Technical Papers

AI and Society

Rule-Based Moral Principles for Explaining Uncertainty in Natural Language Generation	1
<i>Zahra Atf (Faculty of Business and Information Technology, Canada) and Peter R. Lewis (Faculty of Business and Information Technology, Canada)</i>	
Improving Fairness by Debiasing Intersectional Biases in Contextual AI Models	11
<i>Nicolas Abule (Toronto Metropolitan University, Canada) and Glaucia Melo (Toronto Metropolitan University, Canada)</i>	

Enhancing Machine Learning in Abusive Language Detection with Dataset Integration	17
<i>Samaneh Hosseini Moghaddam (Vector Institute, Canada; University of Toronto, Canada), Kelly Lyons (University of Toronto, Canada), Cheryl Regehr (University of Toronto, Canada), Frank Rudzicz (Vector Institute, Canada; Dalhousie University, Canada), Vivek Goel (University of Waterloo, Canada), and Kaitlyn Regehr (University College London, UK)</i>	
Beyond Monolithic LLMs: Modular AI for Online Harassment Detection	24
<i>Enas Altarawneh (York University, Canada), Kshitiz Pokhrel (Toronto Metropolitan University, Canada), Deeksha Chandola (York University, Canada), Glaucia Melo (Toronto Metropolitan University, Canada), and Karen Soldatic (Toronto Metropolitan University, Canada)</i>	

The User and AI

Teacher-Driven Selective Fine-Tuning for LLMs	30
<i>Likhil Babu Pallati (Toronto Metropolitan University, Canada), Rick Valenzano (Toronto Metropolitan University, Canada), and Glaucia Melo (Toronto Metropolitan University, Canada)</i>	
Quiet Interaction: Designing a DHH Accessible Home Environment with Mixed Reality AI and IoT	36
<i>Wentian Zhu (OCAD University, Canada), Alexis Morris (OCAD University, Canada), and Haru Hyunkyung Ji (OCAD University, Canada)</i>	
Lumen: Developer Agency Through Transparent Context Control in AI-Assisted Programming	46
<i>Nakul Goel (Toronto Metropolitan University, Canada) and Glaucia Melo (Toronto Metropolitan University, Canada)</i>	
Can We Trust the AI Pair Programmer? Copilot for API Misuse Detection and Correction	56
<i>Saikat Mondal (University of Saskatchewan, Canada), Chanchal K. Roy (University of Saskatchewan, Canada), Hong Wang (University of Saskatchewan, Canada), Juan Arguello (University of Saskatchewan, Canada), and Samantha Mathan (University of Saskatchewan, Canada)</i>	

Applications of AI

ChatAcadien: A RAG-LLM-Based Chatbot for Exploring Acadian Genealogy	62
<i>Rayen Ghali (University of Moncton, Canada) and Sid Ahmed Selouani (University of Moncton, Canada)</i>	
Designing Large Language Models for Specific Domains: A Case Study on Live Microbe Foods for Precision Nutrition	68
<i>Paraskevi Massara (University of Toronto, Canada), Stephanie Saab (University of Toronto, Canada), Baran Aghdasi (University of Toronto, Canada), Charles D.G. Keown-Stoneman (University of Toronto, Canada), Jonathon L. Maguire (University of Toronto, Canada), Catherine S. Birken (The Hospital for Sick Children, Canada), Mary L'Abbe (University of Toronto, Canada), and Elena Comelli (University of Toronto, Canada)</i>	

