# TABLE OF CONTENTS

|                                                                                                                               |    |
|-------------------------------------------------------------------------------------------------------------------------------|----|
| TriFuse-PdM: High-Fidelity Machine Failure Prediction Using Hybrid Resampling and Model Calibration .....                     | 1  |
| <i>Saghar Shafaati, Javad Mohammadzadeh</i>                                                                                   |    |
| Enhanced Melanoma Detection: An Improved Deformable DETR Model with Efficient Channel Attention .....                         | 6  |
| <i>Amirreza Rouhbakhshmeghraz, Shayan Nalbandian, Sheida Shadman, Mohammad Reza Hassannezhad Shuyuan Yang, Bo Li</i>          |    |
| Advancing Brain Tumor Detection via ViRCNN: A Fusion of Vision Transformers and Faster R-CNN .....                            | 12 |
| <i>Mehrshad Momen Tayefeh, S. AmirAli GH. Ghahramani, Ali Mohammad Afshin Hemmatyar</i>                                       |    |
| AIRSPAN-X: Federated XGBoost with Sequential Anomaly Detection for Explainable Urban Air Quality Prediction .....             | 18 |
| <i>Saghar Shafaati, S. Hossein Erfani</i>                                                                                     |    |
| Real-time Implementation of Fuzzy Visual Servoing for a Delta Robot via Shape and Color Detection .....                       | 24 |
| <i>Nooshin Najafian, Alireza Ashrafi Majd, Abbas Ansaroudi, Sahar Aghazadeh, Manizheh Zakeri Mohammad-Reza Sayyed Noorani</i> |    |
| Impact of Oversampling Methods on Imbalanced Dataset for Software Fault Prediction .....                                      | 30 |
| <i>Alireza Abiri, Alireza Tajary, Mansoor Fateh</i>                                                                           |    |
| Characterizing Microsatellite Distribution Patterns Across Distinct Gene Categories in Human .....                            | 36 |
| <i>Elahe Mehrazin, Mahmoud Naghibzadeh, Sara Jamali</i>                                                                       |    |
| Realism in Action: Anomaly-Aware Diagnosis of Brain Tumors from Medical Images Using YOLOv8 and DeiT .....                    | 43 |
| <i>Seyed Mohammad Hossein Hashemi, Leila Safari, Mohsen Hooshmand, Amirhossein Dadashzadeh Taromi</i>                         |    |
| SUBoost: A Novel Boosting-Based Selective Undersampling for Handling Imbalanced Data .....                                    | 49 |
| <i>Nima Rasi Baghmishe, Jafar Tanha, Ehsan Roshan</i>                                                                         |    |
| Online Task Offloading and Scheduling in Fog-Cloud Environment based on Reinforcement Learning .....                          | 56 |
| <i>Ali Sheidaee, Leili Farzinvash, Alireza Sokhandan</i>                                                                      |    |
| Intelligent Adaptive Control of Wheeled Mobile Robots with MLP Neural Networks under Input Constraints .....                  | 63 |
| <i>Soheil Sheikh Ahmadi, Arash Rahmani</i>                                                                                    |    |
| Graph-Cut-Based Semantic Optimization for Temporal Action Segmentation .....                                                  | 69 |
| <i>Mohanna Ansari, Ehsan Fazl-Ersi</i>                                                                                        |    |
| Swin-RSCBNet: A Transformer-based Network for Skin Cancer Segmentation with Multi-scale and Attention Modules .....           | 75 |
| <i>Benyamin Mirab Golkhatmi, Mostafa Heydari, Mahboobeh Houshmand, Seyyed Abed Hosseini</i>                                   |    |
| DRL-based Decision-Making for Autonomous Vehicle Collision Avoidance .....                                                    | 81 |
| <i>Hoda Gholamrezaee, Seyedreza Taghizadeh, Ali Honarjoo</i>                                                                  |    |
| Token-Based Access Control for Inter-organization Collaboration in Hyperledger Fabric .....                                   | 87 |
| <i>Parsa Hedayatnia, Mohammad Ata Jalilian, Mohammad Allahbakhsh, Haleh Amintoosi</i>                                         |    |

|                                                                                                                                    |     |
|------------------------------------------------------------------------------------------------------------------------------------|-----|
