dynamic Optimization Models	194
Liangyi Ma (Taiyuan University of Technology, China), Haoran Xu (Taiyuan University of Technology, China), Jin Wu (Taiyuan University of Technology, China), and Cheng Liao (Taiyuan University of Technology, China)	

Research on Intelligent Algorithm and Model Optimization in Automation Technology of Hydropower Plant	200
<i>Zhanfeng Chang (Xiangjiaba Hydropower Plant, China), Kailin Duan (Xiangjiaba Hydropower Plant, China), Hailong Zhang (Beijing IWHR Technology Co. Ltd., China), Qiaofeng Zhang (Xiangjiaba Hydropower Plant, China), and Liping Zhu (Xiangjiaba Hydropower Plant, China)</i>	
Innovative Application and Performance Optimization of Artificial Intelligence Algorithms for Malware Variant Identification	206
<i>Shuai Li (State Grid Henan Information & Telecommunication Company (Data Center), China), Dingding Li (State Grid Henan Information & Telecommunication Company (Data Center), China), Teng Song (State Grid Henan Information & Telecommunication Company (Data Center), China), Ying Yang (State Grid Henan Information & Telecommunication Company (Data Center), China), and Yu Li (State Grid Henan Information & Telecommunication Company (Data Center), China)</i>	
Intelligent Construction Safety Warning and Risk Assessment Model Based on Multi-Source Sensor Data Fusion	211
<i>Guidi Wu (Xiamen University Tan Kah Kee College, China)</i>	
Algorithm for Generating and Optimizing Character Behavior in 3D Animation Games Based on Deep Learning	217
<i>Alex Zihuan Cui Liu (San Marino High School, USA)</i>	
Optimal Design of Building Energy Saving and Energy Consumption Prediction Based on Genetic Algorithm	223
<i>Li Ye (Beijing Normal University, China), Fangda Lin (Beijing Normal University, China), and Zhitian Kou (Beijing Normal University, China)</i>	
Influence Factor Analysis of Rocket Launcher Projectile Concentration Based on Feature Extraction	228
<i>Xiaoqin Liu (Army Aviation Institute, China), Xiaolong Pei (Army Aviation Institute, China), Zhihu Ding (No.61267 Troops of PLA, China), and Xinru Li (Army Aviation Institute, China)</i>	
Hydrodynamic Characterisation of Relay Communication Buoys Based on JONSWAP Spectrum Algorithm and STAR-CCM+ in AQWA	232
<i>Chenglong Gao (Harbin Engineering University, China), Yuxin Hou (Harbin Engineering University, China), Qirui Sun (Harbin Engineering University, China), Sicheng Xiao (Harbin Engineering University, China), Yexing Xu (Harbin Engineering University, China), Lijun He (Logistic Academy Training Base, China), Hailong Chen (Harbin Engineering University, China), and Chongfei Sun (Harbin Engineering University, China)</i>	
Computer Simulation Study on the Aging Mechanism and Numerical Model of Lithium-ion Batteries	236
<i>Zhenfeng Wang (Inner Mongolia Chahar New Energy Co., Ltd., China), Haijun Wu (Inner Mongolia Chahar New Energy Co., Ltd., China), Jihui Dong (Inner Mongolia Chahar New Energy Co., Ltd., China), Haoyu Jia (Inner Mongolia Chahar New Energy Co., Ltd., China), and Tengfei Zang (Inner Mongolia Chahar New Energy Co., Ltd., China)</i>	

Intelligent Fault Diagnosis and Predictive Maintenance Algorithm in Lithium Battery Energy Storage System	241
<i>Haijun Wu (Inner Mongolia Chahar New Energy Co., Ltd., China), Changyu Zhao (Inner Mongolia Chahar New Energy Co., Ltd., China), Fanhua Wang (Inner Mongolia Chahar New Energy Co., Ltd., China), and Gang Wang (Inner Mongolia Chahar New Energy Co., Ltd., China)</i>	
Simulation Analysis of Rehabilitation Bicycle Movement Based on AnyBody	247
<i>Tao Wang (Tiangong University, China) and Yang Liu (Tiangong University, China)</i>	
Research on Security Assessment and Defense Mechanism of Large Models Based on Adversarial Algorithm	252
<i>Lijing Yan (State Grid Henan Information & Telecommunication Company (Data Center), China), Dingding Li (State Grid Henan Information & Telecommunication Company (Data Center), China), Ying Yang (State Grid Henan Information & Telecommunication Company (Data Center), China), Han Liu (State Grid Henan Information & Telecommunication Company (Data Center), China), and Yifan Song (State Grid Henan Information & Telecommunication Company (Data Center), China)</i>	
Research on Control Strategy of Remote Controlled Robots in Substation Inspection Process	258
<i>Jinxiang He (Guangdong Power Grid Co., Ltd., China), Jianyuan Xu (Guangdong Power Grid Co., Ltd., China), Dongxing Huang (Guangdong Power Grid Co., Ltd., China), Jinyan Su (Guangdong Power Grid Co., Ltd., China), Liuyi Deng (Guangdong Power Grid Co., Ltd., China), Chenglin Guo (Guangdong Power Grid Co., Ltd., China), Juntao Zhou (Guangdong Power Grid Co., Ltd., China), and Lidong Chen (Guangdong Power Grid Co., Ltd., China)</i>	
