2025 ACM/IEEE 28th International Conference on Model Driven Engineering Languages and Systems Companion (MODELS-C) **MODELS-C 2025**

Table of Contents

Educators Symposium

Preface to the 21st Educators Symposium	1
Introducing MyPetri.net: A Petri Net Editor and Simulator for Students	3
<i>Joseph M. Vanliew (Grand Valley State University, USA), Erik M. Fredericks (Grand Valley State University, USA), and Byron DeVries (Grand Valley State University, USA)</i>	
Learning Software Modeling with Virtual Reality	11
<i>Maryangela White (Colorado State University, USA), Jaya Surya Bontha (Colorado State University, USA), Sudipto Ghosh (Colorado State University, USA), Marcia Moraes (Colorado State University, USA), Anne M. Cleary (Colorado State University, USA), and Mohammed Safayet Arefin (Colorado State University, USA)</i>	
Mind the Ethics! The Overlooked Ethical Dimensions of GenAI in Software Modeling Education.....	19
<i>Shalini Chakraborty (University of Bayreuth, Germany), Lola Burgueño (University of Malaga, Spain), Nathalie Moreno (University of Malaga, Spain), Javier Troya (University of Malaga, Spain), and Paula Muñoz (Independent)</i>	
Modeling the Full Stack: Frontend and Backend Generation with Extended Domain Models	27
<i>Gagandeep Singh (McGill University) and Gunter Mussbacher (McGill University)</i>	
Rethinking How to Teach Analysis and Modelling of Business Requirements: A Serious Game Integrating GenAI	35
<i>Clara Ayora (Universidad de Castilla-La Mancha, Spain), Jose Luis de la Vara (Universidad de Castilla-La Mancha, Spain), Beatriz Marín (Universitat Politècnica de València, Spain), and Giovanni Giachetti (Universitat Politècnica de València, Spain - Universidad Andrés Bello, Chile)</i>	
Teaching Low-code Development with BESSER	39
<i>Iván Alfonso (Luxembourg Institute of Science and Technology, Luxembourg) and Jordi Cabot (Luxembourg Institute of Science and Technology, Luxembourg)</i>	

Toward a Community-Curated Golden Dataset of UML Models	43
<i>Charlotte Verbruggen (TU Wien), Lukas Netz (RWTH Aachen University), Philipp-Lorenz Glaser (TU Wien), Marion Scholz (TU Wien), Christian Huemer (TU Wien), Marco Calamo (Sapienza Universita di Roma), Bernhard Rumpe (RWTH Aachen Univeristy), Monique Snoeck (KU Leuven), and Dominik Bork (TU Wien)</i>	

Doctoral Symposium

Preface to the Doctoral Symposium	51
A Model-Driven Approach for CI/CD	52
<i>Hugo da Gíão (University of Porto, Portugal)</i>	
LLM-Based Generation of Low-Code Development Platforms	59
<i>Bernhard Schenkenfelder (Software Competence Center Hagenberg, Austria)</i>	
Towards Efficient Offline Incremental Model-to-Text Transformations	65
<i>Adam Blanchet (University of York, United Kingdom)</i>	
Towards Secure IoT Deployments: A DSL and Digital Twin-Based Emulation Platform for Security Verification	71
<i>Leonard Tudorache (Eindhoven University of Technology)</i>	

Tools and Demonstrations Track

Preface to the Tools and Demonstrations Track	77
AI-assisted JSON Schema Creation and Mapping	79
<i>Felix Neubauer (University of Stuttgart, Germany), Jürgen Pleiss (University of Stuttgart, Germany), and Benjamin Uekermann (University of Stuttgart, Germany)</i>	
DTChecker: A Real-Time Signal Monitoring and Property Specification Tool for Digital Twins.....	84
<i>Abdelhamid Rouatbi (University of Montreal), Eugene Syriani (University of Montreal), and Bentley Oakes (Polytechnique Montreal)</i>	
Graphite: Automated Development of Hybrid Graphical-Textual DSL Editors	89
<i>Ionut Predoaia (University of York), Dimitris Kolovos (University of York), and Antonio García-Domínguez (University of York)</i>	
Model based Tools for Inquiry into Expungement Law	94
<i>Joshua Alele-Beals (Michigan Technological University, USA), Ali Ebzenasir (Michigan Technological University, USA), and Charles Wallace (Michigan Technological University, USA)</i>	
Semantic Analysis of Domain Model Evolution in Model-Driven Software Development	99
<i>Constantin Buschhaus (RWTH Aachen University, Germany), Lukas Netz (RWTH Aachen University, Germany), Bernhard Rumpe (RWTH Aachen University, Germany), Max Stachon (RWTH Aachen University, Germany), and Sebastian Stüber (RWTH Aachen University, Germany)</i>	

XModelerML v3: Integrating Executable UML with a Multi-Level Language Engineering, Modeling, and Execution Environment	104
<i>Pierre Maier (University of Duisburg-Essen, Germany) and Daniel Töpel (University of Duisburg-Essen, Germany)</i>	

