# TABLE OF CONTENTS

|                                                                                                                                           |    |
|-------------------------------------------------------------------------------------------------------------------------------------------|----|
| Package Construction Technology of Road Network Facilities .....                                                                          | 1  |
| <i>Gasim Abdullaev</i>                                                                                                                    |    |
| Research Efficiency of Service Traffic Transmission in Multiservice Communication Networks .....                                          | 5  |
| <i>A.A. Aliyeva</i>                                                                                                                       |    |
| Electric Current Collectors as Smart Friction Units of Automotive Systems with Embedded Addressed<br>Fiber Optic Sensors .....            | 10 |
| <i>Vadim I. Artemev, Artem A. Kuznetsov, Ilmur I. Nureev, Oleg G. Morozov, Rustem L. Galiullin</i>                                        |    |
| Stress State of an Elastic Transversal Isotropic Plate Weakened by a Circular Hole .....                                                  | 14 |
| <i>Damir Bautdinov, Ramilya Nezhmetdinova, Ramil Nezhmetdinov, Vladimir Bogdanov</i>                                                      |    |
| Intelligent Automation of Logistics Corridor Management Based on Machine Learning and<br>Multi-Agent Systems .....                        | 19 |
| <i>A.M. Borzenkov, A.A. Podberezkin, C.B. Pronin, A.V. Ostroukh, S. A. Kiselev</i>                                                        |    |
| Development of a Methodology for Acceptance Diagnostics of Objects with Asphalt Concrete Coatings .....                                   | 24 |
| <i>Maria A. Brezhneva, Yuri E. Vasiliev, Gennady G. Yagudaev, Kirill E. Shugaev, Maxim M. Nikitaev</i>                                    |    |
| Software Tuning of a Passenger Car Electronic Engine Control System to Improve Energy Efficiency .....                                    | 30 |
| <i>Igor D. Chaikin, Alexander B. Koudrin, Daria A. Makarova, Yury M. Furletov</i>                                                         |    |
| Textual Road Sign Interpretation Using Large Language Models .....                                                                        | 36 |
| <i>S.A. Chemisov, A.V. Keller, V.S. Ershov, Y.M. Furletov</i>                                                                             |    |
| Applied Aspects of Determining the Structural Damage Parameters of Objects Made of Dielectric and<br>Conductive Composite Materials ..... | 46 |
| <i>Boris Chichigin, Dmitry Malushin, Andrei Shumilin, Andrey Kokurov</i>                                                                  |    |
| On the Construction of the Root Closure of one Subgroup in Some Classes of Groups .....                                                   | 54 |
| <i>Irina Dobrynina</i>                                                                                                                    |    |
| Real Time Verification of the Mathematical Model of a Highway Truck's Fuel Consumption in<br>Relation to the Digital Terrain Model .....  | 59 |
| <i>Artem S. Dubrovskii, Sergey S. Shadrin, Alexander B. Koudrin</i>                                                                       |    |
| Air-Fuel Ratio Control Technique for Spark Ignition Engines Based on local linear Models .....                                            | 63 |
| <i>P. V. Dushkin, V. V. Kremnev, S. S. Khovrenok</i>                                                                                      |    |
| Methodology for Comparative Testing of Vehicles with Different Power Systems when Operating in<br>Delivery Services .....                 | 68 |
| <i>Ph.K. Dyakov, A.N. Andreev, M.V. Mitrokhina, M.A. Toporkov, E. Ph. Dyakov</i>                                                          |    |
| Development of a Continuous Monitoring System for Pedestrian and Microtransport Safety .....                                              | 74 |
| <i>Vitalij V. Gaevsij, Irina V. Odinkova</i>                                                                                              |    |
| Methodological Approaches to Assessing the Level and Quality of Infrastructure for Cycling and<br>Personal Mobility .....                 | 80 |
| <i>M. V. Gavriljuk, A. I. Markarov, A. M. Merkovich, E. A. Shalagina, A. A. Ryzhova</i>                                                   |    |

