PROCEEDINGS OF SPIE

International Conference on Frontiers of Traffic and Transportation Engineering (FTTE 2025)

Feng Gao
Jianqing Wu
Editors

31 October - 2 November 2025
Guilin, China

Organized by
Guilin University of Electronic Technology (China)

Published by
SPIE

Volume 14060

Proceedings of SPIE 0277-786X, V. 14060

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *International Conference on Frontiers of Traffic and Transportation Engineering (FTTE 2025)*, edited by Feng Gao, Jianqing Wu, Proc. of SPIE 14060, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B … 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

xi *Conference Committee*
xii *Introduction*

INTELLIGENT TRANSPORTATION SENSING AND MONITORING

14060 02 **EEG characterization of driving load in long highway tunnels and circadian differences** [14060-35]

14060 03 **Traffic flow monitoring system at crossroads** [14060-60]

14060 04 **Analysis of fault factors in an intelligent ship automatic berthing control system based on the accident tree method and hierarchical analysis method** [14060-145]

14060 05 **Research on two-way two-lane overtaking warning** [14060-97]

14060 06 **Inducement analysis of general aviation flight risks based on Bayesian network** [14060-81]

14060 07 **Research on campus intelligent logistics express safety risk identification based on causal analysis and hierarchical analysis** [14060-144]

14060 08 **Highway safety monitoring based on UAV applications** [14060-75]

14060 09 **Research on the spatial and temporal distribution characteristics of highway travel time based on ETC data** [14060-91]

14060 0A **A 3D multiobject tracker based on roadside multicamera cooperation** [14060-48]

14060 0B **Meteorological risk assessment of railway water damage based on random forest** [14060-117]

14060 0C **GPR-Seg: Gaussian process-refined ground segmentation for autonomous driving** [14060-45]

14060 0D **Air traffic flow prediction method based on spatio-temporal graph convolutional neural network for air network** [14060-32]

14060 0E **Multi-aircraft 4D trajectory cooperative prediction method based on transformer encoder-enhanced spatiotemporal graph attention network** [14060-26]

14060 0F **Research on port operation risk monitoring based on multisource surveillance data** [14060-25]

14060 0G **Unsupervised airport runway foreign object detection method based on diffusion model** [14060-38]

14060 0H **YOLO11-SNP: high-precision small-target detection for non-motorized vehicle at intersections from a UAV perspective** [14060-30]

14060 0I **A data-driven approach for identifying highway travel demand patterns by integrating toll transaction and mobile signaling data** [14060-3]

14060 0J **Research on a road defect detection method based on improved YOLOv11n** [14060-130]

14060 0K **Research on electromagnetic signal propagation prediction methods for plateau railways** [14060-110]

14060 0L **Performance of highway disaster warning system integrating Beidou positioning and short message technology** [14060-139]

14060 0M **Intelligent transportation-oriented estimation of pavement friction thresholds for cooperative active safety control** [14060-37]

14060 0N **Risk level assessment of takeover behavior in L3 automated driving under grassland highway scenarios** [14060-15]

14060 0O **QANPRODrive: a VLM-based clustering approach for safety-critical driving scenarios** [14060-142]

14060 0P **Intelligent recognition system for abnormal states of railway vehicles based on YOLOv8** [14060-87]

14060 0Q **Intelligent classification of aids to navigation operational status based on optimized LightGBM algorithm** [14060-86]

14060 0R **A spatiotemporal risk assessment method of ship collision based on ship domain** [14060-125]

14060 0S **eHMI design effects on pedestrian behavior at unsignalized intersections** [14060-120]

14060 0T **Research on young drivers' workload based on simulated distracted driving test** [14060-72]

14060 0U **An image-based visibility detection method for haze and foggy weather based on dark channel prior** [14060-4]

14060 0V **A study on the driving behavior characteristics of drivers with different personality traits under time pressure** [14060-64]

14060 0W **3D information recognition method of traffic objects based on monocular vision** [14060-66]

14060 0X **A study on multimodal monitoring technology and scene matching for electric vehicle transportation** [14060-13]

14060 0Y **Drone-based inspection strategy for typical defects in railway catenary systems using YOLOv12** [14060-112]

14060 0Z **Vehicle turn intent recognition at intersections based on the TimeGAN-BiLSTM model** [14060-78]

14060 10 **Research on real-time monitoring system of dynamic traffic anomaly based on YOLOv8** [14060-147]

14060 11 **Heterogeneous data-driven evaluation method for the transfer efficiency of multimodal comprehensive passenger hubs** [14060-28]

