Volume 14066

Proceedings of SPIE 0277-786X, V. 14066

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Fifth International Conference on Advanced Manufacturing Technology and Electronic Information (AMTEI 2025)*, edited by Bo Dong, Yanjiao Chen, Proc. of SPIE 14066, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

ix *Conference Committee*

CONTROL AND AUTOMATION SYSTEMS

- 14066 02 **PID anti-sway control of crane based on double-step acceleration** [14066-9]
- 14066 03 **Research on rapid generation of three-dimensional reinforcement design models**
[14066-111]
- 14066 04 **Advanced energy management strategy of power-split HEVs employing enhanced DDPG-based deep reinforcement learning** [14066-10]
- 14066 05 **Architecture of unmanned construction system based on intelligent engineering machine**
[14066-76]
- 14066 06 **Research on the ventilation mode of grille in equipment compartment of high-speed train**
[14066-57]
- 14066 07 **Multiobjective scheduling for MTS production with lot sizing in a plastic factory** [14066-78]
- 14066 08 **Research on electronic differential control strategy of mine distributed drive articulated vehicle** [14066-72]
- 14066 09 **Modeling and control characteristics analysis of uniaxial omnidirectional vector propulsion unmanned underwater vehicle** [14066-120]
- 14066 0A **Design of power generation floor** [14066-24]
- 14066 0B **Research on humidity control method for environmental experiment** [14066-109]
- 14066 0C **Design and performance analysis of axial force driving system of inertia friction welder**
[14066-125]
- 14066 0D **Research on steady motion modeling method of underwater towing cable** [14066-106]
- 14066 0E **Pre-removal of short stems on the stem screening and stemming production line with size-controlled spatial screening** [14066-82]
- 14066 0F **Flexible production line CNC machine tool machining accuracy control method**
[14066-112]
- 14066 0G **A* path planning algorithm for autonomous underwater vehicles based on electronic charts** [14066-89]

- 14066 OH **Design of work-hour management system for semiconductor mold industry based on Django framework** [14066-75]
- 14066 OI **Thermal characteristics analysis of filament placement equipment based on refined finite element method** [14066-14]
- 14066 OJ **Kansei engineering for the functional design of new energy vehicle: a graph-theory approach with LLM and online data** [14066-48]
- 14066 OK **Heat dissipation characterization of counterflow microchannels** [14066-55]
- 14066 OL **Design and implementation of an intelligent walkie-talkie based on STM32** [14066-5]
- 14066 OM **Dynamic vibration analysis of high-speed rotating blades** [14066-26]
- 14066 ON **A forecasting model of ionospheric foF2 using the CNN-BiLSTM network** [14066-83]
- 14066 OO **Design and implementation of test system for radar reconnaissance equipment** [14066-2]
- 14066 OP **Optimization design of product dynamic characteristics based on human-computer interaction method and experimental verification** [14066-58]
- 14066 OQ **Analysis of force control and ethical constraints of rigid-flexible coupled dexterous hands** [14066-31]
- 14066 OR **Development of one-button start system for automatic tamping of unmanned crawler crane** [14066-62]
- 14066 OS **Ink transfer simulation of gravure printing process for the preparation of printed flexible electronic devices** [14066-119]
- 14066 OT **Automatic obstacle avoidance control method for AGVs transporting spice tanks in a cigarette refining workshop** [14066-71]
- 14066 OU **Implementation of Smith predictor with variable universe fuzzy PID for lithography air shower thermal regulation** [14066-99]
- 14066 OV **Design of multi-functional intelligent fish tank control system** [14066-84]
- 14066 OW **A mobile robot path planning algorithm combining kinematic constraints and variable-density sampling** [14066-80]
- 14066 OX **AGV path planning method for marine diesel engine assembly workshop based on hybrid optimization algorithm** [14066-130]
- 14066 OY **Application of RRT algorithm and APF algorithm in obstacle avoidance of six-degree-of-freedom mechanical arm** [14066-81]

- 14066 0Z **Research on control and optimization of a bionic hand-shaped manipulator** [14066-70]
- 14066 10 **Design of an intelligent unpacking system for cigarette packaging paper stacks based on a six-axis robot** [14066-39]

SENSING AND MEASUREMENT TECHNOLOGIES

- 14066 11 **Research on the reliability evaluation method of interior ballistic performance in ejection system** [14066-115]
- 14066 12 **Research on the external characteristics testing and numerical simulation methods of spiral Labyrinth pumps** [14066-107]
- 14066 13 **Research on the estimation of thermoelastic physical parameters based on a GNN-PINN hybrid model** [14066-93]
- 14066 14 **Recognition of closed pockets based on adjacency graph decomposition** [14066-4]
- 14066 15 **Research on normalized field intensity in reverberation chamber** [14066-79]
- 14066 16 **Analysis of corrosion, perforation and leakage causes of internal heat exchange tubes in U-tube heat exchanger** [14066-85]
- 14066 17 **Eddy current measurement of tungsten thin film thickness on silicon wafers** [14066-41]
- 14066 18 **Effects of fluidized bed temperature parameters on manufacturing quality in ZJ116B high-speed cigarette maker** [14066-47]
- 14066 19 **Pulse precision frequency measurement implementation method based on space-borne radar processor** [14066-61]
- 14066 1A **Multi-dimensional efficacy analysis and prospect of the integration of photovoltaic materials and building envelope structures** [14066-30]
- 14066 1B **Numerical analysis of condensation risk in electronic equipment enclosures based on COMSOL** [14066-129]
- 14066 1C **End-to-end remaining useful life fusion prediction for mechanical equipment based on multiscale informer** [14066-63]
- 14066 1D **Numerical simulation and modeling of heavy-load UAV landing gear performance on snow surfaces** [14066-94]
- 14066 1E **Design and optimization of integrated structure-performance composite load-bearing ribs** [14066-121]
- 14066 1F **Application of polyphase filter bank in radio fuze** [14066-59]

