

# **2025 International Conference on Electrical, Electronics, and Computer Science with Advance Power Technologies - A Future Trends (ICE2CPT 2025)**

**Jamshedpur, India  
29-31 October 2025**

**Pages 1–449**

IEEE Catalog Number: CFP250R3-POD  
ISBN: 979-8-3315-1500-3

## TABLE OF CONTENTS

|                                                                                                                                   |    |
|-----------------------------------------------------------------------------------------------------------------------------------|----|
| AI-Enabled QFT-Based Adaptive Control of Artificial Wetlands for Sustainable Wastewater Treatment in Future Cities .....          | 1  |
| <i>Rishov Krishna Baruah, Aritra Sinha, Prasanta Roy</i>                                                                          |    |
| Efficient Implementation of Rectangle Cipher in FPGA for IoT Applications .....                                                   | 7  |
| <i>Pulkit Singh, T Priyavarshini, S Charukkesh, N Chidambaresh</i>                                                                |    |
| A Passive Islanding Detection Technique Based on Slip Frequency in Microgrid Environment .....                                    | 13 |
| <i>Munna Kumar, Jitendra Kumar</i>                                                                                                |    |
| Lightweight Feature-Based Object Detection in Natural Scenes Using SIFT and Homography .....                                      | 18 |
| <i>A. Beena Godbin, Mithra C, Showkat A. Dar, Abhay Kumar, K. Selvarani, R. Indhumathi</i>                                        |    |
| The Anomaly Within: Hybrid Learning Models for Early Cancer Gene Detection .....                                                  | 24 |
| <i>T. Aditya Sai Srinivas, M. Ramu, K. Dora Babu, I.V Shashikala, S. Rakshitha, M. Bhavya Sree</i>                                |    |
| Emotion Aware AI Techniques for Identification Depression via Social Media Platforms .....                                        | 30 |
| <i>E. Tharun, Mohebbanaaz, P Sandeep Kumar Reddy</i>                                                                              |    |
| Design and Analysis of Buck-Boost Converter Using Adaptive Sliding Mode Approach .....                                            | 34 |
| <i>Priyanshu Kumar Mishra, Vivek Saraswat, Abhishek Kumar, Saibal Manna</i>                                                       |    |
| AODV-Based Intrusion Detection System for Mitigating Blackhole and Selective Forwarding Attacks in Wireless Sensor Networks ..... | 40 |
| <i>Parminderjeet Kaur, Rajneesh Randhawa</i>                                                                                      |    |
| A Lightweight SVM-Based Facial Recognition Framework for Secure Online Examination Monitoring .....                               | 46 |
| <i>Vulavala Swarnalatha, Mohebbanaaz, K Mahesh Babu</i>                                                                           |    |
| Thermal Aware Multi-Objective Virtual Machine Placement in Cloud Networks Using NSGA-III .....                                    | 51 |
| <i>Jitendra Pratap Dehury, Nidhi Kumari, Dipankar Rajwar, Dinesh Kumar</i>                                                        |    |
| Design and Analysis of Rectangular Loop-Based Fractal Antenna for Wideband Applications .....                                     | 57 |
| <i>Khushbu, Amit Prakash, Praveen Kumar</i>                                                                                       |    |
| Jeopardization of Grid Stability due to Subsynchronous Resonance (SSR) with Renewable Energies .....                              | 60 |
| <i>Shriram S. Rangarajan, Sachidananda Sen, Chandan Kumar Shiva, Vedik Basetti, Nirmalya Mallick Geetha Manoharan</i>             |    |
| Quantum-Inspired Arithmetic Optimization Algorithm for DEED with Wind-Solar-EV Uncertainty .....                                  | 66 |
| <i>Roshan Ghosh, Koustav Dasgupta, Sakti Prasad Ghoshal</i>                                                                       |    |
| Vehicle-to-Grid (V2G) Technology: Electric Vehicle Benefaction to Grid Stability .....                                            | 72 |
| <i>Shriram S. Rangarajan, Chandan Kumar Shiva, Vedik Basetti, Sachidananda Sen, Nirmalya Mallick</i>                              |    |
| Memory Efficient DDR4 Based Matrix Transpose Operation in Radar System .....                                                      | 78 |
| <i>Tejas Kumar S, Bhaskar Awadhiya, Yashwanth N</i>                                                                               |    |
| Machine Learning Driven Islanding Detection Using Features Extracted from Contour Plot Images .....                               | 83 |
| <i>Himali Patel, Kumaresh Pal, Vasanti Vivek Vedpathak, Syed Rashid Anwar, Anshuman Bhuyan Subhadip Goswami</i>                   |    |

