

# **2025 2nd International Conference on Advanced Control Systems and Automation Technology (ACSAT 2025)**

**Tianjin, China  
12-14 December 2025**

IEEE Catalog Number:  
ISBN:

CFP25VY6-POD  
979-8-3315-7609-7

# TABLE OF CONTENTS

|                                                                                                                                       |    |
|---------------------------------------------------------------------------------------------------------------------------------------|----|
| Conveyor Belt Runout Detection System Based on Machine Vision .....                                                                   | 1  |
| <i>Mengsi Li, Wenwen Zhang, Rentao Zhao</i>                                                                                           |    |
| Tire Blowout Detection Algorithm for Vehicles Based on PSO-SVM and Multi-Sensor Signals<br>Determination .....                        | 6  |
| <i>Shuo Fan, Hongliang Zhou, Qiang Zhang, Jinlong Cui</i>                                                                             |    |
| Multi-Sensor Deep Visual Fusion and Dynamic Path Planning: Real-Time Obstacle Avoidance System<br>for Complex Driving Scenarios ..... | 12 |
| <i>Qingpei Zhang, Xuhang Li, Jianlei Guo, Qiushi Gong, Zihao Zhou, Fucai Xie</i>                                                      |    |
| Modeling and Diagnosis for Steel Surface Defects Based on Feature Selection of Gray Level<br>Distribution .....                       | 17 |
| <i>Chenggui Li, Zhiyu Yu</i>                                                                                                          |    |
| Deep Vision-Based Intelligent Bird Deterrent System for Transmission Lines .....                                                      | 22 |
| <i>Zhen Chen, Zhong He, Yunpeng Dong, Yu Zhang</i>                                                                                    |    |
| Design of an Automatic Pushing and Walking Device for Cable Grips on High-Voltage Transmission<br>Lines .....                         | 27 |
| <i>Lianhai Yu, Chengbo Chi, Zhen Chen, Naiwen Xu</i>                                                                                  |    |
| Design of an Autonomous Drone Inspection System for Transmission Lines .....                                                          | 32 |
| <i>Zhen Chen, Jun Li, Ming Dong, Longping He</i>                                                                                      |    |
| Open-Vocabulary Object Detection Based on Domain Alignment and Fine-tuning .....                                                      | 38 |
| <i>Xiaofei Wen, Zihan Wei, Hui Zhang, Jing Liu, Dexin Zhang, Yizhun Peng</i>                                                          |    |
| Control Strategies for Dual-three-phase Motors at Low Switching Frequencies .....                                                     | 44 |
| <i>Kai Tian, Shijian Cang, Qingjun Hu, Nan Li, Junhong Chen, Wenyuan Xu</i>                                                           |    |
| A lightweight intrusion detection method for industrial network control systems .....                                                 | 53 |
| <i>Ming Lei, Hongxin Zhao, Yeshen He, Jia Zhao, Yiyang Zhang, Xiao Li</i>                                                             |    |
| A self-supervised learning-based 3D model completion method for automatic reconstruction systems .....                                | 57 |
| <i>Jing Li, Yanshen Wang, Meng Du, Yanzi Kong</i>                                                                                     |    |
| Research on a Single-UAV Follow Control Based on Enhanced Deterministic Supervised Learning .....                                     | 61 |
| <i>Zijun Zhao, Shitao Chen, Xiangjun Cheng, Chaojia Jia</i>                                                                           |    |
| A Bidirectional Closed-Loop Data Collaboration Method for Multi-Network Integration in Smart Ports .....                              | 66 |
| <i>Yongkang Wang, Jun Wu, Yi Ding</i>                                                                                                 |    |
| Research on Frequency Stability of New Energy Grid Based on VSG and Droop Control .....                                               | 70 |
| <i>Shaogong Zhai, Keqilao Meng, Rihan Hai, Qianhui Zhang</i>                                                                          |    |
| Solution of Forward Kinematics of Trifree Hybrid Robot Based on BP-N Method .....                                                     | 76 |
| <i>Longteng Chen, Hutian Feng, Manxing Wang</i>                                                                                       |    |
| Design and Verification of an Automated Control System for SFRC 3D Printing of Functionally Graded<br>Concrete .....                  | 86 |
| <i>Xuyang Wang, Yuliang Liu, Weiming Yang, Sitao Wang</i>                                                                             |    |

|                                                                                                                       |     |
|-----------------------------------------------------------------------------------------------------------------------|-----|
| Lightweight Retrieval-augmented language model .....                                                                  | 91  |
| <i>Yiping Li, Dexin Zhang, Yizhun Peng, Hui Zhang, Jing Liu</i>                                                       |     |
| MT-YOLO: A Gradient-Selective Mean Teacher Framework for Weakly-Labeled PCB Defect<br>Detection .....                 | 96  |
| <i>Chao Liu</i>                                                                                                       |     |
| Research on Fuzzy PID Control Method of Four-AGV Collaborative Handling System .....                                  | 101 |
| <i>Daming Zhang, Yang Wang, Yang Zhang, Xiantai Gou, Wei Zhong, Kaiming Yang, Zimeng Geng, Rui Li</i>                 |     |
| Design and Implementation of a Fully Integrated Automated Drone Airport Control System Based on<br>STM32 .....        | 106 |
| <i>Jieping Cui, Ruiguo Wang, Bin Chen, Minghua Wang, Wenchao Bian, Bowen Ning, Weikai He</i>                          |     |
| Monocular Vision-Based Indoor Localization and Robust Flight Control for Multicopter UAVs via<br>EKF-LQR Fusion ..... | 113 |
| <i>Andi Qin, Wenchao Bian, Bowen Ning, Bin Chen, Ruiguo Wang, Minghua Wang, Weikai He</i>                             |     |
| Underground Unmanned Mining Vehicle Path Planning Based on Skeleton Guidance and Kinematic<br>Constraint .....        | 119 |
| <i>Haitao Shi, Weidong Li, Yibing Zhao, Guojun Zheng, Jiaxuan Xu, Guokai Liu</i>                                      |     |
| Vision-Based Grasp Section Recognition and Pose Estimation for Bent Metal Tubing .....                                | 125 |
| <i>Jia Guang Li, Feng Li, Bengang Liu, Dawei Jia, Changdi Yue, Jun Luan, Zeguang Dong, Xiaofeng Han</i>               |     |
| Hydraulic and Electrical Design for Lightweight Modular Mountain Intelligent Cranes .....                             | 131 |
| <i>Zhen Chen, Bo Yu, Shishun Xiao, Gaisheng Sun</i>                                                                   |     |