| An Advanced Dual Attention-based U-Net Using Breast Ultrasound Data for Image Segmentation .....                                   | 96  |
| <i>Erfan Akbarnezhad Sany, Niloufar Asghari, Fatemeh Naserizadeh, Seyyed Abed Hosseini</i>                                         |     |
| Class-Aware Balanced Point Cloud Downsampling for Efficient Large-Scale 3D Scene Understanding .....                               | 103 |
| <i>Mohammad Yousefipour, Marjan Naderan, Morteza Jaderyan</i>                                                                      |     |
| Learning to Classify Messier Astronomical Objects with Limited Data: A Few-Shot Learning Approach .....                            | 109 |
| <i>Amirreza Rouhbakhshmeghraz, Shayan Nalbandian, Ghazal Alizadeh, Sheida Shadman, Shuyuan Yang</i>                                |     |
| <i>Bo Li</i>                                                                                                                       |     |
| Capsule Routing over Stacked GCN-GAT Embeddings with Negative Sampling for Graph Link<br>Prediction .....                          | 115 |
| <i>Fatemeh Safari Sarvandi, Sayeh Mirzaei, Rooholah Abedian</i>                                                                    |     |
| REMA: Reinforced Exponential Moving Average for Real-Time Anomaly Detection in Sensor Data .....                                   | 121 |
| <i>Mohammad Hossein Jafari Naeimi, Ali Norouzi, Athena Abdi</i>                                                                    |     |
| Transformer-Gather, Fuzzy-Reconsider: A Scalable Hybrid Framework for Entity Resolution .....                                      | 127 |
| <i>Mohammadreza Sharifi, Danial Ahmadzadeh</i>                                                                                     |     |
| Machine Learning-Driven Prediction of Anti-Alzheimer Drug Efficacy Using PubChem Molecular<br>Fingerprints .....                   | 133 |
| <i>Mohammad Javad Sadeghi, Mohammad Javad Nemati, AliAsghar Zare, Mohammadreza Shams</i>                                           |     |
| Adaptive Prioritization in Experience Replay Using Feedback from Multiple Learning Signals .....                                   | 139 |
| <i>Seyed Hossein Mostafavi, Mohammad Bagher Naghibi Sistani</i>                                                                    |     |
| Plant Disease Detection Using Dynamic Knowledge Distillation and Attention Mechanism .....                                         | 145 |
| <i>Mohammad Ghasemi Arian, Mohammad Hossein Yaghmaee Moghaddam</i>                                                                 |     |
| EpiGraph: Anomaly Detection in Contact Networks for Early Disease Outbreak Prediction .....                                        | 152 |
| <i>Abolfazl Zarghani</i>                                                                                                           |     |
| Beyond Appearance: Transformer-based Person Identification from Conversational Dynamics .....                                      | 158 |
| <i>Masoumeh Chapariniya, Teodora Vuković, Sarah Ebling, Volker Dellwo</i>                                                          |     |
| Balanced Learning with Optimized Extra Trees Classifier for Reliable Lithology Identification in<br>Imbalanced Well Log Data ..... | 164 |
| <i>Ali Daneshpour, Behnam Yousefimehr, Mehdi Ghatee</i>                                                                            |     |
| Dual-Mode Density-Aware Attention-based Hierarchical Graph Pooling .....                                                           | 170 |
| <i>Roya Booryaee, Parsa Haddadian, Ali Kamandi</i>                                                                                 |     |
| Adaptive Hybrid TRCA-CORRCA algorithm for enhanced accuracy in SSVEP-based Brain-computer<br>interfaces .....                      | 176 |
| <i>Sepehr Tayebbeh Khabbaz, Sina Tayebbeh Khabbaz, Arshia Barani, Arsalan Ganjeh Saqavaz, Sasan Harifi</i>                         |     |
| <i>Seyed Mohsen Mirhosseini</i>                                                                                                    |     |
| Object Detection on Detecting Skin Lesion using Dab-DETR .....                                                                     | 184 |
| <i>Sheida Shadman, Amirreza Rouhbakhshmeghraz, Shayan Nalbandian, Bo Li, Shaghayegh Shadman</i>                                    |     |
