## TABLE OF CONTENTS

|                                                                                                                                                     |    |
|-----------------------------------------------------------------------------------------------------------------------------------------------------|----|
| Performance Analysis of Cross-Platform Mobile Frameworks: A Case Study on an AI Chatbot for Academic Regulation Services .....                      | 1  |
| <i>Adhe Setya Pramayoga, Sandy Kurniawan, Yeva Fadhillah Ashari</i>                                                                                 |    |
| Explaining Diabetes Prediction Under Oversampling Strategies: A SHAP Based Comparative Study of SMOTE and ADASYN .....                              | 5  |
| <i>Hozana Aulia, Adi Wibowo, Sutrisno</i>                                                                                                           |    |
| A Hybrid Boosting Weighted ELM–Random Forest Model for Sentiment Analysis of Academic Information System Reviews .....                              | 11 |
| <i>Nuki Pujiani Yosephine, Budi Warsito, Dinar Mutiara Kusumo Nugraheni</i>                                                                         |    |
| Sentiment Analysis of Comments From X Towards Climate Change Using CNN Model .....                                                                  | 17 |
| <i>Savio Noddy Pratama, Juan Roman Riquelme, Giovannie Hadi Liem, Diana, Shania Priccilia</i>                                                       |    |
| Improving Stock Market Prediction Accuracy Using LSTM Neural Networks with Financial Indicators .....                                               | 22 |
| <i>Aaron Tanujaya Didi, David Christian, Nikita Ananda Putri Masaling, Andry Chowanda</i>                                                           |    |
| Comparative Study of Pre-Trained Models for BISINDO Sign Language Recognition .....                                                                 | 26 |
| <i>Alfred Dexter, Edberg, Felix Ferdinand, Nikita Ananda Putri Masaling, Andry Chowanda</i>                                                         |    |
| Vision-Driven Drowsiness Detection Using Decision Trees .....                                                                                       | 32 |
| <i>Benedick Asdyo, Bayu Kanigoro, Guruh Aryotejo</i>                                                                                                |    |
| Predicting Potential Returns of Indonesian IPOs on Their Listing Day Using Machine Learning Techniques .....                                        | 39 |
| <i>Nyoman Wira Dhimas Arya Dhanendra, Kenichi Halim, Arnold Pramudita, Yulyani Arifin</i>                                                           |    |
| Forecasting of Epidemic Dynamics using Fuzzy Time Series Particle Swarm Optimization in High-Order .....                                            | 45 |
| <i>Etna Vanita, Prajanto Wahyu Adi, Aris Sugiharto, Satriyo Adhy, Gohar Rahman</i>                                                                  |    |
| Development of Iot Based Academic Information System Using Kanban Laravel Framework to Improve Community Services at Public High School Level ..... | 51 |
| <i>Wahyul A. Syafei, Satyagraha Pakarti Gemilang, Agung Budi Prasetyo, Muhammad Taqiuddin</i>                                                       |    |
| Classification of Indonesian-Language News on Digital Media Using IndoBERT and Support Vector Machine .....                                         | 57 |
| <i>Bonifasius Bryan Suryaningtyas, Sutikno, Khadijah</i>                                                                                            |    |
| Crisis-Aware Dual-Path Modeling for Depression Severity Assessment on Facial Signals Imbalanced Clinical Data .....                                 | 64 |
| <i>Stefanus Benhard, Yulyani Arifin</i>                                                                                                             |    |
| Development of a Patient Care Cost Prediction Model Using the Light Gradient Boosting Machine (LightGBM) Algorithm .....                            | 70 |
| <i>Abyan Setyanewa, Guruh Aryotejo, Gigih Haidar Falah, Krisna Okky Widayat, Eko Adi Sarwoko</i>                                                    |    |
| Car Detection on Highway Using YOLOV11 Architecture .....                                                                                           | 75 |