An Explainable Data Depth-Based Method in Anti-Money Laundering (AML) Domain	74
<i>Hanieh Ghabelialla (University of New Brunswick, Canada), David Bremner (University of New Brunswick, Canada), and Rasoul Shahsavari (University of New Brunswick, Canada)</i>	
CARGO: A Framework for Confidence-Aware Routing of Large Language Models	80
<i>Amine Barrak (Oakland University, USA), Yosr Fourati (Oakland University, USA; Mediterranean Institute of Technology (MEDTECH), Tunisia), Michael Olchawa (Oakland University, USA), Emna Ksontini (University of North Carolina Wilmington, USA), and Khalil Zoghalmi (Oakland University, USA)</i>	
Life Event Detection in Bank Conversations: An Industry Case Study	90
<i>Victoria Armstrong (Queen's University, Canada), Rafal Orłowski (Scotiabank, Canada), Pooya Sobhe Bidari (Scotiabank, Canada), and Christian Muise (Queen's University, Canada)</i>	
Acoustic-Based Vehicle Detection and Classification on Malaysian Roads	96
<i>Hafiz Haziq Amizi (Universiti Teknologi Malaysia, Malaysia), Muhammad Omair Butt (Lakehead University, Canada), Mokhtar Harun (Universiti Teknologi Malaysia, Malaysia), Rozeha A. Rashid (Universiti Teknologi Malaysia, Malaysia), and Waleed Ejaz (Lakehead University, Canada)</i>	
SynthLogAI: Generative AI for Synthetic Linux Log Generation and Evaluation	102
<i>Hridoy Rahman (Brock University, Canada), Naser Ezzati-Jivan (Brock University, Canada), and Blessing Ogbuokiri (Brock University, Canada)</i>	

Cloud Computing and Microservices

GRASP: A Graph-Based Proactive Framework for SLA-Breach Prediction in Cloud-Native Microservices	108
<i>sara fehersti (York University, Canada), Farhoud Jafari Kaleibar (York University, Canada), and Marin Litoiu (York University, Canada)</i>	
Key Considerations for Auto-Scaling: Lessons from Benchmark Microservices	118
<i>Majid Dashtbani (University of Waterloo, Canada) and Ladan Tahvildari (University of Waterloo, Canada)</i>	
A Comparative Study of Feature Representations for CNN-Based Anomaly Detection in Microservices	124
<i>Snehith Jonnaikode (California Polytechnic State University, USA), Sumona Mukhopadhyay (California Polytechnic State University, USA), and Joydeep Mukherjee (California Polytechnic State University, USA)</i>	

Code Generation and Translation

A Fully Automated Agent for End-to-End Code Translation and Validation	134
<i>Eray Erer (Boğaziçi University, Türkiye), Aysun Bozanta (Boğaziçi University, Türkiye), Turgay Aytac (Toronto Metropolitan University, Canada), and Ayşe Basar (Toronto Metropolitan University, Canada)</i>	

Generating Data Engineering Code Using LLMs	142
<i>Jialin Yang (University of Calgary, Canada), Bart Maciszewski (University of Calgary, Canada), Saviour Owolabi (University of Calgary, Canada), Ahmad Abdellatif (University of Calgary, Canada), Henry Leung (University of Calgary, Canada), and Steve Drew (University of Calgary, Canada)</i>	
NL in the Middle: Code Translation with LLMs and Intermediate Representations	152
<i>Chi-en Amy Tai (University of Waterloo, Canada), Pengyu Nie (University of Waterloo, Canada), Lukasz Golab (University of Waterloo, Canada), and Alexander Wong (University of Waterloo, Canada)</i>	

Computer Science Education

Detecting Explicit and Implicit Gender Bias in Software Engineering Education	158
<i>Fatemeh Sadat Mirshafiee (Carleton University, Canada) and Nafiseh Kahani (Carleton University, Canada)</i>	
Performance and Cost Analysis in Domain-Specific Essay Scoring with Large Language Models ...	N/A
<i>Mucahit Cevik (Toronto Metropolitan University, Canada), Raghav Gaur (Toronto Metropolitan University), and Sojin Lee (Blees Technologies Inc.)</i>	
Evaluating Generative AI for CS1 Code Grading: Direct vs Reverse Methods	178
<i>Ahmad Memon (University of British Columbia, Canada) and Abdallah Mohamed (University of British Columbia, Canada)</i>	

Cybersecurity

Survey on Kubernetes Misconfiguration Vulnerabilities and Best Practices	184
<i>Majid Dashtbani (University of Waterloo, Canada), Ryan Zheng He Liu (University of Waterloo, Canada), and Ladan Tahvildari (University of Waterloo, Canada)</i>	
Breaking Robustness: Free-Rider Attacks Against Contribution Evaluation in Federated Learning	194
<i>Sophia Haoran Chen (Wilfrid Laurier University, Canada), Kaiyu Li (Wilfrid Laurier University, Canada), Na Ta (Renmin University of China, China), and Yong Wang (Tsinghua University, China)</i>	
Intrinsic Defenses Against Backdoor Attacks in High-Order Graph Neural Networks via Semantic and Outlier-Guided Subgraph Policies	200
<i>Abhijeet Dhali (Brock University, Canada) and Renata Dividino (Brock University, Canada)</i>	
Securing LLM-Generated Embedded Firmware through AI Agent-Driven Validation and Patching	210
<i>Seyed Moein Abtahi (Ontario Tech University, Canada) and Akramul Azim (Ontario Tech University, Canada)</i>	