|                                                                                                                                                          |     |
|----------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| On the Problem of Traffic Forecasting Using Graph Neural Networks and Dynamic Adjacency Matrix .....                                                     | 86  |
| <i>Mikhail Gorodnichev</i>                                                                                                                               |     |
| Research Quality of Communication in Multiservice Telecommunication Networks .....                                                                       | 90  |
| <i>B.G. Ibrahimov</i>                                                                                                                                    |     |
| Comparative Analysis of the Legislative Framework for Regulating the Safety of Automated and Autonomous Vehicles in Advanced Countries .....             | 95  |
| <i>Andrey M. Ivanov, Daria A. Makarova, Artem S. Dubrovskii</i>                                                                                          |     |
| Electron Beam Ion Sources: Operating Principle, Two Stream Plasma Instability, and the Processes of Radiative Recombination .....                        | 100 |
| <i>Bushra Kak</i>                                                                                                                                        |     |
| Software and Hardware Optimization of an Optical Frequency Domain Reflectometry System .....                                                             | 105 |
| <i>D.A. Kambur, M.E. Belokrylov, Yu.A. Konstantinov, D. Claude, E.E. Totmina</i>                                                                         |     |
| Updating the Classification of Service Levels of the Road Network in the Context of Changes in the Structure of Population Mobility .....                | 109 |
| <i>Maria Y. Karelina, Roman A. Khalturin, Roman O. Sudorgin, Maxim G. Pletnev, Artem V. Podgorny</i>                                                     |     |
| Adaptive Thresholds for Driving Risk Assessment: A Bayesian Approach Integrating Telematics and Meteorological Data .....                                | 116 |
| <i>Roman A. Khalturin, Roman O. Sudorgin, Petr I. Smirnov, Grigory S. Mazlumyan</i>                                                                      |     |
| Hybrid Object Detection with Segment Anything Model Integration for Scalable Computer Vision Data Annotation .....                                       | 121 |
| <i>Kamil R. Kharrasov, Vadim M. Borzov, Marina S. Moseva</i>                                                                                             |     |
| Demonstration of the Influence of Inter-Pixel Spacing in a Terahertz Spatial Light Modulator on the Quality of Ghost Imaging .....                       | 125 |
| <i>Ildus Sh. Khasanov, Tatyana V. Blagova</i>                                                                                                            |     |
| Investigation of Acoustic Emission Parameters to Diagnose the Components Manufactured by the Selective Laser Sintering and Direct Laser Deposition ..... | 129 |
| <i>Igor Y. Kinzhagulov, Tatiana V. Basova</i>                                                                                                            |     |
| Transport Research Parameters Role in Electronic and Computer Technologies Modelling of Street and Roads Design .....                                    | 133 |
| <i>Tatiana K. Komarova, Alexey V. Kostsov, Nina T. Dedegkaeva, Astemir M. Tlekhugov, Aslan A. Kortiev</i>                                                |     |
| Study of Vehicle Gaps at Traffic Light Intersections in Medium-Sized City .....                                                                          | 138 |
| <i>Alexey V. Kostsov, Tatiana K. Komarova, Alan L. Kortiev, Lidiya K. Gutsunaeva</i>                                                                     |     |
| Contemporary Monitoring and Prospective Technologies for Transportation Infrastructure Management .....                                                  | 142 |
| <i>Andrey A. Kotov, Tatyana K. Komarova, Pavel I. Pospelov</i>                                                                                           |     |
| Client-Server Solution for Monitoring and Analyzing Road Surface Defects .....                                                                           | 146 |
| <i>Sergey Kozyrev, Ksenia Polyantseva</i>                                                                                                                |     |
| The Method for Forecasting a Coefficient of Tire Adhesion Based on Surface Image Analysis .....                                                          | 151 |
| <i>S. R. Kristalniy, M. A. Toporkov</i>                                                                                                                  |     |

|                                                                                                                                                              |     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Experimental Study of Energy Efficient Control System for Autonomous Vehicles with Gasoline and Electric Drive .....                                         | 156 |
| <i>Alexander B. Kudrin, Daria A. Makarova, Yury M. Furletov</i>                                                                                              |     |
| Conducting International Professional Competitions in the Design and Configuration of Local Computer Networks among Students of Technical Universities ..... | 161 |
| <i>A.Y. Kudryashova, I.S. Kretova, A.V. Ermakova</i>                                                                                                         |     |
| Creation of Digital Agents for Language Models of the Transport and Road Complex .....                                                                       | 166 |
| <i>N.G. Kuftinova, A.V. Ostroukh, C.B. Pronin, A.A. Podberezkin, M.I. Ismoilov</i>                                                                           |     |
| A Hybrid Approach to Traffic Flow Analysis: Metric-Based Activation and Neural Refinement in ViDeS 2.0 .....                                                 | 173 |
| <i>Ivan A. Kuteynikov, Marina V. Yashina, Alexander G. Tatashev, Anatoliy N. Lebedev, Nina V. Kuzmina</i>                                                    |     |
| Electric Motor Brushes as Smart Friction Units of Automotive Systems with Embedded Addressed Fiber Optic Sensors .....                                       | 179 |
| <i>Artem A. Kuznetsov, Ilnur I. Nureev, Vadim I. Artemiev, Oleg G. Morozov, Rustem L. Galiullin</i>                                                          |     |
| Application of the Concept of Advanced Higher Education in the Training of Electronics and Electrical Engineers .....                                        | 183 |
| <i>Tatyana A. Kuzovkova, Maria M. Sharavova, Olga I. Sharavova, Polina A. Zholtikova</i>                                                                     |     |
| Application of Artificial Intelligence and Objective Assessment of Students' Knowledge when Studying a Course of Higher Mathematics .....                    | 189 |
| <i>A.R. Lakernik, A.M. Raitsin</i>                                                                                                                           |     |
| Research of Methods for Forecasting Dynamically Changing Data in Solving Applied Problems .....                                                              | 194 |
| <i>Yuri Leokhin, Timur Fatkhulin, Svetlana Dymkova</i>                                                                                                       |     |
| A Unified Analytical Framework for Systematically Comparing Classical and aI Approaches in Radar Systems .....                                               | 206 |
| <i>Ekaterina A. Lopukhova, Grigory S. Voronkov, Elizaveta P. Topolskaya</i>                                                                                  |     |