Research on Intelligent Monitoring and Control Strategy of Electrical Equipment Based on Convolutional Neural Network	263
<i>Chongkai Liu (Wuhan Technology and Business University, China) and Dan Wang (Hankou University, China)</i>	
Research on Multi-Intelligent Body System Model for Co-Optimization of Environment Control and Equipment Automation in Intelligent Buildings	269
<i>Bo Yi (Harbin Huade University, China), Li Chen (Harbin Huade University, China), Ning Liu (Harbin Huade University, China), and Bo Liu (Harbin Huade University, China)</i>	
Research on the Algorithm of Intelligent Management of the Whole Life Cycle of Buildings Based on the Integration of BIM and Internet of Things (IoT)	275
<i>Chuang Li (Daqing Oilfield Tianyu Engineering Design Co., Ltd., China)</i>	
A Study of Spiral Structures Based on Finite Difference Method and Variable Step Search	281
<i>Yifan Wu (Southwest University of Finance and Economics, China), Shan Jiang (Southwest University of Finance and Economics, China), and Ziwei Jiang (Southwest University of Finance and Economics, China)</i>	
Design and Analysis of Reciprocating Harvester Based on Adams Software Simulation	288
<i>Xinyu Wang (Dalian Polytechnic University, China), Zifan Liu (Dalian Polytechnic University, China), Tianhang Lang (Dalian Polytechnic University, China), and Xindan Zhang (Dalian Polytechnic University, China)</i>	

Research on the Optimization of the Foundation Form of Power Distribution Plant Building Based on Numerical Simulation under Typical Geology	293
<i>Anlong Hu (State Grid Gansu Electric Power Company Economic and Technological Research Institute, China), Yongsheng Ju (State Grid Gansu Electric Power Company Economic and Technological Research Institute, China), Yong Wei (State Grid Gansu Electric Power Company Economic and Technological Research Institute, China), and Zhipeng Shang (State Grid Gansu Electric Power Company Economic and Technological Research Institute, China)</i>	
Optimization of Brand Visual Identification System Based on Image Processing	297
<i>Jin Zhai (Jilin Animation Institute, China)</i>	
Simulation Study of Helical Motion Based on Archimedean Solenoid and Single Objective Planning Models	303
<i>Yehui Yang (Yunnan Minzu University, China), Xiongfei Geng (Yunnan Minzu University, China), Yufan Zhao (Yunnan Minzu University, China), and Yizhi Wang (Yunnan Minzu University, China)</i>	
Design and Finite Element Analysis of the Cleaning Device for Ship Cargo Holds Based on ANSYS	310
<i>Minghui Zhao (Dalian Maritime University, China), Bo Dong (Dalian Maritime University, China), Shenghai Wang (Dalian Maritime University, China), and Zeping Liu (Dalian Maritime University, China)</i>	
Research on the Design Optimization and Intelligent Model of Interactive Interface for the Elderly Based on User Experience	315
<i>Shengchao Zhang (Changchun Humanities and Sciences College, China) and Jintian Ma (Changchun Humanities and Sciences College, China)</i>	
Research on Road Traffic Safety Management System Based on Intelligent Vehicle Technology	321
<i>Liu Manli (CATARC Huacheng Certification (Tianjin) Co., Ltd., China), Zhu Weitao (Public Security Bureau, China), and Wu Yongqiang (China Automotive Technology and Research and Center Co., Ltd., China)</i>	
Research on Comprehensive Modeling and Optimization Algorithm of Environmental Energy System Driven by Multi-Source Data	325
<i>Xuewei Wang (Heilongjiang University of Technology, China), Zhi Li (Heilongjiang University of Technology, China), Chunfang Zhang (Heilongjiang University of Technology, China), Yuanyuan Fang (Heilongjiang University of Technology, China), and Hua Zhou (Heilongjiang University of Technology, China)</i>	
Optimization and Application of Data Mining Algorithms in Network Security Early Warning Systems	330
<i>Miao Tian (The Chinese PLA 32316, China) and Jingxin Li (The Chinese PLA 32316, China)</i>	
Advancing Quality Management in Smart Wind Power Construction Projects through Digital Twin and IoT Integration	336
<i>Fang Wang (State Grid Liaoning Electric Power Supply Co. Ltd, China), Hengyang Li (State Grid Liaoning Electric Power Supply Co. Ltd, China), and Qiushuang Xie (State Grid Liaoning Electric Power Supply Co. Ltd, China)</i>	

Intelligent Construction and Evaluation of Safety Management System Based on Multi-Level Algorithm	340
