

PROCEEDINGS OF SPIE

***International Conference on Cloud
Computing, Performance
Computing, and Deep Learning
(CCPCDL 2025)***

**Grigorios N. Beligiannis
Mohsen Amini Salehi**
Editors

**31 October–2 November 2025
Shanghai, China**

Organized by
Shanghai Pudong New Area Association for Computer (China)

Sponsored by
AEIC Academic Exchange Information Centre (China)

SPIE

Volume 14131

Proceedings of SPIE 0277-786X, V. 14131

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *International Conference on Cloud Computing, Performance Computing, and Deep Learning (CCPCDL 2025)*, edited by Grigorios N. Beligiannis, Mohsen Amini Salehi, Proc. of SPIE 14131, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii *Conference Committees*

COMPUTER VISION AND IMAGING APPLICATIONS

- 14131 02 **ShipSense YOLO: a YOLOv8-based algorithm for remote sensing ship image detection**
[14131-9]
- 14131 03 **Blueberry pest and disease identification method based on the improved YOLOv11**
[14131-2]
- 14131 04 **Solar cell defect detection based on channel content-aware feature fusion** [14131-20]
- 14131 05 **WDMF-UIQA: underwater image quality assessment based on wavelet decomposition and multiscale feature fusion** [14131-52]
- 14131 06 **Underwater image compression based on wavelet decomposition and multiscale feature enhancement** [14131-38]
- 14131 07 **RSM-YOLO: an object detection algorithm for marine debris** [14131-29]
- 14131 08 **MambaLE: a simple encoder-decoder architecture for low-light image enhancement with state space model** [14131-31]
- 14131 09 **Improved YOLOv8 algorithm for road vehicle detection based on SPPF-LSKA module and VoVGSCSP module** [14131-1]
- 14131 0A **PhyCR-UIE: unsupervised underwater image enhancement based on physical imaging model and cross-modal regularization** [14131-47]
- 14131 0B **A holistic comparative study of deep learning architectures for automated breast ultrasound screening** [14131-48]
- 14131 0C **Design and implementation of FPGA-based CNN algorithm for handwritten digit recognition**
[14131-76]
- 14131 0D **Transformer-based multi-object tracking: a unified framework and survey** [14131-46]
- 14131 0E **Fine-tuning ResNet-50 for medical image processing: impact of batch size and training epochs on energy consumption** [14131-65]
- 14131 0F **Fusion SLAM with adaptive keyframe selection and LSD and LBD line features** [14131-45]
- 14131 0G **Intelligent detection of facility layout compliance of barrier-free toilet based on improved YOLOv8** [14131-27]

- 14131 OH **Research on oilfield worker violation detection algorithm based on improved YOLOv11**
[14131-40]
- 14131 OI **Improved YOLOv5s algorithm for maritime small target detection** [14131-32]
- 14131 OJ **Research on surface defect detection of chemical equipment based on deep learning**
[14131-15]
- 14131 OK **A lightweight object detection algorithm for traffic scenes based on an improved YOLOv7-tiny** [14131-74]
- 14131 OL **DRFS-Net: dynamic receptive field selection network with hierarchical attention for remote sensing object detection** [14131-26]
- 14131 OM **An improved CamShift motion tracking algorithm** [14131-42]
- 14131 ON **RemoteCLIP-AF: a multimodal framework for enhanced remote sensing image processing and image-text retrieval** [14131-13]

INTELLIGENT COMPUTING AND OPTIMIZATION

- 14131 OO **Anti-corruption by auditing with big data and large language model technologies**
[14131-24]
- 14131 OP **Optimizing adaptive video streaming with reinforced fine-tuning** [14131-17]
- 14131 OQ **Core loss prediction model with temperature correction terms: improved Steinmetz method based on L-BFGS optimization and L2 regularization** [14131-49]
- 14131 OR **Buffer-aware ABR optimization for QoE enhancement in video streaming** [14131-21]
- 14131 OS **Modeling user preference ranking from implicit behavior in short video streaming**
[14131-39]
- 14131 OT **Federated knowledge distillation based on feature representation generator** [14131-14]
- 14131 OU **Research on complementary dispatch based on multiobjective optimization model in wind-solar group coordinated control** [14131-35]
- 14131 OV **Fedhybrid: an asynchronous-synchronous hybrid framework for federated learning**
[14131-10]
- 14131 OW **A dynamic and optimal construction method for cross-domain user profiles under multi-intelligent body reinforcement learning** [14131-34]
- 14131 OX **A coronavirus optimization-based algorithm for task offloading in mobile edge computing**
[14131-41]
- 14131 OY **Research on BERT-LSTM-based multimodal financial risk early warning with attention fusion**
[14131-62]

- 14131 0Z **Cognitive-driven adaptive learning: a dynamic path optimization framework based on knowledge graph and reinforcement learning** [14131-51]
- 14131 10 **MFF-STC: a lightweight deep learning-based method for EEG signal classification** [14131-3]
- 14131 11 **Recent advances in task offloading and resource allocation for mobile edge computing** [14131-25]
- 14131 12 **DMEPA: a dynamic multidimensional evaluation poisoning attack on contribution evaluation mechanisms in federated learning** [14131-28]
- 14131 13 **Dynamic modality weighting and syntactic proximity-biased attention network for multimodal sentiment analysis** [14131-67]
- 14131 14 **A lightweight text chunking method fusing weakly supervised distillation and discourse relation discrimination** [14131-71]
- 14131 15 **A hybrid computational model for precise SiC epitaxial thickness determination: combining Sellmeier dispersion modeling with Fourier transform** [14131-30]
- 14131 16 **A multifeature fusion model for domain-specific Chinese named entity recognition** [14131-50]
- 14131 17 **Dynamics and synchronization of a Hopfield neural network with a locally active memristor** [14131-4]
- 14131 18 **A collaborative defense scheme against byzantine and evasion attacks for heterogeneous DFL** [14131-55]
- 14131 19 **Research on deep-learning-based load forecasting methods for integrated energy systems in chemical equipment** [14131-23]
- 14131 1A **Overview of the application of artificial intelligence technology in the high-end instrumentation industry: exploration and practice in strategic emerging fields** [14131-64]
- 14131 1B **Intelligent charging optimization scheduling strategies for electric vehicles** [14131-63]
- 14131 1C **Design and empirical research of simulation algorithms for business decision support with BERT and ISAC integration** [14131-72]
- 14131 1D **A joint intelligent retrieval method for multimodal data based on deep reinforcement learning algorithm** [14131-36]
- 14131 1E **Cross-domain heterogeneous data query and verification algorithm based on large language models** [14131-37]
- 14131 1F **Entity relationship extraction of operation and maintenance information based on deep Q-network algorithm** [14131-16]
- 14131 1G **A holistic approach to optimizing echo state network through structural evolution and synaptic plasticity** [14131-53]