An Empirical Evaluation of LLM-Based Approaches for Code Vulnerability Detection: RAG, SFT, and Dual-Agent Systems	219
<i>Md Hasan Saju (Ontario Tech University, Canada), Maher Muhtadi (Ontario Tech University, Canada), and Akramul Azim (Ontario Tech University, Canada)</i>	
SynRAG: A Large Language Model Framework for Executable Query Generation in Heterogeneous SIEM Systems	225
<i>Md Hasan Saju (Ontario Tech University, Canada), Austin Page (GlassHouse Systems Inc., Canada), Akramul Azim (Ontario Tech University, Canada), Jeff Gardiner (GlassHouse Systems Inc., Canada), Farzaneh Abazari (GlassHouse Systems Inc., Canada), and Frank Eargle (GlassHouse Systems Inc., Canada)</i>	
Data Augmentation with RNN-Driven CGANs for RF Jamming Intrusion Detection	231
<i>Brandon Fernandez Ling (Brock University, Canada.) and Glaucio H.S. Carvalho (Brock University, Canada)</i>	

Databases

Semantic Relational Types of SQL Queries and Applications to AI Agent Tool Selection	237
<i>Limin Ma (Faculty of Science), Bohdan Synytskyi (Faculty of Science), Ying Zhu (Ontario Tech University, Canada), and Ken Pu (Faculty of Science)</i>	
Jackpine3D: a Benchmark for Evaluating 3D Spatial Database Features	247
<i>Mohammadmasoud Shabanijou (University of New Brunswick, Canada), Zhulian Jia (University of New Brunswick, Canada), Suprio Ray (University of New Brunswick, Canada), Rongxing Lu (Queen's University, Canada), and Pulei Xiong (National Research Council (NRC), Canada)</i>	

Data Analysis

Benchmarking and Evaluating Time Series Databases for Appliance-Level Energy Consumption Data	257
<i>Simin Shehbaz (University of New Brunswick, Canada), Mohammad Mehabadi (University of New Brunswick, Canada), and Kenneth B. Kent (University of New Brunswick, Canada)</i>	
Optimizing the Data Migration Process Using Machine Learning Techniques	263
<i>Xingjian Mao (York University, Canada), Aijun An (York University, Canada), Xiaohui Yu (York University, Canada), and Dariusz Jania (IBM Cloud and Cognitive Software, Poland)</i>	
A Transformer-Augmented TCN for Modeling Complex Patterns in Retail Sales Data	269
<i>Md Robiuddin (Trent University, Canada), Muhammad Iftekher Chowdhury (Western University Instacart, Canada), and Quazi Abidur Rahman (Trent University, Canada)</i>	

Edge Computing and Cyber-Physical Systems

A-MARL: Agile Multi-Agent Reinforcement Learning for Soft Real-Time Task Scheduling in Edge Computing	275
<i>Amin Awan (Ontario Tech University, Canada), Akramul Azim (Ontario Tech University, Canada), and Qusay H. Mahmoud (Ontario Tech University, Canada)</i>	
Detection and Prevention of Malicious Data Manipulation Attacks in Microgrids	285
<i>Shabnam Sadari Oskouei (University of New Brunswick, Canada), Nethmi Hettiarachchi (University of New Brunswick, Canada), Arash Kariznovi (University of New Brunswick, Canada), and Kalikinkar Mandal (University of New Brunswick, Canada)</i>	
GrIIM: Graph-Based IED Impact Assessment using MCDM	295
<i>Kishore Sreedharan (University of New Brunswick, Canada), Kwasi Boakye-Boateng (University of New Brunswick, Canada), Hossein Shokouhinejad (University of New Brunswick, Canada), Mahdi Abrishami (University of New Brunswick, Canada), and Shabnam Sadari Oskouei (University of New Brunswick, Canada)</i>	