14060 12 **An isolation-forest-based approach for detecting non-oil-unloading stays of tanker trucks at gas stations** [14060-99]

14060 13 **Imputation of flight ground handling node data based on graph attention networks** [14060-131]

14060 14 **Research on real-time video-based aircraft cargo hold fire detection technology** [14060-141]

TRAFFIC OPERATION OPTIMIZATION AND CONTROL

14060 15 **Research on optimization of delivery route for express delivery based on ant colony algorithm** [14060-118]

14060 16 **Research on optimizing the delivery path of low carbon fresh cold chain logistics** [14060-114]

14060 17 **An improved CNP algorithm for distributed task allocation** [14060-95]

14060 18 **Research on the acceleration scheme of in-plant vehicle OTA download based on 5G MEC and UPF intelligent traffic splitting strategy** [14060-14]

14060 19 **Study on a local control scheme with mean density and mean density varying rate for a modified lattice hydrodynamic model** [14060-113]

14060 1A **Optimal trajectory planning and control for autonomous lane changing via multiobjective evolutionary algorithm** [14060-8]

14060 1B **Research on an improved METANET model for variable speed limit control on urban expressways** [14060-84]

14060 1C **Research on the influence mechanism of the penetration rate of connected vehicles on the collaborative control of convergence bottlenecks** [14060-6]

14060 1D **Simulation-based optimization of dynamic merging strategy in work area** [14060-59]

14060 1E **Optimization of traffic light scenario algorithms for Apollo-based autonomous driving** [14060-153]

14060 1F **Modeling and optimization of intelligent decision-making for shared parking based on evolutionary game theory** [14060-92]

14060 1G **Research on ship path planning based on an improved hybrid ant colony: A* algorithm** [14060-82]

14060 1H **Research on high-density air route conflict detection and resolution model based on multiagent reinforcement learning** [14060-31]

14060 1I **Machine learning for intelligent transportation systems** [14060-63]

14060 1J **Hierarchical A*-based route planning method for vessels in complex sea areas** [14060-53]

14060 1K **Controlling connected and automated vehicles in a moving bottleneck scenario based on reinforcement learning** [14060-115]

14060 1L **Research on vehicle-UAV collaborative delivery path optimization based on genetic algorithm** [14060-42]

14060 1M **Research on emergency traffic flow scheduling methods in manned-unmanned integrated operational airspace** [14060-49]

14060 1N **An optimisation method for lane change in intelligent connected commercial vehicle fleets based on multiobjective optimisation** [14060-134]

14060 1O **Efficient multi-UAV coverage path planning algorithm for intelligent forest inspection systems** [14060-69]

14060 1P **Dynamic DNMPC with online metric learning for safe vehicle platooning** [14060-70]

14060 1Q **Efficient routing and scheduling for multitruck multidrone cooperative delivery: a hybrid optimization approach** [14060-94]

14060 1R **A 3D obstacle avoidance and path optimization method for urban logistics drones based on the A* algorithm** [14060-116]

14060 1S **Dynamic graph-enhanced multiagent reinforcement learning for traffic signal control** [14060-85]

14060 1T **Research on a multichannel dynamic control model for electric bicycle waiting areas coupling traffic-responsive access thresholds with MLEWZ-CA rules** [14060-80]

14060 1U **A multiroute insertion heuristic algorithm for local container drayage problems with remote driving** [14060-21]

14060 1V **The improved dynamic matrix control and its implementation on STM32 for remote driving** [14060-11]

14060 1W **Car-following control considering stochastic time headway using deep reinforcement learning** [14060-123]

14060 1X **Optimizing trackless tram formation for enhanced operational efficiency** [14060-40]

14060 1Y **Multiperiod optimization of integrated sea-land empty container repositioning in hinterland networks** [14060-119]

14060 1Z **Computer-aided learning and optimization of UAV flight paths in community-scale virtual environments** [14060-29]

14060 20 **Integrated scheduling and optimization of fleets and remote drivers** [14060-68]

14060 21 **Joint scheduling of computing and network resources in vehicular computing power networks via hierarchical deep reinforcement learning** [14060-135]

14060 22 **An improved algorithm design for intelligent trailer routing in parking systems** [14060-23]

14060 23 **Dynamic evacuation traffic optimization considering uncertain road network capacity** [14060-34]

14060 24 **Enhancements for the branch-price-and-cut algorithm of vehicle routing problem with time windows** [14060-83]

