

PROCEEDINGS OF SPIE

# ***Eighth International Conference on Environmental Science and Civil Engineering (ICESCE 2025)***

**Ping Xiang**

*Editor*

**11–12 October 2025**

**Nanchang, China**

*Organized by*

Jiangxi University of Water Resources and Electric Power (China)

Civil Engineering Academy of Jiangxi Province (China)

Hubei Zhongke Institute of Geology and Environment Technology (China)

*Sponsored by*

Beijing Engineering Management Science Institute (China)

*Published by*

SPIE

**Volume 14002**

Proceedings of SPIE 0277-786X, V. 14002

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Eighth International Conference on Environmental Science and Civil Engineering (ICESCE 2025)*, edited by Ping Xiang, Proc. of SPIE 14002, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

---

**Paper Numbering:** A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

# Contents

ix *Conference Committee*

---

## **BUILDING INTEGRATED PHOTOVOLTAICS (BIPV)**

---

- 14002 02 **Construction of the four-dimensional linkage training system for environmental design major from the perspective of collaborative lighting environment design: based on the integration of industry and education practice through teaching services and BIM photovoltaic building monitoring** [14002-83]
- 14002 03 **Research on production scheduling of prefabricated components based on improved artificial bee colony algorithm** [14002-16]
- 14002 04 **Study on the excavation stability of anti-slide piles in slopes containing spherical boulders** [14002-30]
- 14002 05 **Research on the energy efficiency characteristics of power batteries in whole vehicle conditions under multiple temperature ranges** [14002-13]
- 14002 06 **Influencing factors and optimization strategies of green building engineering cost under carbon neutrality** [14002-69]
- 14002 07 **Analytical on the dynamics of axle system of railway large maintenance machinery** [14002-75]
- 14002 08 **Three-dimensional resistivity and geological modeling of solitary stone detection in coastal cities** [14002-78]
- 14002 09 **Impact of transport infrastructure on common prosperity based on the two-way fixed effects model** [14002-48]
- 14002 0A **Dynamic response of transversely isotropic saturated soil surface subjected to periodic torsional loading** [14002-47]
- 14002 0B **Investigation of basement excavation-induced soil erosion failure mechanisms surrounding pressurized discontinuous pipelines** [14002-1]
- 14002 0C **Study on cracking damage of shield segments based on the CDP model** [14002-2]
- 14002 0D **Numerical modeling study of toppling deformation in soft-hard interbedded rock slopes** [14002-82]

## CIVIL ENGINEERING AND ECOLOGICAL PROTECTION

---

- 14002 OE **Decision analysis of pavement maintenance schemes based on the CRITIC-TOPSIS method** [14002-14]
- 14002 OF **Preparation and performance study of WCO nano SiO<sub>2</sub> composite recycled asphalt** [14002-15]
- 14002 OG **Shaking table test of new self-centering frame-rocking wall structures under bidirectional seismic action** [14002-36]
- 14002 OH **Research on sustainable development of construction land in metropolitan suburban villages under the rural revitalization strategy: a case study of Xinlongqiao Village of Chengdu, Sichuan** [14002-89]
- 14002 OI **Applicability evaluation and selection mechanism of different organic matter determination methods for typical industrial solid wastes** [14002-22]
- 14002 OJ **Study on the effect of zonal excavation of deep foundation pit on adjacent subway tunnels in soft soil** [14002-6]
- 14002 OK **Research and application of low-carbon green remediation technology for petroleum hydrocarbon contamination of groundwater** [14002-11]
- 14002 OL **Based on the parent metal fatigue S-N curve arc incision performance evaluation** [14002-26]
- 14002 OM **Seismic performance of road pile-deck structures equipped with buckling restrained braces** [14002-90]
- 14002 ON **Vertical transport behavior of soil polycyclic aromatic hydrocarbons (PAHs) microplastic-mediated based on column leaching experiment** [14002-18]
- 14002 OO **MoDiBrace: multimodal diffusion model for generating internal bracing systems in deep excavations** [14002-25]
- 14002 OP **The calculation of earth pressure on baffle between two piles considering three-dimensional soil arching effects** [14002-20]
- 14002 OQ **Steady-state torsional response of a single pier-supported footing in transversely isotropic soil** [14002-8]
- 14002 OR **Comprehensive evaluation method for the severity of submerged losses due to check dam breach** [14002-85]
- 14002 OS **Effects of cement dosage and reactive mineral powder replacement in insitu stabilization of soft soil** [14002-56]
- 14002 OT **Analysis of the temperature control scheme for concrete dams based on stage-based temperature control data** [14002-41]