|                                                                                                                                         |     |
|-----------------------------------------------------------------------------------------------------------------------------------------|-----|
| Next-Generation News Summarization: A Hybrid Approach Combining TF-IDF, LSA, and Transformers .....                                     | 89  |
| <i>Himanshu Kumar, V K Jain, Vivek Kumar</i>                                                                                            |     |
| Hybridized Approach for Legal Text Simplification Using Bert and Transformer Models .....                                               | 95  |
| <i>Aditi Tyagi, V K Jain, Vivek Kumar</i>                                                                                               |     |
| Enhanced Multi-Layered Cybersecurity Framework for Smart Power Grids Detecting and Preventing from Twelve Cyber-Attack Categories ..... | 100 |
| <i>Saket Kumar Mishra, Krishna Bihari Yadav</i>                                                                                         |     |
| Hybrid Deep Learning Approach for Vehicle Detection, Classification, and Counting Based on YOLO and CNN .....                           | 106 |
| <i>Muskan Jain, Ranjana Sharma</i>                                                                                                      |     |
| Comparative Analysis of Different Power Control Strategies of DC Microgrid with Energy Storage System .....                             | 112 |
| <i>Baidurya Dey, Rajdip Dey</i>                                                                                                         |     |
| Deep Learning-Based Intelligent Fault Diagnosis Framework for Modern Power Transmission Networks .....                                  | 118 |
| <i>Shradha Umathe, Prema Daigavane, Rutuja Hiware</i>                                                                                   |     |
| Ensemble-Based Solar GTI Prediction Using Random Forest with Kneedle-Guided Data Partitioning .....                                     | 124 |
| <i>Budumuru Giri Teja, Giduthuri Kishore Kumar, Phanindra Thota, Siva Prasad. Pusapati</i>                                              |     |
| <i>Kanaka Raju Kalla, Venu Malagavelli, M Sai Babu, Trinadha Burle, Subhendu Sekhar Sahoo</i>                                           |     |
| Harnessing Artificial Intelligence and Renewable Energy for Sustainable Agriculture: Innovations, Applications, Future Pathways .....   | 129 |
| <i>Swastideepa Sahoo, Subhendu Sekhar Sahoo, Shafaque Ahmareen, Praveenkumar Chandran</i>                                               |     |
| <i>Ritambhara Katoch, Ankit Garg</i>                                                                                                    |     |
| Operational Analysis of Multi-Carrier Energy Systems Under Uncertainty and Demand Response Integration .....                            | 135 |
| <i>Ankit Garg, Debasish Mishra, S.S. Sahoo, K. R. Niazi</i>                                                                             |     |
| Design and Simulation of a FinFET-Based 1T1 Schmitt Trigger SRAM Cell Using Cadence .....                                               | 140 |
| <i>Charan Gowda K R, Chetan Birajdar, Manoj K, Gayathri K M</i>                                                                         |     |
| Air Quality Monitoring System with Alerts .....                                                                                         | 147 |
| <i>Mavuri Arunakumari, Molleti Sravan Kumar, Kosireddy Hemavarshini, Kanithi Yaswitha</i>                                               |     |
| <i>Jonnada Manikanta, Kandhi Durga Prasad</i>                                                                                           |     |
| A Critical Analysis of the Renewable Energy Landscape in India: Decoding the Backlogs in the Solar Business Model .....                 | 152 |
| <i>Shivashis Sengupta, Somsubhra Panda, Abhik Das, Debnarayan Khatua</i>                                                                |     |
| Intelligent Modelling of Pressure Loss Estimation in Emulsion Pipelines Using Machine Learning Techniques .....                         | 158 |
| <i>Vikas Thakran</i>                                                                                                                    |     |
| Modeling and Analysis of Geopolitical Risk Impacts on Global Supply Chain Networks Using Network Science .....                          | 164 |
| <i>Kiran Kakade, Shailendrakumar Kale, Jayant Brahmane, Jaya Chitranshi, Shilpa Shinde, Shailesh Kediya</i>                             |     |

