

PROCEEDINGS OF SPIE

***Fourth International Conference on  
Electrical, Electronics, and  
Information Engineering (EEIE 2025)***

**Yanqing Xu**  
*Editor*

**19–21 November 2025**  
**Wuhan, China**

*Organized by*  
The American Society for Science and Technology (United States)  
Hubei Zhongke Institute of Geology and Environment Technology (China)  
Jiangxi University of Water Resources and Electric Power(China)

*Published by*  
SPIE

**Volume 14130**

Proceedings of SPIE 0277-786X, V. 14130

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Fourth International Conference on Electrical, Electronics, and Information Engineering (EEIE 2025)*, edited by Yanqing Xu, Proc. of SPIE 14130, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

---

**Paper Numbering:** A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

# Contents

ix *Conference Committee*

## **ELECTRICAL AND ENERGY SYSTEMS ENGINEERING**

---

- 14130 02 **Design of a long-distance power supply terminal voltage compensation device** [14130-6]
- 14130 03 **Design of test method and test platform for substation auxiliary control system based on CMS protocol** [14130-8]
- 14130 04 **Reactive power support with feedforward control for low voltage ride through operation in grid-connected photovoltaic inverters** [14130-17]
- 14130 05 **Active support strategy of reactive power for PV grid-connected inverters based on droop control** [14130-19]
- 14130 06 **Research on the power loss model of solar array blocked by large-scale deployable components** [14130-22]
- 14130 07 **Inertia control method of high-power electric propulsion** [14130-29]
- 14130 08 **Hierarchical collaborative internal protection for DER based on fault distance identification** [14130-35]
- 14130 09 **Energy oscillation suppression method for hybrid energy storage in isolated DC microgrid** [14130-39]
- 14130 0A **Analysis and recommendations on a 500kV dead-tank circuit breaker bushing explosion accident** [14130-46]
- 14130 0B **Research on dual closed-loop PI control strategy for supercapacitor energy storage and release converters** [14130-48]
- 14130 0C **Ultra-low-power two-stage CMOS operational amplifier for electrocardiogram and electroencephalogram applications** [14130-50]
- 14130 0D **Analysis of thermal propagation evaluation technology for battery systems installed in whole vehicles** [14130-53]
- 14130 0E **Prediction of the scale of new energy storage in China and evaluation of its comprehensive benefit potential** [14130-54]
- 14130 0F **Flexible CNT-based strain sensor with wireless acquisition for real-time tire deformation** [14130-94]

- 14130 0G **Multi-physical field (electromagnetic-force-thermal) coupling mechanism and process optimization in uniform-pressure electromagnetic forming of titanium bipolar plates for hydrogen fuel cells** [14130-109]
- 14130 0H **Research on deviation calculation and quality control of key performance indicators for medium-voltage power cables** [14130-105]
- 14130 0I **DC/DC power module failure analysis study** [14130-110]
- 14130 0J **A study of sequential control for automated startup in PWR nuclear power plants** [14130-100]
- 14130 0K **Influence of slope configurations on natural induced airflow at the entrance of asymmetric herringbone tunnels** [14130-72]
- 14130 0L **Simulation on emergency evacuation in an inverted hall-type subway station based on Pathfinder** [14130-84]
- 14130 0M **Numerical simulation study on the ceiling maximum temperature distribution characteristics of herringbone slope tunnel fire** [14130-77]
- 14130 0N **Effect of the height of the smoke barrier wall in the storage area of metro vehicle depot on the smoke exhaust efficiency: a numerical simulation study** [14130-111]

---

#### ELECTRONIC SCIENCE AND HARDWARE TECHNOLOGY

---

- 14130 0O **Research on the impact of electromagnetic Sha on human body from the perspective of Maxwell's equations** [14130-1]
- 14130 0P **Low-frequency voice coil motor-based high frame-rate two-dimensional shear wave elastography** [14130-11]
- 14130 0Q **Fabric design based on traditional Chinese folk looms** [14130-13]
- 14130 0R **Biodegradable conductive materials for green electronics: a technical perspective, and transfer printing pathway analysis** [14130-14]
- 14130 0S **Optimization study of the sample-and-hold circuit for biomedical SAR ADC** [14130-23]
- 14130 0T **Structural optimization of magnetic vortex domain and the modulation of magnetic sensor performance** [14130-26]
- 14130 0U **A question about the simulation calculation of venturi flow counter values** [14130-40]
- 14130 0V **Analysis of noise diffraction algorithm for multiple sound barriers** [14130-41]
- 14130 0W **Stress analysis and compensator optimization design of the test rig pipeline system** [14130-43]

