# TABLE OF CONTENTS

|                                                                                                                                                      |    |
|------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| Evaluating Machine Learning Models for Intrusion Detection in Cloud Environments: A Security-Driven Perspective .....                                | 1  |
| <i>Soumya Snigdha Mohapatra, Padmaja Mishra, Mohan Kumar Dehury, Kirti Rana, Ajay Kumar Yadav</i>                                                    |    |
| A Deep Learning Approach for Fake News Detection using CNN .....                                                                                     | 7  |
| <i>Sanjana Dash, Sutapa Susovita Bhuyan, Sanjit Kumar Dash, Rajeev Agarwal, Surajit Mohanty</i>                                                      |    |
| A Short Survey of Abstractive, Extractive and Hybrid text summarization .....                                                                        | 13 |
| <i>Satya Deo, Prasant Kumar Pattnaik</i>                                                                                                             |    |
| Predicting Lung Cancer with a Dual Classifier Model: RF and SVM .....                                                                                | 18 |
| <i>A Amrita Varshini, Bishnupriya Singh, Sanjit Kumar Dash, Sasmita Pani, Muktikanta Sahu</i>                                                        |    |
| A Hybrid Recommender System for Predicting Gold Prices Using Financial and Temporal Data .....                                                       | 24 |
| <i>S. Bhaskaran, Venkata Subramanian N</i>                                                                                                           |    |
| Dynamic Gaming Systems Powered by Automata Theory: A Case Study of Maze Raiders:Quest for glory .....                                                | 28 |
| <i>Aditi Ajay Marar, Yamini Niharika, Thirumalaraju Akhila, Vemula Vaishnavi, Niharika Panda</i>                                                     |    |
| Stock Price Anticipation Using Deep Learning and Explainability by SHAP: A Case Study on Ultratech Cement .....                                      | 34 |
| <i>Manas Kumar Mishra, Sabyasachi Pattnaik, Tapas Kumar Mishra</i>                                                                                   |    |
| Summarization of Telugu Texts using versions of mT5,mBART50 and IndicBart .....                                                                      | 40 |
| <i>Yamini Niharika, Thirumalaraju Akhila, Priyanka C.Nair</i>                                                                                        |    |
| Decentralized Anomaly Detection in IoT Networks Using Federated Learning Models .....                                                                | 45 |
| <i>Pandian Sundaramoorthy, Praveen RVS, Balaram Puli, Aniruddh Tiwari, Kanimozhi S, Keerthana N V</i>                                                |    |
| Automating Cognitive-Level Assessment: A Comparative Study of Machine Learning Models Using Human-Validated Rubrics .....                            | 51 |
| <i>Javed Khan Sheikh, Hemant Kumar Soni</i>                                                                                                          |    |
| Classification of Facial Acne Scars Using a Combination of Features and Machine Learning Techniques .....                                            | 57 |
| <i>Joiesmary D Souza, Venkatesh Bhandage, Smitha Prabhu, Srikanth Prabhu, Andrew Jeyabose</i>                                                        |    |
| Quantum Inspired-Blockchain Security Framework for IoT Temperature Monitoring Device .....                                                           | 63 |
| <i>Mutyala Gayathri, S Mahaboob Hussain</i>                                                                                                          |    |
| Hybird Optimizer-Driven Transfer Learning for Atherosclerosis Severity Grading Classification in Histopathological Images .....                      | 68 |
| <i>Shyam Sunder Gouda, Ritika Giri, Kashyap Kanta Sahoo, Jyotirmayee Rautaray, Meenakshi Kandpal Pranati Mishra</i>                                  |    |
| TalkHands: Bridging the Gap Through Speech-to Indian Sign Language Translation .....                                                                 | 74 |
| <i>Barsharani Mohanty, Rojalin Mallick, Meenakshi Kandpal, Jyotirmayee Rautaray, Pranati Mishra</i>                                                  |    |
| IADC 1.0: A Comprehensive Evaluation of Machine and Deep Learning Models for Internet Addiction Disorder Classification Using SMOTE and ADASYN ..... | 80 |
| <i>Tejaswini Pradhan, Prativa Mayee Majhi, Lokesh Kumar Agasti, Satyananda Swain, Sujata Chakravarty</i>                                             |    |

