# TABLE OF CONTENTS

|                                                                                                                                                 |     |
|-------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Adaptive Speech Transcription for Medical Environments using Deep Neural Networks .....                                                         | 1   |
| <i>P Sushma, Bhawna Khokher, Subhash K M, Veerendra Kumar G S, Somesh, Madhu M</i>                                                              |     |
| Model Insights: No-Code Platform to Explain and Improve ML Models .....                                                                         | 7   |
| <i>Jyoti Kanjalkar, Pramod Kanjalkar, Ruzan Verma, Moksh Sanghvi, Jinay Pagariya, Parth Durgude</i>                                             |     |
| Pose Tracking, analysis and impact estimation in real time .....                                                                                | 13  |
| <i>Yogesh Katre, Sachin Balvir, Abhinav Singh, Mohammed Sabri, Pranjal Meshram, Prashik Meshram</i>                                             |     |
| Design of AI-Based Integrated Swarm Robotics for Autonomous Farming Operations .....                                                            | 19  |
| <i>Sushil Tirpude, Kapil Jajulwar, Abhijit Titarmare</i>                                                                                        |     |
| Elevating Recruitment Efficiency: The Role of MERN in Creating Career Bridge's Intuitive Job Platform .....                                     | 25  |
| <i>Nitesh Ghodichor, Vaishali Patil, Sharda Chhabria</i>                                                                                        |     |
| SmartOps: From Demand to Delivery .....                                                                                                         | 30  |
| <i>Kartik Rajesh, Salonee Surve, Jish Joy, Ami Munshi</i>                                                                                       |     |
| ExplainMed++: Generating Human-Centered Medical QA Summaries with Explanations .....                                                            | 38  |
| <i>Shubham Dubey, Smita Nirkhi, Vijay Kumar Joshi, Manish Motghare, Rajkumar S. Sood, Shruti Rastogi</i>                                        |     |
| Markovian Transformers: Bridging Sequential Modeling and Attention Mechanisms .....                                                             | 49  |
| <i>Vijay Kumar Joshi, Smita Nirkhi, Aryan Karande, Manish Motghare, Kartik Singh, Basudeb Dey</i>                                               |     |
| Say It Better by Rewriting Harmful Prompts for Responsible LLM Use .....                                                                        | 60  |
| <i>V. Purushothama Raju, Smita Nirkhi, Priti Kulkarni, Vijay Kumar Joshi, Sabnam Kumari, Manish Motghare</i>                                    |     |
| Explainable Federated Learning Framework for Privacy-Preserving Lung Disease Detection Using Chest X-Ray Images .....                           | 68  |
| <i>Abhay Yeole, Rajesh Dharmik</i>                                                                                                              |     |
| NeuroVision : EEG based image reconstruction using Deep-Learning .....                                                                          | 73  |
| <i>Ajinkya Tamhankar, Aditya Rahulkar, Mohammed Vora, Milind Shende, Ashish Talekar</i>                                                         |     |
| Iterative and Empirical Models for Quantum Blockchain in IoT Security: A Systematic Review and Performance Analysis .....                       | 81  |
| <i>Trupti Suresh Harde, Sweta Bokade</i>                                                                                                        |     |
| AI Legal Argument Generator .....                                                                                                               | 87  |
| <i>Sagar Janokar, Aaryan Shelar, Arya Shedge, Rohan Sharma, Rishabh Pundir, Atharva Shinde</i>                                                  |     |
| Evaluating Fuzzy Logic in Migraine Prediction .....                                                                                             | 92  |
| <i>K. Rajeswari, Mandip Bhattarai, Ranjeet Nath Chaudhary, Nishant Bhakar, Atharv Bhole</i>                                                     |     |
| Multimodal Advanced Persistent Threat Detection and Attribution Using Heterogenous Graph Neural Network and Analysis Using Explainable AI ..... | 98  |
| <i>Premanand Ghadekar, Pranav Jadhav, Sai Kulkarni, Isha Kulkarni, Om Lohade, Isha Mahajan</i>                                                  |     |
| LiFi Based Communication Between Vehicle to Vehicle for Accident Prevention .....                                                               | 106 |
| <i>Vishal V. Panchbhair, J. M. Bhattad, Maheshwari T. Vaidya, Mayuri A. Ramtekkar, Rajasi D. Jibhakate Sakshi D. Kumbhare</i>                   |     |

