

# **2025 New Jersey Future Energy Transmission Conference (NJFET 2025)**

**Newark, New Jersey, USA  
10 December 2025**

IEEE Catalog Number: CFP252AE-POD  
ISBN: 979-8-3315-7418-5

# TABLE OF CONTENTS

|                                                                                                                                                       |    |
|-------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| Bridging Policy and Practice: Advancing Equitable Transmission Development in New Jersey and Multi-State Power Systems .....                          | 1  |
| <i>Hilda Afeku-Amenyo, Samuel Grant Quansah, Pankaj Lal, Winston Akai Nettey</i>                                                                      |    |
| Modeling and Control of a Vehicle-to-Grid Charging Station Integrated with Wind Energy and User Participation Using MATLAB/Simulink .....             | 8  |
| <i>Moutasim M. Rahal, Philip W. T. Pong</i>                                                                                                           |    |
| Anomalous Conditions Analysis of HVDC and Multi-Terminal HVDC Systems for Wind Farm Integration .....                                                 | 19 |
| <i>Lara Erik, Abdellatif Elmouatamid, Philip W.T. Pong</i>                                                                                            |    |
| Digital Twin for Parameter Monitoring of Modular Multilevel Converters in HVDC Transmission of Offshore Wind Energy .....                             | 25 |
| <i>Ratna Deep Raj, Akhyurna Swain, Philip.W.T. Pong</i>                                                                                               |    |
| Co-Optimization of Transmission Expansion and Energy Storage for a Carbon-Free Future .....                                                           | 34 |
| <i>Mohammed M. Elsayed, Khairy Sayed, Mustafa Abu-Zaher, Ahmed Mohamed</i>                                                                            |    |
| Digital Twins and Predictive Analytics for Next-Generation Power Transmission Systems .....                                                           | 40 |
| <i>Khairy Sayed, Mohammed M. Elsayed, David Kirakosian, Ahmed G. Abokhalil</i>                                                                        |    |
| Geospatial Cyber-Physical Risk Assessment of Critical Energy Infrastructure in Essex County, New Jersey .....                                         | 46 |
| <i>Samuel Grant Quansah, Winston Akai Nettey, Hilda Afeku-Amenyo, Pankaj Lal</i>                                                                      |    |
| EMT-Based Analysis of Supraharmonic Emission and Propagation in IBRs and Data Centers Dominated Power Systems .....                                   | 55 |
| <i>Muhammad Umar Afzaal, Yu Liu, Yayu Yang, Chong Shen, Qian Liu, Yuru Wu, Yilu Liu, Matthewos Tefferi</i>                                            |    |
| Bridging the Gap: A Cyber-Physical-Geospatial Framework for Modernizing Power Engineering Education in Support of Clean Energy Transitions .....      | 61 |
| <i>Winston Akai Nettey, Samuel Grant Quansah, Hilda Afeku-Amenyo</i>                                                                                  |    |
| Numerical Simulation of Magnetic Field Generated by DC Arc .....                                                                                      | 68 |
| <i>Tanima Bal, Rickey DeLoge, Vincent Duong, Jason Farmer, John Heinzl, Yacine Mallem<br/>Christopher Nemarich, Brandon Whaley, Philip W. T. Pong</i> |    |
| Machine Learning and AI for Optimizing and Safeguarding Energy Transmission in Storms by Automatic Inspection of Electrical Wires .....               | 74 |
| <i>Zhou Yu, Krishna Sathvika Ganni, Jay Ashokkumar Mehta, Philip Pong, Jie Li, Chengjun Liu</i>                                                       |    |
| Preventing Wildfires in Energy Transmission by Automatic Power Line Defects Detection Using Machine Learning and AI .....                             | 80 |
| <i>Chengyu Yang, Rishik Reddy Yesgari, Vineet Vora, Philip Pong, Jie Li, Chengjun Liu</i>                                                             |    |
