

PROCEEDINGS OF SPIE

***Sixth International Conference
on Green Energy, Environment,
and Sustainable Development
(GEESD 2025)***

**Xiaoshuan Zhang
Mohammadreza Aghaei**
Editors

**27–28 June 2025
Wuhan, China**

Organized by
Hubei Zhongke Institute of Geology and Environment Technology (China)
Smart Energy Storage Institute (China)
China Agricultural University (China)

SPIE

Volume 13975
Part One of Three Parts

Proceedings of SPIE 0277-786X, V. 13975

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Sixth International Conference on Green Energy, Environment, and Sustainable Development (GEESD 2025)*, edited by Xiaoshuan Zhang, Mohammadreza Aghaei, Proc. of SPIE 13975, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

xxi Conference Committee

Part One

CHEMISTRY AND ENVIRONMENT

- 13975 02 **Study on characteristics of fuel concentration distribution in the central graded combustion chamber** [13975-9]
- 13975 03 **Research progress and prospects of structural-energy storage integrated composites** [13975-49]
- 13975 04 **A VJD-PLC integrated detection method for dry oil lubrication systems in ship locks** [13975-60]
- 13975 05 **Effect of rough fracture anisotropy on fluid flow** [13975-71]
- 13975 06 **A static triaxial test study of gravel soil fill for roadbase with different compaction levels** [13975-74]
- 13975 07 **The distribution of electric field characteristics of UHV DC grounding electrodes and its influence on buried metal pipelines** [13975-80]
- 13975 08 **Fe species modified hierarchically porous zeolite beta for the degradation of organic compound in wastewater** [13975-84]
- 13975 09 **Structural optimization of copper slag-derived Fe-Cu-C micro-electrolysis fillers via Na₂CO₃ modulation for enhanced wastewater treatment** [13975-87]
- 13975 0A **Research progress of salt-resistant solar interfacial evaporators** [13975-101]
- 13975 0B **Multibiomarker assessment in the microalgae *Isochrysis zhanjiangensis* exposed to di-(2-ethylhexyl) phthalate** [13975-105]
- 13975 0C **Trimethyltin exposure induced oxidative damage and immune dysfunction in sea urchin *Strongylocentrotus intermedius*** [13975-116]
- 13975 0D **Study on marine heatwaves in the Asian monsoon region based on OISST data analysis** [13975-194]
- 13975 0E **Implications for characteristics of diagenetic ages and metallogenic ages and the evolution of tectono-magmatism of gold and nonferrous metal in Jiaodong area** [13975-195]

- 13975 OF **Investigation of tensile mechanical behavior in engineered cementitious composite (ECC)** [13975-202]
- 13975 OG **Comprehensive evaluation of ethanol gasoline on emission reduction and carbon mitigation in hybrid electric vehicles** [13975-205]
- 13975 OH **Analysis of photovoltaic module carbon footprint assessment methods** [13975-211]
- 13975 OI **Feasibility study on fuel loading and startup without secondary neutron sources for generation III large pressurized water reactors** [13975-222]
- 13975 OJ **Research on the impact of warm mix additives on the properties of rubber-modified asphalt** [13975-231]
- 13975 OK **Study on analysis method of siloxanes in bio-natural gas by gas chromatography with ion mobility spectrometry** [13975-245]
- 13975 OL **Hydrochemical characterization and genesis of pore-fissure geothermal water in northern Jinan City, China** [13975-246]
- 13975 OM **Analysis of failure process of jointed rock slope based on discrete element method** [13975-265]
- 13975 ON **Study on the failure mechanism of rock mass with horizontal fractures and joints containing holes** [13975-269]
- 13975 OO **Copper-zinc oxide/PET nanofiber as photocatalyst for removal of BTEX from industrial sewage** [13975-283]
- 13975 OP **Fiberglass cloth-supported C/S-doped TiO₂ as visible light-driven catalyst for TVOC removal from upholstered furniture** [13975-284]
- 13975 OQ **Research on the performance integration path of multifunctional composite materials in green curtain wall systems** [13975-296]
- 13975 OR **Research on the mechanism of rock damage and control technology of deep soft rock roadways** [13975-326]
- 13975 OS **Research on fine particle emissions from light-duty vehicles** [13975-338]
- 13975 OT **Study on the main controlling factors and reservoir formation model of deep coalbed methane in Linxing central area of the Eastern Ordos Basin** [13975-360]
- 13975 OU **Study on the wave function characteristics of hydrogen atoms and its application in quantum computing and spectroscopy** [13975-368]
- 13975 OV **Treatment of manganese-containing wastewater: a review** [13975-391]
- 13975 OW **Study on the effect of wet-dry cycle on microbially induced carbonate precipitation (MICP) treatment of loess slope bodies** [13975-394]

