

PROCEEDINGS OF SPIE

Seventh International Conference on Geoscience and Remote Sensing Mapping (GRSM 2025)

**Paolo Mercorelli
Mahmoud Reza Delavar
Ali Shamsoddini**
Editors

**17–19 October 2025
Urumqi, China**

Organized by
Xinjiang Normal University (China)

Sponsored by
AEIC—Academic Exchange Information Centre (China)

Published by
SPIE

Volume 13996

Proceedings of SPIE 0277-786X, V. 13996

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Seventh International Conference on Geoscience and Remote Sensing Mapping (GRSM 2025)*, edited by Paolo Mercorelli, Mahmoud R. Delavar, Ali Shamsoddini, Proc. of SPIE 13996, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

ix *Conference Committee*

REMOTE SENSING DATA AND IMAGE PROCESSING

- 13996 02 **Water body change detection method based on feature interaction and content-guided feature fusion** [13996-92]
- 13996 03 **Data quality evaluation of multisource rainfall stations in Yujiang River Basin based on clustering algorithm** [13996-59]
- 13996 04 **Unlocking the power of dual-angle satellite observations for synergistic retrieval of aerosol size information** [13996-70]
- 13996 05 **Spatio-temporal fusion assisted by gap filling under different cloud conditions** [13996-10]
- 13996 06 **A lightweight background suppression module for animal detection using remote sensing imagery** [13996-38]
- 13996 07 **A method for aeromagnetic data filling based on projection onto convex sets algorithm** [13996-16]
- 13996 08 **Based on depth-aware and scale-adaptive 3D Gaussian splatting for sparse-view reconstruction** [13996-7]
- 13996 09 **A study on soil moisture retrieval of bare soil using dual-polarization SAR data** [13996-78]
- 13996 0A **Small object detection in optical remote sensing images: current status and trends** [13996-85]
- 13996 0B **GPS real-time and long-term tracking algorithm for mobile radioactive sources** [13996-76]
- 13996 0C **Research on the application of machine learning algorithms in aeromagnetic survey** [13996-67]
- 13996 0D **An adaptive threshold filtering algorithm improved based on cloth simulation** [13996-68]
- 13996 0E **High-accuracy DEM construction method based on ICESat-2 and multisource DEMs** [13996-40]
- 13996 0F **An improved method of point cloud filtering based on convex hull algorithm for vertical shaft** [13996-25]
- 13996 0G **Multisource gravity anomaly data fusion algorithm based on feature preservation** [13996-37]

- 13996 OH **Class hierarchy-driven regularization model for SAR target classification** [13996-41]
- 13996 OI **An adaptive PPP-RTK atmospheric delay modeling method: for strip-shaped networks based on prior variance fusion** [13996-49]
- 13996 OJ **A multitask perception network for autonomous driving based on task-adaptive feature allocation and multiscale attention** [13996-39]
- 13996 OK **A lightweight multidirectional Mamba architecture for hyperspectral image classification** [13996-15]
- 13996 OL **MF-Deeplab: a semantic segmentation model based on multiscale feature fusion and Dense ASPP connections** [13996-90]
- 13996 OM **Analysis of multisystem undifferenced and uncombined PPP** [13996-33]
- 13996 ON **Analysis of GPS navigation warfare interference effects based on IGS data** [13996-46]
- 13996 OO **Multifaceted function method and least squares configuration: research on application of GNSS elevation anomaly fitting** [13996-54]
- 13996 OP **Research on remote sensing image semantic segmentation method based on multiscale feature fusion** [13996-72]
- 13996 OQ **Research and implementation of quality control software for common scale standard map of DEM** [13996-84]
- 13996 OR **Tree height measurement based on smartphone image analysis** [13996-97]

ENVIRONMENTAL AND HYDROLOGICAL MONITORING

- 13996 OS **Prospects for applications of VLEO occultation in ionosphere detection** [13996-89]
- 13996 OT **Optimizing water resource distribution in the Qingjiang Basin based on cooperative game theory** [13996-87]
- 13996 OU **Evaluation of the rain gauge network in the Minjiang River Basin** [13996-61]
- 13996 OV **Comprehensive evaluation of hydrological station network based on information entropy AHP-TOPSIS fusion** [13996-60]
- 13996 OW **Decoupling of surface and subsurface chlorophyll-a in response to tropical cyclones in the South China Sea** [13996-99]
- 13996 OX **Prediction method for convective boundary layer height in arid regions based on LSTM-attention** [13996-42]