EDTconf 2025

Preface to the 2nd International Conference on Engineering Digital Twins (EDTconf)	109
A Digital Shadow for Accurate Robot Motion Control: Integrating Data with Friction Models	113
<i>Malte Heithoff (Software Engineering, RWTH Aachen University, Aachen, Germany), Minh Trinh (Laboratory for Machine Tools and Production Engineering (WZL), RWTH Aachen University, Aachen, Germany), Judith Michael (University of Regensburg, Regensburg, Germany; Software Engineering, RWTH Aachen University, Aachen, Germany), Bernhard Rumpe (Software Engineering, RWTH Aachen University, Aachen, Germany), and Christian Brecher (Laboratory for Machine Tools and Production Engineering (WZL), RWTH Aachen University, Aachen, Germany)</i>	
CoFMPy: A Python Framework for Rapid Prototyping of FMI-based Digital Twins	125
<i>Corentin Friedrich (IRT Saint Exupéry), Andrés Lombana (IRT Saint Exupéry), Jérôme Fasquel (IRT Saint Exupéry), Charlie Schlick (IRT Saint Exupéry), Nora Bennani (IRT Saint Exupéry), and Mouhcine Mendil (IRT Saint Exupéry)</i>	
DesCartes Builder: A Tool to Develop Machine-Learning Based Digital Twins	129
<i>Eduardo de Conto (Nanyang Technological University, CNRS@CREATE, Singapore), Blaise Genest (IPAL Lab, CNRS, CNRS@CREATE, France and Singapore), Arvind Easwaran (Nanyang Technological University, Singapore), Nicholas Ng (CNRS@CREATE, Singapore), and Shweta Menon (CNRS@CREATE, Singapore)</i>	
Digital Human Twin – A Human-Centric Extension of the Digital Twin Idiom	134
<i>Bran Selić (Malina Software Corp.)</i>	
DTInsight: A Tool for Explicit, Interactive, and Continuous Digital Twin Reporting	139
<i>Kérian Fiter (Polytechnique Montréal), Louis Malassigné-Onfroy (École d'Ingénieurs du Conservatoire National des Arts et Métiers (EICNAM)), and Bentley Oakes (Polytechnique Montréal)</i>	
Earth Science Digital Twins: A Systematic Literature Review	144
<i>Jasper Albert Adriaan van den Barg (Maris B.V.) and Victoria Degeler (University of Amsterdam)</i>	
Enabling Inverse Reasoning in Enterprise Digital Twins using Multi-Objective Bayesian Optimization	156
<i>Avadhut Sardeshmukh (TCS Research, India), Garima Jain (TCS Research, India), Tharun Tammali (TCS Research, India), Souvik Barat (TCS Research, India), and Vinay Kulkarni (TCS Research, India)</i>	
Engineering a Digital Twin for the Monitoring and Control of Beer Fermentation Sampling	167
<i>Pierre-Emmanuel Goffi (Polytechnique Montréal), Raphaël Tremblay (Polytechnique Montréal), and Bentley Oakes (Polytechnique Montréal)</i>	

Engineering Automotive Digital Twins on Standardized Architectures: A Case Study	174
<i>Stefan Ramdhan (McMaster University), Winnie Trandinh (McMaster University), Istvan David (McMaster University), Vera Pantelic (McMaster University), and Mark Lawford (McMaster University)</i>	
Engineering Digital Twins: A Research Roadmap	181
<i>Benoit Combemale (Inria), Pascale Vicat Blanc (Inria), Arnaud Blouin (INSA Rennes), Hind Bril El Haouzi (University of Lorraine), Jean-Michel Bruel (University of Toulouse Jean Jaures), Julien Deantoni (University Cote d'Azur), Thierry Duval (IMT Atlantique), Sebastien Gerard (CEA), and Jean-Marc Jézéquel (Université de Rennes)</i>	
Engineering Digital Twins for AI-Assisted Scientific Discovery: Case of Plasma-Enhanced Deposition	189
<i>Kevin Delcourt (Université de Montréal, Canada), Luc Stafford (Université de Montréal, Canada), and Houari Sahraoui (Université de Montréal, Canada)</i>	
Engineering Digital Twins with Statecharts: A Smart Home Application	196
<i>Sahil Salma (Toronto Metropolitan University), Zenan Zha (Toronto Metropolitan University), Protik Mukherjee (Toronto Metropolitan University), and Sadaf Mustafiz (Toronto Metropolitan University)</i>	
Engineering Fit-for-Implementation Digital Twins Across the Total Product Lifecycle of Next-Generation Dental Restorative Materials: A Translational Intelligence Strategy for Real-World Impact	203
<i>Orlando Lopez (National Institute of Dental and Craniofacial Research National Institutes of Health, United States), Jeff Buchsbaum (Division of Cancer Treatment and Diagnosis, National Cancer Institute National Institutes of Health, United States), Elena Sizikova (Center for Devices and Radiological Health Food and Drug Administration, United States), Noffisat Oki (National Institute of Dental and Craniofacial Research National Institutes of Health, United States), Sepideh Mazrouee (Office of Director, NIH National Institute of Allergy and Infectious Diseases National Institutes of Health, United States), Julia Berzhanskaya (National Heart Lung Blood Institute National Institutes of Health, United States), and Siddharth Shenoy (National Heart Lung Blood Institute National Institutes of Health, United States)</i>	
Evolution at the Core of Digital Twin Engineering	210
<i>Tarek Alskaf (Wageningen University, The Netherlands), Önder Babur (Wageningen University, The Netherlands), Francis Bordeleau (École de technologie supérieure (ÉTS), Canada), Loek Cleophas (Eindhoven University of Technology, The Netherlands), Benoit Combemale (Inria & Univ. Rennes, France), Joachim Denil (Flanders Make@UAntwerpen & University of Antwerp, Belgium), Øystein Haugen (Østfold University College, Norway), Judith Michael (University of Regensburg, Germany), Phu Nguyen (SINTEF, Norway), Tiberiu Seceleanu (Mälardalen University, Sweden), Mark van den Brand (Eindhoven University of Technology, The Netherlands), and Hans Vangheluwe (Flanders Make@UAntwerpen & University of Antwerp, Belgium)</i>	
Lab-Scale Gantry Crane Digital Twin Exemplar	217
<i>Joost Mertens (University of Antwerp, Belgium) and Joachim Denil (University of Antwerp, Belgium)</i>	