- 13975 0X **Strain-specific variations in N₂O reduction efficiency and growth responses of nosZI vs. nosZII clade bacteria under controlled environmental conditions** [13975-422]

COMPUTER METHODS IN ENVIRONMENT

- 13975 0Y **Advanced numerical evaluation of pervious concrete permeability based on lattice Boltzmann method and discrete element method** [13975-1]
- 13975 0Z **Research on coordinated control method for distributed energy storage based on cluster aggregation** [13975-7]
- 13975 10 **Advancements and prospects in flood prediction in Beijing using remote sensing and machine learning** [13975-15]
- 13975 11 **Numerical analysis on mechanical characteristics and stability analysis of soil nailing walls with flexible structural facing** [13975-27]
- 13975 12 **Bearing capacity analysis of steel pipe piles considering plugging behavior with different diameter-to-length ratios** [13975-36]
- 13975 13 **Wave spectrum and parameter inversion of offshore area near the Yellow River estuary based on SAR images** [13975-40]
- 13975 14 **Numerical simulation of gas production behavior from natural gas hydrate under different production pressures** [13975-43]
- 13975 15 **Research on the design of an intelligent inspection system for photovoltaic power stations based on AI and algorithm optimization** [13975-52]
- 13975 16 **Experimental investigation and constitutive modeling of the flexural behavior of steel fiber reinforced concrete** [13975-75]
- 13975 17 **Energy demand forecasting in the laboratory animal center: comparative analysis of statistical and machine learning models** [13975-78]
- 13975 18 **Coupled structural-thermal simulation of subsea oil storage tank under deepwater environment** [13975-93]
- 13975 19 **CFD-based design and field validation of air conditioning system for pipelaying vessel's operation line** [13975-102]
- 13975 1A **Construction of heterogeneous porous media geometric models and numerical simulation of solute transport** [13975-113]
- 13975 1B **Flavor-specific emission characterization of Sichuan liquor enterprises using Bayesian inference and compliance trend analysis** [13975-137]
- 13975 1C **Modified zeolite synergized with calcium-based material encapsulation for water pollution remediation** [13975-142]

- 13975 1D **A wideband oscillation monitoring method based on the combination of adaptive TLS-ESPRIT and improved variational autoencoder** [13975-143]
- 13975 1E **Application and compliance research of wind power generation prediction model based on neural network in international climate agreements** [13975-147]
- 13975 1F **Numerical study on aerodynamic characteristics of coplanar multirotor** [13975-159]
- 13975 1G **An intelligent detection method for flow-impeding objects in urban drainage pipelines based on improved YOLO11n** [13975-161]
- 13975 1H **Research on ITIL-based refined operation and maintenance management of northern channel gates** [13975-179]
- 13975 1I **Research on the control of photovoltaic electrical construction based on big data technology** [13975-185]
- 13975 1J **Research on optimal ranking method of technical renovation reserve projects for power grid production auxiliary facilities based on the PSO-AHP-TOPSIS method** [13975-191]
- 13975 1K **Vibration fault diagnosis of wind turbine gearbox based on SVM-D-ZOA-BLS model** [13975-198]
- 13975 1L **A comprehensive prediction model for annular pressure loss during cementing in oil-gas wells** [13975-199]
- 13975 1M **A collaborative strategy model for marine pollution in the Yangtze River Delta based on big data and knowledge graph** [13975-209]
- 13975 1N **Hydrogeochemical analysis and health risk assessment of physiotherapy hot springs in Jiadong Peninsula based on Monte Carlo simulation** [13975-248]
- 13975 1O **Research on power allocation of photovoltaic microgrid based on improved droop control** [13975-252]
- 13975 1P **Influence of support optimization on foundation deformation for subway access section** [13975-254]
- 13975 1Q **Research and analysis on load capacity of disk-buckled scaffold** [13975-255]
- 13975 1R **Research on smart control system for safety monitoring of existing facilities by subway transportation** [13975-256]
- 13975 1S **Research on application of new corrugated steel webs for emergency access to Tibet** [13975-257]
- 13975 1T **Research on key technology of concrete construction of large-section hydraulic tunnel lining** [13975-259]

