# TABLE OF CONTENTS

|                                                                                                                                                                   |     |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| ARBoard: Augmented Reality for PCB Operations in Industry 5.0 .....                                                                                               | 1   |
| <i>Giorgio Insinga, Francesco Anzoino, Pietro Bella, Paolo Bernardi, Luca Filippetti, Reem Khattar</i>                                                            |     |
| Realistic Avatar Reconstruction and Animation from Monocular Video for the Metaverse .....                                                                        | 8   |
| <i>Mengyuan Wang, Haopeng Wang, Abdulmotaleb El Saddik</i>                                                                                                        |     |
| Enhancing Digital Heritage Experiences: Evaluating Fine-Tuned LLM Integration within a<br>Cyber-Physical-Social Virtual Museum System .....                       | 17  |
| <i>Louis Nisiotis, Nikita Markov, Charalambos Nikolaou, Aimilios Hadjiliasi, Marios Raptopoulos</i>                                                               |     |
| VR Training and Authoring Tool for Industrial Training Using Virtual Choreographies .....                                                                         | 27  |
| <i>Anibal Ferreira, Fernando Cassola</i>                                                                                                                          |     |
| Geometric Algebra Meets Large Language Models: Instruction-Based Transformations of Separate<br>Meshes in 3D, Interactive and Controllable Scenes .....           | 36  |
| <i>Prodromos Kolyvakis, Manos Kamarianakis, George Papagiannakis</i>                                                                                              |     |
| mmWave-Based Crowd Sensing for Metaverse Applications .....                                                                                                       | 46  |
| <i>Marios Raptopoulos, Iacovos Ioannou, Louis Nisiotis</i>                                                                                                        |     |
| XRfab: Immersive Cleanroom Training with Digital Twins and XR for Semiconductor Manufacturing .....                                                               | 55  |
| <i>Mayank Chadha, Guodong Chen, Barath Balamurugan, Zhewen Yang, Alok Mishra, Mallesh Dasari</i>                                                                  |     |
| Evaluating an AI Teaching Assistant in VR Physics Education: A Case Study of User Experience and<br>Effectiveness .....                                           | 62  |
| <i>Shawheen Alipour, Leslie Coward, Justin Burris, Bishnu Karki, Tony Liao</i>                                                                                    |     |
| Deep Learning-Based Visual Fatigue Detection Using Eye Gaze Patterns in VR .....                                                                                  | 69  |
| <i>Numan Zafar, Johnathan Locke, Shafique Ahmad Chaudhry</i>                                                                                                      |     |
| Mentalic Net: Development of RAG-Based Conversational AI and Evaluation Framework for Mental<br>Health Support .....                                              | 77  |
| <i>Anandi Dutta, Shivani Mruthyunjaya, Jessica Saddington, Kazi Sifatul Islam</i>                                                                                 |     |
| Implementing Immersive Analytics for Digital Twins in Data Centers .....                                                                                          | 85  |
| <i>Aditya Dhakal, Pavana Prakash, Rolando Pablo Hong Enriquez, Tim Dykes, Sedrick Bouknight<br/>Pedro Bruel, Viyom Mittal, Gourav Rattihalli, Dejan Milojicic</i> |     |
| Inside the Immersive Mind: Brain Activity During Dynamic VR Interaction Using Mobile<br>Neuroimaging .....                                                        | 90  |
| <i>Cassandra M. Eng, Selena R. Niemi, Howard L. Fung, Rihui Li, Gordon Wetzstein, Allan L. Reiss</i>                                                              |     |
| Community Analysis of Social Virtual Reality Based on Large-Scale Log Data of a Commercial<br>Metaverse Platform .....                                            | 95  |
| <i>Hiroto Tsutsui, Takefumi Hiraki, Yuichi Hiroi, Shoichi Hasegawa</i>                                                                                            |     |
| Implementation and Application of Multi-Format 3D Data Integration in a Cross-Device Commercial<br>Metaverse Platform .....                                       | 104 |
| <i>Masanori Ibara, Yuichi Hiroi, Takushi Kamegai, Takefumi Hiraki</i>                                                                                             |     |
| Reliable Fail Operational Multicore Microcontrollers for Metaverse Enabled Autonomous Vehicles .....                                                              | 114 |
| <i>M. Naldi, M. Omaña, C. Metra, I. S. Troja, V-M. Sharma</i>                                                                                                     |     |

|                                                                                                                                                      |     |
|------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| FPGA Implemented RO-Based PUFs for User Authentication in the Metaverse .....                                                                        | 121 |
| <i>M. Grossi, M. Omaña, C. Metra, A. Acquaviva</i>                                                                                                   |     |
| On the use of Virtual Agents in EduVerse: A Survey of Embodied Virtual Agent Types and Future<br>Research Directions in Edu Verse Applications ..... | 129 |
| <i>Aimilios Hadjiliasi, Louis Nisiotis, Irene Polycarpou</i>                                                                                         |     |
| MetaFed: Advancing Privacy, Performance, and Sustainability in Federated Metaverse Systems .....                                                     | 139 |
| <i>Muhammet Anil Yagiz, Zeynep Sude Cengiz, Polat Goktas</i>                                                                                         |     |
| Ethics by Design: Towards Inclusive, Accessible and Safe Metaverse for Immersive Learning .....                                                      | 147 |
| <i>Ekaterina Prasolova-Førland</i>                                                                                                                   |     |
| Web Wide Worlds: An Open Framework for Building and Exploring Persistent Digital Spaces .....                                                        | 149 |
| <i>Dylan Z. Baker</i>                                                                                                                                |     |
| Generative AI-Powered Digital Twins in Aviation: A Framework for Intelligent Simulation and<br>Decision Making .....                                 | 150 |
| <i>Amit Dubey</i>                                                                                                                                    |     |
| Towards Internet of Realities - Vision and Challenges .....                                                                                          | 157 |
| <i>Takuro Yonezawa</i>                                                                                                                               |     |
| Immersive Governance: Real-World Use Cases for Metaverse Technologies in the Public Sector .....                                                     | 158 |
| <i>Manali Sharma</i>                                                                                                                                 |     |
| Weather Synchronization in Digital Twin Environments for Shared VR Experience Using Commercial<br>Metaverse Platforms .....                          | 159 |
| <i>Masanori Ibara, Yuichi Hiroi, Takushi Kamegai, Yusuke Masubuchi, Kazuki Matsutani, Megumi Zaizen<br/>Junya Morita, Takefumi Hiraki</i>            |     |
