# TABLE OF CONTENTS

|                                                                                                                                      |    |
|--------------------------------------------------------------------------------------------------------------------------------------|----|
| AI-Driven Framework for Automated On-Tree Orange Sizing .....                                                                        | 1  |
| <i>Mohamed Tawfik, Wael Badawy</i>                                                                                                   |    |
| A Visual Composer for Quantum Circuits .....                                                                                         | 7  |
| <i>Anas Tamer Osman, Milad Ghantous, Hassan Soubra</i>                                                                               |    |
| Sub 6 GHz Integrated MIMO Antenna Array for Compact 5G Mobile Devices .....                                                          | 13 |
| <i>A. S. I. Amar, Y. M. Madany</i>                                                                                                   |    |
| Optimization of Array of Tapered Piezoelectric Energy Harvester .....                                                                | 18 |
| <i>Sara Safwat Elkalatawy, Sohair Rezeka, Sallam A. Kouritem</i>                                                                     |    |
| Smart Prediction of Photovoltaic Performance Under Dust Accumulation Using Machine Learning .....                                    | 24 |
| <i>Iman Morsi</i>                                                                                                                    |    |
| FPGA-Optimized VHDL Implementation of an ITU-T G. 707 STM-1 Multiplexer/Demultiplexer With<br>Comparative Performance Analysis ..... | 29 |
| <i>Alaa Elshafey, Hatem Zakaria, Abdelhady Mhmoud</i>                                                                                |    |
| Broadband Power Amplifier Employing Low-Pass Filtering-Based Matching Networks .....                                                 | 35 |
| <i>M. Boumalkha, A. S. I. Amar, Y. M. Madany, H. J. Basherlou, N.O. Parchin</i>                                                      |    |
| Outage Analysis of Underlay Cognitive Radio Air-Ground Communications Under Outdated CSI .....                                       | 40 |
| <i>Mostafa M. Aniter, Mahmoud Abdelaziz, Tamer Mekawy, Tamer Rakia</i>                                                               |    |
| Circular Antenna Array with Full Radiation Coverage for THz Communications .....                                                     | 45 |
| <i>H. J. Basherlou, M. Boumalkha, N.O. Parchin, A. S. I. Amar, C. H. See, Y. M. Madany</i>                                           |    |
| A Reinforcement Learning Approach for Adaptive Energy Management .....                                                               | 49 |
| <i>Udit Mamodiya, Indra Kishor, Mohamed M. Awad</i>                                                                                  |    |
| Printed Monopole Antenna with Dual Notch Bands Utilizing E-Shaped Slit Pairs for UWB Systems .....                                   | 55 |
| <i>A. S. I. Amar, Y. M. Madany</i>                                                                                                   |    |
| State-of-the-Art Methods and Insights for Deepfake Detection .....                                                                   | 60 |
| <i>Wael Badawy</i>                                                                                                                   |    |
| Pruned but Accurate: Lightweight AlexNet for On-Device Skin Lesion Diagnosis .....                                                   | 66 |
| <i>Yasser A. Amer, Hassan I. Saleh, Omar A. Nasr</i>                                                                                 |    |
| MIMO Characteristics of a Compact 4 THz Monopole Antenna for 6G Wireless Links .....                                                 | 72 |
| <i>A. S. I. Amar, Y. M. Madany</i>                                                                                                   |    |
| An Integrative Architectural Approach for Artificial Intelligence (AI) Ethics in Education Applications .....                        | 77 |
| <i>Reem Bakri</i>                                                                                                                    |    |
| Using YOLO Few_Shot Learning for Labeling Inflammatory Bowel Diseases .....                                                          | 84 |
| <i>Jinan Fiaidhi, Sabah Mohammed</i>                                                                                                 |    |
| Real-Time Multi-Cue Driver Drowsiness Detection Using YOLOv8: A Deep Learning Framework for<br>Intelligent Vehicle Safety .....      | 90 |
| <i>Amr I. Shehta, Mostafa. F. Abdelwahed, Mostafa A. Ebied, M. S. Elborlsy</i>                                                       |    |

|                                                                                                                                                                           |     |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| FastLane: Edge-AI Based Cooperative V2V Communication System for Intelligent Transportation<br>Safety and Routing in Smart Cities .....                                   | 97  |
| <i>Maha Farid, Sahar Ali Fawzi Fayek</i>                                                                                                                                  |     |
| Wideband Circularly Polarised Compact MIMO Antenna with Enhanced Isolation for RF Energy<br>Harvesting .....                                                              | 103 |
| <i>M. Odiamenhi, H. J. Basherlou, C. H. See, N.O. Parchin, K. Goh, H. Yu, A. S. I. Amar, Y. M. Madany</i>                                                                 |     |
| Graphene-Based THz MIMO Antenna for Dual-Band 6G Applications .....                                                                                                       | 108 |
| <i>A. S. I. Amar, Y. M. Madany</i>                                                                                                                                        |     |
| Secure and Scalable Urban FSO Transmission Employing PV-OCDMA: Analysis Under Alexandria<br>City Weather Conditions .....                                                 | 113 |
| <i>Mehtab Singh, Somia A. Abd El-Mottaleb, Shruti Sharma</i>                                                                                                              |     |
| Essential Technological Enablers Toward the Emergence of AI-Native 6G .....                                                                                               | 119 |
| <i>M. Boumalkha, A. S. I. Amar, Y. M. Madany, H. J. Basherlou, N.O. Parchin</i>                                                                                           |     |
| Enhancing Satellite-IoT Communications: SAG-FSO Networks with Site Diversity for Reliable Data<br>Transmission .....                                                      | 123 |
| <i>Ahmed Sakr, Hassan Ahmed, Tamer Rakia, Ahmed H. Elghandour, Ramy Samy</i>                                                                                              |     |
| Hybrid Deep Learning Methods for Human Activity Recognition Based on Mobile Sensor Data .....                                                                             | 129 |