<i>Baocheng Zhang (Hebei Baisha Tobacco Co., Ltd, China), Yalin Wu (Hebei Baisha Tobacco Co., Ltd, China), and Zhengwei Li (Hebei Baisha Tobacco Co., Ltd, China)</i>	
Multidimensional Data Fusion and Intelligent Analysis Methods for Service Quality Assessment in Power Communication Networks	345
<i>Shiliang Wang (State Grid Qinghai Electric Power Company Information and Communication Company, China), Yanxia Ji (State Grid Qinghai Electric Power Company Information and Communication Company, China), Miaomiao Gao (State Grid Qinghai Electric Power Company Information and Communication Company, China), Quanwu Ma (State Grid Qinghai Electric Power Company Information and Communication Company, China), and Jiaping Han (State Grid Qinghai Electric Power Company Information and Communication Company, China)</i>	
An Islanding Partitioning of Distribution Networks Based on Refined Modeling of Distributed Generation	350
<i>Wang Rui (Shandong University of Technology, China) and Meng Qingjuan (Shandong University of Technology, China)</i>	
Multi-Scale Analysis and Application Research of Bridge Crack Detection Algorithm	360
<i>Qiu Benfang (Zhejiang Huacheng Engineering Management Co., Ltd, China), Hu Jiansong (Zhejiang Huaheng Transportation Construction Supervision Co., Ltd, China), and Luo Yuejun (Shaoxing Keqiao District Traffic and Transportation Administrative Law Enforcement Team, China)</i>	
Blockchain-Based Smart Contracts for Automated Trading Systems in Smart Cities	366
<i>Yiheng Ye (Tongji University, China)</i>	
Research on Accurate Positioning and Assembly Path Optimization Algorithm of Assembly Building Components Based on Image Recognition	374
<i>Dongmei Xu (Liaoning Vocational University of Technology, China)</i>	
Research and Application of Particle Swarm Optimization Based on MOEDO	380
<i>Zaiyu Zeng (Chang'an University, China), Yunge Shen (Chang'an University, China), and Yuxie He (Chang'an University, China)</i>	
Enhancement Algorithm and Adaptive Generation Method of Practical Writing for Cross-Domain Scenarios	387
<i>Junlin Zhai (Wuhan Railway Vocational College of Technology, China) and Zhuoying Zhou (Wuhan Railway Vocational College of Technology, China)</i>	
Design and Implementation of an Intelligent Disinfection Robot Based on Multi-Sensor Fusion	393
<i>Yuefeng Gu (Yanshan University, China) and Donghui Guo (Yanshan University, China)</i>	
Communication Target Localization and Trajectory Optimization Based on TDOA and Kalman Filter	400
<i>Xinchun Zhu (College of Science and Technology of China Three Gorges University, China), Bozheng Zhu (Communication University of China, China), Hongming Shao (China Three Gorges University, China), and Hongyu Cui (China Three Gorges University, China)</i>	

Analysis of the Impact Factors of Extreme Weather Events Based on Multivariate Statistics and Machine Learning Models	405
<i>Jiayi Chen (Jiangxi University of Finance and Economics, China), Shunwei Yang (Guangxi Engineering Vocational College, China), Muxun Hong (Jiangxi University of Finance and Economics, China), Jiayi Zeng (Jiangxi University of Finance and Economics, China), Haoran Wang (Qingdao University of Science and Technology, China), and Qiyuan Yang (Northwest University for Nationalities, China)</i>	
Research on Automatic Generation Method of Building Facade Design Based on Image Processing and Algorithms	412
<i>Hongxing Guo (Liaoning Vocational University of Technology, China)</i>	
Wear Estimation and Identification Based on SWAP Model and IWBCM Model	417
<i>Juqian Yang (Hubei University of Arts and Science, China), Xiaoyi Feng (Northeastern University, China), Junting Zhao (Tianjin University, China), and Kaixuan Wu (Lingnan Normal University, China)</i>	
Research on Robot Arm Joint Angle Optimization Based on Genetic Algorithm and NSGA-II Algorithm	423
<i>Zesheng Zhou (Tiangong University, China) and Yuhan Wang (Tiangong University, China)</i>	
Design of Intelligent Interactive Robot for Infant Music and Research on Emotion Recognition Algorithm	429
<i>Da Li (Xiangzhong Preschool Teachers College, China) and Xiaoyan Xia (Xiangzhong Preschool Teachers College, China)</i>	
Research on Optimization of Multi-Objective Programming Models Based on NSGA-II Algorithm	434
<i>Liyi Cai (Guangdong University of Petrochemical Technology, China), Jieyuan Zheng (Guangdong University of Petrochemical Technology, China), and Tao Peng (Guangdong University of Petrochemical Technology, China)</i>	
Research on Typhoon Category Prediction Based on Ensemble Learning Model with Genetic Algorithm	439