Model-driven Digital Twins for AECO	224
<i>Philipp Zech (University of Innsbruck, Austria), Simon Senoner (University of Innsbruck, Austria), Emanuele Goldin (University of Innsbruck, Austria), Christoph Zallinger (University of Innsbruck, Austria), Sascha Hammes (University of Innsbruck, Austria), and Judith Michael (University of Regensburg, Germany)</i>	
On-Demand Cardiac Digital Twins: A Case Study on DevOps workflows for Digital Twin Platforms	236
<i>Pranjay Yelkotwar (Department of Computer Science and Information Systems, BITS Pilani, K K Birla Goa Campus, India), Rohit Raj (Department of Computer Science and Information Systems, BITS Pilani, K K Birla Goa Campus, India), Aryan Pingle (Department of Computer Science and Information Systems, BITS Pilani, K K Birla Goa Campus, India), Prasad Talasila (Department of Electrical and Computer Engineering, Aarhus University, Denmark), and Neena Goveas (Department of Computer Science and Information Systems, BITS Pilani, K K Birla Goa Campus, India)</i>	
On the Challenges of Integrating Digital Twins	243
<i>Benoit Combemale (Universite de Rennes, IRISA, Inria, France), Jörg Kienzle (Universidad de Malaga, Spain), Gunter Mussbacher (McGill University, Canada), Pascal Archambault (Universite de Montreal, Canada), Jean-Michel Bruel (Universite de Toulouse, France), Lola Burgueno (Universidad de Malaga, Spain), Betty H.C. Cheng (Michigan State University, USA), Loek Cleophas (Eindhoven University of Technology, The Netherlands), Gregor Engels (Paderborn University, Germany), Damien Foures (Airbus Group, France), Stefan Klikovits (Johannes Kepler University, Austria), Vinay Kulkarni (Tata Consultancy Services Research, India), Judith Michael (RWTH Aachen University, Germany), Sebastien Mosser (McMaster University, Canada), Houari Sahraoui (Universite de Montreal, Canada), Eugene Syriani (Universite de Montreal, Canada), and Andreas Wortmann (Stuttgart University, Germany)</i>	
Probabilistic Update Scheduling for Digital Twins: A Semi-Markov Approach	250
<i>Mikkel Schmidt Andersen (Aarhus University, Denmark), Cláudio Gomes (Aarhus University, Denmark), Sophia Thompson (Aarhus University, Denmark), and Peter Gorm Larsen (Aarhus University, Denmark)</i>	
Towards Self-Adaptive Data Management in Digital Twins for Biodiversity Monitoring	257
<i>Eduard Kamburjan (IT University of Copenhagen, Denmark), Laura Ann Slaughter (University of Oslo, Norway), Einar Broch Johnsen (University of Oslo, Norway), Andrea Pferscher (University of Oslo, Norway), and Laura Wehl (IT University of Copenhagen, Denmark)</i>	
Twin2Clouds: Cost-Aware Digital Twin Engineering and Deployment Across Federated Clouds ...	264
<i>Philipp Gritsch (University of Innsbruck, Austria), Deniz Pierer (University of Innsbruck, Austria), Luca Berardinelli (Johannes Kepler University Linz, Austria), Michael Felderer (German Aerospace Center (DLR), Germany), and Sashko Ristov (University of Innsbruck, Austria)</i>	
TwinLang – A Digital Twin Modelling and Management Language	276
<i>Martin Leucker (University of Lübeck), Daniel Thoma (University of Lübeck), and Lars B. Vosteen (University of Lübeck)</i>	

