## TABLE OF CONTENTS

|                                                                                                                                      |    |
|--------------------------------------------------------------------------------------------------------------------------------------|----|
| Autonomous Content Generation and Management for Startup Social Media Marketing using Agentic AI .....                               | 1  |
| <i>Aslam, K S; Nair, Lakshmi A; Sebastian, Rapheal Rodic; Seemon, Sayaan; Thomas, Asha Rose</i>                                      |    |
| An Exploratory Data Analysis Guided Machine Learning Framework with Feature Selection for Cardiovascular Disease Prediction .....    | 6  |
| <i>George, Mithu Mary; George, Rinu Rose</i>                                                                                         |    |
| Data-Driven Crop Yield Forecasting in Tamil Nadu Using Advanced Deep Learning Models .....                                           | 12 |
| <i>Jacob, A. Philip C; Pamela, B. D.; KingstonStanley, C. P.; Bini, D. D.</i>                                                        |    |
| Hinglish Abusive Comment Detection Using Transformer-Based Models .....                                                              | 17 |
| <i>Chauhan, Sarthak; Patel, Siddharth; Kaliyar, Rohit Kumar; Umang, Paridhi</i>                                                      |    |
| AI-Driven Quality Evaluation of Indian Wines Using Machine Learning Models .....                                                     | 23 |
| <i>Pradeep, S N; Sudarshan; Shilpa Kamath, S; Dhar, Sudip; Shivaprasad, B R; Kannadaguli, Prashanth</i>                              |    |
| MAL-VSR: A Dual-Stream Architecture and Dataset for Malayalam Visual Speech Recognition.....                                         | 31 |
| <i>Paul, Sneha; Adarsh, S; Abina, N J; Ranjith, Tejas; Xavier, Shine P</i>                                                           |    |
| CHARM: Context-based Hierarchical Association Rule Mining for Analyzing Purchase Patterns .....                                      | 37 |
| <i>Sahni, Pronnati; Ummesalma, M; Parihar, Ruchi Singh</i>                                                                           |    |
| Smart Carbon Emission Tracking System for Sustainable Living.....                                                                    | 43 |
| <i>Rai, Deepti; Bhat, Deepa R; Kotecha, Karishma; Pujar, Vishal Komal; Kalola, Yesha Jatin</i>                                       |    |
| Evaluation of Low-Rank Matrix Decomposition Techniques for Data Compression .....                                                    | 49 |
| <i>Remya, R; Aswathymol, A; Manju, Manuel; Kala, S</i>                                                                               |    |
| AI-Powered Voice Agent for Electricity Department .....                                                                              | 55 |
| <i>Gunabhiram, D. K.; Vishwanatha, G T; Kalyani, S; Sunkara, Sivaprasad; Katukam, Ravi</i>                                           |    |
| Smart Safety Systems: Leveraging AI and Big Data for Real-Time Construction Workforce Management .....                               | 61 |
| <i>Dhanani, Varnit</i>                                                                                                               |    |
| Explainable AutoML for Efficient Detection of Thyroid Cancer .....                                                                   | 67 |
| <i>Rajagopal, Lekshmi; Harikrishnan, D</i>                                                                                           |    |
| Authorship Attribution of Malayalam Biblical Texts using Deep Learning .....                                                         | 75 |
| <i>John, Angel B; Idicula, Sumam Mary</i>                                                                                            |    |
| CBAM-Enhanced Deep Learning Framework Using ResNet-101 and Mask-RCNN for Pill Identification in Pharmaceutical Quality Control ..... | 81 |
| <i>Nandhini, N.; Anitha, A.</i>                                                                                                      |    |
| Knowledge Graph-Based Semantic Framework for Infodemic Analytics: Insights from COVID-19 Tweets.....                                 | 87 |
| <i>Rajeesh, K P; Lajish, V. L; Shailesh, S</i>                                                                                       |    |

|                                                                                                                                         |     |