<i>Jianming Hu (Guangxi University of Science and Technology, China), Zhenshu Hu (Guangxi University of Science and Technology, China), and Yongyi Chen (Guangxi University of Science and Technology, China)</i>	
Traffic Flow Prediction Model Based on Algorithm Optimization in Intelligent Traffic Monitoring	444
<i>Jian Li (Southwest Jiaotong University Hope College, China)</i>	
Data Modeling and Prediction Based on Simulated Annealing Algorithm, Random Forest Algorithm, and Weighted Summation Method	449
<i>Jiayi Pan (Soochow University, China) and Yi Lin (Soochow University, China)</i>	
Design and Verification of User Behavior Privacy Protection Algorithm in Intelligent Terminal	454
<i>Yuqin Xie (Shandong Business Institute, China) and Aiping Du (Shandong Business Institute, China)</i>	

Smart Construction Site Management Technology and Application Based on the Integration of BIM and IoT	460
<i>Wanhui Zhang (Guangzhou Installation Group Co., Ltd., China; Guangzhou Construction Co., Ltd., China), Guangzhi Zhang (Guangzhou Installation Group Co., Ltd., China), Songyuan Zheng (Guangdong Digital Smart Design Co., Ltd., China), Lijuan Peng (Guangzhou Installation Group Co., Ltd., China), and Xinlan Li (Guangzhou University, China)</i>	
A Joint Enhancement Framework for Underwater Image Processing with Multi-Type Degradation	464
<i>Xinyu Zhu (Liaoning Technical University, China), Jianbo Ma (Liaoning Technical University, China), Yongjie Yang (Liaoning Technical University, China), Haoyu Zhao (Liaoning Technical University, China), Zhuxiang Sun (Liaoning Technical University, China), and Jiahe Guang (Liaoning Technical University, China)</i>	
Chinese Content Security Situational Awareness Based on Deep Learning in Open-Source Large Language Models	469
<i>Chuanqi Xu (Tianjin Branch of National Computer Network Emergency Response Technical Team/Coordination Center of China, China)</i>	
Design and Implementation of Intelligent Transportation Monitoring Platform Based on Internet of Things Technology	475
<i>Honggang Kong (Institute of Transportation Digital Intelligence Technology (Beijing) Co., Ltd., China) and Danhua Li (Institute of Transportation Digital Intelligence Technology (Beijing) Co., Ltd., China)</i>	
APOR: A Data-Driven Framework for Accurate Magnetic Core Loss Prediction	480
<i>Xiaomeng Ma (Harbin Institute of Technology, China)</i>	
Big Data-Based Monitoring and Early Warning of Transportation Violations	485
<i>Danhua Li (Institute of Transportation Digital Intelligence Technology (Beijing) Co., Ltd., China) and Honggang Kong (Institute of Transportation Digital Intelligence Technology (Beijing) Co., Ltd., China)</i>	
Optimization of High-Dimensional Data Processing and Feature Selection Algorithm Based on Deep Learning	490
<i>Wei Li (Shandong University of Engineering and Vocational Technology, China) and Dongliang Wang (Shandong University of Engineering and Vocational Technology, China)</i>	
Deep Learning-Based Real-Time Identification and Early Warning Modeling of Grid Construction Site Safety Hazards	496
<i>Sijia Tan (Jurong Xinyuan Electric Power Development Co., Ltd, China), Yaru Zhang (State Grid Jurong Power Supply Company, China), Yuchao Chen (State Grid Jurong Power Supply Company, China), Xiaotian Pan (State Grid Jurong Power Supply Company, China), and Zijie Wang (State Grid Jurong Power Supply Company, China)</i>	
Research on Statistical Analysis and Visualization Algorithm of Multidimensional Spatial Data and Its Engineering Application	501
<i>Dongliang Wang (Shandong University of Engineering and Vocational Technology, China) and Wei Li (Shandong University of Engineering and Vocational Technology, China)</i>	

Research on Multi-Scale Simulation and Algorithm Optimization of Corrosion Behavior of Metal Materials	506
<i>Jianhuo Liang (China Special Equipment Inspection & Research Institute, China; Technology Innovation Center of Risk Prevention and Control of Refining and Chemical Equipment for State Market Regulation, China), Guiyang Wang (China Special Equipment Inspection & Research Institute, China; Technology Innovation Center of Risk Prevention and Control of Refining and Chemical Equipment for State Market Regulation, China), Baolin Liu (China Special Equipment Inspection & Research Institute, China; Technology Innovation Center of Risk Prevention and Control of Refining and Chemical Equipment for State Market Regulation, China), and Li Hu (China Special Equipment Inspection & Research Institute, China; Technology Innovation Center of Risk Prevention and Control of Refining and Chemical Equipment for State Market Regulation, China)</i>	