- 13975 1U **Construction and practice of urban rail transit emergency management system** [13975-260]
- 13975 1V **Simulation study on perlite filling process of large LNG storage tank** [13975-263]
- 13975 1W **Application of underpinning technology in the jacking up and rectifying deviation of the wooden column in Zhangjiakou Temple Theater** [13975-266]
- 13975 1X **Nonlinear dynamic analysis of supertall office building in high seismic intensity area** [13975-268]
- 13975 1Y **Erosion mechanism and simulation calculation of condenser heat transfer tubes** [13975-270]
- 13975 1Z **Research advances and future directions of total nitrogen and phosphorus inversion models in Lake Chao** [13975-287]
- 13975 20 **Research on life cycle cost calculation of prefabricated buildings based on the concept of sustainability** [13975-291]
- 13975 21 **Research and application practice of new low-carbon building materials in intelligent construction** [13975-293]
- 13975 22 **Research on the application of digital twin technology in energy efficiency management of large-scale public building operation and maintenance** [13975-294]
- 13975 23 **Research on the integration path and collaborative mechanism of construction robots in the intelligent construction system** [13975-295]
- 13975 24 **Research on the construction of an integrated BIM- and GIS-based smart operation and maintenance system for urban bridges throughout their entire lifecycle** [13975-297]
- 13975 25 **Research on intelligent control strategies for the entire process construction schedule of super high-rise buildings based on BIM** [13975-298]
- 13975 26 **Maximum power point tracking integrated topology control method for spaceborne highly photovoltaic panels based on Simulink model** [13975-302]
- 13975 27 **Intelligent analysis of general wedge-shaped segment point selection** [13975-306]
- 13975 28 **Numerical simulation study of coke oven gas drying reforming in microchannel reactor** [13975-321]
- 13975 29 **An empirical viscosity model for pure liquids** [13975-332]
- 13975 2A **A novel deep learning framework for crowded-scene crowd recognition** [13975-333]
- 13975 2B **Optimal dispatch strategy of microgrid based on multiobjective vector weighted average algorithm** [13975-336]

- 13975 2C **Multistep PM_{2.5} prediction based on MKAN-iTransformer** [13975-345]
- 13975 2D **Theoretical heat balance calculation of WSA desulfurization technology used in large-scale oil-fired power plants** [13975-349]
- 13975 2E **Research on intelligent monitoring and early warning of slope stability of roadbed under the action of precipitation** [13975-371]
- 13975 2F **Study on the healing mechanism of regenerator microencapsulated asphalt based on molecular dynamics simulation** [13975-382]
- 13975 2G **Reliability-based design of reinforced concrete columns for ultimate limit state using design value method** [13975-384]
- 13975 2H **Construction risk evaluation of tube jacking method on subway tunnel based on projection pursuit method** [13975-388]
- 13975 2I **Research on the damage of reinforced concrete beams based on digital image correlation method** [13975-390]
- 13975 2J **Considering the mechanical response of the roadway surface under temperature stress coupled with HWD** [13975-398]

Part Two

- 13975 2K **Numerical simulation-based control of long-term settlement stability of coarse-grained soils in high-fill airports** [13975-399]
- 13975 2L **Analysis of carbon energy balance analysis based on multitime coupled decision making** [13975-407]
- 13975 2M **Numerical study of the spiral case flow characteristics of a prototype pump-turbine in maximum head pump condition** [13975-426]