- 14066 1G **Multiobjective optimization of rural multienergy microgrids using offline deep reinforcement learning** [14066-52]
- 14066 1H **Study on the influence of multi-dimensional warpage on the reliability of PBGA solder joints** [14066-87]
- 14066 1I **Dynamic characteristics analysis of helical gears considering lubrication and temperature effects** [14066-95]
- 14066 1J **Error analysis and compensation of an Inductosyn-based angular measurement system** [14066-6]
- 14066 1K **A self-temperature-compensated ring oscillator using one-type-only resistor** [14066-66]
- 14066 1L **A study on packaging design based on the integrated KANO-AHP** [14066-51]
- 14066 1M **STL model optimization and point cloud registration method for posture measurement of mechanical parts** [14066-74]
- 14066 1N **Application and reliability analysis of digital monitoring technology for dynamic compaction and vibration roller compaction foundation treatment processes in the airport field** [14066-19]

OPTICAL AND SENSING ENGINEERING

- 14066 1O **Characteristic prediction model TCN-informer for gasifier furnace temperature** [14066-40]
- 14066 1P **IF-LIKE low-profile broadband UHF antennas** [14066-68]
- 14066 1Q **Pipeline hole defect detection with small samples using eddy current testing and deep learning method** [14066-73]
- 14066 1R **Design of a high-efficiency wideband mode-converting transmitarray antenna based on receiver-transmitter surface** [14066-8]
- 14066 1S **Design of dual-band millimeter-wave multibeam array antenna based on Rotman lens** [14066-122]
- 14066 1T **Design of highly integrated Ku-band receiver module** [14066-92]
- 14066 1U **Research on long endurance UAV system design and multinet network converged communication technology in emergency scenario** [14066-32]
- 14066 1V **Unsupervised outdoor insulator defect detection based on multiscale feature reconstruction** [14066-16]
- 14066 1W **Quartz fiber Fabry-Pérot (F-P) explosive static pressure sensor** [14066-128]

- 14066 1X **Design and implementation of real-time detection for weak UAV telemetry and control signals based on frequency-domain correlation** [14066-60]
- 14066 1Y **Simulation and analysis of electric fields in the dielectric laser accelerator** [14066-22]
- 14066 1Z **Fault diagnosis method for centrifugal pumps based on normalization-based attention module and deep residual network** [14066-13]
- 14066 20 **Electric field modeling and characterization of a dielectric laser undulator** [14066-28]
- 14066 21 **Tailoring NTC thermistor performance in high-entropy spinel oxide films via sputtering power optimization** [14066-69]
- 14066 22 **A design of a broadband wide-angle tightly coupled dipole antenna element** [14066-15]
- 14066 23 **A broadband double-layer U-shaped slot patch antenna based on SIW technology with air resonant cavity** [14066-18]
- 14066 24 **Long-distance ultrasonic-guided wave detection method for small-diameter pipe weld cracks based on vibro-acoustic modulation** [14066-65]
- 14066 25 **Mixed-frequency nonlinear numerical simulation of fatigue microcracks on air-frame surfaces by focused ultrasonic waves** [14066-67]
- 14066 26 **Application of ultrasonic nondestructive testing in automobile resistance spot welding inspection** [14066-29]
- 14066 27 **A failure analysis method for AI chips integrating electrical testing and physical optics** [14066-116]
- 14066 28 **S/C dual-band high-isolation MIMO antenna based on metamaterial absorber** [14066-42]
- 14066 29 **Design of high-frequency-selectivity filtering antenna based on dielectric resonator** [14066-54]
- 14066 2A **Cigarette appearance defect detection method based on EBF-YOLOv8** [14066-20]
- 14066 2B **An edge chipping reducing process for grinding SiC segmented mirrors using powder mixture filler** [14066-37]
- 14066 2C **Design and application of an anti-clogging early warning and real-time processing system for the ash hopper in cigarette manufacturing dust removal** [14066-36]
- 14066 2D **DGPC-YOLO: an enhanced YOLOv8 model for SBMSR target detection** [14066-90]
- 14066 2E **Lightweight small object detection model based on YOLOv12n** [14066-27]

- 14066 2F **Diagnosis method for hinge joint connection conditions in slab-girder bridges based on fiber optic Bragg grating sensing array [14066-102]**
- 14066 2G **Research on optical fiber transmission method for ultra-high intermediate frequency signals in terahertz polarimeter-interferometer [14066-77]**