Research on Multimodal Image Processing Algorithm and Intelligent Design System for Packaging Planning	512
<i>Dan Xiao (Hunan Modern Logistics College, China) and Xiangdong Fu (Hunan Modern Logistics College, China)</i>	
Application of Visualization and Image Processing Algorithm of Geological Exploration Data in Mineral Resources Evaluation	517
<i>Zhibin Ren (The Fifth Geological Exploration Institute of Qinghai Province, China), Zhian Wang (The Fifth Geological Exploration Institute of Qinghai Province, China), Jianfeng Qiao (The Fifth Geological Exploration Institute of Qinghai Province, China), and Qirui Niu (The Fifth Geological Exploration Institute of Qinghai Province, China)</i>	
Intelligent Prediction and Optimization Algorithm of Intelligent Building Energy Management System Based on Deep Learning	522
<i>Xiaodong Hou (Xinjiang Ruixiang Intelligent Manufacturing Co., Ltd., China), Weidong Ji (Xinjiang Jiruixiang Technology Co., Ltd, China), Zhengyi Zhu (Xinjiang Ruixiang Intelligent Manufacturing Co., Ltd., China), Weicheng Ji (Xinjiang Ruixiang Intelligent Manufacturing Co., Ltd., China), and Xueli Lv (Xinjiang Jiruixiang Technology Co., Ltd, China)</i>	
Research on Modeling and Optimization of Lock Water Level Regulation System Based on Intelligent Control Algorithm	528
<i>Ruihe Li (Three Gorges Navigation Authority, China) and Gengtao Cui (Three Gorges Navigation Authority, China)</i>	
Research on Engineering Quality Risk Prediction and Real-Time Monitoring Technology Based on Deep Learning	534
<i>Hongxing Guo (Liaoning Vocational University of Technology, China)</i>	
Research on Intelligent Analysis and Application of Massive Data Based on Deep Learning	539
<i>Min Chen (Chongqing Vocational and Technical University of Mechatronics, China), Shang Yu (Chongqing Vocational and Technical University of Mechatronics, China), and Yongsheng Deng (Chongqing Vocational and Technical University of Mechatronics, China)</i>	

Research on Image Recognition and Intelligent Diagnosis Model of Tobacco Leaf Diseases Based on Deep Learning	544
<i>Yonggang Liu (Hebei Baisha Tobacco Co., Ltd. Baoding Cigarette Factory, China), Hongliang Zhang (Hebei Baisha Tobacco Co., Ltd. Baoding Cigarette Factory, China), and Ziyu Liu (Hebei University of Science & Technology, China)</i>	
Application of AHP-Entropy Weight Method Assisted by High-Resolution Image in Flood Risk Identification of Transmission Lines	549
<i>Chao Gao (State Grid Electric Power Space Technology Company Limited, China), Wei Du (State Grid Electric Power Space Technology Company Limited, China), Maojie Tian (State Grid Electric Power Space Technology Company Limited, China), Shirui Sun (State Grid Electric Power Space Technology Company Limited, China), Guozhu Yang (State Grid Electric Power Space Technology Company Limited, China), Huamin Sun (State Grid Electric Power Space Technology Company Limited, China), and Wei Hu (State Grid Electric Power Space Technology Company Limited, China)</i>	
Application of Multi-Scale Feature Fusion Network Combined with YOLOV7 in Transmission Line Corridor Monitoring	555
<i>Guozhu Yang (State Grid Electric Power Space Technology Company Limited, China), Shirui Sun (State Grid Electric Power Space Technology Company Limited, China), Maojie Tian (State Grid Electric Power Space Technology Company Limited, China), Huamin Sun (State Grid Electric Power Space Technology Company Limited, China), Enhui Wei (State Grid Electric Power Space Technology Company Limited, China), and Junlei Li (State Grid Electric Power Space Technology Company Limited, China)</i>	
Design of Algorithm for Condition Assessment and Intelligent Operation and Maintenance of Substation Equipment by Fusing Heterogeneous Data from Multiple Sources	561
<i>Jiahui Zhang (Meizhou Power Supply Bureau of Guangdong Power Grid Co., China), Hong Hu (Meizhou Power Supply Bureau of Guangdong Power Grid Co., China), and Xiaoqi Wang (Meizhou Power Supply Bureau of Guangdong Power Grid Co., China)</i>	
Research on the Safe Operation Strategy of Guided Rail Robots in Substations	567
<i>Haitao Liu (Guangdong Power Grid Co., Ltd. Maoming Power Suppureau, China), Yin Liu (Guangdong Power Grid Co., Ltd. Maoming Power Suppureau, China), Jinxiong He (Guangdong Power Grid Co., Ltd. Maoming Power Suppureau, China), Haisen Yin (Guangdong Power Grid Co., Ltd. Maoming Power Suppureau, China), Shuming Liang (Guangdong Power Grid Co., Ltd. Maoming Power Suppureau, China), and Haoran Chen (Guangdong Power Grid Co., Ltd. Maoming Power Suppureau, China)</i>	
Research on Intelligent Algorithm and Model for Safety Monitoring of Mobile Pressure Vessels	610