ECOLOGY AND RURAL ENVIRONMENT

- 13975 2N **Feasibility study on downgrading emergency diesel generators to non-safety class in Hualong pressurised reactor** [13975-46]
- 13975 2O **Geochemical characteristics of selenium in Pu'er, Yunnan: a study on coffee plantation soils** [13975-47]
- 13975 2P **Thermal performance analysis of phase change energy storage walls in cold regions** [13975-48]
- 13975 2Q **Comparative analysis and prospects of natural gas heating and medium-deep geothermal heating in Shandong Province** [13975-57]

- 13975 2R **Temporal and spatial evolution and correlation between soil heavy metals and plant diversity under land remediation project in mining and subsidence area** [13975-69]
- 13975 2S **Experimental study on the effect of root exudates on the shear properties of plant root tailings composites** [13975-70]
- 13975 2T **Analysis of spatial and temporal changes in land use and attribution in Jiangxi Province based on geodetector** [13975-89]
- 13975 2U **Analysis of long-term temporal and spatial changes in land use in Xiangyang City** [13975-92]
- 13975 2V **Transition process and spatial differentiation of sloping cropland in Pingliang** [13975-97]
- 13975 2W **Summer thermal comfort of different types of plant spaces on university campuses** [13975-111]
- 13975 2X **The theory and technical methods geothermal energy exploration and utilization** [13975-112]
- 13975 2Y **Research on the environmental value of the straw power generation supply chain based on the whole life cycle** [13975-139]
- 13975 2Z **Case study on process design of combined new constructed wetland system for improving water quality** [13975-186]
- 13975 30 **Mechanisms of green space optimization for microclimate improvement in high-density residential communities: a case study of Tiantongyuan, Beijing** [13975-214]
- 13975 31 **Research on vibration-reduction structural design for a general hospital building under high-intensity earthquake conditions** [13975-215]
- 13975 32 **Seismic design of an over-limit high-rise building in Shanghai** [13975-234]
- 13975 33 **Prediction model and experimental study of matrix suction based on shear wave velocity in soil self-consolidation process** [13975-243]
- 13975 34 **Research on heat and mass transfer characteristics and heat storage and release performance of soil in multiheat source heat pump systems** [13975-280]
- 13975 35 **Study on the effect of dry density on the water-holding capacity and strength characteristics of silt** [13975-303]
- 13975 36 **Research on quantitative construction technology of shield tunneling with small curve radius** [13975-307]
- 13975 37 **Research on geothermal geological conditions in Inner Mongolia Horinger New Area based on CSAMT** [13975-316]
- 13975 38 **Impact of thermal pressure on centralized fume exhaust resistance in residential kitchens of summer-hot, winter-cold regions** [13975-319]

- 13975 39 **Analysis of characteristics and disaster mechanisms of the landslide on the north side of the composite photovoltaic power station in Gongping village of Fengjie County** [13975-344]
- 13975 3A **Impact of urban form on microclimate in different climate zones of China: case study of generic residential district prototypes** [13975-347]
- 13975 3B **Study on uniaxial compression performance and pore structure evolution of concrete under salt lake brine freeze-thaw conditions** [13975-354]
- 13975 3C **Research and application of geotextile construction technology for saline soil roadbeds in cold and arid regions** [13975-365]
- 13975 3D **The influences of acid solution on mechanical properties of remolded loess** [13975-369]
- 13975 3E **Research on seepage control and deformation characteristics of loess homogeneous high dam** [13975-378]
- 13975 3F **Research on the performance of prefabricated block buckling constrained steel plate shear walls** [13975-380]
- 13975 3G **Analysis on the over-under excavation control of long-distance large-section diversion tunnel in alpine region** [13975-396]
- 13975 3H **Research on the impact of climate change on China's urban drainage system and corresponding countermeasures** [13975-400]
- 13975 3I **Analysis of land resource utilization changes and driving forces in Lhoka in the past 20 years** [13975-402]
- 13975 3J **Exploring ICT's role in climate change: insights from visual analytics** [13975-403]
- 13975 3K **Analysis of the influence of soil characteristics of Heqing foundation on foundation selection** [13975-411]
- 13975 3L **Wind tunnel experiment on influencing factors of dust emission in arid and semi-arid region** [13975-414]
- 13975 3M **Effects of air leakage volume and temperature on the temperature field of a coal-fired furnace** [13975-418]