- 14002 0U **Study on the impact of reservoir bed sediment accumulation on the stability and quasi-steady temperature field of concrete gravity dams** [14002-43]
- 14002 0V **Multifield coupled simulation study of seepage-induced disasters in high-pressure tunnels within rock formations of varying weathering degrees** [14002-35]
- 14002 0W **Deformation prediction of expansive mudstone tunnel based on SSA-LSTM deep learning model** [14002-33]
- 14002 0X **Risk analysis and assessment of the electromechanical system in a subsea tunnel operating for ten years** [14002-44]
- 14002 0Y **Seismic damage evolution of CSST column-steel beam frame structures: experimental and simulation analysis** [14002-28]
- 14002 0Z **Analysis of Yellow River water and sand management based on time series forecasting and linear regression modeling** [14002-61]
- 14002 10 **Study on the effect of low temperature and low humidity curing conditions on the properties of early age self-compacting concrete** [14002-71]
- 14002 11 **Estimation method of water surface profile in the stepped geobag spillway chute considering the aerated flow** [14002-63]
- 14002 12 **Research on critical test conditions and causes for the transformation of loess shear curves** [14002-87]
- 14002 13 **Research on water resources supply guarantee in plain areas of Hebei Province based on the theory of dual water cycle** [14002-88]

---

#### CONSTRUCTION OF ENVIRONMENTAL ENGINEERING FACILITIES

---

- 14002 14 **Post-occupancy evaluation and optimization strategies for hybrid-use learning spaces** [14002-84]
- 14002 15 **Ecological restoration optimization using cloud computing and big data analysis** [14002-4]
- 14002 16 **Analysis of deformation characteristics for deep excavation groups considering spatiotemporal effects** [14002-17]
- 14002 17 **Effects of different aging conditions on asphalt performance** [14002-5]
- 14002 18 **A numerical simulation research on the applicability of the manual activation curve for the sprinkler system** [14002-86]
- 14002 19 **Optimization of waste high-density polyethylene content based on performance evaluation of asphalt mixtures** [14002-34]

- 14002 1A **The influence of raw material properties and water-cement ratio on soft soil foundation performance** [14002-57]
- 14002 1B **Influence of layer soil stiffness on composite foundation due to local concentrated load** [14002-46]
- 14002 1C **Study on grouting reinforcement technology for deep high-stress roadways** [14002-62]
- 14002 1D **Research on the development law of water-conducting fracture zone of overburden in coal seam group mining** [14002-64]
- 14002 1E **Study on anti-seepage technology of dam body structure for underground reservoir in multi-coal seam mining** [14002-65]
- 14002 1F **Dynamic optimization of roadway support parameters and engineering practice in Baotou Energy Wanli mining area** [14002-80]
- 14002 1G **Optimization and application study of rapid tunneling process using a combined excavation and bolting machine** [14002-66]
- 14002 1H **Optimization of roadway support parameters of Wanli No. 1 mine** [14002-67]
- 14002 1I **Field test on disturbed stress radial distribution in surrounding rock of a deep tunnel under excavation-unloading condition** [14002-68]
- 14002 1J **Research on 3D modeling for construction progress using computer vision and Bayesian network** [14002-70]
- 14002 1K **Exploration on the application program of factory bridge support under the perspective of large-span lightweight steel structure** [14002-81]
- 14002 1L **Innovative high-energy gas pre-splitting rock breaking technology for urban subway tunnel excavation** [14002-72]
- 14002 1M **Study on low-vibration and dust-reduction excavation techniques for shallow-buried hard rock metro tunnels** [14002-73]
- 14002 1N **Study on mechanical properties and friction behavior of nitrile rubber under ocean conditions** [14002-74]
- 14002 1O **Study on manufacturing techniques and material selection for pipeline headers in oil and gas transportation** [14002-76]
- 14002 1P **Efficiency of sand filter device on reducing water turbidity in rivers** [14002-60]
- 14002 1Q **Effect of connection rigidity on seismic response of pile-deck structures for road widening and reconstruction** [14002-91]
- 14002 1R **Characterization of visual stresses in Songyuan Ningjiang** [14002-32]

## PHOTOELECTRIC TECHNOLOGY AND ENVIRONMENTAL MONITORING

---

- 14002 1S **Key technologies for the operation and maintenance of wastewater from photovoltaic modules: progress and application analysis of process adaptability and economic optimization** [14002-12]
- 14002 1T **Efficient treatment of low-concentration oily sludge using Mn- $\gamma$ -Al<sub>2</sub>O<sub>3</sub> heterogeneous fenton-like system** [14002-7]
- 14002 1U **Research on production scheduling optimization of prefabricated components based on IWOA** [14002-21]
- 14002 1V **Effect of transect distance on vegetation cover and soil properties in Crowden area** [14002-24]
- 14002 1W **Metallic source analysis of PM<sub>2.5</sub> and its pollution source identification based on spectral analysis method and time series analysis method** [14002-9]
- 14002 1X **Topography-based detection of historical geological hazard events in a mountainous area with high vegetation cover** [14002-27]
- 14002 1Y **Changes in surface water area (2000–2021) in Chongqing, China** [14002-29]
- 14002 1Z **Driving factor analysis for different vegetation change regions in Guizhou Province** [14002-77]
- 14002 20 **Integral equation method for the pile groups and layer poroelastic half space to harmonic axial loads** [14002-45]
- 14002 21 **Research on UAV geolocation methods based on deep learning** [14002-49]
- 14002 22 **A new co-transmission method including both energy and signals** [14002-92]