Validating Terrain Models in Digital Twins for Trustworthy sUAS Operations	289
<i>Arturo Miguel Russell Bernal (University of Notre Dame), Maureen Pettersson (University of Notre Dame), Pedro Antonio Alarcon Granadeno (University of Notre Dame), Michael Murphy (University of Notre Dame), James Mason (University of Notre Dame), and Jane Cleland-Huang (University of Notre Dame)</i>	

SAM 2025

Preface to the 17th System Analysis and Modelling (SAM)	300
A Real-Time Multi-modal Framework for Human-Centric Requirements Engineering in Autonomous Vehicles	301
<i>Farzaneh Kargozari (Ontario Tech University, Canada) and Sanaa Alwidian (Ontario Tech University, Canada)</i>	
Automated AADL Architecture Modeling : Leveraging Large Language Models for Safety-Critical Software	311
<i>Yaxin Zou (Nanjing University of Aeronautics and Astronautics, China), Zhibin Yang (Nanjing University of Aeronautics and Astronautics, China), Hao Liu (Nanjing University of Aeronautics and Astronautics, China), Jiatwei Liang (Nanjing University of Aeronautics and Astronautics, China), Yong Zhou (Nanjing University of Aeronautics and Astronautics, China), and Zonghua Gu (Hofstra University, New York)</i>	
DarTwin Made Precise by SysMLv2 – An Experiment	322
<i>Øystein Haugen (Østfold University College, Norway), Stefan Klikovits (Johannes Kepler University, Austria), Martin Arthur Andersen (Østfold University College, Norway), Jonathan Beaulieu (École de technologie supérieure (ETS), Canada), Francis Bordeleau (École de techonologie supérieure (ETS), Canada), Joachim Denil (University of Antwerp, Belgium), and Joost Mertens (University of Antwerp, Belgium)</i>	
Fine-Grained Confidentiality and Authenticity Modeling and Verification for Embedded Systems	333
<i>Jawher Jerray (LIUPPA, Université de Pau et des Pays de l'Adour), Bastien Sultan (LTCI, Télécom Paris, Institut Polytechnique de Paris), and Ludovic Apvrille (LTCI, Télécom Paris, Institut Polytechnique de Paris)</i>	
Mind the Leak: Formalizing Confidentiality Preservation Assessment of Multi-Model Consistency Checking Systems	345
<i>Sebastian Bergemann (fortiss, Germany), Andreas Bayha (fortiss, Germany), Derui Zhu (Technical University of Munich, Germany), Mohammad Sadeghi (University of Mannheim, Germany), Colin Atkinson (University of Mannheim, Germany), and Alexander Pretschner (Technical University of Munich, Germany)</i>	
Mitigating Hallucinations in SysML v2 Generation Using LLMs and a Tri-Layered Knowledge Graph Reasoning Framework	357
<i>Richard Qualis (Florida Institute of Technologies)</i>	

Model-Based Systems Engineering Perspectives: A Survey of Practitioner Experiences and Challenges	367
<i>Maged Elaasar (NASA Jet Propulsion Lab and California Institute of Technology), Abdelwahab Hamou-Lhadj (Concordia University), Bentley Oakes (Polytechnique Montréal), and Mohammad Hamdaqa (Polytechnique Montréal)</i>	
Model-Driven Root Cause Analysis for Trustworthy AI: A Data-and-Model-Centric Explanation Framework	377
<i>Emmanuel Charleson Dapaah (University of Goettingen) and Jens Grabowski (University of Goettingen)</i>	
Modeling: The Heart and Soul of Engineering Smart Ecosystems	386
<i>Antonio Bucchiarone (Università degli Studi dell'Aquila), Benoit Combemale (University of Rennes, IRISA), Alfonso Pierantonio (Università degli Studi dell'Aquila), Nelly Bencomo (Durham University), Mark van den Brand (Eindhoven University of Technology), Jean-Michel Bruel (University of Toulouse / CNRS-IRIT), Antonio Cicchetti (Mälardalen University), Juri Di Rocco (Università degli Studi dell'Aquila), Leen Lambers (BTU Cottbus - Senftenberg), Judith Michael (University of Regensburg), Bernhard Rumpe (RWTH Aachen University), Mikael Sjödin (Mälardalen University), Gabriele Taentzer (Philipps-Universität Marburg), Matthias Tichy (Ulm University), Hans Vangheluwe (University of Antwerp and Flanders Make), Manuel Wimmer (Johannes Kepler University Linz), and Steffen Zschaler (King's College London)</i>	
Optimizing Industrial Operations through Business Process Formalization	394
<i>Mihal Brumbulli (PragmaDev) and Emmanuel Gaudin (PragmaDev)</i>	
Service-oriented Modeling of Mixed-Fleet Systems in SysML v2 in a Harbor Logistics Scenario	400
<i>Hamza Haoui (Tampere University, Finland), Bianca Wiesmayr (University Linz, Austria), David Hästbacka (Tampere University, Finland), and Kari Systä (Tampere University, Finland)</i>	
The DESIRE methodology for Early Pre-Verification of Digital System Architectures via Estimation and Back-Annotation	411
<i>Christian Seifert (Graz University of Technology, Austria), Christian Steger (Graz University of Technology, Austria), and Tiberio Fanti (NXP Semiconductors Austria GmbH Co&KG, Austria)</i>	
Towards LLM Agents for Model-Based Engineering: A Case in Transformation Selection	421
<i>Zakaria Hachm (IMT Atlantique, France), Théo Le Calvar (IMT Atlantique, France), Hugo Bruneliere (IMT Atlantique, France), and Massimo Tisi (IMT Atlantique, France)</i>	
Using Concept Traceability to Investigate UML Class Diagram Evolution in Long-Existing FOSS Projects	432
<i>Zaki Pauzi (University of Groningen) and Andrea Capiluppi (University of Groningen)</i>	