ENERGY, ENVIRONMENT, AND ECONOMY

- 13975 3N **Spatiotemporal evolution and driving factors of tourism ecological security in Guangxi Beibu Gulf urban cluster** [13975-20]
- 13975 3O **Tourism ecological security early warning: a case of Guilin** [13975-22]

- 13975 3P **Feasibility analysis and comparative study of new energy storage technologies application in nuclear power plants** [13975-50]
- 13975 3Q **Study on the spatial and temporal evolution of carbon sink service value of snow and ice ecosystem in Heilongjiang Province** [13975-68]
- 13975 3R **A study on the impact of digital economy development on carbon emission reduction in the Northeast Asia region** [13975-107]
- 13975 3S **The optimization of environmental protection expenses of enterprises considering profits** [13975-117]
- 13975 3T **Empirical study of modeling the impact of corporate carbon emissions on corporate value** [13975-128]
- 13975 3U **Research on the optimization of initial carbon emission allocation at the enterprise level** [13975-130]
- 13975 3V **Economic analysis of Fengning hydropower station renovation after construction of Fengning pumped storage power station** [13975-150]
- 13975 3W **Exploring the vitality and cultural value of rivers: an interdisciplinary approach to theory and practice** [13975-151]
- 13975 3X **Study on green and low-carbon supply chain differential games based on retailers' fairness concerns** [13975-154]
- 13975 3Y **Low-carbon city pilot policies' impact and mechanism on industrial land carbon emissions: evidence from the Yangtze River Economic Belt** [13975-158]
- 13975 3Z **The impact and heterogeneity analysis of green finance policies on the earnings quality of listed companies** [13975-169]
- 13975 40 **The four-party evolutionary game analysis of sustainability-linked bonds** [13975-174]
- 13975 41 **What is the global causal relationship between government governance, energy transition, and energy intensity? Empirical evidence from OECD countries** [13975-187]
- 13975 42 **Research on sustainable development strategies for photovoltaic roof integration design in airport terminals: theoretical framework and implementation path** [13975-192]
- 13975 43 **Analysis of the certificate-electricity joint trading model and its impact under the mandatory green electricity consumption mechanism** [13975-201]
- 13975 44 **Spatiotemporal evolution of green, low-carbon and circular economy on the Tibetan Plateau and spatial spillover effects: taking Qinghai Province as an example** [13975-225]
- 13975 45 **Comprehensive evaluation of urban resilience in Anhui Province** [13975-235]
- 13975 46 **Performance evaluation of sustainable transformation of China's coal economy** [13975-241]

- 13975 47 **Research on the mechanism and effect of tourism on regional carbon emissions: an empirical analysis based on China's provincial panel data** [13975-275]
- 13975 48 **The impact of economic agglomeration on carbon emission intensity: evidence from province-level empirical data in China** [13975-310]
- 13975 49 **Evaluation mechanism research based on improved fuzzy support vector machine** [13975-311]
- 13975 4A **Evolution characteristics of medium and long-term carbon trading price changes in carbon market** [13975-322]
- 13975 4B **Digital platforms empowering the circular economy: challenges and opportunities in intelligent recycling of lead-acid batteries** [13975-339]
- 13975 4C **Research on battery swapping standard system for electric commercial vehicle** [13975-352]
- 13975 4D **Low-carbon design strategies for small and medium-sized airports under dual-carbon background** [13975-395]
- 13975 4E **Energy consumption and economic analysis of flexible peak-shaving in coal-fired power units: a case study of typical coal-fired power units** [13975-424]

ENVIRONMENT AND POLLUTION

- 13975 4F **Research on diesel engine performance optimization technology based on virtual calibration** [13975-3]
- 13975 4G **Research on reinjection treatment technology of wastewater from high salinity operation in gas field** [13975-19]
- 13975 4H **Analysis of factors affecting casing damage in Daqing oilfield** [13975-34]
- 13975 4I **Exploring the new model of reducing river pollution from rainwater pumping station in city** [13975-41]
- 13975 4J **Research status and application prospects of ceramic matrix composites in the energy and environmental fields** [13975-51]
- 13975 4K **Study of NH₃ flux released by precipitation evaporation process in northeastern** [13975-76]
- 13975 4L **Pollution characteristics and compliance efficiency of wastewater in China's Baijiu industry using XGBoost and SHAP** [13975-77]
- 13975 4M **Research on the optimization of offshore wind power base site allocation** [13975-94]

