# TABLE OF CONTENTS

|                                                                                                                                  |    |
|----------------------------------------------------------------------------------------------------------------------------------|----|
| Blockchain-Based Tokenization and Management of Land Documents: A Decentralized Approach for Secure Ownership and Transfer ..... | 1  |
| <i>Prabhat Das, Diptadeep Roy, Kaveri Banerjee, Sajal Saha, Bodhi Chakraborty, Garima Roy<br/>Dibya Jyoti Bora</i>               |    |
| A Hybrid ResNeXt-101 & LSTM Framework for Spatiotemporal Deepfake Detection in Video Sequences .....                             | 7  |
| <i>Jaya Raj</i>                                                                                                                  |    |
| Development of Novel Flight Modes for Underwater Drones .....                                                                    | 13 |
| <i>Shiho Oshiro, Masaki Shibuya, Hiroaki Kawasaki</i>                                                                            |    |
| Study on Quantum Image Representation Schemes: A Comparative Analysis .....                                                      | 19 |
| <i>Ritwika Das, Shouvik Das, Tanmay Bhattacharya</i>                                                                             |    |
| Deep Learning-Based Multi-Angle Classification of Tree Species from UAV Images .....                                             | 26 |
| <i>M Sobhana, JRS Aditya Vardhan, P Srilakshmi Sravanthi, K Uma Santosh Reddy</i>                                                |    |
| Thyroid Lumps Detection in Ultrasound Images Utilizing Multi-View Deep Learning Approach .....                                   | 32 |
| <i>Aarti Pimpalkar, Mayuresh Gulame</i>                                                                                          |    |
| Recognition of Parkinson's Disease Utilizing Machine Learning .....                                                              | 36 |
| <i>Ankush Kapoor, Vikas Attri, Amandeep Kaur, Gurpreet Kaur, Harpinder Kaur, Manpreet Kaur</i>                                   |    |
| Image Description Generator for Visually Impaired Individual .....                                                               | 42 |
| <i>Muskan Debnath, Shashikala Tapaswi</i>                                                                                        |    |
| Predictive Analytics for Youth Mental Health Leveraging ML to Identify Early Signs of Depression and Sleep Disorder .....        | 47 |
| <i>Ranjit Kaur, Punam Rattan, Raminder Pal Singh, Madhav Dua, Mokesh Nagpal</i>                                                  |    |
| Overengineering BRC: Distributed-System Solution for Automating Compute-Heavy Data-Processing Competitions .....                 | 53 |
| <i>Devyash Saini, Jayadeep Bejoy</i>                                                                                             |    |
| Optimization Techniques with Numerical Simulation of Partial Differential Equation through RBF .....                             | 58 |
| <i>Geeta Arora, Kiran Bala</i>                                                                                                   |    |
| Mango Variety Recognition: Improving ImageBased Classification for Quality Control .....                                         | 63 |
| <i>Ashish Sharma, Abhishek Yadav, Anand Yadav</i>                                                                                |    |
| Innovative Thermal Design: How Nature is Redefining Heat Management in Supercomputing .....                                      | 68 |
| <i>Siddharth Jain, Damanpreet Kaur, Rajan Kakkar, Nikhil Sharma, Tiyas Sarkar</i>                                                |    |
| Performance Evaluation of AI-Based Algorithms for 5G RAN Slicing .....                                                           | 73 |
| <i>Sakshi Somani</i>                                                                                                             |    |
| Detecting Switch Spoofing Attacks in SDN Using DPID Detection Mechanism .....                                                    | 79 |
| <i>Priya. L, Narendran Rajagopalan</i>                                                                                           |    |