Energy and Vehicles

Energy Consumption Analysis of Large Language Models Across CPU and GPU Using Diverse Metric Types	301
<i>Tong Zhang (Brock University, Canada), Leila Tahmooresnejad (Brock University, Canada), and Naser Ezzati-Jivan (Brock University, Canada)</i>	
Pattern-Driven and Stochastic Generation of Energy Time Series via Differentiable Simulation	311
<i>Mohammad Mehabadi (University of New Brunswick, Canada), Simin Shehbaz (University of New Brunswick, Canada), Bhavani Sai Prasad Addala (University of New Brunswick, Canada), and Kenneth B. Kent (University of New Brunswick, Canada)</i>	
Energy Load Forecasting for OCPP-Compliant EV Charging Infrastructure Using Machine Learning	317
<i>Hyon Lee (Ontario Tech University, Canada) and Akramul Azim (Ontario Tech University, Canada)</i>	
JETROS: A Scalable Robotic Testbed for Experimental Evaluation of Algorithms for Cooperative Vehicle Platooning	323
<i>Francisca Donoso (Universidad Técnica Federico Santa María, Chile), Nelson Salvador (Universidad Técnica Federico Santa María, Chile), Gonzalo Carvajal (Universidad Técnica Federico Santa María, Chile), and Akramul Azim (Ontario Tech University, Canada)</i>	

Performance

AttentiveDRL: Fair and Efficient GPU Job Scheduling via Dual-Agent RL	329
<i>Yiming Shao (York University, Canada), Aijun An (York University, Canada), Hajer Ayadi (York University, Canada), Hao Zhou (IBM Canada, Canada), and Michael Feiman (IBM Canada, Canada)</i>	

Anomaly Detection in Time Series Data: A Comparative Study of Time-Series Clustering and Recurring Neural Networks	335
<i>Wejdene Haouari (York University, Canada), Marios Fokaefs (York University, Canada), Michael Harrison (IBM, Canada), and Eugene Kharlamov (IBM, Canada)</i>	

Leveraging Symbolic Encoding for Performance Anomaly Classification in Dynamic IoT Pipelines	341
<i>Maanav Patel (California Polytechnic State University, USA), Sumona Mukhopadhyay (California Polytechnic State University, USA), and Joydeep Mukherjee (California Polytechnic State University, USA)</i>	

Programming & Code Analysis

Efficient Pointer Analysis via Def-Use Graph Pruning	351
<i>Jiaqi He (University of Alberta, Canada) and Karim Ali (NYU Abu Dhabi, UAE)</i>	

Efficient Compilation of Algorithms into Compact Linear Programs	361
<i>Shermin Khosravi (University of New Brunswick, Canada) and David Bremner (University of New Brunswick, Canada)</i>	

Design, Implementation and Evaluation of a Novel Programming Language Topic Classification Workflow	367
<i>Michael Zhang (Queen's University, Canada), Yuan Tian (Queen's University, Canada), and Mariam Guizani (Queen's University, Canada)</i>	

A Multi-Table Approach to Floating-Point Function Approximation	373
<i>Lucas Matthew Dutton (McMaster University, Canada), Christopher Kumar Anand (McMaster University, Canada), Robert Enenkel (IBM Canada, Canada), and Silvia Melitta Muller (IBM Germany, Germany)</i>	

Software Development

Establishing Traceability between Release Notes & Software Artifacts: Practitioners' Perspectives	379
<i>Sristy Sumana Nath (University of Saskatchewan, Canada), Banani Roy (University of Saskatchewan, Canada), and Munima Jahan (Thompson River University, Canada)</i>	

ChatGPT for Code Refactoring: Analyzing Topics, Interaction, and Effective Prompts	389
<i>Eman Abdullah AlOmar (Stevens Institute of Technology, USA), Luo Xu (Stevens Institute of Technology, USA), Sofia Martinez (Stevens Institute of Technology, USA), Anthony Peruma (University of Hawaii, USA), Mohamed Wiem Mkaouer (University of Michigan - Flint, USA), Christian Newman (Rochester Institute of Technology, USA), and Ali Ouni (ETS Montreal, University of Quebec, Canada)</i>	