<i>Qi Li (China Special Equipment Inspection & Research Institute, China) and Sanli Ou (China Special Equipment Inspection & Research Institute, China)</i>	
Reinforcement Learning-Based Model for Energy Efficiency Improvement and Emission Control of Thermal Power Units	615
<i>Hujun Zhao (Guoneng Longyuan Blue Sky Energy Conservation Technology Co., Ltd, China), Tian Ying (GD Power Datong Power Generation Co., Ltd, China), and Junjie Zhao (CHN Energy Investment Group Co., Ltd, China)</i>	
Power Prediction of Wind and Solar Power Generation Based on Gaussian Processes and Neural Networks	618
<i>Rongtao Liao (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Fen Liu (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Hao Ning (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Yixi Wang (Information & Communication Branch of State Grid Hubei Electric Power Company, China), and Yujie Zhang (Information & Communication Branch of State Grid Hubei Electric Power Company, China)</i>	
Research on Thermal Efficiency Optimization of Thermal Power Units Based on Genetic Algorithm	624
<i>Hujun Zhao (Guoneng Longyuan Blue Sky Energy Conservation Technology Co., Ltd, China), Tian Ying (GD Power Datong Power Generation Co., Ltd, China), and Junjie Zhao (CHN Energy Investment Group Co., Ltd, China)</i>	
Capacity Optimization Model of Hybrid Energy Storage System Considering Battery Service Life	627
<i>Hao Ning (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Jialin Chen (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Jian Zhang (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Yuxuan Ye (Information & Communication Branch of State Grid Hubei Electric Power Company, China), and Yixi Wang (Information & Communication Branch of State Grid Hubei Electric Power Company, China)</i>	

Research on Real-Time Motion Control and Error Compensation Model in Mechatronics System ...	632
<i>Xiao Bao (Ordos Vocational College of Eco-environment, China), Wensheng Liu (Ordos Vocational College of Eco-environment, China), and Ruifen Hu (Ordos Vocational College of Eco-environment, China)</i>	
Photovoltaic Power Prediction Based on Harmony Search-Gaussian Process Hybrid Algorithm	637
<i>Botao Wang (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Zheng Zhou (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Yujie Zhang (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Hao Ning (Information & Communication Branch of State Grid Hubei Electric Power Company, China), and Rongtao Liao (Information & Communication Branch of State Grid Hubei Electric Power Company, China)</i>	
Exploration of Quantum Algorithms for Future Communication Networks in Electronics and Communication Engineering	642
<i>Dong Chen (Gansu Institute of Mechanical&Electrical Engineering, China) and Jiemin Zhang (Gansu Institute of Mechanical&Electrical Engineering, China)</i>	
Research on Power Prediction Method for Wind and Solar Farm Group Based on Deep Learning ..	647
<i>Shengwei Wang (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Zheng Zhou (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Yixi Wang (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Yue Guo (Information & Communication Branch of State Grid Hubei Electric Power Company, China), and Rongtao Liao (Information & Communication Branch of State Grid Hubei Electric Power Company, China)</i>	
Research on Intelligent Scheduling Optimization Algorithm of Mechatronics Assembly Line Based on Machine Learning	653
<i>Ruifen Hu (Ordos Vocational College of Eco-environment, China), Xiao Bao (Ordos Vocational College of Eco-environment, China), and Wensheng Liu (Ordos Vocational College of Eco-environment, China)</i>	
Data-Driven Wind Farm Power Prediction and Its Application in Source-Load Coordination	659
<i>Yixi Wang (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Xuan Luo (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Yuxuan Ye (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Shengwei Wang (Information & Communication Branch of State Grid Hubei Electric Power Company, China), and Jian Zhang (Information & Communication Branch of State Grid Hubei Electric Power Company, China)</i>	
Research on Control Strategy and Energy Consumption Optimization of High Efficiency Motor Based on Deep Learning	665
<i>Zhiqian Li (Shanghai Maritime University, China) and Mingxuan Fan (Shanghai Maritime University, China)</i>	

Short-Term Power Forecasting Technology of Cluster Wind-Solar Integration Based on Machine Learning	671
