

PROCEEDINGS OF SPIE

***Physics, Simulation, and
Photonic Engineering of
Photovoltaic Devices XV***

**Karin Hinzer
Ian R. Sellers
Henning Helmers**
Editors

**21–23 January 2026
San Francisco, California, United States**

Sponsored and Published by
SPIE

Volume 13891

Proceedings of SPIE 0277-786X, V. 13891

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Physics, Simulation, and Photonic Engineering of Photovoltaic Devices XV*, edited by Karin Hinzer, Ian R. Sellers, Henning Helmers, Proc. of SPIE 13891, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

PHOTONIC POWER CONVERTERS I: JOINT SESSION WITH 13889 AND 13891

13891 02 **GaAs- and InP-based multijunction 1064nm laser power converters** [13891-1]

PHOTONIC POWER CONVERTERS II: JOINT SESSION WITH 13889 AND 13891

13891 03 **High-efficient GaInP photonic power converter with distributed Bragg reflector under red laser lights** [13891-4]

HOT CARRIER AND RADIATION EFFECTS

13891 04 **Nonequilibrium electron and phonon dynamics for next generation solar cells (Invited Paper)** [13891-5]

LIGHT MANAGEMENT AND ADVANCED CONCEPTS

13891 05 **GaAs/Si tandems for next generation high efficiency solar cells (Invited Paper)** [13891-11]

PEROVSKITES AND ORGANIC PV

13891 06 **Reliability of perovskite semitransparent mini-modules** [13891-22]

13891 07 **The multiple optical-layered structure with a luminescent downshifting layer for colloidal-quantum-dot-enhanced solar cells** [13891-24]

POSTER SESSION

13891 08 **Dielectric resonators in photonic devices for enabling optical control over perovskite solar cell architectures** [13891-30]