Can AI Build Systems? An Exploratory Study on Generating Software Architecture with LLMs	399
<i>Marios Fokaefs (York University, Canada), Hashim Khan (York University, Canada), and Borna Ahmadzadeh (York University, Canada)</i>	

Issue Prioritization in Agile Development through the Lens of Constraint Solving	409
<i>Tianna-Lee Salmon (SE+AI Research Lab, Faculty of Computer Science, University of New Brunswick, Canada), Dawn MacIsaac (Faculty of Engineering, University of New Brunswick, Canada), and Francis Palma (SE+AI Research Lab, Faculty of Computer Science, University of New Brunswick, Canada)</i>	
An Insight into the Technical Debt-Fix Trade off in Software Backporting	419
<i>Jarin Tasnim (University of Saskatchewan, Canada), Debasish Chakroborti (University of Saskatchewan, Canada), Chanchal K. Roy (University of Saskatchewan, Canada), and Kevin A. Schneider (University of Saskatchewan, Canada)</i>	
Pushing Feelings: Emotion and Sentiment in Software Commit Messages	429
<i>Krishno Dey (University of New Brunswick, Canada), Jagannath Singh (Kalinga Institute of Industrial Technology, India), Hung Cao (University of New Brunswick, Canada), and Francis Palma (University of New Brunswick, Canada)</i>	
Workarounds in Software Forms: A User Study	439
<i>MohammadAmin Zaheri (Université de Montréal, Canada), Michalis Famelis (Université de Montréal, Canada), and Eugene Syriani (Université de Montréal, Canada)</i>	
Revisiting Thread Disentanglement in Technical Chat with Fine-Tuned LLMs and Graph-Based Clustering	448
<i>Alex Aselstynne (Queen’s University, Canada) and Mariam El Mezouar (Royal Military College of Canada, Canada)</i>	
Understanding the Issue Types in Open Source Blockchain-Based Software Projects with the Transformer-Based BERTopic	454
<i>Md Nahidul Islam Opu (University of Manitoba, Canada), Shahidul Islam (University of Manitoba, Canada), Sara Rouhani (University of Manitoba, Canada), and Shaiful Chowdhury (University of Manitoba, Canada)</i>	

Software Requirements

Multi-Label Ambiguity Detection in Software Requirements using Language Models	464
<i>Paniz Oghabi (Carleton University, Canada) and Nafiseh Kahani (Carleton University, Canada)</i>	
Automated Non-Functional Requirements Generation in Software Engineering with Large Language Models: A Comparative Study	474
<i>Jomar Thomas Almonte (The Pennsylvania State University, USA), Santhosh Anitha Boominathan (The Pennsylvania State University, USA), and Nathalia Nascimento (The Pennsylvania State University, USA)</i>	
Adaptive Fine-Tuning for Multiclass Classification over Software Requirement Data	484
<i>Savas Yildirim (Istanbul Bilgi University, Turkey), Mucahit Cevik (Toronto Metropolitan University, Canada), and Ayse Basar (Toronto Metropolitan University, Canada)</i>	

Supervised Semantic Similarity-Based Conflict Detection Algorithm: S3CDA	494
<i>Garima Malik (Toronto Metropolitan University, Canada), Mucahit Cevik (Toronto Metropolitan University, Canada), Ayşe Başar (Toronto Metropolitan University, Canada), and Devang Parikh (IBM, Canada)</i>	
Reverse Engineering User Stories from Code using Large Language Models	504
<i>Mohamed Ouf (Queen's University, Canada), Haoyu Li (Queen's University, Canada), Michael Zhang (Queen's University, Canada), and Mariam Guizani (Queen's University, Canada)</i>	
Towards Improving the Reliability of LLMs in Requirements Engineering with Structured Confidence and Tag Governance	510
<i>Dvip Patel (Ontario Tech University, Canada) and Sanaa Alwidian (Ontario Tech University, Canada)</i>	
From Requirements to Models: A Case Study of Large Language Models on Epidemiological Modeling	516
<i>Aaditya Karamchandani (York University, Canada), Fatemeh Seyeddabbaghi (York University, Canada), and Marios Fokaefs (York University, Canada)</i>	