| <i>Malik Muhammad Owais Siddique</i>                                                                                               |     |
| Bridging Knowledge and Language Models in Healthcare: A RAG Survey .....                                                           | 191 |
| <i>Seyed Ali Hasanzadeh, Fahimeh Ghasemian, Elham Shabaninia</i>                                                                   |     |

|                                                                                                                                 |     |
|---------------------------------------------------------------------------------------------------------------------------------|-----|
| Introducing Meta-Contrastive Adaptive Autoencoder to Tackle Cold-Start Challenges in Sparse Domains .....                       | 201 |
| <i>Hossein Rashid, Erfan Arzhmand, Fatemeh Hosseini</i>                                                                         |     |
| Efficient T-Count Fault-tolerant Quantum Clifford+T Multiplexer .....                                                           | 206 |
| <i>Negin Mashayekhi, Shekoofeh Moghimi, Mohammad Reza Reshadinezhad</i>                                                         |     |
| Synthetic Trajectory Sharing Indoors under Privacy Constraints .....                                                            | 212 |
| <i>Mahdi Soltanpour, Vahideh Moghtadaiee, Mina Alishahi</i>                                                                     |     |
| Autonomous Drone Navigation Using Synchronized Camera and IMU Data with CNN .....                                               | 218 |
| <i>Reza Javanmard Alitapph, Narges Hamzeh Mermeti, Fatemeh Barzegar, Fatemeh Ebrahimi Nima Mahmoudi, Jalal Alipour Langouri</i> |     |
| Persian Legal Text Simplification Leveraging Transformer-Based Models .....                                                     | 225 |
| <i>Mohammadreza Joneidi Jafari, Saedeh Tahery, Amirhossein Nikoofard</i>                                                        |     |
| Adaptive Sliding Window Optimization for Multi-Dimensional Data Streams Using Reinforcement Learning .....                      | 231 |
| <i>Abolfazl Zarghani</i>                                                                                                        |     |
| Adaptive Pronunciation Scoring: Aligning Automated Assessments with Human Expert Evaluations .....                              | 238 |
| <i>Omid Aghdaei, Mohammad Sadegh Safari, Mohammad Hassan Rasoolizadeh, Abedeh Mirzaee</i>                                       |     |
| Simulating Human Visual Cortex and Recall System with Convolutional Neural Networks .....                                       | 244 |
| <i>Sina Saadati, Abdollah Sepahvand</i>                                                                                         |     |
| Towards Transparent and Accurate Story Point Estimation via Interpretable BERT-based Modeling .....                             | 249 |
| <i>Seyed Emad Baradaran Hosseini, Maryam Khodabakhsh, Alireza Tajary, Seyedehfatemeh Karimi</i>                                 |     |
| FinTNet: From Tweets to Trades .....                                                                                            | 255 |
| <i>Dorsa Tavakoli, Saman Haratizadeh</i>                                                                                        |     |
| MC-BioCLIPSR: A Mamba-CNN Hybrid Network with BioMedCLIP-Guided Loss for High-Resolution Brain MRI Reconstruction .....         | 262 |
| <i>Amin Kazempour, Jafar Tanha, SeyedEhsan Roshan, Mahdi Zarrin, Haniyeh Nikkhah</i>                                            |     |
| Binary Classification of Capuchin Bird Calls via Spectrogram-Enhanced Frequency-Aware Convolutional Neural Networks .....       | 268 |
| <i>Samad Najjar-Ghabel, Shamim Yousefi, Reza Danandeh Bileh Savar</i>                                                           |     |
| Enhanced Duplicate Bug Report Detection in Anonymized Environments: A Parallelized Multi-Task Learning Framework .....          | 274 |
| <i>Alireza Shorafa, Abolfazl Zarghani</i>                                                                                       |     |
| Semi-Supervised Supply Chain Fraud Detection with Unsupervised Pre-Filtering .....                                              | 281 |
| <i>Fatemeh Moradi, Mehran Tarif, Mohammadhossein Homaei</i>                                                                     |     |