|                                                                                                                                                                  |     |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Advancements in Brain Tumor Detection: A Comprehensive Review of Machine Learning and Deep Learning Approaches .....                                             | 86  |
| <i>Shibani Tripathy, Murali Gopal Kakita, Chandrakanta Mahanty</i>                                                                                               |     |
| Smart Patient Monitoring for Heart Disease Prediction using IOT and Deep Learning .....                                                                          | 91  |
| <i>Nithin Sai Ram Nalla, Udayan. L. R, Ch Laxmi Praneeth, T. Sathvik Varma, Shibani Tripathy Chandrakanta Mahanty, Biswajit Brahma, Bhawani Sankar Panigrahi</i> |     |
| Mapping the Millet Value Chain in Nabarangpur, Odisha Using PCA: A Data-Driven Analysis of Livelihood and Market Dynamics .....                                  | 96  |
| <i>Kalee Prasanna Pattanayak, N. Durga Prasad, Ashutosh Parhi, K. Danesh, Nilamadhab Mishra Debendra Kumar Sahoo</i>                                             |     |
| An Autonomous Vehicle for Smart Urban Garbage Collection .....                                                                                                   | 103 |
| <i>Himanshu Chaudhary, Ayush Kushwaha, Ruchita Gautam, Aditya Tyagi, Dhruvraj Singh, Atul Kumar</i>                                                              |     |
| Advancing Odia Natural Language Processing: A Study on HMM-Based POS Tagging .....                                                                               | 109 |
| <i>Jnanendra Satapathy, Bishwa Ranjan Das, Soumendra Prasad Rout, Biswa Ranjan Senapati Prakash Chandra Bhoi</i>                                                 |     |
| Efficient Feature Selection and Malware Detection Using CAWO and LS-RBFDNN for Secure Cloud Workload Profiling .....                                             | 114 |
| <i>Venkata Subramanian N, S. Bhaskaran</i>                                                                                                                       |     |
| Leveraging Lexical Knowledge in a BERT Classifier for Emotion Analysis .....                                                                                     | 122 |
| <i>Manjog Padhy, Rasmita Rautray, Premananda Sahu</i>                                                                                                            |     |
| Sustainable Ubiquitous Computing Platform: Simulation and Analysis .....                                                                                         | 128 |
| <i>M. Rajarajan, S. Albert Antony Raj</i>                                                                                                                        |     |
| Modelling Candy Crush Saga using Formal Language Automata .....                                                                                                  | 135 |
| <i>Harshitha Reddy, Gopa Pulastya, Rishi Anirudh K, C. Lakshmi Sindhu, Niharika Panda</i>                                                                        |     |
| Investigating the Performance of CSWAP and Peres Gate in presence of Superposition State .....                                                                   | 141 |
| <i>Atanu Kumar Das, Chiradeep Mukherjee, Aurpan Majumder, Saradindu Panda, Bansibadan Maji</i>                                                                   |     |
| Attention-Augmented Machine Learning Framework for Explainable and Fair Prediction of Autism Spectrum Disorder .....                                             | 146 |
| <i>M.Revathi, R.Jayashree, S.Arunarani</i>                                                                                                                       |     |
| Optimized DenseNet121 Architecture for Accurate Detection of Grape Leaf Diseases .....                                                                           | 151 |
| <i>Aditya Sharma, Jay Prakash Singh, Debolina Ghosh, Ajay Kumar, Lav Upadhyay, Jagannath Singh</i>                                                               |     |
| AR2S: Adaptive Retail Recommendation System Reinforcement Learning based Dynamic Pricing .....                                                                   | 158 |
| <i>Bijayini Mohanty, Sushanta Meher, Saroj Kumar Sahoo, Soubhagya Ranjan Mishra, Rakesh Das Sanghamitra Panda</i>                                                |     |
| An Efficient and Lightweight Intrusion Detection for 5G Wireless Networks .....                                                                                  | 164 |
| <i>Sudip Bisui, Sushanta Meher, Soumya Ranjan Rout, Sunil Kumar Mohapatra, Sujata Chakraborty Rajkumar Mohanta</i>                                               |     |
| Towards Carbon-Neutral 5G: A Case Study of Green Technology Adoption by Reliance Jio .....                                                                       | 170 |
| <i>Chandni Keswani, Shyam Sunder Agrawal, Ashok Kumar Samminga, Aswathy Menon, Ravi Kumar</i>                                                                    |     |

|                                                                                                                                       |     |
|---------------------------------------------------------------------------------------------------------------------------------------|-----|
| SOMM: A Novel Context based N-gram Model for Opinion Mining in Odia Language .....                                                    | 177 |
| <i>Gayatri Dey, Hima Bindu Maringanti</i>                                                                                             |     |
| HEarFit-AI: Ear Image Analysis using Deep Learning based Approach for Personalized Earphone Selection .....                           | 183 |
| <i>Srinath Neogi, Sayandeep Dey, Soham Banerjee, Abhaya Kumar Sahoo</i>                                                               |     |
| Comparative Analysis of Deep Learning Architectures for Skin Tone Classification .....                                                | 189 |
| <i>Varsha Pandian, Rishita Prasad, Harshita Patnaik, Lipika Mohanty, Minakhi Rout, Amiya Ranjan Panda</i>                             |     |
| Enhancing Brain Tumor Classification Through Image Subtraction Analysis .....                                                         | 195 |