Software Testing and Bug Fixing

Detecting and Fixing API Misuses of Data Science Libraries Using Large Language Models	522
<i>Akalanka Galappaththi (University of Alberta, Canada), Francisco Ribeiro (New York University Abu Dhabi, United Arab Emirates), and Sarah Nadi (New York University Abu Dhabi, United Arab Emirates)</i>	
User Acceptance Test Case Generation using LLMs	532
<i>Siddhesh Varpe (Department of Computer Science and Engineering, Punjab Engineering College (Deemed to be University), Chandigarh, India), Uttam Mittal (Department of Computer Science and Engineering, Punjab Engineering College (Deemed to be University), Chandigarh, India), Rajesh Kumar Bhatia (Department of Computer Science and Engineering, Punjab Engineering College (Deemed to be University), Chandigarh, India), and Ashpreet Kaur (Department of Computer Science and Engineering, Punjab Engineering College (Deemed to be University), Chandigarh, India)</i>	
Optimizing Test Case Reduction in CI/CD Pipelines using Integer Linear Programming	539
<i>Yara Mahmoud (Ontario Tech University, Canada), Asma Fariha (Ontario Tech University, Canada), Akramul Azim (Ontario Tech University, Canada), Ramiro Liscano (Ontario Tech University, Canada), Kevin Smith (IBM United Kingdom Limited, United Kingdom), Yee-Kang Chang (IBM Canada Ltd., Canada), Gkerta Seferi (IBM United Kingdom Limited, United Kingdom), and Qasim Tauseef (IBM United Kingdom Limited, United Kingdom)</i>	

Quantum Computing & Robotics

Introducing UNIQuE: The Unconventional Noiseless Intermediate Quantum Emulator	545
<i>Reece Robertson (UMBC, USA) and Dan Ventura (Brigham Young University, USA)</i>	

A Proactive Approach for Detecting Post-Quantum Cryptographic Malware with Machine Learning	555
<i>Michael O. Mills (University of New Brunswick, Canada) and Ali A. Ghorbani (University of New Brunswick, Canada)</i>	
Coherent Optical Quantum Computing-Aided Resource Optimization for Transportation Digital Twin Construction	561
<i>Huixiang Zhang (Lakehead University, Canada) and Mahzabeen Emu (Memorial University of Newfoundland, Canada)</i>	
Towards a Small Behavioral Model (SBM) for Theomorphic Robots	567
<i>Marco Túlio Silva (Federal University of Lavras, Brazil), Rodrigo Duarte (Federal University of Lavras, Brazil), Lucas Moreira (Federal University of Lavras, Brazil), André Salgado (Federal University of Lavras, Brazil), Young Yoon (Hongik University, Korea), and Patrick Hung (Ontario Tech University, Canada)</i>	

Poster Papers

Kantian–Utilitarian XAI: Meta-Explained	573
<i>Zahra Atf (Ontario Tech University, Canada) and Peter R. Lewis (Ontario Tech University, Canada)</i>	
Reinforcement Learning-Driven Nutrition Coaching	575
<i>Priyamvada Tripathi (Durham College, Canada), Nikhil Gupta (Metabolism Institute, Canada), and Kanav Kahol (Kagen AI, USA)</i>	
RevMine: An LLM-Assisted Tool for Code Review Mining and Analysis Across Git Platforms	577
<i>Samah Kansab (École de technologie supérieure (ÉTS), Canada), Francis Bordeleau (École de technologie supérieure (ÉTS), Canada), and Ali Tizghadam (TELUS, Canada)</i>	
Multimodal AI for Body Fat Estimation: Computer Vision and Anthropometry with DEXA Benchmarks	579
<i>Rayan ALDajani (York University, Canada)</i>	
NeuroStack: A Agentic AI Platform for Enterprise	581
<i>Kanav Kahol (Intuitive Cloud Inc, Canada), Navid Kalantari (Intuitive Cloud Inc, Canada), and Mir Ali (Intuitive Cloud Inc, Canada)</i>	
Deploying AI Models in Resource-Constrained Environments	583
<i>Yuxin Su (York University, Canada) and Marios Fokaefs (York University, Canada)</i>	
Streamlining Epidemiological Model Generation Using Large Language Models	585
<i>Aaditya Karamchandani (York University, Canada), Fatemeh Seyeddabbaghi (York University, Canada), and Marios Fokaefs (York University, Canada)</i>	
From Confidence to Care: Rule-Based Escalation for Trustworthy Clinical AI	587
<i>Zahra Atf (Ontario Tech University, Canada), Aref Mahjoub far (Iran University of Medical Sciences, Iran), and Peter R. Lewis (Ontario Tech University, Canada)</i>	

