

PROCEEDINGS OF SPIE

***Second International Symposium
on Electronic Information
Engineering and Intelligent
Communication (EIC 2025)***

**Abid Yahya
Pascal Lorenz**
Editors

**14–16 November 2025
Xiamen, China**

Organized by
Jimei University (China)

Sponsored by
AEIC—Academic Exchange Information Centre (China)

Volume 14122

Proceedings of SPIE 0277-786X, V. 14122

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Second International Symposium on Electronic Information Engineering and Intelligent Communication (EIC 2025)*, edited by Abid Yahya, Pascal Lorenz, Proc. of SPIE 14122, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii *Conference Committee*

SIGNAL PROCESSING AND COMMUNICATION SYSTEMS

- 14122 02 **Kalman-based positioning algorithm with Starlink Doppler frequency tracking** [14122-40]
- 14122 03 **Deep learning-based CPM signal demodulations** [14122-36]
- 14122 04 **Lightweight root alarm identification based on recommender system for optical networks** [14122-7]
- 14122 05 **Design of a narrowband four-channel frequency-hopping signal converter based on DDS architecture** [14122-30]
- 14122 06 **Research on integrated air-ground network coverage enhancement technology** [14122-39]
- 14122 07 **A vacuum ultraviolet signal denoising method based on GCV-GWO combined wavelet threshold** [14122-19]
- 14122 08 **Design and implementation of unmanned aerial vehicle communication system based on Wi-Fi broadcast** [14122-18]
- 14122 09 **Iterative signal detection and soft interference cancellation algorithm for space-earth NOMA systems** [14122-2]
- 14122 0A **Fast OMP algorithm for structure optimisation and its application in OTFS sparse channel estimation** [14122-8]
- 14122 0B **RIS-assisted wireless localization method based on adaptive beam scanning** [14122-4]
- 14122 0C **Radar emitter signal identification method based on rectangular integral bispectrum feature and dense connection network** [14122-10]
- 14122 0D **Study on the transport properties of reference-interfered composite vortex light in turbulent perturbations** [14122-12]
- 14122 0E **Design of a servo phased array vehicular satellite communication station** [14122-43]
- 14122 0F **Development trends of international small geostationary communication satellites** [14122-22]
- 14122 0G **A power communication scheduling data intent recognition method based on xLSTM-Transformer** [14122-26]

- 14122 0H **Perception-aided wideband millimeter-wave MIMO channel estimation: extended error modeling and robustness analysis** [14122-34]
- 14122 0I **A QoS-aware scheduling algorithm for 5G** [14122-32]

SYSTEM DESIGN AND ENGINEERING APPLICATIONS

- 14122 0J **Multilevel feature fusion for document image tampering detection via gated residual texture-aware and multiscale attention modules** [14122-24]
- 14122 0K **Measurement methods and experimental verification of impedance of R, L, and C components** [14122-20]
- 14122 0L **Multisim-based experimental design and analysis of feedback amplifier circuits** [14122-16]
- 14122 0M **Fault diagnosis of rolling bearings based on adaptive optimization of VMD and deep feature extraction** [14122-38]
- 14122 0N **Design of CAN transceiver with undervoltage protection function based on 0.15um high-voltage BCD process** [14122-29]
- 14122 0O **Motion path planning and simulation for a waist rehabilitation robot based on a Stewart parallel platform** [14122-5]
- 14122 0P **Cause analysis of power amplifier failure in transceiver modules** [14122-28]
- 14122 0Q **Carrier frequency of 300 Hz optimizes brain state via modulation of local oscillations and global functional connectivity by alpha wave music** [14122-37]
- 14122 0R **Research on adaptive closed-loop control model of FES parameters based on temporal convolutional network** [14122-21]
- 14122 0S **Practical predefined-time event-triggered actor-critic reinforcement learning for consensus of continuous-time heterogeneous MAS** [14122-1]
- 14122 0T **Pedestrian trajectory prediction model based on the LSTM-MDN fusion framework** [14122-25]
- 14122 0U **A hybrid sampling algorithm for unbalanced intrusion detection data: research and analysis** [14122-31]
- 14122 0V **A wireless lighting system design for classroom with on-off control policy** [14122-11]
- 14122 0W **Map service API key leakage detection in WeChat mini-programs** [14122-35]
- 14122 0X **Research on image malware classification method based on AlexNet transfer learning and MHSA attention mechanism** [14122-15]

- 14122 0Y **A wearable sweat multimodal fusion system based on GSR sensing and individual calibration** [14122-27]
- 14122 0Z **Simulation of local time for an SSO spacecraft's passing through the descending node** [14122-23]
- 14122 10 **Design of shared study room control system based on ESP32 and ThingsCloud** [14122-41]
- 14122 11 **Fault detection method for distribution network optical cables based on SS-DBO-based BP-bagging ensemble model** [14122-3]