ME 2025

Preface to the 19th edition of the Workshop on Models and Evolution (ME 2025)	439
---	-----

GEM: Towards a Model-Driven Graphical Editor Migration Framework	441
<i>Mohamadreza Sabeghi (McMaster University, Canada), Richard F. Paige (McMaster University, Canada), and Dimitris Kolovos (University of York, United Kingdom)</i>	
How and Why is Change Modeled? – A Scoping Literature Review	447
<i>Thomas Weber (Karlsruhe Institute of Technology, Germany), Johan Cederbladh (Mälardalen University, Sweden), Sebastian Weber (FZI Research Center for Information Technology, Germany), Arne Lange (Karlsruhe Institute of Technology, Germany), Antonio Cicchetti (Mälardalen University, Sweden), and Ralf Reussner (Karlsruhe Institute of Technology, Germany)</i>	
Towards Model-Based Decision-Telling: Design Evolution Through Decision Nodes	457
<i>Nidhal Selmi (University of Toulouse, IRIT), Jean-Michel Bruel (University of Toulouse, IRIT), Sébastien Mosser (McMaster University, McSCert), and Matthieu Crespo (Airbus)</i>	
YANG-APR: Towards Supporting Evolution in Model-driven Network Management Systems	462
<i>Hesham Elabd (School of Computing, Queen’s University), Juergen Dingel (School of Computing, Queen’s University), Robert Lee (Department of Chief Technology Office (CTO), TELUS Communications Inc.), and Ali Tizghadam (Department of Chief Technology Office (CTO), TELUS Communications Inc.)</i>	

CoPaMo 2025

Preface to the International Workshop on Collaborative and Participatory Modeling (CoPaMo 2025)	468
A Local-First Collaborative Modeling Approach with Replicated Data Types	472
<i>Léo OLIVIER (CEA-List), Kirollos Morcos (CEA-List), Marcos Didonet Del Fabro (CEA-List), and Sébastien Gérard (CEA-List)</i>	
Bridging Expertise Gaps in the WEF Nexus through Participatory Modeling: Insights from Oyo State, Southwest Nigeria	482
<i>Foluke Olatoye (Research Department Environmental and Economic Resource Centre, Abeokuta, Nigeria), Cynthia Odili (Water Resources and Environmental Engineering, Ahmadu Bello University Zaria, Nigeria), and Jafaru Musa Egieya (Texas A&M Energy Institute, Texas A&M University, College Station, USA)</i>	
Challenges of Collaborative MBSE in the Presence of Practical Intellectual Property Requirements	487
<i>Björn Annighöfer (Institute of Aircraft Systems, University of Stuttgart), Nicolai Maisch (Institute for Control Engineering of Machine Tools and Manufacturing Units, University of Stuttgart), and Andreas Wortmann (Institute for Control Engineering of Machine Tools and Manufacturing Units, University of Stuttgart)</i>	
Combining and Simplifying the Mental Models of Participants: An Edge Centrality-Based Method for Fuzzy Cognitive Maps	492
<i>Ryan Schuerkamp (Carnegie Mellon University) and Philippe Giabbanelli (Old Dominion University)</i>	