| <i>Ganar Khatir Faza Zain, Sutikno, Indra Waspada</i>                                                                                               |    |

|                                                                                                                                                       |     |
|-------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Deep Learning for Marine Fish Classification via CNN-Based Computer Vision .....                                                                      | 80  |
| <i>Abdul Haris Rangkuti, Shafa Naura Livka Naycilla, Katrin Manalu, Nadila Zindi Aulia Putri</i>                                                      |     |
| Real-Time Gender Detection from Facial Images Using Fine-Tuned Inception V3 and<br>MediaPipeOpenCV Pipeline .....                                     | 86  |
| <i>Ahmad Alvin Griffin, Aris Sugiharto, Etna Vianita, Helmie Arif Wibawa, Henri Tantyoko</i>                                                          |     |
| Electric Vehicle Charging Station Optimization for Intercity Travel in Java Using KNN Algorithm .....                                                 | 91  |
| <i>Jesslyn Gabrielle Hermanto, Rinabi Tanamal, Lenny Rosita</i>                                                                                       |     |
| Public Sentiment on Mining and Energy Development in Indonesia: A Hybrid Machine Learning<br>Perspective .....                                        | 96  |
| <i>Satria Adi Nugraha, Amanda Renata Go, Christopher Andreas, Rudi Limantara, Indra Maryati<br/>Almanzo Arjuna</i>                                    |     |
| Multi Channel Fusion Framework for Tomato Leaf Disease Classification Using Modified Cnn<br>Backbones and Preprocessing Aware Input Design .....      | 102 |
| <i>Rudi Limantara, Elizabeth Nathania Witanto, Christopher Andreas, Satria Adi Nugraha<br/>Adi Suryaputra Paramita, Christopher Andreas</i>           |     |
| Hybrid Statistical and Machine Learning Approach for Forecasting the Global Food Price Index Based<br>on Oil Prices .....                             | 107 |
| <i>Christopher Andreas, Yohana Jocelyn Guntur, Felicia Joshlyn Purnomo, Satria Adi Nugraha<br/>Rudi Limantara, Andreas Jodhinata</i>                  |     |
| Self-Supervised Learning for Fruit and Vegetable Spoilage Detection: Reducing Dependency on<br>Labeled Data .....                                     | 113 |
| <i>Abygael Adrianty Putri, Madeline Andrea Sofian, Carissa Fabellina, Ivan Sebastian Edbert</i>                                                       |     |
| Application of Ensemble Classifiers with Data Balancing in Online Learning Performance Prediction<br>Models .....                                     | 118 |
| <i>Andrew Goutama, Clara Zefanya Putri Junaidi, Nicholas Fransiscus Huang, Mediana Aryuni</i>                                                         |     |
| Weather-Driven Machine Learning Approach for Predicting Rice Production in East Java .....                                                            | 124 |
| <i>James Dillon Wongso, Hans Robert Gunawan, Ivan Sebastian Edbert</i>                                                                                |     |
| A Scalable Cloud-Based Framework for Adaptive Traffic Signal Control Utilizing Deep Reinforcement<br>Learning in Urban Environments .....             | 130 |
| <i>Zainab Saadoon Naser, Hend Marouane, Ahmed Fakhfakh, Zaid Abdulsalam Almatwari</i>                                                                 |     |
| CBAM-Enhanced Classification Head for VGG16-Based Pneumonia Detection .....                                                                           | 136 |
| <i>Simeon Yuda Prasetyo</i>                                                                                                                           |     |
| Optimizing Software Development Time Estimation by Integrating Function Point Analysis and Use<br>Case Point Method .....                             | 142 |
| <i>Muhammad Yasrib Ardiansyah, Amil Ahmad Ilham</i>                                                                                                   |     |
| Refactoring for Sustainable Maintainability: A SonarQube-Based Case Study on a Campus Canteen<br>Application .....                                    | 147 |