|                                                                                                                                                         |     |
|---------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| AI-Driven Beamforming for Cell-Free Massive MIMO Using Radio Maps .....                                                                                 | 170 |
| <i>R. Sadvi, Bonkuri Lahari, J.Sai Deva Harsha, K. Sripal Reddy</i>                                                                                     |     |
| Model Predictive Torque Control of Induction Motor for Electric Vehicle Application .....                                                               | 175 |
| <i>Sailendranath Tripathy, Mohammad Junaid Akhtar</i>                                                                                                   |     |
| Predictive Modeling for Parkinson's Diagnosis: A Machine Learning Approach Using Patient Data .....                                                     | 180 |
| <i>Sara Mishra, Bharathi R.B.</i>                                                                                                                       |     |
| Blockchain-Based Document Verification Using Cryptographic Hashing, QR Code, and Machine Learning .....                                                 | 186 |
| <i>Premanand Ghadekar, Isha Mahajan, Isha Kulkarni, Om Lohade, Pranav Jadhav, Sai Kulkarni</i>                                                          |     |
| A Comparative Study of 4×4 Braun Multipliers Using Conventional and Hybrid Full Adders in Advanced CMOS Technologies .....                              | 192 |
| <i>Lalit Mathariya, Manish Kashyap</i>                                                                                                                  |     |
| Perception-Driven Enhancement of Underwater Visuals Using Channel-Wise Color Normalization and Retinex Principles .....                                 | 198 |
| <i>Uzra Rahman, Dilip Kumar Yadav</i>                                                                                                                   |     |
| A Quadport Compact Super Wideband MIMO Antenna for Millimeter-Wave Applications .....                                                                   | 204 |
| <i>Aamir Shafi Khan, Dheeraj Pandey, Surajit Kundu</i>                                                                                                  |     |
| PQ Enhancement Using DVR Under the Condition of Faults with Real Time Analysis .....                                                                    | 209 |
| <i>Rakeshwri Agrawal, Deepak Agrawal, Vishal Rathore, Shiwani Rai</i>                                                                                   |     |
| Hybrid EfficientNetV2B0 and Modified Vision Transformer Framework for Breast Cancer Detection .....                                                     | 214 |
| <i>Ekta, Vandana Bhatia</i>                                                                                                                             |     |
| Edge-Cloud IoT Architecture for Automated Retinal Disease Detection in Smart Healthcare Environments .....                                              | 220 |
| <i>Harish Gavel, Chandrashekhar Azad</i>                                                                                                                |     |
| Deep Learning Based Classification of Lung Cancer Images: A Comparative Performance Evaluation .....                                                    | 226 |

| Data-Driven IoT Framework for Intelligent Flood Risk Assessment and Continuous Air Quality Monitoring .....                                   | 736 |
| <i>Vaarun Bharati, Saheel Pala, Vipul Gohil</i>                                                                                               |     |
| Sentimental Analysis Using KNN and Opti-KNN .....                                                                                             | 742 |
| <i>Pinjari Adam Ali, Mohebbanaaz, P Sandeep Kumar Reddy</i>                                                                                   |     |
| Enhanced LVRT Scheme with Reinforcement Learning in Typhoon HIL .....                                                                         | 748 |
| <i>Goteti Bharadwaj, Bikas Singh, Ravi Yadav</i>                                                                                              |     |
| SmartHoneypot: Honeypot System for Lightweight Cyber Threat Detection and Behavior Analysis .....                                             | 754 |
| <i>Dharshan J Y, Arjun R Amarnath, Gadamsetty Siva Adithya, Anitha V, Kumaran U.</i>                                                          |     |
| An Ensemble-Based Intelligent System for Predicting Fraudulent Credit Card Activities in FinTech Environments .....                           | 759 |
| <i>Pratik Badri, Mohammed Shahadat Hosen, Mohit Meghnani, Pushpalika Chatterjee</i>                                                           |     |
| Bibliometric Analysis of Communication Protocols in Vehicle-to-Grid Systems: Trends and Gaps in Smart Grid Integration .....                  | 765 |
| <i>Santoshi Kanagala, Md Mujahid Irfan, A V V Sudhakar, Kambhampati Venkata Govardhan Rao B.Srikanth Goud</i>                                 |     |
| A Multifunctional High-Performance Switched Capacitor Buck-Boost Converter for Sustainable Light Electric Mobility .....                      | 771 |
| <i>Norm deep, Manoj Badoni, Ajay Singh, Sudhanshu Mittal</i>                                                                                  |     |
| Smart Stability: Advancing LDOs Through Loop Gain Modulated Architectures .....                                                               | 776 |
| <i>Jaisree G, Aathilakshmi S, Hemavathy S, Sivapriya G</i>                                                                                    |     |
| Affective State Recognition Through CNNs in the Valence-Arousal Framework .....                                                               | 782 |
| <i>Varsha Singh, Vijai Singh, Alok Kumar Shukla</i>                                                                                           |     |
| Adaptive SOC Estimation and Charge/Discharge Control of SPV-Battery Integrated Partially Isolated Three-Port Converter .....                  | 786 |
| <i>Sarbojit Mukherjee, Shib Sankar Saha, Sumana Chowdhuri</i>                                                                                 |     |
| Fortivault – Multi-Layered Confidential Data Storage and Access System .....                                                                  | 792 |
| <i>Amrutha Sivakumar, G Bhavya Reddy, Shreya Bhanot, Anitha V, Kumaran U.</i>                                                                 |     |
| Comparative Analysis of VCOs: Versatility of Ring Oscillators and Their Future Scope .....                                                    | 798 |
| <i>Arka Prava Mahato, Amit Prakash, Kunal Singh</i>                                                                                           |     |
| Analysis and Comparison of GRU and LSTM Based Models for Power Demand Forecasting with HPSEBL's Methodology .....                             | 804 |
| <i>Shivam Dhiman, Sailaja Kumari M</i>                                                                                                        |     |
| Hybrid Cryptosystem to Secure Access Policies for Zero Trust Environment .....                                                                | 810 |
| <i>Ashutosh Soni, Jayanti Rout, Mrutyunjaya Sathua, Surendra Kumar Nanda, Rojalina Priyadarshini</i>                                          |     |
| Speed Control of DC Motor Using Fractional Order PI Controller Optimized by ANFIS Algorithm .....                                             | 816 |
| <i>RamaKoteswara Rao Alla, Kandipati Rajani, Ravindranath Tagore Yadlapalli</i>                                                               |     |
| A Comparative Study Based on Phenotypic and Lifestyle Parameters Using Deep Learning Models for Prediction of Polycystic Ovary Syndrome ..... | 821 |
| <i>Shareena Basheer, Arun Pandian J</i>                                                                                                       |     |