<i>Yuxuan Ye (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Zhaofeng Guo (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Jian Zhang (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Hao Ning (Information & Communication Branch of State Grid Hubei Electric Power Company, China), and Shengwei Wang (Information & Communication Branch of State Grid Hubei Electric Power Company, China)</i>	
Research on Safe Sharing of Electric Power Metering Data and Intelligent Contract Optimization Algorithm Based on Blockchain	676
<i>Jiahao Li (Yunnan Power Grid Co., Ltd., China), Yiming Zhang (Yunnan Power Grid Co., Ltd., China), Xinglong Liu (Yunnan Power Grid Co., Ltd., China), and Yitao Zhao (Yunnan Power Grid Co., Ltd., China)</i>	
Joint Forecasting Method for Wind and Solar Power Generation and Electricity Load	681
<i>Jian Zhang (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Lei Zheng (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Shengwei Wang (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Lei Li (Information & Communication Branch of State Grid Hubei Electric Power Company, China), and Yuxuan Ye (Information & Communication Branch of State Grid Hubei Electric Power Company, China)</i>	
Analysis of Transmission Line Channel State Evolution Based on Digital Twin Model	686
<i>Qishuai Liang (Hainan Power Grid Co., Ltd., China), Jiang Ye (Hainan Power Grid Co., Ltd., China), Zhao Zhang (Hainan Power Grid Co., Ltd., China), Rican Lin (Hainan Power Grid Co., Ltd., China), and Xuance Wang (Hainan Power Grid Co., Ltd., China)</i>	
A Scheduling Model for Virtual Power Plants with Energy Storage Based on Opportunity Constrained Planning	691
<i>Yujie Zhang (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Xiangyu Yuan (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Yixi Wang (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Jian Zhang (Information & Communication Branch of State Grid Hubei Electric Power Company, China), and Hao Ning (Information & Communication Branch of State Grid Hubei Electric Power Company, China)</i>	
Network Attack Detection and Protection Model Optimization Based on Convolutional Neural Network	697
<i>Shengqi Xing (Liaocheng University, China)</i>	
Optimization Scheduling and Resource Allocation Algorithms in the Field of Energy and Environment	702
<i>Jie Jiang (Jiangsu Engineering Consulting Center Co., Ltd., China) and Changhao Li (Jiangsu Coast Development Group Co., Ltd., China)</i>	

Research on Fault Diagnosis and Adaptive Control Algorithm of Marine Electrical System Based on Deep Learning	708
Shujuan Yang (<i>Shandong Transport Vocational College, China</i>), Yingying Zhu (<i>Shandong Transport Vocational College, China</i>), and Yuanyuan Liu (<i>Shandong Transport Vocational College, China</i>)	
Multi-Objective Constraint-Based Optimization of Human-Machine Instruction Combinations for a Hexapod Robot	714
Hanwei Qu (<i>Shandong Business Institute, China</i>), Yantao Zhang (<i>Shandong Business Institute, China</i>), and Pengfei Sui (<i>Shandong Business Institute, China</i>)	
Blockchain Architecture Design and Multi-Party Security Analysis of Power Metering Data Sharing Platform	719
Yitao Zhao (<i>Yunnan Power Grid Co., Ltd, China</i>), Xinglong Liu (<i>Yunnan Power Grid Co., Ltd, China</i>), Yiming Zhang (<i>Yunnan Power Grid Co., Ltd, China</i>), and Jiahao Li (<i>Yunnan Power Grid Co., Ltd, China</i>)	
Application and Performance Analysis of Multi-Satellite Cooperative Emitter Location Algorithm in Low Earth Orbit Satellite VDES	724
Hancheng Zhao (<i>Space Star Technology Co., Ltd, China</i>), Ke Lu (<i>Space Star Technology Co., Ltd, China</i>), and Yihu Wang (<i>Space Star Technology Co., Ltd, China</i>)	
Modeling and Simulation Analysis of Typical Operation Mode of County Distribution Network Oriented to Multi-Party Resource Interaction	730
Fei Zheng (<i>Guizhou Power Grid Co., Ltd. Power Grid Planning Research Center, China</i>), Ning Luo (<i>Guizhou Power Grid Co., Ltd. Power Grid Planning Research Center, China</i>), Jinsen Liu (<i>Guizhou Power Grid Co., Ltd. Power Grid Planning Research Center, China</i>), Jie Wang (<i>Guizhou Power Grid Co., Ltd. Power Grid Planning Research Center, China</i>), Jiahuan Long (<i>Guizhou Power Grid Co., Ltd. Power Grid Planning Research Center, China</i>), and Jingrong Meng (<i>Shanghai Jiao Tong University, China</i>)	
Research on Intelligent Algorithm-Driven Fault Localization and Repair Technology of Power Line	737
