# TABLE OF CONTENTS

|                                                                                                                                |     |
|--------------------------------------------------------------------------------------------------------------------------------|-----|
| Investigating the Resiliency of the Framing Effect in Information Visualization .....                                          | 1   |
| <i>Alexandra Maroco, Daniel Gonçalves, Sandra Gama, Tomás Alves</i>                                                            |     |
| A Virtual Reality Game to Support Cognitive Stimulation in Elderly People with Alzheimer's and Mild Dementia .....             | 9   |
| <i>Alice Barbosa, Henrique Melro, Rodrigo Pacheco, Raquel Simões De Almeida, Bruno Teixeira, Vítor J. Sá</i>                   |     |
| Data Analysis and Visualization Practices: Purposes and Obstacles for User-Centered Solutions .....                            | 13  |
| <i>Ana Silva, Alexandra Ribeiro, Rosane Sampaio, Emanuel Sousa, Iara Margolis</i>                                              |     |
| Immersive Editing of 360° Video Experiences .....                                                                              | 21  |
| <i>Teresa Matos, André Esteves, Rui Rodrigues</i>                                                                              |     |
| RepliCo: Remote Collaboration Over 3D Content in DeskVR Through Miniature Replicas .....                                       | 29  |
| <i>Nuno Alves, Daniel Mendes, Rui Rodrigues</i>                                                                                |     |
| Adaptable and Customizable Walkable Virtual Environments in Small Spaces: Generating a Virtual Reality Museum Experience ..... | 37  |
| <i>Pedro A. Ferreira, Ana Rita Rebelo, Rui Nobrega, Nuno Correia</i>                                                           |     |
| BuildInclusive: A Web Platform for Accessible and Inclusive Digital Design and Development .....                               | 45  |
| <i>Sara Gorecka Martins, Pedro Garruço, Vivian Genaro Motti, Paula Alexandra Silva</i>                                         |     |
| Greencanvas: Framework for Sketch-Based 3D Plant Modelling .....                                                               | 50  |
| <i>Ana Martins, Anabela Marto, Rita Ascenso, Roberto Ribeiro, Nuno Rodrigues, Alexandrino Gonçalves</i>                        |     |
| SAGE: A Tool for Intuitive Design of Shape Grammars .....                                                                      | 55  |
| <i>Mariana Guerreiro, Pedro Santana, Filipe Santos</i>                                                                         |     |
| Automating Code Generation from User Interface Prototypes .....                                                                | 63  |
| <i>João Peixoto Castro, José Creissac Campos</i>                                                                               |     |
| Developing Tools to Measure Perceptual Speed and Visual Working Memory .....                                                   | 71  |
| <i>Carolina Pereira, Maria Campos, Teresa Correia, João Moreira, Sandra Gama, Tomás Alves</i>                                  |     |
| Procedural Floor Plan Generation for Simulations: Rooms and Corridors on Demand .....                                          | 79  |
| <i>Sofia Monteiro, Rui Nóbrega</i>                                                                                             |     |
| Towards Augmented XR Movement and Interaction Confidence Across Substitutional Reality .....                                   | 84  |
| <i>Guilherme R. Figueira, Rui Nóbrega</i>                                                                                      |     |
| Materializer: Material Changing Haptics for VR .....                                                                           | 92  |
| <i>Henrique Ribeiro, Daniel Mendes, Rui Rodrigues</i>                                                                          |     |
| XR Menu Interaction: User Study of Hand and Controller-Based Designs .....                                                     | 100 |
| <i>João Teles, Inês Cruz, Paulo Dias, Stefan W. Kauling, Beatriz Santos</i>                                                    |     |
| Enhancing Immersive Training: How Environmental Context Influences User Experience and Performance .....                       | 107 |
| <i>Rui Machado, Ricardo Rodrigues, Guilherme Gonçalves, João Barroso, Miguel Melo, Maximino Bessa</i>                          |     |

|                                                                                                |     |
|------------------------------------------------------------------------------------------------|-----|
| Enhancing Multiplayer Gaming Via per-Player Visual Theme Selection .....                       | 115 |
| <i>Diogo Gil, Pedro Mariano, Pedro Santana</i>                                                 |     |
| On the Benefits of Teaching and Learning Symmetries Using AR and VR .....                      | 120 |
| <i>João Guerreiro, Miguel Sales Dias, José Barros, Rosário D. Laureano, Patrícia Costa</i>     |     |
| Digital Avatars: Developing and Applying Customised Metahumans .....                           | 128 |
| <i>Carolina Pereira, Anabela Marto, Roberto Ribeiro, Alexandrino Gonçalves, Nuno Rodrigues</i> |     |
| Using Pervasive Augmented Reality for Shop Floor Inspection Routines .....                     | 133 |
| <i>Paulo Dias, Álvaro Freixo, Bernardo Marques, Tiago Araújo, Beatriz Sousa Santos</i>         |     |