Conflict Management for Multi-Level Models in Collaborative Modelling Environments	502
<i>Yuhong Fu (University of South Australia), Georg Grossmann (University of South Australia), Karamjit Kaur (University of South Australia), Matt Selway (University of South Australia), and Markus Stumptner (University of South Australia)</i>	
Do we Still Need People? Comparing Human and LLM Personas in Political Modeling and Simulation	512
<i>Stephen Zhong (American University), Nathalie Japkowicz (American University), and Philippe Giabbanelli (Old Dominion University)</i>	
Towards Ontology-Driven User Experience Assessment of Collaborative Modeling Tools	522
<i>Marko Mijalkovic (Toronto Metropolitan University), Vicheka Oeun (Toronto Metropolitan University), Istvan David (McMaster University), and Sadaf Mustafiz (Toronto Metropolitan University)</i>	
User Perceptions of Code and Model Generation with Simulink in Industrial Settings – A Survey	532
<i>Johan Cederbladh (Mälardalen University) and Jakob Norin (Sigma Technology Consulting)</i>	

MDE Intelligence 2025

Preface to the 7th Workshop on Artificial Intelligence and Model-Driven Engineering (MDE Intelligence)	537
A Comparison of Different Large Language Models for the Generation of UML Class Diagrams	541
<i>Giacomo Garaccione (Politecnico di Torino, Italy), Diego Maria Calabrese (Politecnico di Torino, Italy), Riccardo Coppola (Politecnico di Torino, Italy), and Luca Ardito (Politecnico di Torino, Italy)</i>	
Comparing High- and Low-Level Model Representations for Evolutionary Algorithms	546
<i>Henrik Eckhardt (Universität Kassel, Germany) and Jens Kosiol (Philipps-Universität Marburg, Germany)</i>	
Coupling LLMs and Model-Driven Engineering to Support Synthetic Generation of BPMN Artifacts	556
<i>Vittoriano Muttillio (University of Teramo, Italy), Romina Eramo (University of Teramo, Italy), Riccardo Rubei (University of L'Aquila, Italy), and Luca Berardinelli (Johannes Kepler University Linz, Austria)</i>	
Generating Software Architecture Description from Source Code using Reverse Engineering and Large Language Model	566
<i>Ahmad Hatahet (Technical University Clausthal, Germany), Christoph Knieke (Technical University Clausthal, Germany), and Andreas Rausch (Technical University Clausthal, Germany)</i>	
Learning to Transform: Evaluating LLMs on Model Transformation by Example	576
<i>Duy Dao (Mälardalen University, Sweden), Alessio Bucaioni (Mälardalen University, Sweden), and Antonio Cicchetti (Mälardalen University, Sweden)</i>	

LLM-enabled Instance Model Generation	586
<i>Fengjunjie Pan (Technical University of Munich), Nenad Petrovic (Technical University of Munich), Vahid Zolfaghari (Technical University of Munich), Long Wen (Technical University of Munich), and Alois Knoll (Technical University of Munich)</i>	
Modeling AI-Driven Workflows for Ecosystem Resilience Prediction	596
<i>Tiago Sousa (University of Luxembourg), Nicolas Guelfi (University of Luxembourg), and Benoît Ries (University of Luxembourg)</i>	
On the Generalization Capabilities of LLMs for Reverse Engineering Sequence Diagrams	607
<i>Sandra Greiner (University of Southern Denmark), Judi Abdullah (University of Bern), and Timo Kehrer (University of Bern)</i>	
PRoBify: Formal-based Probabilistic Behavior Modeling for Verification of Autonomous Vehicles	617
<i>Sol Zilberman (Michigan State University, United States) and Betty H.C. Cheng (Michigan State University, United States)</i>	
Towards Safety in Machine Learning Using Validity Frames	627
<i>Jan Gladiné (University of Antwerp), Bert Van Acker (University of Antwerp), and Joachim Denil (University of Antwerp)</i>	
Unintended Changes: How LLMs Corrupt and Correct Textual Models	636
<i>Lukas Netz (RWTH Aachen University, Germany), Finn Kampe (RWTH Aachen University, Germany), Jan Reimer (RWTH Aachen University, Germany), and Bernhard Rumpe (RWTH Aachen University, Germany)</i>	

MoDeVVa 2025

Preface to the 22nd Model Driven Engineering, Verification and Validation (MoDeVVa)	646
Benchmarking Large Language Models for Root Cause Analysis in Train Control Software Testing	648
<i>Rahmanu Hermawan (Mälardalen University), Alessio Bucaioni (Mälardalen University), Eduard Enoiu (Mälardalen University), and Wasif Afzal (Mälardalen University)</i>	
Investigating Simulation for Safety Analysis of Battery Systems in an Active Solar Car Project	658
<i>Sebastian Daag (Mälardalen University) and Johan Cederblad (Mälardalen University)</i>	
Towards Examining the Complexity of Consistency	663
<i>Romain Pascual (MICS, CentraleSupélec, Université Paris-Saclay), Arne Lange (Karlsruhe Institute of Technology), Thomas Weber (Karlsruhe Institute of Technology), Lars König (Karlsruhe Institute of Technology), Michael Kirsten (Ludwig-Maximilians-Universität (LMU)), and Terru Stübinger (Karlsruhe Institute of Technology-(KIT))</i>	
Towards Seamless Processor-In-The-Loop Testing With FMI 3.0	673
<i>Yon Vanommeslaeghe (University of Antwerp), Bert Van Acker (University of Antwerp), and Paul De Meulenaere (University of Antwerp)</i>	