|                                                                                                                                                                     |     |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Comparative Evaluation of State-of-the-Art Urban Instance Segmentation Models on Cityscapes .....                                                                   | 112 |
| <i>Surbhi Sharma, Aparna Singh, Priyanka Gaba, Arushi Garg, Ayush Mishra, Paras Borase</i>                                                                          |     |
| Optimizing Artificial Pollination in Indian Agriculture through Multi-Agent Reinforcement Learning<br>and Generative AI for Precision Pollen Distribution .....     | 120 |
| <i>P Charanya, V Kalaivani, D Vimal Kumar, S Akila, A Praveena, M Dhurgadevi</i>                                                                                    |     |
| Deep Learning Approaches for Ocean Waste Detection: A Comparative Study of YOLOv8 and Faster<br>R-CNN .....                                                         | 129 |
| <i>Samruddhi Baburao Jadhav, Ashvini Sandip Patil, Megha Bhausaheb Desai, Mayuri Mohan Sutar</i>                                                                    |     |
| CrashAlertNet for Predicting Stock Market Crashes Using Deep Sequential Anomaly Detection Models .....                                                              | 136 |
| <i>Divya Sharma, Narinder Kumar Bhasin, Sunil Kadyan, Iskandar Muda, G. Sreeram, R Saravanakumar</i>                                                                |     |
| Automated Threat Intelligence Gathering and Analysis Using Naive Bayes and Random Forest .....                                                                      | 142 |
| <i>Charanjeet Dadiyala, Harshala Shingne, Manas Badhani, Paras Sawalkar</i>                                                                                         |     |
| Conversational AI Semantic Search for E-commerce using Elasticsearch + RAG: A Scalable Hybrid<br>Framework .....                                                    | 148 |
| <i>Karthik Govardhanan</i>                                                                                                                                          |     |
| Cross-Domain Transfer Learning Framework for Personalized Recommendation Systems Leveraging<br>Heterogeneous Big Data Streams .....                                 | 154 |
| <i>Joel Osei-Asiamah, Malik Bader Alazzam, Ajmeera Kiran, Kamila Ibragimova, Sajiv G, N Dharani</i>                                                                 |     |
| Browser Extension for Secure Session Parameter Handling and Hyperlink Modification .....                                                                            | 162 |
| <i>Rashmi Welekar, Charanjeet Dadiyala, Priyanshi Acharya, Saloni Vishwakarma, Sharvari Gohane<br/>Samrudhhi Rath</i>                                               |     |
| Review on Implementation of an Efficient Image Steganography Over OFDM Based Wireless<br>Communication Channel .....                                                | 167 |
| <i>Manisha D Raut, Sanjay S. Dorle</i>                                                                                                                              |     |
| A Data-Driven Framework for Career Alignment Based on Personality Attributes and Market Trends<br>Using Expert-Weighted Supervised Learning and Generative AI ..... | 176 |
| <i>Ayushi Gupta, Shruti Gabhane, Om Mohod, Somit Karadbhajane, Yash Shelke, Kavita Gudadhe</i>                                                                      |     |
| Explainable AI for Operational Risk Management in Logistics and Procurement Systems .....                                                                           | 183 |
| <i>K. Deepika, Ranjitha P K, Timur Kholmukhamedov, N. Roopalatha, D. Jyothi Preshiya, V Suresh Babu</i>                                                             |     |
| LocalConnect: Designing Community-Centered Digital Solutions for Small-Scale Retail Sustainability .....                                                            | 189 |
| <i>Varsha Karandikar, Renuka Shinganapurkar, Devyani Shingane, Malhar Shirbhate, Shlok Chandak<br/>Shivam Dubey</i>                                                 |     |
| Hybrid Legal BERT and Rule Engine Model for Compliance Monitoring in Financial Regulatory<br>Frameworks .....                                                       | 194 |
| <i>Joel Osei-Asiamah, Narinder Kumar Bhasin, Ramanjeet Kaur, Iskandar Muda, Sajiv G<br/>Alamelu Alias Rajasree S</i>                                                |     |
| A Novel Learning Technique Integrating Machine Learning and Deep Learning for Precision Fertilizer<br>Recommendation in Vegetables .....                            | 200 |
| <i>Sandip B. Chavan, D. R. Ingle, Atul Khumbar</i>                                                                                                                  |     |

|                                                                                                                                           |     |
|-------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Cross-Cultural Linguistic Preservation through AI-Powered Dialect Restoration in Historic English Narratives .....                        | 206 |
| <i>Dr.Neha Jain, Dr.Swati Chauhan, Saloni Parmar, S.Suganthi, Sajiv G, V Suresh Babu</i>                                                  |     |
| Transformer-Based Interactive AI Tools for Creative English Writing: A Cognitive-Pedagogical Exploration .....                            | 213 |
| <i>G.M. Prem Kumar, N.Hema, Dr.Neha Jain, Jeba Arul Robinson, Sajiv G, Sreela B</i>                                                       |     |
| Privacy-Aware Task Placement Frameworks Integrating Predictive Models .....                                                               | 220 |
| <i>Kapil Tajane, Rahul Pitale, Sanket Shende, Anushka Singh, Shreya Sinalkar, Arya Shinde</i>                                             |     |
| Application of Machine Learning for Real-Time Feedback on Spoken English in Language Learning Apps .....                                  | 231 |
| <i>G. Raman Gopal, G. Lakshmanan Gopal, R S Regin Silvest, Shailja Vasudeva, Swapna Vyawahare K. Selvakumarasamy</i>                      |     |
| Explainable AI for Transparent Legal Decision Support in Judicial Systems Using Hybrid LegalTech Framework .....                          | 238 |
| <i>Srigouri Kosuri, Meenakshi Sharma, Guru Basava Aradhya S, V. Selvi, S.Suma Christal Mary Alamelu Alias Rajasree S</i>                  |     |
| A Multi-Input Deep Learning Framework for Prediction of Parkinson Disease Using Voice, Gait and Neuroimaging Data .....                   | 244 |
| <i>Ram Kumar Yadav, Manoj Kumar, Apeksha Sakhare, Rahul Moriwai</i>                                                                       |     |
| Comparative Analysis of Health Monitoring System Based on IoT .....                                                                       | 252 |
| <i>Shikha Gupta, Asha Durafe, Deepika Patil</i>                                                                                           |     |
| AI-Driven Liver Segmentation and Cancer Detection: A Deep Learning Approach .....                                                         | 257 |
| <i>Chandu Vaidya, Sarthak Raut, Pranjali Yadav, Markandey Pandey, Rohit Beri, Rahul Gupta</i>                                             |     |
| ForensicFaceGen: AI-Powered Suspect Sketch Generation Using Stable Diffusion for Criminal Investigations .....                            | 263 |
| <i>Rahul Suryawanshi, Ayush Jadhao, Bhuvneshwar Ghate, Dhananjay Parbat, Kanishq Birole Omprakash Yadav</i>                               |     |
| Enhancing Cryptocurrency Price Prediction Using Hybrid LSTM-Attention Mechanism and Reinforcement Learning for Trading Optimization ..... | 271 |
