PROCEEDINGS OF SPIE

Seventh International Conference on Wireless Communications and Smart Grid (ICWCSG 2025)

Lingfeng Shi
Liang Yang
Editors

8–10 August 2025
Zhengzhou, China

Organized by
Henan University of Technology (China)

Sponsored by
AEIC—Academic Exchange Information Centre (China)

Published by
SPIE

Volume 13807

Proceedings of SPIE 0277-786X, V. 13807

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *Seventh International Conference on Wireless Communications and Smart Grid (ICWCSG 2025)*, edited by Lingfeng Shi, Liang Yang, Proc. of SPIE 13807, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Publication of record for individual papers is online in the SPIE Digital Library.

SPIEDigitalLibrary.org

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B … 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

ix *Conference Committee*

SMART GRID PLANNING AND OPTIMIZATION

13807 02 **Medium- and short-term power demand forecasts for load aggregators based on LSTMs** [13807-114]

13807 03 **Wind power prediction model based on HP filtering and self-attention mechanism** [13807-96]

13807 04 **A full-power bidding method for the day-ahead market of hydro-wind-solar power considering medium- and long-term contracts for difference** [13807-31]

13807 05 **Research on parameter identification of low-voltage crossing model of photovoltaic power generation system** [13807-60]

13807 06 **Research on cybersecurity risk assessment method for power monitoring systems based on asset profiling and threat intelligence integration** [13807-39]

13807 07 **Development of 3D visualization technology of the power grid based on artificial intelligence** [13807-100]

13807 08 **Identification of clean energy generation load direction and intelligent power flow calculation method based on multisource data fusion** [13807-16]

13807 09 **Research on intelligent optimal control strategy for the flash calcination process of magnesite in a transport bed based on deep reinforcement learning** [13807-107]

13807 0A **Fault section localization method in active distribution networks based on PSO-ACO hybrid optimization** [13807-69]

13807 0B **Study on the low-temperature plasma modification of V_2O_5 cathode of aqueous zinc-ion batteries** [13807-10]

13807 0C **Anomaly identification method of medium- and long-term electricity consumption information under multihop reasoning of knowledge graph** [13807-26]

13807 0D **Optical path protection for all-optical DCN using fast p-cycle algorithm and LSTM learning** [13807-41]

13807 0E **Automatic detection method for optical path failure of all-optical DCNs based on multimodal data fusion** [13807-48]

13807 0F **Combining SVM model and p-cycle algorithm for link fault prediction and protection** [13807-45]

13807 0G **Algorithm for enhancing the nonrepudiation of multiparty contracts in intelligent antimiscommunication networks** [13807-22]

13807 0H **Study on dynamic response and safety of transmission tower after ice-shedding under different ice accretion differences** [13807-104]

13807 0I **Dynamic response and safety comparison of transmission tower-line systems after ground wire ice shedding** [13807-106]

13807 0J **Optimization of voltage layered coordination control strategy for intermittent flexible DC transmission considering new energy** [13807-111]

13807 0K **Load frequency stability control for active distribution network access to transmission network based on ProGAN** [13807-49]

13807 0L **State prediction method of low-voltage distribution line based on multimode communication** [13807-44]

13807 0M **Research and application of multiscenario dispatching for source-grid-load-storage in distribution networks under dynamic price response** [13807-15]

13807 0N **GAT-based multi-UAV collaborative resource allocation strategy in MEC networks** [13807-40]

13807 0O **Multiselection genetic algorithm for UAV-based coverage path planning** [13807-76]

13807 0P **Optimal capacity configuration of multisource microgrid systems** [13807-57]

13807 0Q **Decoupling analysis algorithm for reliability of distribution networks with distributed energy access** [13807-89]

WIRELESS COMMUNICATIONS AND ANTENNA TECHNOLOGIES

13807 0R **Efficient constant envelope precoding with 1-bit DACs for massive MU-MIMO systems** [13807-103]

13807 0S **Design and experimental evaluation of pulse modulation in visible light communication systems** [13807-93]

13807 0T **Critical inductor analysis and ZCS mechanism under multimode operation of buck-buck-boost regulator** [13807-23]

13807 0U **A network selection scheme based on multicriteria decision in future heterogeneous wireless networks** [13807-66]

13807 0V **Optimizing AMF parameters for efficient location update handling in 5G core networks with massive mMTC devices** [13807-19]

13807 0W **A metasurface-based metal antenna for wireless ad hoc networks** [13807-85]

13807 0X **A battery-less UHF-RFID sensor for cable aging condition monitoring** [13807-62]

13807 0Y **A dual-layer metasurface antenna for 5G communication** [13807-84]