|                                                                                                              |     |
|--------------------------------------------------------------------------------------------------------------|-----|
| Performance Analysis of ML Classifiers for Biomechanical Spine Disorder Detection .....                      | 826 |
| <i>Nasser S. Albalawi</i>                                                                                    |     |
| A Hybrid HMM-ML Framework for Secure Communication and Intrusion Detection in IoT and OT Networks .....      | 831 |
| <i>Nasser S Albalawi, Ahmed Badi Alshammari, Moneefa S Alenazi, Amnah A Alshammari, Maali A Alsirhani</i>    |     |
| An Approach to SER using Separable Convolutional Network Based on Hybrid Optimization Algorithm .....        | 836 |
| <i>Aditya Kumar, Banoth Anil Kumar, Shailendra Kumar Shourya, Tarun Rath, Manoj Tripathy</i>                 |     |
| A 10-bit 45.5-MS/s Asynchronous SAR ADC with a DCDAC Switching Technique in 45nm CMOS .....                  | 842 |
| <i>Alwin Thomas, A Tressha, K V Priyadarshini, Gayathri K M</i>                                              |     |
| Switching Dynamics of Sic MOSFETs And Si IGBTs in Battery .....                                              | 849 |
| <i>Debani Prasad Mishra, Adarsh Agarwal, Aman Singh, Tanishq Sahu, Jayanta Kumar Sahu</i>                    |     |
| Ethically-Aware AI: Bias Correction Via Counterfactual Explanation in ML .....                               | 854 |
| <i>Ankit Kundu, Aayan Iqbal, Dikchha Shah, Bhumi Shah, Sayan Hazra</i>                                       |     |
| Robust Adaptive Optimal Feedback Based Integral Sliding Mode Controller for Magnetic Levitation System ..... | 859 |
| <i>Deepak Kumar Singh, Sweta Jamuar, Salauddin Ansari, Saibal Manna</i>                                      |     |
| Design and Performance Evaluation of Smart EV Charger Under Distorted Grid Condition .....                   | 864 |
| <i>Aneeh Verma, Alka Singh, Rachana Garg</i>                                                                 |     |
| Holistic Design Considerations for Low Latency IoT Networks: A Review of Remedies .....                      | 870 |
| <i>Manish Shukla, Subhash Shrimal, M. M. Sharma</i>                                                          |     |
| VLSI Physical Design and Power Challenges .....                                                              | 876 |
| <i>Akash Gupta, Chhagan Charan</i>                                                                           |     |
| Voltage Sensitivity Assessment and Improvement of Voltage Sensitivity for Microgrids .....                   | 882 |
| <i>Raj Ahmed, Ankur Singh Rana</i>                                                                           |     |
| Fuzzy PID based Resilient Frequency Controller for Renewable Integrated Three Area Power System .....        | 888 |
| <i>Debidasi Mohanty, Sanjay Pradhan, Dilip Kumar Sahoo</i>                                                   |     |
| Semantic Segmentation of Oil Spills Using Atrous and Encoder-Decoder CNNs .....                              | 894 |
| <i>Maram Harsha Vardhan, Maram Koteswara Rao, Adidela Jabez Solmon Joy, Guntu Nooka Raju</i>                 |     |
