

PROCEEDINGS OF SPIE

Sixth International Conference on Mechanical Engineering and Materials (ICMEM 2025)

Gupta Manoj
Jinyang Xu
Editors

21–22 November 2025
Nanchang, China

Organized by
Hubei Zhongke Institute of Geology and Environment Technology (China)

Sponsored by
Jiangxi Mechanical Engineering Society (China)
Jiangxi University of Water Resources and Electric Power (China)
Jiangxi University of Science and Technology (China)

Published by
SPIE

Volume 14069

Proceedings of SPIE 0277-786X, V. 14069

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Sixth International Conference on Mechanical Engineering and Materials (ICMEM 2025)*, edited by Gupta Manoj, Jinyang Xu, Proc. of SPIE 14069, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

xi *Conference Committee*

COMPUTATIONAL MECHANICS AND FAULT DIAGNOSTICS

- 14069 02 **Research on bearing fault classification based on deep learning** [14069-4]
- 14069 03 **The application progress of digital twin technology in fault prediction and health management** [14069-33]
- 14069 04 **Exploration of evaluation methods for the long-term service safety status of natural gas transmission pipeline** [14069-76]
- 14069 05 **Collaborative optimization of speed limits and traffic markings in urban tunnels** [14069-77]
- 14069 06 **A sorting method for magnetite based on magnetic field detection** [14069-85]
- 14069 07 **ECA-URetinx: a lightweight image enhancement algorithm for low-light autonomous driving** [14069-91]
- 14069 08 **A novel fault diagnosis method for rolling bearings based on dual branch architecture ECVmamba-1DCNN model** [14069-92]
- 14069 09 **Research on fault diagnosis method of transfer learning based on OTASMM** [14069-114]
- 14069 0A **Research on plateau test and evaluation method for fuel cell electric vehicles** [14069-119]
- 14069 0B **Tensor-based methodology for constructing short-term high-dynamic microvolt-level T-wave alternans simulated ECG database** [14069-124]
- 14069 0C **Machine learning-based multichannel short-duration high-dynamic microvolt T-wave alternans detection** [14069-132]
- 14069 0D **Research on accurate prediction method of display quality features based on augmented hybrid modeling** [14069-135]

CONTROL AND SENSING TECHNOLOGY

- 14069 0E **Application and performance optimization of hybrid navigation strategies in laser SLAM-assisted AGVs** [14069-3]
- 14069 0F **Application of unmanned aerial vehicle forces in modern special operations** [14069-10]

- 14069 OG **Robust underwater SLAM with dual-channel disparity prediction and yaw-constrained multisensor fusion** [14069-15]
- 14069 OH **Design and research of a modular driving joint for soft-bodied pipeline robots based on mecanum wheels** [14069-21]
- 14069 OI **Structural design and simulation analysis of an integrated pipeline dredging and repair machine** [14069-29]
- 14069 OJ **Research on latent failure analysis methods for civil aircraft FBW flight control system** [14069-32]
- 14069 OK **Design and simulation of liquid metal fingerprint-bioinspired tactile sensors** [14069-60]
- 14069 OL **Sound field reconstruction based on sparse adaptive matching pursuit** [14069-66]
- 14069 OM **Engineering application of new portable x-ray stress tester in long-distance pipeline inspection** [14069-67]
- 14069 ON **Enhancing stress distribution in force sensors by optimizing relief hole placement** [14069-68]
- 14069 OO **High-integrity design for flight control modules in civil aircraft** [14069-78]
- 14069 OP **An efficient heave measurement algorithm of strapdown INS** [14069-79]
- 14069 OQ **Structural design and implementation of a new type of finger-clamp corn planter** [14069-86]
- 14069 OR **Model coverage analysis methods for flight control software of civil aircraft** [14069-87]
- 14069 OS **Fuzzy PID-optimized control of pneumatic proportional valves** [14069-89]
- 14069 OT **ALP-UDMC: a unified decision and control framework for urban autonomous driving** [14069-94]
- 14069 OU **Object detection and tracking based on image and point cloud instance segmentation matching for robot** [14069-95]
- 14069 OV **Research on the medium technology of bridge deflection rapid detection based on integrated navigation technology** [14069-97]
- 14069 OW **A hand gesture recognition and real-time control system for wearable soft robotic hands** [14069-99]
- 14069 OX **GMSA-YOLO for multiscale road defect detection in UAV-based maintenance** [14069-103]

14069 0Y **A Bayesian network-based framework for risk analysis and assessment of unmanned aerial vehicle operations** [14069-108]