A Preliminary Systematic Review on LLM-Based System Assurance: Is Generative AI All You Need?	589
<i>Alvine Boaye Belle (York University, Canada) and Gerhard Yu (York University, Canada)</i>	
Discovering Technology Opportunities Based on Large Language Model and Bibliometric Indicators	591
<i>Juhyun Lee (Korea Institute of Science and Technology Information, Korea), Jeena Hwang (Korea Institute of Science and Technology Information, Korea), and Soyoun Kim (Korea Institute of Science and Technology Information, Korea)</i>	
A Study on a Nationality Classification Model Using Korean Name Embedding and Its Applications	593
<i>Ju Hwan Seo (Korea Institute of Science and Technology Information, Korea)</i>	
LLM-Powered Code Quality Bot: Automating Refactoring in CI/CD	595
<i>Akram Adem (Toronto Metropolitan University, Canada) and Glaucia Melo (Toronto Metropolitan University, Canada)</i>	
Appropriateness of Empathy in AI: A Signal-Cost Perspective	597
<i>Tao Wang (University of Toronto, Canada), Chi-Ching Juan (University of Toronto, Canada), and Harold Lee (N/A)</i>	
A Hybrid XAI Pipeline for Multimodal Video Understanding: From Transformers to LLMs	599
<i>Raphael Leyo (Concordia University, Canada), Muhammad Nofil (Concordia University, Canada), and Yan Liu (Concordia University, Canada)</i>	
BI-MQTT: Broker-Independent Integrity for Publish–Subscribe Messaging with Ring Signatures....	601
<i>shabnam saderi oskouei (University of New Brunswick, Canada), Kalikinkar Mandal (University of New Brunswick, Canada), and Ali.A Ghorbani (University of New Brunswick, Canada)</i>	
HPC-Accelerated Simulation and Calibration for Silicon Quantum Dots	603
<i>Dhilan Nag (University of Texas at Austin, United States), Cole Johnson (Rochester Institute of Technology, United States), Suhun Kim (University of Texas at Austin, United States), and Collin Sumrell (University of Oklahoma, United States)</i>	
Generating Labeled Graphs Using Conditional Wasserstein GANs	605
<i>Seyedeh Ava Razi Razavi (Brock University, Canada), James Sargant (Brock University, Canada), Sheridan Houghten (Brock University, Canada), and Renata Dividino (Brock University, Canada)</i>	
Towards Scenario-Driven Reference Architecture for Integrating Microservices and LLM-Based Multi-Agent Systems	607
<i>Peyman Yazdanian (Concordia University, Canada) and Yan Liu (Concordia University, Canada)</i>	
Quantum-Guided Test Case Minimization for LLM-Based Code Generation	609
<i>Huixiang Zhang (Lakehead University, Canada) and Mahzabeen Emu (Memorial University of Newfoundland, Canada)</i>	
Studying Workarounds in Form-Based Applications	611
<i>MohammadAmin Zaheri (Université de Montréal, Canada), Michalis Famelis (Université de Montréal, Canada), and Eugene Syriani (Université de Montréal, Canada)</i>	

Different by Design: Understanding Human–AI Collaboration Through GitHub Pull Request	613
<i>Karla Gonzalez (Royal Military College of Canada, Canada) and Mariam El Mezouar (Royal Military College of Canada, Canada)</i>	