14060 25 **A two-stage method to find the shortest path for electric vehicles considering charging behavior and travel time reliability** [14060-90]

14060 26 **A study on signal timing optimization at oversaturated urban intersections during peak periods** [14060-98]

14060 27 **Logistics service optimization for pharmaceutical enterprises under direct supply mode: a multiobjective approach** [14060-129]

TRANSPORTATION INFRASTRUCTURE AND SAFETY

14060 28 **Design and performance analysis of the intelligent parking safety lock** [14060-101]

14060 29 **Sustainable transport measurement and key influencing factors analysis in China's super-cities** [14060-88]

14060 2A **Design of wireless fast charging stations for electric vehicles** [14060-127]

14060 2B **Research on technical standard system of biomimetic robots for intelligent cockpits in intelligent and connected vehicles** [14060-100]

14060 2C **Application of clutch booster with hydraulic damping valve** [14060-74]

14060 2D **Simulation analysis of road operation under emergencies from the perspective of resilience** [14060-2]

14060 2E **Highway congestion relief design based on UAV application** [14060-43]

14060 2F **Research on disease identification of highway protection engineering based on improved YOLOv8 algorithm** [14060-111]

14060 2G **Study on the spacing between continuous entrance and exit of expressway considering truck proportion** [14060-107]

14060 2H **A study on mixed traffic at tunnel entrance areas based on the social forces model** [14060-41]

14060 2I **A study on the compatibility of maleic anhydride and asphalt based on molecular dynamics simulations** [14060-79]

14060 2J **Analysis and evaluation of Fresnel lens for reducing blind spots of heavy goods vehicles** [14060-17]

14060 2K **Research on terminal check-in and security screening resource allocation based on passenger classification** [14060-44]

14060 2L **Thermal-mass coupling simulation analysis of liquid benzene railway tank cars based on ANSYS** [14060-20]

14060 2M **Design research on self-luminous reflective outline strips for highway tunnels** [14060-122]

14060 2N **D3QN-based conflict resolution model and real-time prediction strategy in a three-dimensional multiaircraft environment** [14060-12]

14060 2O **BIM approaches for data integration and visualization in road compaction construction** [14060-39]

14060 2P **Method for evaluating cracking resilience of asphalt pavements under Tibetan meteorological conditions** [14060-65]

14060 2Q **Computer vision-based characterization of asphalt pavement texture for smart transportation applications** [14060-76]

14060 2R **Intelligent evaluation and modeling of passenger flow control capacity in urban rail transit under emergencies** [14060-93]

14060 2S **The model construction for the cross-line operation scheme of urban rail trains considering virtual coupling** [14060-106]

14060 2T **Node capacity optimization for logistics network resilience enhancement** [14060-67]

14060 2U **A comprehensive evaluation study of ship carbon emission reduction technologies based on analytic hierarchy process for intelligent decision-making** [14060-126]

14060 2V **Evaluation and safety-oriented design optimization of ultimate bearing capacity for highway space frame structures under corrosion effects** [14060-105]

14060 2W **Research on the loading scheme of metro freight under mixed passenger and freight transport mode** [14060-33]

14060 2X **Research on bridge displacement measurement method based on drone photography and subpixel tracking technology** [14060-73]

14060 2Y **The difficulty calculation method for the collision avoidance practice scene of the navigation simulator** [14060-155]

14060 2Z **Simulation of control strategy of wire control braking system for intelligent connected vehicle** [14060-18]

14060 30 **Low-carbon site selection and multivehicle route optimization for urban waste transfer stations** [14060-55]

14060 31 **Intelligent driving and traffic safety: an in-depth integration study based on solid-state hydrogen-powered unmanned vehicles** [14060-9]

14060 32 **3D model construction of highway subgrade disasters and calculation method for disaster damage information** [14060-54]

14060 33 **Computer-aided multiagent simulation for traffic organization in highway construction zones** [14060-150]

14060 34 **Resilience-oriented intelligent transportation modeling for highway reconstruction under multisource disturbances** [14060-149]

14060 35 **A mobility-aware migration mechanism for time-sensitive services in vehicle-road collaboration** [14060-137]

14060 36 **Research on the architecture of vehicle-road-cloud collaborative control platform based on intelligent prediction and load balancing** [14060-136]

14060 37 **Carbon emission calculation of highway infrastructure during operation period based on urban tunnels** [14060-121]

14060 38 **Design of intelligent induction heating system for public transportation hubs** [14060-96]

14060 39 **Software-defined computing-aware routing mechanism for vehicular networks** [14060-133]