FLUID AND THERMAL ENGINEERING

- 14069 0Z **Study on external ballistic characteristics of electromagnetic emission projectiles based on aerodynamic parameter calculation** [14069-1]
- 14069 10 **Research on the purification of asphalt fume exhaust gas by supergravity field** [14069-2]
- 14069 11 **Research on optimization and application effect of chemical agent injection scheme for gas field produced water treatment station** [14069-8]
- 14069 12 **Wind field prediction for mountainous terrain based on CFD method and surrogate model** [14069-12]
- 14069 13 **Thermo-hydrodynamic performance analysis of a spiral groove mechanical seal** [14069-13]
- 14069 14 **Calculation model and application of debris removal capacity for drum screens** [14069-18]
- 14069 15 **Research on optimized system design and high-precision control system for performance testing and evaluation of LNG cryogenic submersible pumps** [14069-20]
- 14069 16 **Numerical simulation and study of wind characteristics of canyons** [14069-26]
- 14069 17 **Analysis and assessment of creep-fatigue for the key equipment in solar energy photo-thermal generation** [14069-36]
- 14069 18 **CFD-DEM coupled simulation and regulation mechanism of micro-powder proppant migration behavior in complex fracture networks** [14069-38]
- 14069 19 **Stretching, persistence, ridge with convergence and bifurcation, strong and weak effects of orifices configuration for diesel spray with the flaws of aerodynamic model** [14069-48]
- 14069 1A **Coupling effect and optimization application of key parameters for hydraulic fracturing in deep coal seams** [14069-49]
- 14069 1B **Study on rapid deposition modification of polyphenols on the surface of polypropylene substrates** [14069-53]
- 14069 1C **Study on drilling and completion technology of multigas combined production branch wells** [14069-63]
- 14069 1D **Analysis of operating characteristics for compressed air system in heavy-duty gas turbines** [14069-65]
- 14069 1E **Pressure distribution analysis of liquid film seal flow field in spiral groove** [14069-75]

- 14069 1F **Reducing the measurement error of distance and angle of view at different intensity heat sources** [14069-80]
- 14069 1G **Research on the dispersion and management of PM2.5 levels in office environments within cold climates** [14069-81]
- 14069 1H **Research on the solid-liquid two-phase flow model for coarse sand transportation by dredge pumps** [14069-88]
- 14069 1I **Analysis of the energy consumption for belt conveyor** [14069-90]
- 14069 1J **Effects of gradient material structures on working stress and structural optimization** [14069-113]
- 14069 1K **Investigation numerically and coupling fluid-solid interaction (FSI) on heat transfer exchange for scraped surface heat exchanger** [14069-122]
- 14069 1L **Three-dimensional numerical simulation study on competitive propagation of dual-cluster fractures considering natural weak bedding planes** [14069-131]
- 14069 1M **Key technologies in the design of high-power plunger pumps for residue oil hydrotreating applications** [14069-134]

MECHANICAL ENGINEERING AND MANUFACTURING

- 14069 1N **Comparative study on measurement methods of compressive elastic modulus of wood along grain** [14069-7]
- 14069 1O **Study on the airworthiness requirements of tyre burst based on CS 25.734** [14069-22]
- 14069 1P **Numerical study of the impact of altitude and operating pressure on a centrifugal fan** [14069-24]
- 14069 1Q **Finite element simulation study on the degradation of load-bearing performance of longitudinal crack damaged wooden beams** [14069-25]
- 14069 1R **Analysis and optimization of assembly accuracy for a specific bolted joint mechanism based on CatBoost and Bayesian algorithm** [14069-28]
- 14069 1S **Three-dimensional convex ridge-type teeth in tight sandstone numerical simulation research on rock breaking mechanism** [14069-34]
- 14069 1T **Feasibility analysis of indentation testing for crack arrest fracture toughness determination** [14069-37]
- 14069 1U **Short-time Fourier transform for fault detection of rolling bearings** [14069-39]

