PROCEEDINGS OF SPIE

Eighth International Conference on Sensors, Signal, and Image Processing (SSIP 2025)

Kazumi Nakamatsu
Editor

28–30 November 2025
Kobe, Japan

Co-sponsored
University of Hyogo (Japan)
Ritsumeikan University (Japan)

Published by
SPIE

Volume 14071

Proceedings of SPIE 0277-786X, V. 14071

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *Eighth International Conference on Sensors, Signal, and Image Processing (SSIP 2025)*, edited by Kazumi Nakamatsu, Proc. of SPIE 14071, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B … 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v Conference Committee

DIGITAL IMAGE ANALYSIS AND PROCESSING METHODS

14071 02 **Apple leaf disease detection and classification using YOLOv11_ResNet18 hybrid model** [14071-6]

14071 03 **FUSEPOINT: a symbol recognition method for defective CAD drawings** [14071-13]

14071 04 **Prognosis prediction for idiopathic pulmonary fibrosis with the 3D generative adversarial network pix2surv3D: improved risk stratification and comparison with a 2D model** [14071-14]

14071 05 **U-Net architecture with dense and sparse attentions for single image super-resolution** [14071-2]

14071 06 **Cross-modal MRI synthesis in infant brain imaging using attention-augmented 3D-ResUNet** [14071-4]

14071 07 **Bottom-up approach to knowledge extraction from digital images** [14071-16]

GENERATIVE AI AND INFORMATION EXTRACTION

14071 08 **VQA: detecting ambiguity and generating multiple answer candidates for clarifying visual questions** [14071-1]

14071 09 **DSRVA-MSA: DEIM-based semi-supervised multi-semantic annotation algorithm for road vehicle collision accident videos** [14071-3]

14071 0A **Predicting in-hospital patient deterioration with vital signs and LLM-extracted disease labels** [14071-5]

MODERN ELECTRONIC SYSTEMS AND SIGNAL PROCESSING

14071 0B **Analysis of measurement error of pressure center of force measuring platform with multiple tension and compression sensors** [14071-7]

14071 0C **Application of neural ordinary differential equation in online learning of dynamic responses** [14071-12]

14071 0D **Wave crest reduction pre-distortion scheme based on direct limiting** [14071-15]

14071 0E **Research on key technologies for core IP discovery based on association graph based on deep learning** [14071-9]

14071 0F **Count: the smart tool on wrist-worn device** [14071-8]