Workshop Papers

Workshop on LLMs Meet Databases: Next-Generation Data Systems

ScenarioBench: Trace-Grounded Compliance Evaluation for Text-to-SQL and RAG	615
<i>Zahra Atf (Faculty of Business and Information Technology, Canada) and Peter R. Lewis (Faculty of Business and Information Technology, Canada)</i>	
Enhancing Retrieval-Augmented Generation with Document Link Structure for Multi-hop Web Question Answering	621
<i>Sara Mazaheri (Brock University, Canada), Ali Dadashzadeh (Brock University, Canada), Arash Niroumand Alankesh (University of Guilan, Iran), and Renata Dividino (Brock University, Canada)</i>	
Resilient LLM–DBMS Pipelines via Event-Driven Fallback Orchestration	627
<i>Erfan Shahab (Toronto Metropolitan University, Canada) and Sharareh Taghipour (Toronto Metropolitan University, Canada)</i>	
Task-Aware Reduction for Scalable LLM–Database Systems	631
<i>Marcus Emmanuel Barnes (University of Toronto, Canada), Taher A. Ghaleb (Trent University, Canada), and Safwat Hassan (University of Toronto, Canada)</i>	
LLM-Driven Event Log Generation from Forensic Cases: A Comparative Study of ChatGPT, Claude, and Gemini	636
<i>Mirai Gendi (University of Toronto, Canada) and Periklis Andritsos (University of Toronto, Canada)</i>	
DaMiT-SQL: Detecting and Mitigating Text-to-SQL Prompt Injection Attacks	641
<i>Zi Han Ding (University of Pittsburgh, United States) and Alexandros Labrinidis (University of Pittsburgh, United States)</i>	

Workshop on Social Agentics: Situating Agentic AI Within Social & Organizational Contexts

Mitigating Systematic Hallucinations in Large Language Models Using Dual-Process Cognitive Theory	647
<i>Damla Şentürk (Boğaziçi University, Türkiye), Aysun Bozanta (Boğaziçi University, Türkiye), and Ayşe Başar (Toronto Metropolitan University, Canada)</i>	
Human Autonomy VS AI Autonomy: Society Resists Against Tech Companies' Desires in the Era of Autonomous Agents	651
<i>Omid Veisi (University of Toronto, Canada) and Anastasia Kuzminykh (University of Toronto, Canada)</i>	

Rethinking Psychological Ownership Over AI Agents	655
<i>Mengqiu Cheng (University of Toronto, Canada), Yuxin Xu (University of Toronto, Canada), and Anastasia Kuzminykh (University of Toronto, Canada)</i>	
Am I Working with "Someone": Psychological Ownership as a Lens for Designing Agentic GenAI.	658
<i>Yuxin Xu (University of Toronto, Canada), Mengqiu Cheng (University of Toronto, Canada), and Anastasia Kuzminykh (University of Toronto, Canada)</i>	
Evaluating Toxicity Understanding of LLM Agents	661
<i>Ramaravind Kommiya Mothilal (University of Toronto, Canada), Syed Ishtiaque Ahmed (University of Toronto, Canada), and Shion Guha (University of Toronto, Canada)</i>	

CyPress: 5th Workshop on Software Techniques for Cyber-Physical Systems

Toward Intelligent, Sustainable, and Reliable Cloud Database Systems: A Unified Research Vision	667
<i>Michaail Bachras (University of Toronto, Canada), Michael Dang'ana (University of Toronto, Canada), Yunhao Mao (University of Toronto, Canada), Shiquan Zhang (University of Toronto, Canada), Yuqiu Zhang (University of Toronto, Canada), and Hans-Arno Jacobsen (University of Toronto, Canada)</i>	
Towards an LLM-Based Auto-Corrector Agent for Symboleo Specifications	672
<i>Gurdarshan Singh (University of Ottawa, Canada), Sahil Rajpal (University of Ottawa, Canada), Amal Ahmed Anda (University of Ottawa, Canada), Sofana Alfuhaid (University of Ottawa, Canada; King Abdulaziz University, Saudi Arabia), Daniel Amyot (University of Ottawa, Canada), John Mylopoulos (University of Ottawa, Canada), and Marco Roveri (University of Trento, Italy)</i>	
Framework for Source Code Compliance Analysis	677
<i>Mete Isiksalan (York University, Canada) and Kostas Kontogiannis (York University, Canada)</i>	
Synthetic Data Generation for Alleviating Class Imbalance with Reinforcement Learning	683
<i>Ethan Pigou (Western University, Canada), Lucas Hartman (Western University, Canada), Nicholas Strzelczyk (Western University, Canada), Santiago Gomez-Rosero (Western University, Canada), and Miriam A. M. Capretz (Western University, Canada)</i>	
Author Index	687