- 14069 1V **Equivalent source method-based sound field reconstruction using sparse Bayesian learning within a compressive sensing framework** [14069-41]
- 14069 1W **Archard model-based analysis of spiral cleaning blade for surface wear characteristics** [14069-42]
- 14069 1X **Research on braking energy recovery performance of electric commercial vehicles** [14069-47]
- 14069 1Y **Research on the wear mechanism of linear servo bearings for unmanned aerial vehicles under cryogenic conditions** [14069-54]
- 14069 1Z **A triboelectric-piezoelectric hybrid nanogenerator for wind and magnetic field energy harvesting from power transmission lines** [14069-59]
- 14069 20 **Research and industrial application of microbial treatment technology for heavy oil-produced water** [14069-61]
- 14069 21 **A multichannel wireless system for real-time monitoring of bolt preload forces** [14069-64]
- 14069 22 **Research on strengthening aluminum alloy double-hole thin components based on pulsed electromagnetic force drive** [14069-70]
- 14069 23 **Experimental study of preload decay rate of threaded fasteners for transmission line Stockbridge damper** [14069-83]
- 14069 24 **Quantitative risk assessment technology for ultra-deep well drilling in the Homatu structural belt of the Junggar Basin** [14069-101]
- 14069 25 **Strength simulation analysis on fracture of aluminum lightweight cartridge case** [14069-102]
- 14069 26 **Research on the compound spinning process technology of thin-walled cylindrical parts with circumferential ribs** [14069-106]
- 14069 27 **Mechanical numerical simulation analysis of component part of the solder joint structure** [14069-111]
- 14069 28 **Effect of surface quality on shaft and bearing by electrochemical mechanical polishing** [14069-116]
- 14069 29 **Research on product innovation design method based on biomimetic evolution** [14069-117]
- 14069 2A **Numerical simulation of fault-induced rockburst failure patterns in tunnels** [14069-125]
- 14069 2B **Harmonic noise absorber for urban substations based on coil-up design** [14069-128]
- 14069 2C **Fatigue performance test of metal bellows expansion joint for high-temperature helium pipeline in gas-cooled micro-reactor** [14069-133]

MATERIALS AND OPTICAL TECHNOLOGY

- 14069 2D **Analysis on bursting causes and recommendations for the platen superheater of a 640MW supercritical boiler** [14069-6]
- 14069 2E **Mitigating visual highlighted bands in automotive black metallic coatings: Bernoulli effect and hemming gap optimization** [14069-11]
- 14069 2F **First-principles study of two-dimensional all-inorganic halide perovskites with different crystal facets** [14069-14]
- 14069 2G **Preparation and physical properties optimization of WO₃/Pt composite films for optical communication detection in complex submarine channel** [14069-16]
- 14069 2H **Effects of rare earth on the wear resistance of nickel aluminum bronze** [14069-17]
- 14069 2I **Effect of laser cleaning of 6061-T6 aluminum alloy surface corrosion layer on its corrosion resistance** [14069-19]
- 14069 2J **Non-probabilistic time-varying reliability evaluation and life extension strategy of crane structure incorporating accelerated corrosion experiments** [14069-23]
- 14069 2K **The component optimization design and performance simulation study for TC10** [14069-31]
- 14069 2L **Design and application of an underwater laser alignment adjustment mechanism** [14069-35]
- 14069 2M **Analysis and study on the temperature consistency of phased-array radar T/R components** [14069-43]
- 14069 2N **Permissible crack in stainless steel piping sustaining the assumed plastic limit load in design** [14069-44]
- 14069 2O **Experimental study on the effect of bionic lunate surface textures on the dry friction performance of Cr4Mo4V steel** [14069-50]
- 14069 2P **Creep performance of high stone powder manufactured sand concrete** [14069-51]
- 14069 2Q **Microstructure and compression behavior of Ti-6Al-4V and AlSi10Mg x-type lattice structure fabricated by additive manufacturing** [14069-52]
- 14069 2R **Effect of neutral AKD surface sizing on the physicochemical properties and durability of Xuan paper** [14069-56]
- 14069 2S **Flexible pressure sensor with rapid response capability based on cMF@Co/NC** [14069-62]
- 14069 2T **A new process for achieving highly homogenous rare earth doped tungsten powder by centrifugal spray drying** [14069-69]

- 14069 2U **The transport of defects in nitrogen implanted TiO₂** [14069-73]
- 14069 2V **Study on mechanical and durability properties of fiber-reinforced self-compacting geopolymer concrete** [14069-74]
- 14069 2W **Lightweight building crack segmentation based on an improved YOLOv11-seg** [14069-98]
- 14069 2X **Effect of 2-acetyl-L-cysteine on the electrochemical properties of carbon steel for oil pipeline applications** [14069-112]
- 14069 2Y **Simulation research on the crystallization process of aluminum alloy based on three-dimensional cellular automata method** [14069-115]
- 14069 2Z **Analysis and optimization design of thermal insulation performance of aerogel structures with thermal conductive layers** [14069-118]
- 14069 30 **The desorption characteristics of polycyclic aromatic hydrocarbons in Lanzhou loess soil under freeze-thaw action cycles** [14069-120]
- 14069 31 **Multifunctional Ag-doped Ti/TiN coatings: tailoring microstructure, mechanical, and antibacterial properties through silver content** [14069-129]
- 14069 32 **Investigation on the corrosion causes of 3Cr tubing in a gas-lift well** [14069-136]
- 14069 33 **The coordination mechanism of carboxylic acid ligands with metal ions in nuclear waste solution** [14069-138]