| <i>Reyhan Arim Yulanda, Adam Shidqul Aziz, Umi Sa'adah, Desy Intan Permatasari<br/>Fadilah Fahrul Hardiansyah, Andhik Ampuh Yunanto, Nailussa'ada</i> |     |
| Design and Implementation of a Reverse Proxy Architecture for Cyber Attack Mitigation on Private<br>Cloud: A Case Study .....                         | 153 |
| <i>Marco Ariano Kristyanto</i>                                                                                                                        |     |

|                                                                                                                                                               |     |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Improving Skin Cancer Classification with Dilated Convolutional VGG16 Networks .....                                                                          | 158 |
| <i>Simeon Yuda Prasetyo, Abram Setyo Prabowo, Santy, Melkamu Hunegnaw Asmare, Clarissa Aditjakra<br/>Clarawita</i>                                            |     |
| A Modular Architecture Framework for Flutter Using Clean Architecture and Design Patterns: A<br>Software Quality Perspective .....                            | 164 |
| <i>Arianto Zaki Hamdalah, Nailussa'ada, Umi Sa'adah, Desy Intan Permatasari, Adam Shidqul Aziz<br/>Maulidan Bagus Afridian Rasyid, Ahmad Jarir At-Thobari</i> |     |
| Optimizing Facial Authentication: A Dual-Purpose System for Attendance Monitoring and Smart<br>Doorlock Using FaceNet .....                                   | 170 |
| <i>Anan Nugroho, Mona Subagja, Ledi Diyanasari, Muhammad Iqbal, Aisya Fathimah, Bagus Fachriansyah</i>                                                        |     |
| Enhancing Beef and Pork Image Classification Using Hyperparameter-Tuned ResNet50 .....                                                                        | 178 |
| <i>Della Shanda Anggrivani, Priyo Sidik Sasongko, Rismiyati</i>                                                                                               |     |
| Exploring the Role of Task-Technology Fit and Performance Expectancy in Mobile Learning Adoption .....                                                        | 184 |
| <i>Dinar Mutiara Kusumo Nugraheni, Ragil Saputra, Norjihan Abdul Ghani, Haidar Ali Laudza<br/>Kevin Adi Santoso, Indra Purwanto</i>                           |     |
| Environmentally-Driven Urban Design Strategies for Sustainable School Spaces in Cebu City .....                                                               | 190 |
| <i>Deolinda E. Caparroso, Marlito V. Patunob, Marvin A. Radaza, Alain Tess A. Cabije, Emelie C. Villaceran</i>                                                |     |
| Innovative CNN-Based Model for Detecting Apple Plant Diseases Enhanced with Optimizer Technique .....                                                         | 196 |
| <i>Abdul Haris Rangkuti, Johan Muliadi Kerta, Sian Lun Lau, Budi Juarto, Rasyad Muhammad Aridzal<br/>Ahmad Syamil</i>                                         |     |
| Extending the Technology Acceptance Model (TAM) in Mobile Language Learning: The Role of<br>Information Quality and Autonomy .....                            | 202 |
| <i>Adrian A.D. Kristiawan, Hadyan Kholish Prasetyo, Aulia R. Satria, Ragil Saputra<br/>Dinar Mutiara Kusumo Nugraheni, Teotino Gomes Soares</i>               |     |
| Process Mining for Service Time Analysis of CKD Patients on BPJS Kesehatan Dataset .....                                                                      | 208 |
| <i>Rani Sari Murti, Adiwijaya, Angelina Prima Kurniawati</i>                                                                                                  |     |
| Integrated IT Risk Management Framework for a Computer Laboratory: Policy Design and<br>Implementation .....                                                  | 214 |
| <i>Raden Budiraharjo, Indra Waspada, Guruh Aryotejo, Sutikno, Hanung Nindito Prasetyo</i>                                                                     |     |
| Discriminant Analysis of Organizational and Personal Factors Affecting Employee Well-Being in the<br>Hospitality Industry .....                               | 220 |
| <i>Helen T. Cabije</i>                                                                                                                                        |     |
| YOLO-Based Framework with Different Annotated Datasets for BISINDO Sign Language Recognition .....                                                            | 226 |