- 13975 4N **Experimental study on vibration isolation performance of periodic recycled concrete row piles** [13975-99]
- 13975 4O **Pollution characteristics and risk assessment of heavy metals in agricultural soils around historical legacy gold mines in Pingyi County** [13975-100]
- 13975 4P **Study on the impact of complex mountainous terrain on solar radiation in towns of the Tibetan region, Western Sichuan, China** [13975-146]
- 13975 4Q **Study on the analysis and transformation of PM_{2.5} and heavy metal composite pollution sources** [13975-155]
- 13975 4R **Study on factors influencing the mobility of tight sandstone in Ordos Basin** [13975-180]
- 13975 4S **Research on the influence mechanism of temperature-stress field during construction period on the bearing capacity of high arch dam foundations** [13975-184]
- 13975 4T **Multidimensional analysis and pollution characteristics of ozone (O₃) under typhoon meteorological conditions** [13975-221]
- 13975 4U **Research on road performance of rubber powder modified asphalt steel slag mixture based on multisource solid waste recycling** [13975-233]
- 13975 4V **Hazard assessment of geological disasters in mountainous areas within fault zone-influenced regions** [13975-239]
- 13975 4W **Evolution mechanism of small-strain stiffness of unsaturated soil based on intergranular stress** [13975-244]
- 13975 4X **Thermal stress analysis of high arch dam in high-altitude and cold area: a case study of a high arch dam in southwest China** [13975-258]
- 13975 4Y **Enhancement of visible-light activity of polyacrylonitrile-based sulfur-doped ZnO and its application in degradation of phenolic effluents** [13975-282]
- 13975 4Z **Study on sedimentary characteristics and sedimentary model of Gaotaizi oil layer** [13975-301]

Part Three

- 13975 50 **The cause analysis of natural gas in a fault depression** [13975-323]
- 13975 51 **Research on the optimization and efficiency enhancement of oxidation treatment technology for COD in lead-zinc industry wastewater** [13975-359]
- 13975 52 **Study on the influence of notch size on chimney blasting demolition** [13975-361]
- 13975 53 **Research on heavy metal pollution risk grading and early warning response based on multimineral area comparison** [13975-364]

- 13975 54 **Research on PM_{2.5} prediction based on fusion of time series model** [13975-373]
- 13975 55 **Regional geological hazard risk assessment based on cluster analysis** [13975-386]
- 13975 56 **Experimental study on the effect of fire on tunnel lining strength based on elastic wave velocity** [13975-392]
- 13975 57 **Research on water inflow risk assessment in water-rich fault tunnels** [13975-393]
- 13975 58 **Research on environmental performance-driven modular building layout optimization for urban regeneration** [13975-397]
- 13975 59 **Evaluation method for site selection of decontamination stations based on multisource data of environmental characteristics in the surrounding areas of nuclear power plants** [13975-408]
- 13975 5A **Study on multiphysics coupling of sludge cell disruption and reduction based on biochar-catalyzed persulfate** [13975-409]
- 13975 5B **A critical choke model during hydraulic-fracture flowback for a shale oil reservoir** [13975-417]
- 13975 5C **Deciphering the treatment performance and removal mechanisms of granular sludge in treating different C/N ratio wastewater** [13975-423]

GREEN ENERGY AND SYSTEM

- 13975 5D **Research on the implementation scheme for photovoltaic development in Ningxia expressways** [13975-11]
- 13975 5E **Analysis of safety prevention and control strategies for marine hydrogen fuel cell module applications** [13975-12]
- 13975 5F **Influence of ternary composite system on reservoir logging interpretation analysis of parameter variation patterns** [13975-16]
- 13975 5G **Research on NVH optimization of electromagnetic scheme for permanent magnet synchronous motor** [13975-59]
- 13975 5H **Safety and emergency response in nuclear-powered gas supply projects under the carbon neutrality pathway** [13975-61]
- 13975 5I **Stability analysis of deep braced excavation in thick overburden strata using FLAC3D** [13975-62]
- 13975 5J **Research on the structural strategy for the development of China's energy conservation and environmental protection industry** [13975-64]