Zhengwei Li (<i>Hebei Baisha Tobacco Co., Ltd, China</i>), Yalin Wu (<i>Hebei Baisha Tobacco Co., Ltd, China</i>), and Baocheng Zhang (<i>Hebei Baisha Tobacco Co., Ltd, China</i>)	
Research on Optimization and Application of Intelligent Video Surveillance Algorithm Based on Image Recognition Technology	742
Yan Li (<i>Qingdao Hengxing University of Science and Technology, China</i>) and Ying Xu (<i>Qingdao Hengxing University of Science and Technology, China</i>)	
Neural Network-Based Channel Estimation and Interference Suppression for Massive MIMO Systems	748
Ruiyang Wang (<i>China University of Geosciences Wuhan, China</i>)	
Research on Big Data Analysis and Multi-Dimensional Optimal Scheduling Algorithm of Power System	754
Xinran Liu (<i>Guangxi Power Grid Co., Ltd, China</i>), Shidi Ruan (<i>Guangxi Power Grid Co., Ltd, China</i>), Minhao Shu (<i>Guangxi Power Grid Co., Ltd, China</i>), Xiongbao Zhang (<i>Guangxi Power Grid Co., Ltd, China</i>), and Yashun Cheng (<i>Liuzhou Power Supply Bureau, China</i>)	

Research on Signal Denoising and Feature Extraction Model of Brain-Computer Interface System Based on Genetic Algorithm	759
<i>Yichuan Zhou (University of Electronic Science and Technology of China, China)</i>	
Intelligent Scheduling and Energy Efficiency Optimization of Power Dispatching Problem Based on Particle Swarm Optimization Algorithm	765
<i>Jia Tang (Guangxi Power Grid Co., Ltd, China), Jia Lv (Guangxi Power Grid Co., Ltd, China), Peikai Li (Guangxi Power Grid Co., Ltd, China), Jiantao Li (Guangxi Power Grid Co., Ltd, China), Qingle Jiang (Guangxi Power Grid Co., Ltd, China), and Qinghua Shang (Guangxi Power Grid Co., Ltd, China)</i>	
Intelligent Scheduling and Optimization Algorithm of Hydraulic System Based on Deep Reinforcement Learning	771
<i>Juan Ding (Harbin Huade University, China), Yan Wang (Harbin Huade University, China), Yuhang Teng (Harbin Huade University, China), Dan Hou (Harbin Huade University, China), and Kunpeng Zhao (Harbin Huade University, China)</i>	
Research on Multi-Terminal Location Technology for Single-Phase Grounding Fault of Medium Voltage Three-Core Cable Based on Traveling Wave Propagation Characteristics of Magnetic Field	776
<i>Bo Fu (Zhuhai Power Supply Bureau of Guangdong Power Grid Co., Ltd, China), Yingdan Wang (Zhuhai Power Supply Bureau of Guangdong Power Grid Co., Ltd, China), and Dawei Yang (Zhuhai Power Supply Bureau of Guangdong Power Grid Co., Ltd, China)</i>	
Research on Distribution Network Condition Monitoring and Fault Diagnosis Algorithm Based on Beidou Positioning System	781
<i>Yufeng Chai (State Grid Ningxia Electric Power Co., Ltd., China), Zhongying Zhao (State Grid Ningxia Electric Power Co., Ltd., China), Bo Jia (State Grid Ningxia Electric Power Co., Ltd., China), Yide Xie (State Grid Ningxia Electric Power Co., Ltd., China), and Bin Li (State Grid Ningxia Electric Power Co., Ltd., China)</i>	
Multimodal Data Fusion and Edge Computing Optimization in Intelligent Cable Manhole Cover System	787
<i>Chunhui Gu (Guangzhou Power Supply Bureau of Guangdong Power Grid Co., Ltd., China), Ming Luo (Guangzhou Power Supply Bureau of Guangdong Power Grid Co., Ltd., China), Deshang Yang (Guangzhou Power Supply Bureau of Guangdong Power Grid Co., Ltd., China), Zhenyong Niu (Guangzhou Power Supply Bureau of Guangdong Power Grid Co., Ltd., China), and Jinmei Chen (Guangzhou Power Supply Bureau of Guangdong Power Grid Co., Ltd., China)</i>	
Research and Implementation of Optimization Algorithm Based on Mathematical Model in Complex Network	793
<i>Wei Ge (Shandong University of Engineering and Vocational Technology, China) and Ronghui Li (Shandong College of Electronic Technology, China)</i>	

Laser Ultrasonic Image Enhancement and Defect Automatic Detection Method for Cable Defects Based on Generative Adversarial Networks	799
<i>Yonghua Qin (Guangzhou Power Supply Bureau of Guangdong Power Grid Co., Ltd., China), Chengyao Yuan (Guangzhou Power Supply Bureau of Guangdong Power Grid Co., Ltd., China), Xin Zhou (Guangzhou Power Supply Bureau of Guangdong Power Grid Co., Ltd., China), Zicong Zhang (Guangzhou Power Supply Bureau of Guangdong Power Grid Co., Ltd., China), Songtao Zeng (Guangzhou Power Supply Bureau of Guangdong Power Grid Co., Ltd., China), and Donggu Shi (Guangzhou Power Supply Bureau of Guangdong Power Grid Co., Ltd., China)</i>	
Vision-Based Target Recognition and Path Planning Algorithm in Manipulator Smoke Frame Cleaning System	805
<i>Yonggang Liu (Hebei Baisha Tobacco Co., Ltd. Baoding Cigarette Factory, China), Ziyu Liu (Hebei University of Science & Technology, China), Hongliang Zhang (Hebei Baisha Tobacco Co., Ltd.