MoDIoT 2025

Towards Distributing Effort in Validating Run-Time Models for Internet of Things Architectures	678
<i>Erik M. Fredericks (Grand Valley State University, United States of America) and Byron DeVries (Grand Valley State University, United States of America)</i>	

MoM 2025

A Conceptual Framework for Fine-Grained Quality Assessment in Version Graphs	683
<i>Karl Kegel (Technische Universität Dresden), Romain Pascual (Centralesupélec, Université Paris-Saclay), Kevin Feichtinger (Karlsruhe Institute of Technology), Andreas Domanowski (Technische Universität Dresden), Marie Clausnitzer (Technische Universität Dresden), and Uwe Aßmann (Technische Universität Dresden)</i>	
A Critique of the Authoritative Source of Truth Concept in Model-Based Systems Engineering.....	693
<i>Johan Cederbladh (Mälardalen University) and Thomas C. Zimmermann (IPK Fraunhofer)</i>	
Domain-Specific Modeling Solution in MetaEdit+ for the Model Management Challenge	698
<i>Juha-Pekka Tolvanen (MetaCase, Finland) and Steven Kelly (MetaCase, Finland)</i>	
Extending Version Control Systems to Ensure Semantic Model Consistency	707
<i>Arkadiusz Ryś (University of Antwerp), Yon Vanommeslaeghe (University of Antwerp), Milan Cornelis (University of Antwerp), Bert Van Acker (University of Antwerp), Paul De Meulenaere (University of Antwerp), and Hans Vangheluwe (University of Antwerp)</i>	
Model Consistency Management of a Brewery Digital Twin	717
<i>Hossain Muhammad Muctadir (Eindhoven University of Technology, The Netherlands), Yanyifan Liao (Eindhoven University of Technology, The Netherlands), and Loek Cleophas (Eindhoven University of Technology, The Netherlands)</i>	
Modeling the MoM 2025 Satellite Configuration Challenge with VITRUVIUS	722
<i>Benedikt Jutz (Karlsruhe Institute of Technology, Germany), Thomas Weber (Karlsruhe Institute of Technology, Germany), Arne Lange (Karlsruhe Institute of Technology, Germany), Razieh Deghani (Karlsruhe Institute of Technology, Germany), Bowen Jiang (Karlsruhe Institute of Technology, Germany), Martin Armbruster (Karlsruhe Institute of Technology, Germany), Kevin Feichtinger (Karlsruhe Institute of Technology, Germany), Nathan Hagel (Karlsruhe Institute of Technology, Germany), Minakshi Kaushik (Karlsruhe Institute of Technology, Germany), Lars König (Karlsruhe Institute of Technology, Germany), Manar Mazkatli (Karlsruhe Institute of Technology, Germany), Muhammad Asim Minhas (Karlsruhe Institute of Technology, Germany), Dirk Neumann (Karlsruhe Institute of Technology, Germany), Erik Burger (Karlsruhe Institute of Technology, Germany), Anne Koziolk (Karlsruhe Institute of Technology, Germany), and Ralf Reussner (Karlsruhe Institute of Technology, Germany)</i>	

Openflexo as a Model Management Platform for the MoM 2025 Satellite Configuration Challenge	732
<i>Hiba Hnaini (IMT Atlantique, France), Chahrazed Boudjemila (IMT Atlantique, France), and Sylvain Guerin (IMT Atlantique, France)</i>	
Towards the Derivation of Encryption Rules for Encryption-Based Access Control for Delta-Based Model Representations — The DEBAC Approach	742
<i>Thomas Weber (Karlsruhe Institute of Technology, Germany), Katrin Quellmalz (Karlsruhe Institute of Technology, Germany), Laurin Benz (Karlsruhe Institute of Technology, Germany), Sebastian Weber (FZI Research Center for Information Technology, Germany), Erik Burger (Karlsruhe Institute of Technology, Germany), and Ralf Reussner (Karlsruhe Institute of Technology, Germany)</i>	
Transforming Relational Model Queries to Triple Graph Grammars	752
<i>Lars König (Karlsruhe Institute of Technology (KIT)), Daniel Ritz (Karlsruhe Institute of Technology (KIT)), and Erik Burger (Karlsruhe Institute of Technology (KIT))</i>	

MLE 2025

Preface to the International Joint Workshop on Modeling Language Engineering (MLE) and Sustainability and Modeling (SusMod) 2025	762
What can we learn from other Domains – Towards an Exploratory Process for the Extension of a Language based on Cross-Domain Knowledge Transfer	765
<i>Benedikt Jutz (Karlsruhe Institute of Technology, Germany), Zenon Zacouris (Technische Universität München, Germany), Thomas Weber (Karlsruhe Institute of Technology, Germany), Erik Burger (Karlsruhe Institute of Technology, Germany), Maribel Acosta (Technische Universität München), and Ralf Reussner (Karlsruhe Institute of Technology, Germany)</i>	