13807 0Z **Dual-polarized broadband antenna array for WiFi-6** [13807-88]

13807 10 **Speech enhancement method based on serial attention and multiscale feature extraction** [13807-54]

13807 11 **Research on the noise reduction method of ultrasonic detection signal of composite insulators based on VMD-EDAAP-CATF** [13807-4]

13807 12 **Design of a downhole acoustic transmitting circuit system based on FPGA+PIC** [13807-58]

13807 13 **High-rate QAM-aided differential spatial frequency modulation** [13807-82]

13807 14 **Research on beamforming algorithm assisted by intelligent reflective surfaces in high-speed railway tunnel environments** [13807-9]

13807 15 **A terahertz metasurface for imaging encryption** [13807-53]

13807 16 **Analysis of applications and characteristics of spoof localized surface plasmon resonators in microwave band dielectric constant detection** [13807-50]

13807 17 **Design of terahertz metasurface sensor based on asymmetric double split-ring resonators** [13807-47]

13807 18 **Cross-corpus speech emotion signal processing and recognition applications based on attentional feature refinement and spatial reconstruction** [13807-91]

13807 19 **Broadband H-plane SIW horn antenna using radiation matching transition** [13807-5]

13807 1A **Dual-band shared-aperture high-gain metamaterial lens antenna** [13807-42]

13807 1B **Analysis of influence of optimizing antenna deployment on grain moisture detection in storage via electromagnetic wave tomography** [13807-74]

13807 1C **Performance analysis of hybrid PLC-MIMO and wireless communication system** [13807-75]

13807 1D **Ultra-wideband Vivaldi antenna with comb slots and elliptical directors** [13807-87]

13807 1E **Research on audio transmission for portable SDR platform** [13807-46]

13807 1F **Wideband high-gain magneto-electric dipole antenna with stepped L-feed** [13807-97]

13807 1G **A broadband dual-polarized magneto-electric dipole antenna with high-polarization isolation** [13807-83]

SENSING, MEASUREMENT, AND SIGNAL PROCESSING

13807 1H **Design and implementation of circuit function for embedded intelligent furniture remote monitoring system** [13807-20]

13807 1I **A community heuristic path analysis-based study of critical node identification in large-scale complex networks** [13807-8]

13807 1J **Design and implementation of intelligent measuring system for railway construction clearance** [13807-65]

13807 1K **Precision electrical discharge machining power system design** [13807-115]

13807 1L **Research and implementation of pulsed eddy current defect detection method based on TMR sensor array** [13807-113]

13807 1M **Design of a multimodal interaction model combining Llama3 and YOLOv7** [13807-92]

13807 1N **Design and research of UAV airspace lighting system** [13807-28]

13807 1O **A performance evaluation method based on multilayer network nodes** [13807-101]

13807 1P **Design and realization of fully automatic felt-wrapping equipment for single crystal furnace holding drums** [13807-71]

13807 1Q **Design and implementation of intelligent control system architecture for Internet of Things (IoT)** [13807-95]

13807 1R **Experimental study of frequency response characteristics of 110 kv capacitive voltage transformer** [13807-7]

13807 1S **Construction and evaluation of UAV power supply monitoring system and working condition simulation system** [13807-99]

13807 1T **Local demagnetization fault diagnosis of mining permanent magnet synchronous motor based on graph convolutional neural network** [13807-94]

13807 1U **The design and calculation analysis of a hydraulic-assisted exoskeleton robot** [13807-116]

13807 1V **Dynamic trajectory planning and decision-making for autonomous vehicles in complex traffic environments** [13807-117]

13807 1W **Research progress and comparative analysis of three signal modulation recognition methods** [13807-14]

13807 1X **Overhead transmission line connector uncertainty identification method based on recursive gated convolution** [13807-24]

13807 1Y **Flow field analysis and optimization of fixed ball valve based on FLUENT** [13807-108]

13807 1Z **UAV recognition technology based on signal processing and machine learning** [13807-21]

13807 20 **Trans CNN fusion network: a hybrid parallel architecture for fine medical image segmentation** [13807-2]

13807 21 **An attention-based CNN-BiLSTM model for smart contract vulnerability detection** [13807-110]

13807 22 **Optimization of PID temperature control of agricultural Internet of Things system based on TDBO** [13807-25]

13807 23 **Self-compensating phase error correction for fringe projection profilometry under gamma nonlinearity** [13807-59]

13807 24 **Research on key technologies of spatiotemporal matching of radar video heterogeneous data fusion for T-CPS** [13807-68]

13807 25 **Feature aware network for camouflaged object detection** [13807-13]