- 13996 0Y **Analysis and prediction of influencing factors of the correlation between urban NO₂ and CO₂** [13996-96]
- 13996 0Z **Analysis on the uncertainty in areal rainfall calculation and its impacts on runoff simulation** [13996-57]
- 13996 10 **Spatiotemporal transfer learning for hydrological model parameterization networks** [13996-86]
- 13996 11 **The present study explores the impact of climate change in the Ganzi section of the Dadu River Basin on vegetation indices** [13996-58]
- 13996 12 **A manual-label-free framework for urban water body extraction** [13996-2]
- 13996 13 **Spatiotemporal variation characteristics of extreme precipitation events in the Jinghe River Basin over the past 60 years** [13996-13]
- 13996 14 **Comparison of multiple remote sensing proxies for gross primary production across North America** [13996-5]
- 13996 15 **Optimizing ecological flow guarantees at Datong Station through adaptive reservoir dispatch: a drought-aware strategy for the Three Gorges Dam** [13996-6]
- 13996 16 **Using remote sensing images to analyze the land use changes in Beibei District, Chongqing City** [13996-94]
- 13996 17 **Spatio-temporal distribution of soil salinization in oases of the Hexi Corridor based on multisource data and machine learning approach** [13996-21]
- 13996 18 **Water resources security assessment in the upper reaches of the Yellow River based on the DPSIR model and multisource data** [13996-22]
- 13996 19 **Spatial and temporal distribution of NEE in Babao River Basin based on multisource remote sensing data** [13996-32]
- 13996 1A **Response of lake water level to catchment low flows: insights from a combined approach of machine learning and structural modeling** [13996-50]
- 13996 1B **Analysis of surface temperature changes in Dadukou District, Chongqing City over the past 20 years** [13996-55]
- 13996 1C **Land use dynamics analysis in the Inner Mongolia section of the Yellow River Basin** [13996-18]
- 13996 1D **Remote sensing and GIS-enabled research on precipitation and land cover** [13996-4]
- 13996 1E **Application of decision tree based on multisource remote sensing data in land use/cover classification in the Shiyang River Basin** [13996-88]

- 13996 1F **Analysis of the spatiotemporal characteristics of meteorological drought in the Jing River Basin based on the SPEI index** [13996-17]
- 13996 1G **Remote sensing dynamic monitoring of vegetation ecological water based on NDVI spatio-temporal data fusion model** [13996-52]
- 13996 1H **Analysis of ecological changes in the Yellow River Desert based on multispectral remote sensing images** [13996-26]
- 13996 1I **Calculation and analysis of reservoir capacity based on oblique photogrammetry** [13996-30]
- 13996 1J **Spatial coupling of land use and atmospheric methane (XCH₄) in the Tumen River Basin** [13996-56]
- 13996 1K **A GRU-based Xinanjiang model for watershed runoff simulation** [13996-47]
- 13996 1L **Analysis of spatiotemporal changes and driving forces of vegetation cover index in Heilongjiang Province** [13996-63]
- 13996 1M **Design of a wireless communication environmental monitoring system for Chinese herbal medicine greenhouses** [13996-34]
- 13996 1N **AI-driven correction of near-surface wind speed forecasts in the Kumtag Desert: model comparison and key factor analysis** [13996-44]
- 13996 1O **Spatiotemporal evolution and driving factors of Dongting Lake's water extent based on long-term remote sensing data** [13996-11]

GEOLOGICAL AND GEOSPATIAL APPLICATIONS

- 13996 1P **Three-dimensional elliptic mesoscale eddy modeling and underwater sound field analysis** [13996-35]
- 13996 1Q **Characteristics and causes of ground subsidence in Jinan Starting Area based on SBAS-InSAR analysis** [13996-93]
- 13996 1R **Design of ArcGIS geographic information data storage system in land survey** [13996-77]
- 13996 1S **Research on knowledge graphs construction based on geospatial data** [13996-101]
- 13996 1T **Visual perception-based analysis of community age-friendliness** [13996-83]
- 13996 1U **Identification of micro-deformations in historic buildings through time-series data measurement and calibration** [13996-95]
- 13996 1V **Physics-informed deep learning for 3D gravity inversion** [13996-8]

- 13996 1W **Monitoring of surface subsidence in the main urban area of Nanjing using the integration of PS and DS methods** [13996-64]
- 13996 1X **Spatial-temporal dynamics of construction waste in Xiamen from remote sensing images** [13996-24]
- 13996 1Y **High-precision scene-level metaverse virtual space construction and update technology integrating point cloud semantic information** [13996-19]
- 13996 1Z **Design and implementation of a multimodal monitoring system for territorial spatial optimization** [13996-12]
- 13996 20 **Study on geological hazard prediction model and risk identification in deep mining** [13996-29]
- 13996 21 **Prediction and application of interwell sandbody continuity in Type II reservoirs** [13996-53]
- 13996 22 **Disaster geological hazard identification and risk assessment in Wuhan-Ezhou-Huanggang-Huangshi region based on InSAR** [13996-48]
- 13996 23 **Integrating photonic sensing data into national geological data infrastructure: challenges and opportunities for enhanced earth system monitoring and hazard early warning** [13996-20]
- 13996 24 **A spatial latent Dirichlet allocation model for semantic feature extraction of urban functional zones from POIs** [13996-9]
- 13996 25 **Remote sensing for mountainous river monitoring: application progress and prospects** [13996-3]
- 13996 26 **Identification of geological faults in vegetation-covered regions using Jilin-1 and ALOS DEM data** [13996-81]
- 13996 27 **Multisource remote sensing identification and comprehensive analysis of potential geohazards in the reservoir area** [13996-74]