- 13975 5K **Experimental study on the mechanical properties of matrix-modified tailings soil plant root complex** [13975-65]
- 13975 5L **Research on the green energy utilization and cooperation between China and the African Union** [13975-82]
- 13975 5M **Technical research and application efficiency analysis of 3D new high-efficiency concentrating heat pipe** [13975-103]
- 13975 5N **Study of turbulent wind fields at typical high slope wind turbine sites** [13975-106]
- 13975 5O **Recent progress and technical directions in drilling technology for hot dry rock geothermal systems** [13975-114]
- 13975 5P **Characteristics and evaluation sound environment quality in Xishuangbanna Prefecture from 2020 to 2023** [13975-124]
- 13975 5Q **Mechanical deformation characteristics and influencing factors of wind turbine foundations in soil-rock composite ground** [13975-131]
- 13975 5R **Trend analysis of new energy vehicle power batteries on patent perspective** [13975-132]
- 13975 5S **Analysis and research on the mechanical behavior of steel girders under various construction conditions during the transportation and erection of wide-bridge-span I-shaped steel plate girders** [13975-138]
- 13975 5T **Analysis on the benefits of joint operation of pumped storage power station and wind power base** [13975-157]
- 13975 5U **Analysis on coupled heat transfer with boiling phase transition of helical coiled tube steam generator for liquid metal fast reactor** [13975-163]
- 13975 5V **Failure characteristics and reinforcement method of wind turbine foundation of mountain wind farm under wind speed load** [13975-165]
- 13975 5W **Fatigue damage law and construction management of wind turbine foundations in mountainous wind farms** [13975-168]
- 13975 5X **Design of front electrode patterns of solar cell: an explicit topology optimization method using moving morphable components** [13975-178]
- 13975 5Y **Research on treatment measures for deep cover layer foundation construction of high-head hydropower plants** [13975-181]
- 13975 5Z **Application of multiparameter measuring instrument for high-temperature and high-pressure drilling** [13975-190]
- 13975 60 **Prediction of clean energy heating load based on support vector machine** [13975-213]

- 13975 61 **Design and performance study of a spherical grid-structured for oxygen mass transfer in aeration systems** [13975-224]
- 13975 62 **Stability analysis and support design of left bank slope in front of the Kala hydropower dam** [13975-238]
- 13975 63 **Support effect and stability analysis of underground caverns for Tiantai pumped storage power station** [13975-240]
- 13975 64 **Research on construction and application of water disaster emergency response model** [13975-264]
- 13975 65 **Key technologies and case analysis of electromagnetic compatibility design in electrical engineering** [13975-271]
- 13975 66 **Vertical compressive-uplift capacity of fixed offshore PV pile foundations: field test analysis** [13975-278]
- 13975 67 **Dynamic characteristics analysis and optimization of a 660MW turbine foundation** [13975-279]
- 13975 68 **A marine inverter power supply and its control strategy** [13975-288]
- 13975 69 **Research on an IoT-based intelligent monitoring system for carbon emissions in construction sites** [13975-289]
- 13975 6A **Application and optimization of intelligent construction technology in energy management of low-carbon buildings** [13975-292]
- 13975 6B **Comparative study on the installation methods and optimal tilt angles of photovoltaic bracket** [13975-304]
- 13975 6C **Research on the application of photovoltaic system in Gansu region and the effect of connection defects** [13975-305]
- 13975 6D **Impact of tidal current energy generation devices on the hydrodynamic environment in the Putuo sea area** [13975-318]
- 13975 6E **Forecasting photovoltaic power in real-time: evidence from Anhui, China** [13975-324]
- 13975 6F **Design of push-pull isolated DC-DC power supply based on pulse width control** [13975-325]
- 13975 6G **Research on influencing factors of pressure rise rate in ammonia-diesel dual-fuel marine engines** [13975-342]
- 13975 6H **Study on heat transfer of heat exchanger for green electricity hydrogen production** [13975-355]
- 13975 6I **Effects of electrically heated catalyst on emissions for range-extended hybrid gasoline engine** [13975-356]

