

PROCEEDINGS OF SPIE

International Conference on Computer Vision and Digital Art (ICCVDA 2025)

Jihua Zhu
Guoqiang Zhong
Editors

26–28 December 2025
Xi'an, China

Organized by
Xi'an Jiaotong University (China)

Sponsored by
AEIC—Academic Exchange Information Centre (China)

Published by
SPIE

Volume 14117

Proceedings of SPIE 0277-786X, V. 14117

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *International Conference on Computer Vision and Digital Art (ICCVDA 2025)*, edited by Jihua Zhu, Guoqiang Zhong, Proc. of SPIE 14117, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii *Conference Committee*

VISION SYSTEMS AND INTELLIGENT IMAGING

- 14117 02 **A study on the recognition of back sha manifestations based on an improved YOLOv8**
[14117-5]
- 14117 03 **Deep-neural-network-based model for recognizing film shot editing styles** [14117-57]
- 14117 04 **DeepMag-flow: deep motion amplification and dense optical flow for precision muzzle trajectory tracking** [14117-48]
- 14117 05 **Research progress in end-to-end autonomous driving systems** [14117-23]
- 14117 06 **Diffusion-based face restoration with multi-reference identity** [14117-8]
- 14117 07 **MSU-Net: an enhanced U-shaped network for medical image segmentation** [14117-45]
- 14117 08 **Multiscale interaction network for stereo image super-resolution** [14117-40]
- 14117 09 **Assessment of athletes' physical fitness using an improved genetic algorithm-optimized back-propagation neural network** [14117-56]
- 14117 0A **Algorithm based on informational weighted neighborhood rough set and its application in fine-grained bird image recognition** [14117-7]
- 14117 0B **A deep-learning-based method for fusion and classification of optical and synthetic aperture radar remote sensing images** [14117-42]
- 14117 0C **SG-CIDNet: structure-guided low-light image enhancement network in HVI space**
[14117-16]
- 14117 0D **A detection algorithm for underground equipment based on feature fusion and lightweight detection head** [14117-3]
- 14117 0E **MRI image classification based on improved Swin transformer** [14117-22]
- 14117 0F **Structured semantic-guided multimodal fusion for few-shot action recognition** [14117-18]
- 14117 0G **DPA-CycleGAN: unsupervised style transfer via diffusion prior and attention mechanisms**
[14117-55]

- 14117 OH **Joint human-scene reconstruction from in-the-wild video** [14117-6]
- 14117 OI **Art painting classification based on efficient convolutional neural networks** [14117-11]
- 14117 OJ **Adversarial trajectory prediction in UAV close-range games: a CNN-BiGRU framework with local attention mechanism** [14117-41]
- 14117 OK **A depthwise separable-based multitask feature fusion network** [14117-35]
- 14117 OL **A gradient-guided watercolor style image generation algorithm** [14117-60]

CULTURAL AND INDUSTRIAL VISUAL COMPUTING

- 14117 OM **Research on the visual influence of rice wine packaging design based on eye tracking technology** [14117-46]
- 14117 ON **Optimization of the work interface of a maneuverable weed cutter** [14117-59]
- 14117 OO **Bringing the past into sharper focus: unleashing diffusion priors for super-resolution restoration of Chinese traditional paintings** [14117-44]
- 14117 OP **Design and application of virtual scenes for immersive cultural performances using VR technology** [14117-54]
- 14117 OQ **Design research on an intelligent field pest repeller integrated with AI visual monitoring** [14117-37]
- 14117 OR **Research on the design of urban street tree pruning vehicle empowered by intelligent vision** [14117-10]
- 14117 OS **Research on intelligent urban landscape evaluation system based on deep learning** [14117-53]
- 14117 OT **Design and optimization of an LLM-powered digital art co-creation platform** [14117-47]
- 14117 OU **From heterogeneous urban data to immersive ecosystems: an interactive attention fusion approach for augmented heritage tourism** [14117-12]
- 14117 OV **Semantic-driven multimodal visualization strategies for Hemudu heritage: optimization of digital display and cultural memory transmission** [14117-61]
- 14117 OW **Eye movement and AHP perspectives on designing visual stress relief in therapeutic hospital waiting rooms** [14117-34]
- 14117 OX **Analysis and optimization design of the spatial environment of farmers' markets under eye tracking and SD method** [14117-20]

- 14117 0Y **Human-computer interaction in digital art: an analysis of international research trends using CiteSpace** [14117-36]
- 14117 0Z **Application practice of AI-based image generation technology in the design of Lu embroidery cultural and creative products** [14117-17]
- 14117 10 **A study on the convergence and evolution of artificial intelligence and art design from a bibliometric perspective** [14117-29]
- 14117 11 **A study on collaborative cultural storytelling in SketchUp-D5 empowered by AIGC** [14117-2]
- 14117 12 **PWD-YOLO: a ceramic tile defects detection method based on improved YOLOv11s** [14117-43]
- 14117 13 **Landscape gene identification and livable and industrial construction of Miao villages in Guangxi under the background of double carbon** [14117-49]
- 14117 14 **Design pathway study of AIGC-enabled popular-science animation for aquatic animals** [14117-52]
- 14117 15 **Foreign object detection in transmission lines based on the improved YOLOv11 algorithm** [14117-62]
- 14117 16 **A study on narrative interfaces and visual guidance mechanisms in virtual reality: from digital acupuncture to AIGC-enabled dynamic cognitive spaces** [14117-50]
- 14117 17 **Research on color features of farming culture heritage based on K-means clustering and application in science popularization game design** [14117-4]
