**Volume 13827**

Proceedings of SPIE, 1605-7422, V. 13827

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Biophotonics and Immune Responses XXI*, edited by Wei R. Chen, Feifan Zhou, Proc. of SPIE 13827, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

ISSN: 1605-7422

ISSN: 2410-9045 (electronic)

ISBN: 9781510695665

ISBN: 9781510695672 (electronic)

---

**Paper Numbering:** A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

# Contents

v *Conference Committee*

---

## PHOTOIMMUNOTHERAPY FOR CANCER II

---

13827 02 **EGFR-targeted photoimmunotherapy for head and neck cancer: real-world data from multi-center observational study in Japan (Invited Paper)** [13827-8]

---

## BIOPHOTONICS AND IMMUNE RESPONSE

---

13827 03 **Using deep reinforcement learning to facilitate automated adaptive radiation therapy planning: an initial study** [13827-15]

---

## IN VIVO MONITORING OF IMMUNE RESPONSES

---

13827 04 **Fourier ptychographic microscopy using a doublet as objective lens: an initial evaluation** [13827-20]

---

## POSTER SESSION

---

13827 05 **Exploring the gut-brain axis: unsupervised machine learning clustering of genomic data to characterize the relationship between human gut microbiota and glioma** [13827-23]

13827 06 **Exploring the regulatory role of the FUNDC1 gene in macrophage inflammatory responses based on transcriptomics** [13827-33]

13827 07 **SPE-AlertR: a self-supervised representation framework for continuous monitoring of EEG alertness** [13827-39]

13827 08 **Transcriptome changes of meningeal lymphatic vessels in Alzheimer's disease mice treated with non-invasive photobiological modulation** [13827-40]