|                                                                                                                                  |     |
|----------------------------------------------------------------------------------------------------------------------------------|-----|
| Object Detection and Sorting of Airport Baggage Using LabVIEW and Arduino with VISA Communication .....                          | 85  |
| <i>Shravan A P, Mohanraj T, M. Phani Nithin, Safa Thasneem S, Kavyanand S</i>                                                    |     |
| Human Activity Recognition Based on a Hybrid Attention and TCN Model with Sensor Fusion .....                                    | 90  |
| <i>Sadhna Bijrothiya, Vaibhav Soni</i>                                                                                           |     |
| A Detailed Overview of Various Techniques for Osteosarcoma Detection in Blockchain System .....                                  | 96  |
| <i>P. Nandhini, Mercy Paul Selvan</i>                                                                                            |     |
| American Sign Language Recognition Using Deep Learning for Static Gesture Classification .....                                   | 102 |
| <i>Himanshu Suyal, Shiv Naresh Shivhare, Suryansh Chaudhary, Arnav Kathpal, Raja Madhvendra Singh</i>                            |     |
| Method Noise Filter based Multi Focus Image Fusion Using CNN .....                                                               | 108 |
| <i>Mala Saraswat, Dipanshu Chaudhary, Ritik Roshan</i>                                                                           |     |
| NETRA: An AI-Powered Cybercrime Reporting and Analysis System .....                                                              | 113 |
| <i>Chirag Aggarwal, Vaibhavee Singh, Shivangi Nigam</i>                                                                          |     |
| Evaluation of Sequential and Parallel Strategies for IRB 140 Dynamics through Symbolic Derivation and Numerical Simulation ..... | 119 |
| <i>Naisha Kishore, Aneesha Deshmukh, Kundan Kanti Saha</i>                                                                       |     |
| Hierarchical Deep Learning Framework for Robust Lung Disease Prediction Through Chest X-Rays .....                               | 126 |
| <i>Ankush Kapoor, Gurpreet Kaur, Vikas Attri, Sukhpreet Kaur, Manpreet Kaur, Anand Kumar Shukla</i>                              |     |
| Financial Data Security in QR Codes Using Steganography and Digital Signatures .....                                             | 132 |
| <i>Ankush N A, Praveen Pai T</i>                                                                                                 |     |
| Retrieval Augmented Generation Based Explainable Fact-Checking Using Knowledge Graphs .....                                      | 140 |
| <i>Appidi Jashwanth Reddy, Mote Vinay Kumar, Karthick Seshadri</i>                                                               |     |
| Deep Spectrogram-Based EEG Decoding of Visual Stimuli Using a Novel CNN Architecture .....                                       | 146 |
| <i>Ajinkya Tamhankar, Abhijeet Kokare, Lokesh Khedekar, Amol Bajrang Chincholkar, Pranali Dhawas Saundarya Raut</i>              |     |
| Dynamic Risk Stratification in ICU Sepsis: A Deep Reinforcement Learning Approach Using Synthetic Data .....                     | 151 |
| <i>Shivam Solanki, Venkata Phanikrishna, Manthan Hirani, Pratik Shah</i>                                                         |     |
| Forecasting with Open-AI Transformer Model S and P 500 Index .....                                                               | 155 |
| <i>Ritu Kothiwale, Manoj Kumar, Harshit Bihani, Madala Sasidhar</i>                                                              |     |
| A Multistage Pipeline for Generating Symbolic Music with Deep Learning Architectures .....                                       | 160 |
| <i>Tapassya, Kartik, Shivangi Nigam</i>                                                                                          |     |
| Automated Fire Detection and Suppression System for Railway Safety Using LabVIEW and GSM .....                                   | 166 |
| <i>Sesagiri K R, Sachin S, Vignesh Kumar P, Shanmugapriyan S R, T. Mohanraj</i>                                                  |     |
| Optimized ADMET-Driven Molecular Design Using GRU-GCN Architecture with Multi-Objective Optimization .....                       | 172 |
| <i>Sapna Kushwah, M. Chidhvilas Tanay, Avadh Kishor, Pramod Kumar Singh</i>                                                      |     |

|                                                                                                                           |     |
|---------------------------------------------------------------------------------------------------------------------------|-----|
| Deep Learning for Skin Disease Classification Using Smartphone Images and Clinical Metadata .....                         | 178 |
| <i>Pravin Satyavan Bhagat, Harshith Geddada, Keshavardhan Makireddi, Sai Varshith Rachakatla<br/>Praneeth Kumar Ganji</i> |     |
| Comparative Analysis of Deep Learning Models to Identify Skin Cancer .....                                                | 184 |
| <i>Divya Yadav</i>                                                                                                        |     |
| DASIA: An Intelligent Examination System for Academic Institutions .....                                                  | 188 |
| <i>Manoj S, Dilip Kumar Maripuri</i>                                                                                      |     |
| Optimizing EdgeML Image Denoising with PnP-ADMM, Quantization, and Pruning .....                                          | 194 |
| <i>Mark Austin Edwards, L. K. Suresh Kumar</i>                                                                            |     |
| Predicting Droughts Smarter: How We Built an End-to-End MLOps Pipeline .....                                              | 200 |
| <i>B. Thangaraju, Patel Rutul Satishkumar</i>                                                                             |     |
| Adaptive Personalization in Federated Learning via Feature Subtraction and Generative Decoupling .....                    | 206 |
| <i>Sachin Harne, Pushkar Dubey, Arun Kumar Dubey, Abha Dubey, Satish Kumar Sahu, Parul Dubey</i>                          |     |
| A Hybrid Deep Learning Model for Image Dehazing and Object Detection to Enhance Autonomous<br>Vehicle Navigation .....    | 212 |
| <i>Valeti Abhishek Paul, Vattikuti Bhanu Venkata Satya Nikhil, Madala Pavani, Krosuri Lakshmi Revathi</i>                 |     |
| WBPA-QA(Water Body Property Analyzer for Quality Assessment) .....                                                        | 218 |
| <i>Parth Raheja, Dilip Kumar Maripuri</i>                                                                                 |     |
| Fish Farm Water Quality Monitoring System Using IoT .....                                                                 | 223 |
| <i>Ashutosh Satapathy, Timmala Hrutik, Gorli Uday Kumar</i>                                                               |     |
| Smart IoT Emergency Response System with Real-Time Health Monitoring .....                                                | 229 |
| <i>Naolin Gregory Vaz, Hosmani Bhagyashree Narayan, Bhavani, Tejaswini C, Akshatha G Dhongadi</i>                         |     |
| Designing a Framework for Deepfake Text Detection Using Multi Model Ensembling Techniques .....                           | 235 |
| <i>Muneeba Ahmed, Kiran Malik, Gaurav Indra</i>                                                                           |     |
| Ensemble-Based Diabetic Retinopathy Detection Using CNN, Random Forest, and AdaBoost .....                                | 241 |
| <i>Jitendra Parmar</i>                                                                                                    |     |
| Auditing Chain-of-Thought Reasoning via Perturbation-Based Attribution .....                                              | 247 |
| <i>Ananya Mishra, Shashikala Tapaswi, Debanjan Sadhya</i>                                                                 |     |
| Posture Management in Zero Trust Container Framework .....                                                                | 253 |
| <i>Santosh Kumar Upadhyaya, B. Thangaraju</i>                                                                             |     |
| Audit and Compliance in Zero Trust Container Framework .....                                                              | 259 |