- 13975 6J **Research on innovation status and development countermeasures of Suzhou new energy industry** [13975-357]
- 13975 6K **Research and field test on multimedia energy replenishment mechanism of tight oil in H reservoir in western Daqing** [13975-358]
- 13975 6L **Study of high-specific-energy lithium-ion battery life under actual working conditions** [13975-406]
- 13975 6M **The study of desired efficiency values and improving energy efficiency of coal-fired unit in peak-clipping operation** [13975-412]
- 13975 6N **Research on radiation heat dissipation of isotope thermoelectric conversion** [13975-416]
- 13975 6O **Effect of dilute nitric acid treatment of electrode surface on fuel cell performance** [13975-421]

WATER AND MINERAL RESOURCES

- 13975 6P **Urban differences and dynamic evolution of carbon productivity in major coal provinces: empirical analysis based on Shanxi Province in China** [13975-13]
- 13975 6Q **Comprehensive analysis and evaluation of water quality in the northwest coastal waters of Liaodong Bay in China** [13975-17]
- 13975 6R **Water pollution control scheme of Buerhatong River in Tumen River Basin based on QUAL2K model** [13975-25]
- 13975 6S **Assessment of wave energy resources in the offshore area near the Yellow River estuary** [13975-44]
- 13975 6T **Research on the evaluation of ecosystem-based marine spatial planning** [13975-85]
- 13975 6U **Research on the setting of marine sewage disposal outfalls: a case study of Fuqing Bay** [13975-119]
- 13975 6V **A large-diameter directional drilling tool salvage technology for underground drilling in coal mines** [13975-122]
- 13975 6W **An integrated micro-hydropower model for enhancing the economic viability and sustainability of reclaimed water systems: a case study in Dangyang, China** [13975-140]
- 13975 6X **Thermodynamic analysis of chicken manure SCWG-SCWO-ammonia-heat supply system** [13975-156]

- 13975 6Y **Synergizing SDG integration for a shared sustainable future** [13975-189]
- 13975 6Z **Study on the on-line detection locations of deposition source terms in a PWR** [13975-197]
- 13975 70 **Analysis of genesis and hydrochemical characteristics of geothermal water in central of Jinan City** [13975-247]
- 13975 71 **Study on the interface characteristics of warm mix rubber powder modified asphalt and steel slag under aging conditions** [13975-286]
- 13975 72 **Innovative applications of big data and artificial intelligence technologies in low-carbon water management** [13975-299]
- 13975 73 **Research on hydrochemical and isotopic characteristics of geothermal resources in Inner Mongolia Horinger New Area** [13975-315]
- 13975 74 **Sand control effect of reservoir tip screenout fracturing technology considering hydrate dissociation effect** [13975-327]
- 13975 75 **Remote sensing to monitor the water quality based on linear multistep method** [13975-334]
- 13975 76 **New precipitation input to improve the accuracy of water quantity and quality simulations in the upper Huangbaihe River Basin, China** [13975-343]
- 13975 77 **Research on optimization design method of injection parameters for class II and III oil layers** [13975-366]
- 13975 78 **Analysis and study on the operation evaluation of sewage treatment plants for the integration of life and industry in industrial parks** [13975-367]
- 13975 79 **Bibliometric analysis of the status and trends in water ecological environment carrying capacity research** [13975-377]
- 13975 7A **Research on seismic performance of GFRP hollow phosphogypsum concrete columns** [13975-379]
- 13975 7B **Research on wetland protection strategy in urban central area: Xinghu Wetland in Zhaoqing as an example** [13975-404]
- 13975 7C **GIS-based evaluation system for spatiotemporal dynamics of water resources in regional sustainability** [13975-405]
- 13975 7D **Experimental study on the suffusion characteristics of deep overburden foundation** [13975-413]
- 13975 7E **Research on the driving factors of ecological water demand in the Yellow River source region** [13975-419]

13975 7F **Development of a test system for particle bridge plugging** [13975-420]

13975 7G **Analysis on the physicochemical properties of water and sediments in typical wetlands in Xining City** [13975-425]
