Volume 13907

Proceedings of SPIE 0277-786X, V. 13907

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *MOEMS and Miniaturized Systems XXV*, edited by Hans Zappe, Wibool Piyawattanametha, Yong-Hwa Park, Proc. of SPIE 13907, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

CHIP-BASED PHOTONICS

- 13907 02 **Nonlinear optics in ultra-silicon-rich nitride devices (Invited Paper, Best Paper Award)**
[13907-1]
- 13907 03 **A wide-angle 1D optical phased array utilizing a passive phase-maintaining pitch-reduction structure** [13907-2]
- 13907 04 **High-speed, wavelength-swept source based on silicon photonics: device development and application demonstration** [13907-3]
- 13907 05 **Nanometer-scale bi-layer metamaterial for near-infrared gas sensing** [13907-4]

TUNABLE MICRO-OPTICS

- 13907 09 **Exploiting phase degrees of freedom in cascaded diffractive optical elements for robust optical information encryption** [13907-21]

HYBRID ASSEMBLY AND INTEGRATION

- 13907 0A **Postprocessing free 3D printing of glasses for seamless integration in optical microsystems (Invited Paper)** [13907-9]
- 13907 0C **Miniaturized external cavity diode laser with Hz-level linewidth for quantum technologies**
[13907-11]
- 13907 0D **NH₃ and SF₆ detection based on long-wave infrared pyroelectric detector** [13907-12]

NOVEL MICRO-OPTICAL COMPONENTS

- 13907 0E **Highly-stable and compact immersion micro-optical system for robust photonic integration (Invited Paper, Best Student Paper Award)** [13907-13]
- 13907 0F **Multifunctional hydrogen and ammonia gas sensors from ScAlN-based pyroelectric detectors towards adoption of sustainable fuels (Invited Paper)** [13907-16]
- 13907 0H **Long-range photonic nanojet formation via superposition of corner-diffracted waves**
[13907-15]

MEDICAL APPLICATIONS

- 13907 OI **Remote heart rate estimation system using LiDAR with region-scanning method (Invited Paper)** [13907-17]
- 13907 OJ **Investigations and optimization of positioning dynamics of a vectorial MEMS scanning mirror** [13907-18]
- 13907 OL **A compact multigas sensor system detecting CO₂ and CH₄ simultaneously for climate, health, and safety** [13907-20]

POSTER SESSION

- 13907 OM **Achromatic cascaded diffractive optical elements for microlens system design** [13907-8]
- 13907 ON **Parametric analysis of photonic filters for enhanced sensing in computational spectral sensor** [13907-23]
- 13907 OO **Dual-channel PIC optical readout for modal characterization of fused-silica hemispherical resonators** [13907-24]