|-----------------------------------------------------------------------------------------------------------------------------------------|-----|
| A Hybrid Transformer–Autoencoder–SVM Framework for Suicide Risk Detection from Reddit Text.....                                         | 95  |
| <i>Pooja, V; Mathew, Tina Elizabeth</i>                                                                                                 |     |
| Explainable Weighted Cross-Attention Based Hybrid CNN-Transformer Network for Multimodal Brain Disease Diagnosis.....                   | 100 |
| <i>Fasnamol, A A; Sabu, M K; Rafidha Rehiman, K A</i>                                                                                   |     |
| Enhancing Genetic Variant Pathogenicity Classification using Mutation-Aware Transformer Architectures .....                             | 108 |
| <i>Anjana, M P; Arun, K S</i>                                                                                                           |     |
| Evaluating Classical, Hybrid, and NISQ-Era Quantum Regression Models for Atmospheric Pollutant Concentration Prediction.....            | 114 |
| <i>Athira, P G; Deepika, M P</i>                                                                                                        |     |
| ADLOB: An attention based deep learning model for predicting midprice in Limit Order Books .....                                        | 121 |
| <i>Aditya, Pulyapudi; Sai, Yalavarthi Roshan; Saicharan, D; Anivesh, Chevula Sai; Aprem, Anup</i>                                       |     |
| AI-Powered Blockchain Digital Banking Fraud Detection System.....                                                                       | 126 |
| <i>Divya, V; Rai, Deepti; Meghashree, K; Samreena; Rai, Sanjana</i>                                                                     |     |
| A Hybrid DCT-CNN Framework for Adaptive and Secure Video Steganography with MultiChaotic Key Encryption.....                            | 132 |
| <i>Suresh, Meenu; Hari Narayanan, Ag; Fathima Shemim, Ks; Soumya, K; James, Joseph; Binoy, Tonny</i>                                    |     |
| Detection of Malicious URLs Using a Hybrid Data-driven Adaptable Framework .....                                                        | 138 |
| <i>Durgesh, Akhil; Sabhareesh; Abhishek; Revanth; Prathaban, Banu Priya</i>                                                             |     |
| Adaptive Cryptographic Strategy Selection for Blockchain Evidence Systems: A Hybrid ECC Signing Framework .....                         | 144 |
| <i>Arifa, P; Syamkrishnan, M. S.; Jithesh, K</i>                                                                                        |     |
| Multimodal Knowledge-Enhanced Misinformation Detection with Adversarial Robustness and Explainable AI.....                              | 153 |
| <i>Krishnamoorthi, G; Surendhar, M S; Harshini, R P; Rajan, C</i>                                                                       |     |
| Poisoning Attacks in Heterogeneous Federated Learning Networks.....                                                                     | 159 |
| <i>Sameera, K.M.; Mukati, Kaanchi; Kavya, M. L.; Lency Preethi, S.; Rughani, Parag; Radhamani, G.; Rafidha Rehiman, K. A.; Vinod, P</i> |     |
| Vision Transformers for Precise Multi-class Diagnosis of Ocular Diseases.....                                                           | 166 |
| <i>Thomas, Asha Rose; Juliet, D Sujitha; Anishin Raj, M M; Thomas, Asha Rose</i>                                                        |     |
| Distance Perception in Vision-Language Models for Blind Navigation and Scene Interpretation .....                                       | 174 |
| <i>George, Ben; Prasanth, Charukesh; Singh, Jaskaran; M, Karthik E; Varghese, Chinnu Maria; Krishnan, Sreedevi R</i>                    |     |
| Sign-Speak.....                                                                                                                         | 180 |
| <i>Babu, Dania Ann; Anil, Deliza; Lonappan, Dona; Johnson, Dreamy K; Elsa Raju, A; Anusree, K</i>                                       |     |
| AI-Augmented Genomic Screening: Leveraging Vision-Language Models for Early Disorder Detection .....                                    | 186 |
| <i>Priyaa Sri, G; Ananthajothi, K</i>                                                                                                   |     |

|                                                                                                                                             |     |