- 14130 0X **Design of ion migration spectrum system based on four vacuum ultraviolet lamps**  
[14130-47]
- 14130 0Y **Research and analysis based on superlens** [14130-55]
- 14130 0Z **Study on the mechanism of transient water hammer in sprinkler systems with different pipe network arrangements** [14130-102]
- 14130 10 **Numerical study on positive-pressure ventilation in stairwells and elevator lobbies of pumped storage power station buildings** [14130-76]
- 14130 11 **Numerical study on the effect of smoke exhaust system in generator floor of a pumped storage power station** [14130-74]
- 14130 12 **Energy saving optimization study of air conditioning system for a data center in Suzhou based on EnergyPlus** [14130-75]
- 14130 13 **Study on temperature distribution characteristics and winter energy-saving optimization schemes for glass multi-span greenhouses: a case study in Beijing** [14130-93]
- 14130 14 **Research on the effect of complex ventilation system in underground space based on the combination of network with CFD** [14130-81]

---

#### INFORMATION AND COMMUNICATION TECHNOLOGY

- 14130 15 **GMM-driven recognition framework for canine whisperer identification** [14130-2]
- 14130 16 **Construction and application of iris image recognition rules based on principal component analysis of texture signals** [14130-5]
- 14130 17 **ResNetLSTM-based path loss prediction model with multi-dimensional features in evaporation duct** [14130-7]
- 14130 18 **A carrier tracking algorithm with frequency sweep-joint locking detection** [14130-24]
- 14130 19 **GSC-Mamba: unified global modulation, stochastic refinement and cross-scale gating for medical image segmentation** [14130-25]
- 14130 1A **Optimization and implementation of lightweight neural networks for real-time object tracking on unmanned aerial vehicles (UAVs)** [14130-27]
- 14130 1B **A dual residual image restoration network for nuclear noise image denoising** [14130-30]
- 14130 1C **Estimation method of LFM signal parameters based on efficient FrFT and iterative interpolation** [14130-31]
- 14130 1D **Research on IETM system design technology for UAV cabin equipment** [14130-32]

- 14130 1E **Research on impurity detection method in tobacco shred based on spectral analysis**  
[14130-45]
- 14130 1F **Performance analysis of CDMA in NLOS ultraviolet communication for UAV swarms**  
[14130-99]
- 14130 1G **Application analysis of micro-disturbance grouting technology in subway tunnel displacement control** [14130-66]
- 14130 1H **Study on the effect of micro-disturbance dual liquid grouting repair in subway tunnels**  
[14130-60]
- 14130 1I **Preparation and properties of modified amine curing agent for epoxy paving materials**  
[14130-62]
- 14130 1J **Experimental study on simplified above-ground seismic isolation technology for low-rise buildings of pump-station buildings** [14130-64]
- 14130 1K **Study on stability simulation of sandy soil slopes based on the discrete element method**  
[14130-70]
- 14130 1L **Study on the influence of towing sensitivity parameters on the towing of semi-submersible floating wind turbines** [14130-69]
- 14130 1M **Research on the joint application of residual income model and CAPM model in GEM stock prediction** [14130-79]
- 14130 1N **Research on a hybrid modulation strategy for a 4-SiC cascode hybrid three-level ANPC inverter** [14130-97]

---

#### INTELLIGENT SYSTEMS AND CONTROL ENGINEERING

---

- 14130 1O **Assessment of damage levels and maintenance strategy research based on GE matrix and ARP algorithm** [14130-4]
- 14130 1P **Design and application of adaptive control system for coal mine transportation** [14130-9]
- 14130 1Q **Design and application of intelligent monitoring system for main coal flow in coal mine**  
[14130-10]
- 14130 1R **Multi-agent task forwarding model based on game algorithm integrated with finite state machine** [14130-15]
- 14130 1S **A flow-information density clustering method for detecting step faults with control-compensation mechanisms** [14130-28]
- 14130 1T **Research on effectiveness evaluation of aerospace support equipment based on improved ADC** [14130-44]

- 14130 1U **Simulation optimization of key components of spinach harvesting system based on finite element method** [14130-56]
- 14130 1V **Disturbance rejection control of permanent magnet synchronous motor based on adaptive terminal sliding mode control** [14130-98]
- 14130 1W **Analysis of the repair effect of micro-disturbance double liquid grouting on the ground of subway tunnels** [14130-58]
- 14130 1X **Analysis of the impact of grouting reinforcement in muddy silty clay layers on tunnel horizontal displacement** [14130-65]
- 14130 1Y **Research on the evaluation of open-pit mine blasting effects based on the TOPSIS method** [14130-61]
- 14130 1Z **Comparative study on dynamic response of shield tunnel with crown and invert cracks under cyclic train loads** [14130-63]
- 14130 20 **Simulation analysis of thermal stress and optimization of temperature control measures for the roller-compacted concrete gravity dam** [14130-68]
- 14130 21 **Application of the naive Bayes algorithm in spam filtering** [14130-78]
- 14130 22 **Study on the application differences of ICD-9-CM-3 procedure codes and artificial intelligence technology in orthopedic procedure grouping** [14130-82]
- 14130 23 **Research on surface reconstruction of turbine blades based on 4PCS registration based on edge key point extraction** [14130-96]
