

PROCEEDINGS OF SPIE

***Fifth International Conference on
Advanced Optics and Photonics
Research in Engineering
(AOPR 2025)***

Yanhua Luo
Editor

20–22 August 2025
Wuhan, China

Organized by
Hubei Zhongke Institute of Geology and Environment Technology (China)

Sponsored by
American Society for Science and Technology (United States)

Published by
SPIE

Volume 13955

Proceedings of SPIE 0277-786X, V. 13955

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Fifth International Conference on Advanced Optics and Photonics Research in Engineering (AOPR 2025)*, edited by Yanhua Luo, Proc. of SPIE 13955, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii *Conference Committee*

CLASSICAL OPTICS, PHYSICAL OPTICS, APPLIED OPTICS AND INDUSTRIAL OPTICS

- 13955 02 **Real-time analog circuit for auto-correlative weak-value amplification in the time domain**
[13955-6]
- 13955 03 **Improvement design and performance test research of high-speed automotive bearings**
[13955-12]
- 13955 04 **Research on asphalt pavement compaction detection method based on partial least squares regression** [13955-22]
- 13955 05 **Research on the evaluation of the improvement of rural power supply service quality and efficiency under the new concept of social co-governance** [13955-26]
- 13955 06 **Control strategy for magneto-rheological damper based on knowledge-enhanced LSTM**
[13955-33]
- 13955 07 **Corrected mechanical parameters of aeolian sand based on material point method and cone penetration tests for a power transmission project in desert** [13955-46]
- 13955 08 **Discrete element method simulation on mechanical behaviour of silty loess** [13955-47]
- 13955 09 **The impact of polyacrylamide (PAM) on the hydro-mechanical properties of saline soils**
[13955-48]
- 13955 0A **Development of electric impression block leading tool in workover technology** [13955-51]
- 13955 0B **Practical prediction parameter for predicting noise annoyance of transformer substation**
[13955-52]
- 13955 0C **Constructing a text-to-SQL knowledge base for enterprise environments using earth mover's distance in decarbonized field** [13955-54]
- 13955 0D **Technology for positioning large steel pipe pile combined with steel sheet pile wharf with integral positioning frame** [13955-55]
- 13955 0E **Design of UAV flight trajectory monitoring system based on low-ray narrow band satellite communication** [13955-57]
- 13955 0F **A bibliometric analysis of publications in the journal Metrologia** [13955-65]

13955 OG **Study on key technology of high-efficiency drilling and completion in deep geothermal**
[13955-32]

DISPLAYS, IMAGING, HOLOGRAPHY, OPTICAL DEVICES, DETECTORS, SENSORS AND SENSING

13955 OH **LS-BP neural network enhanced channel estimation for FSO-OFDM system in fading channel** [13955-1]

13955 OI **Study on regional carbon flux simulation with VPRM and CAS scoring** [13955-3]

13955 OJ **Enhancing transportation hub efficiency through simulation-based passenger flow optimization** [13955-5]

13955 OK **The investigation on golden price prediction based on the artificial intelligence methods**
[13955-27]

13955 OL **Research on the spatial adaptive mechanism based on the synergy of the five rhythms**
[13955-28]

13955 OM **Research on cabin separation test method of returnable space detectors** [13955-30]

13955 ON **Enhancing ship behavior recognition through multidimensional feature integration and machine learning** [13955-31]

13955 OO **Research on the characteristics of strain sensors based on core-offset multimode fiber structures** [13955-34]

13955 OP **Research on sewage treatment technology of a joint station in northern Shaanxi Province**
[13955-38]

13955 OQ **Open-chain linkage manipulator space trajectory evaluation based on learning vector quantization neural network** [13955-58]

13955 OR **Research on energy-saving technology of 5G base stations in the mobile internet environment** [13955-60]

13955 OS **An embedded monopole antenna with reconfigurable radiation pattern** [13955-67]

13955 OT **High-resolution delay verification for channel sounding system by over-the-air range adjustment** [13955-69]

13955 OU **Optimization design of thermal system of high speed aircraft guided by response surface proxy modeling techniques** [13955-70]

13955 OV **The stope stability analysis of the Hongniu Copper Mine using the point-pillar upward horizontal stratified backfill mining method** [13955-71]

LASER OPTICS, INFRARED OPTICS, ULTRAVIOLET OPTICS AND X-RAY OPTICS

- 13955 0W **Analysis and modeling of optical scattering characteristics of rough copper surface based on BRDF** [13955-2]
- 13955 0X **A novel design of low-power double node upset tolerant latch cell** [13955-8]
- 13955 0Y **Research on the design and accuracy improvement method of three-dimensional micro precision motion platform** [13955-11]
- 13955 0Z **A new design of high-precision focusing mechanism for space application** [13955-14]
- 13955 10 **Design of a high-precision three-dimensional tracking linear calibration device** [13955-18]
- 13955 11 **Multiepoch and multiband observations of J1855+0251** [13955-21]
- 13955 12 **Analysis of computing power energy consumption and research on synergistic operation of electric power-computing systems** [13955-25]
- 13955 13 **The application of intelligent detection technology in the appearance inspection of bridge handover** [13955-40]
- 13955 14 **No phase precise AR test for circular polarization antenna** [13955-66]
- 13955 15 **Calibration method comparing and calibration factor estimation of RF directional power sensor** [13955-68]

LASER LEDS AND OTHER LIGHT SOURCES

- 13955 16 **Fabrication and properties of carbon fiber and bismaleimide resin composites and honeycomb sandwich structures** [13955-24]

OPTO-ACOUSTIC MATERIALS

- 13955 17 **Advances in research and study of non-metallic assembly auxiliary materials performance for spacecraft under high and low temperature environments** [13955-13]
- 13955 18 **Experimental study on vibration isolation by periodic PVC pipe piles in saturated soil** [13955-56]
- 13955 19 **Failure mechanism and finite element study of low-velocity impact of glass fiber T-joint** [13955-62]
- 13955 1A **Study on low-velocity impact damage mechanism and dynamic response of shape memory alloy reinforced basalt fiber hybrid composite sandwich structures** [13955-64]