|---------------------------------------------------------------------------------------------------------------------------------------------|-----|
| An Adaptive Ensemble-Based Multi-Focus Image Fusion Framework Using Classical Methods and Convolutional Neural Networks .....               | 193 |
| <i>Santhi Krishna, M S; Harikrishnan, D; Shiyas, C R</i>                                                                                    |     |
| A Machine Learning-Based Indian Sign Language Recognition System with Integrated Audio-Visual Aid for Children .....                        | 201 |
| <i>Fatepuria, Varun; Agarwal, Nivedita; Anitha, A; Bohra, Rishitaa</i>                                                                      |     |
| Temporal-Aware Crowd Anomaly Detection Framework for Violence Recognition Under Video Frame Discontinuities.....                            | 206 |
| <i>Karthicka, K; Saranya Meenatchi, M; Varshini Ramithaa, G; Santhi, S; Kalaiselvi, S</i>                                                   |     |
| Crop Health Identification by Exploiting CNN-ViT Synergy: Detecting Multi-Nutrient Deficiencies.....                                        | 212 |
| <i>Venkatesh, Kummari; Prasad, Mdv; Kurikala, Geetha; Singh, Lokesh Kumar</i>                                                               |     |
| Attention-Enhanced Mask R-CNN for Accurate Blood Cell Segmentation and Classification .....                                                 | 216 |
| <i>Sandhiya, V; Anitha, A.</i>                                                                                                              |     |
| A Detailed Approach to Classifying Dementia.....                                                                                            | 222 |
| <i>Ratalu, S.; Tamilkodi, R.; Madhuri, N.; Alekhya, N. Rishita Sai; Dhanush, P.; Vikas, L.</i>                                              |     |
| Pupil Detection with Emotional Analysis.....                                                                                                | 228 |
| <i>Singh, Atharva; Jain, Akshudhe; Cyril, C. Pretty Diana; Usha, G.</i>                                                                     |     |
| AI-Powered Surveillance for Intelligent Construction Site Management .....                                                                  | 235 |
| <i>Dhanani, Varnit</i>                                                                                                                      |     |
| Explainable Traffic Image Classification: A Hybrid Grad-CAM and LIME Approach with Superpixel-aware Refinement .....                        | 241 |
| <i>Badharudheen, P; Arun, V.</i>                                                                                                            |     |
| PGPNet-X: A Multi-modal and Explainable Pill Detection System.....                                                                          | 248 |
| <i>Balahariraj, N; Subiksha, M; Dharshini, R; Arunmozhidevan, T; Kalpana, P</i>                                                             |     |
| Deep Learning–Based Radiographic Analysis for Musculoskeletal Condition using MURA Dataset.....                                             | 254 |
| <i>Aadhini Sri, R; Agalya, S; Lathika, R; Munirathinam, Ramesh</i>                                                                          |     |
| Multimodal Emotion Recognition Using Optimized Spatio-Temporal Graph Convolutional Networks .....                                           | 259 |
| <i>Xavier; Shine P; John, Saju P.</i>                                                                                                       |     |
| FindMe.AI: A Multi-Modal Framework for Real-Time Missing Person Detection Using YOLOv5 and BERT .....                                       | 266 |
| <i>Neha, P S; Jagadeesh, Athira K; Lalu, Nandhana; NavaneethKrishna, Tn; Gosh, Abhinav</i>                                                  |     |
| Comparative Performance Analysis of Deep Convolutional Neural Networks for Automated Liver Tumor Classification in Ultrasound Imagery ..... | 272 |
| <i>Fidha Fahmi, M.C.; Ahammed Muneer, K.V</i>                                                                                               |     |
| Modeling a Reduced Hybrid Quantum-Inspired Framework for Optimized Speckle Denoising Filters.....                                           | 278 |
| <i>Su-Ada, M; Shailesh, S</i>                                                                                                               |     |