SusMod 2025

Sustainability Implications of Large Language Model use in Model-Driven Engineering	772
<i>Kevin Lano (King's College London), Shekoufeh Kolahdouz Rahimi (University of Roehampton), and Qiaomu Xue (King's College London)</i>	

MULTI 2025

Preface to the 12th International Workshop on Multi-Level Modeling (MULTI)	777
Bridging Requirements and Configurations: A Multi-Level Approach to System Design	780
<i>Sándor Bácsi (Budapest University of Technology and Economics - Department of Automation and Applied Informatics) and Gergely Mezei (Budapest University of Technology and Economics - Department of Automation and Applied Informatics)</i>	

Consistent Modeling of Agility: Applications of Flexible Multi-Level Modeling	785
<i>Razieh Dehghani (Karlsruhe Institute of Technology) and Anne Koziolk</i> <i>(Karlsruhe Institute of Technology)</i>	
Deep Specialization --- Integrating Powertypes into Deep Modeling	793
<i>Thomas Kühne (Victoria University of Wellington) and Arne Lange</i> <i>(Karlsruhe Institute of Technology)</i>	
From the Lowlands of UML to the Highlands of MLM: An Evolutionary, Tool-Supported Multi-Level Method for Teaching Multi-Level Modeling	803
<i>Ulrich Frank (University of Duisburg-Essen, Germany) and Pierre Maier</i> <i>(University of Duisburg-Essen, Germany)</i>	
Pragmatic Issues in Multilevel Modeling	813
<i>Mira Balaban (Ben-Gurion University of the Negev), Azzam Maraee</i> <i>(Achva Academic College), and Arnon Sturm (Ben-Gurion University of</i> <i>the Negev)</i>	

ontoNexus 2025

Preface to the Ontological Modeling and Analysis Workshop (ontoNexus 2025)	823
An Ontological Representation of the UML Testing Profile for Digital Test and Evaluation	825
<i>Pooja Diwakar Pandit (The University of Arizona, United States Of</i> <i>America), Joe Gregory (The University of Arizona, United States Of</i> <i>America), Hunter Fiore (The University of Arizona, United States Of</i> <i>America), and Alejandro Salado (The University of Arizona, United</i> <i>States Of America)</i>	
Integrated Knowledge Centric Engineering: Delivering Next-generation Aircraft Projects at Pace	834
<i>Lewis Humphries (University of York, United Kingdom), Gianmaria</i> <i>Bullegas (Leonardo UK, United Kingdom), John Golledge (Leonardo UK,</i> <i>United Kingdom), Campbell Mccausland (Leonardo UK, United Kingdom),</i> <i>Donald Taylor (Leonardo UK, United Kingdom), Dimitris Kolovos</i> <i>(University of York, United Kingdom), Antonio Garcia-Dominguez</i> <i>(University of York, United Kingdom), and Simos Gerasimou (University</i> <i>of York, United Kingdom)</i>	
openCAESAR Application to Power Balance Analysis in Early Space Mission Formulation	844
<i>Yuta Nakajima (Japan Aerospace Exploration Agency, Japan), Haruhi</i> <i>Katsumata (Japan Aerospace Exploration Agency, Japan), Daiki Tate</i> <i>(Japan Aerospace Exploration Agency, Japan), Yutaka Komatsu (Japan</i> <i>Aerospace Exploration Agency, Japan), Aaron Levitt (Jet Propulsion</i> <i>Laboratory, California Institute of Technology, USA), J. Steven</i> <i>Jenkins (JPL, retired, USA), Maged Elaasar (Jet Propulsion Laboratory,</i> <i>California Institute of Technology, USA), Nicolas F. Rouquette (Jet</i> <i>Propulsion Laboratory, California Institute of Technology, USA), and</i> <i>David A. Wagner (Jet Propulsion Laboratory, California Institute of</i> <i>Technology, USA)</i>	

Power of a Reasoner: Model Validation for SysML Model using openCAESAR	853
<i>Yuta Nakajima (Japan Aerospace Exploration Agency, Japan), Atsushi Wada (Japan Aerospace Exploration Agency, Japan), Yutaka Komatsu (Japan Aerospace Exploration Agency, Japan), Maged Elaasar (Jet Propulsion Laboratory, California Institute of Technology, USA), J. Steven Jenkins (JPL, retired, USA), and David A. Wagner (Jet Propulsion Laboratory, California Institute of Technology, USA)</i>	
Towards Bridging Ontological and Closed-world Modelling with Synchronised EMF Views of RDF Models	858
<i>Owen James Reynolds (University of York), Antonio Garcia-Dominguez (University of York), Dimitris Kolovos (University of York), Gianmaria Bullegas (Leonardo UK), and Campbell Mccausland (Leonardo UK)</i>