| Neural Latitude-Aware Adaptive Coding for Efficient 360° Video Representation .....                                                         | 285 |
| <i>Rajendran, Vipin; Malathi, S</i>                                                                                                         |     |

|                                                                                                                                             |     |
|---------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Underwater Image Enhancement using Residual Injected Homomorphic Filtering and Wavelet Fusion.....                                          | 291 |
| <i>George, Reena Mary; Vishnukumar, S; John, Abel; Rajkumar, R</i>                                                                          |     |
| HBT-Net: A Ladder-Based Hybrid Backbone-Transformer Network for Explainable AI-Generated Face Detection.....                                | 298 |
| <i>Dilna, T. M.; Varghese, Tinu; Sabu, M. K.</i>                                                                                            |     |
| A Multi-Stage Underwater Image Enhancement Using Unsharp Masking, Bilateral Filtering, and Wavelet Fusion.....                              | 306 |
| <i>Menge, Humphrey Oboso; Vishnukumar, S</i>                                                                                                |     |
| A Distributed Streaming Architecture for Real-Time Multi-User Emotion Detection and Agent Response.....                                     | 314 |
| <i>Choolackal, Sindia; Judy, M.V.</i>                                                                                                       |     |
| An Efficient and Interpretable HOG-PCA-KNN Pipeline for Multiclass Brain Tumor Classification .....                                         | 320 |
| <i>Karumarot, Shaz Nazar; Sabu, M. K.</i>                                                                                                   |     |
| Investigation of Deep Learning Based Beam Steering for Metamaterial Antennas Integrated in UAVs for Enhanced Inter-Drone Communication..... | 326 |
| <i>Harikrishnan, M P; Kumar, Ajay</i>                                                                                                       |     |
| A Smart Elevator Scheduling System Using Quantile Regression Deep Q-Network for Energy Optimization and Waiting Time Reduction .....        | 332 |
| <i>Raj, Kumar Piyush; Arun Pandian, J</i>                                                                                                   |     |
| Implementation of Solar Powered Polyhouse with Automated Irrigation, Environmental Monitoring and Control .....                             | 338 |
| <i>Jerome, Edward; R, Abhishek C; Kurian, Anand V; R, Rohith V; George, Ginu Ann; Thomas, Tomson</i>                                        |     |
| SmartQueryViz:An AI-Driven MongoDB Query Generator and Visualizer for Sensor-Based Applications.....                                        | 344 |
| <i>Velvizhi, S; Sahana, S; Sivaprabha, M.E</i>                                                                                              |     |
| A Unified Task Scheduling Approach for Performance Optimization in 3D MNoCs .....                                                           | 350 |
| <i>Kumar, Sunil; Singh, Anshul; Saini, Paramjeet; Bhowmik, Biswajit</i>                                                                     |     |
| SARA: A Scalable Fault Tolerant Routing Algorithm for 3D MNoCs.....                                                                         | 356 |
| <i>Manher, Shreyan; Pandey, Abhishek; Goudar, Santosh; Girish, K K; Bhowmik, Biswajit</i>                                                   |     |
| Decentralized Adaptive Task Scheduling for 2D Wireless NoCs .....                                                                           | 362 |
| <i>Panda, Abinash; Girish, K K; Pritam, Jyoti; Jha, Priya; Bhowmik, Biswajit</i>                                                            |     |
| An Intelligent Water Temperature Control System Using Deep Q-Learning for Personalized Comfort and Energy Efficiency.....                   | 368 |
| <i>Singh, Vaibhav Raaj; Arun Pandian, J</i>                                                                                                 |     |
| Performance Analysis of Congestion-Aware Genetic Algorithm-Based Adaptive Routing in Fault-Tolerant NoC .....                               | 374 |
| <i>Kiran, K A; Babu, Adwaith; Aravind, K A; Nair, Devika B; Shaji, Devika M; Jacob, Jaison</i>                                              |     |
