

PROCEEDINGS OF SPIE

International Conference on Physics, Photonics, and Optical Engineering (ICPPOE 2025)

Yingkai Liu
Editor

7–9 November 2025
Kunming, China

Organized by
Yunnan Normal University (China)

Published by
SPIE

Volume 14132

Proceedings of SPIE 0277-786X, V. 14132

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *International Conference on Physics, Photonics, and Optical Engineering (ICPPOE 2025)*, edited by Yingkai Liu, Proc. of SPIE 14132, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

xi *Conference Committee*

APPLIED PHYSICS

- 14132 02 **Intelligent anti-loosening bolt based on thermal expansion effect research on its application in electrical connections** [14132-80]
- 14132 03 **Three-dimensional integration of complementary metal oxide semiconductors for photodetection of Silicon heterojunctions** [14132-89]
- 14132 04 **Surface discharge characteristics of GIS under different gas pressures** [14132-11]
- 14132 05 **Calculation of temperature rise of cutter shaft static pressure system of CNC gear shaping machine** [14132-86]
- 14132 06 **Hydrostatic analysis for modelling and simulation of high precision CNC tool grinding machine** [14132-90]
- 14132 07 **Study of influencing factors on thermal characteristics in multi-die 2.5D/3D packaging** [14132-56]
- 14132 08 **Optimisation of energy distribution in coupler buffer devices based on a one-dimensional rod cell model** [14132-40]
- 14132 09 **A water resistance model for vertical high-speed water-entry of a projectile** [14132-43]
- 14132 0A **Calculation method for equivalent ejection mass of variable thrust in the internal ballistic equation of pyrotechnic folding rudder** [14132-114]
- 14132 0B **Coupled modeling of fracture extension-capacity prediction in tight gas reservoirs** [14132-117]
- 14132 0C **Machine learning-based data fusion and anomaly identification for radiation monitoring in nuclear power plants** [14132-123]

COMMUNICATION

- 14132 0D **Load analysis model for damage characteristics of transmission channel equipment and facilities considering the impact of geological disasters** [14132-70]
- 14132 0E **Deformation detection of transmission channel equipment and regional disaster warning method based on cross modal data fusion** [14132-72]

- 14132 OF **High-efficiency power amplifier circuit design in 5G communication systems** [14132-91]
- 14132 OG **Optimization method for communication fiber optic coverage in distribution network based on node constraint degree** [14132-69]
- 14132 OH **Research on the design of radar feeder against harsh environment** [14132-50]

ELECTRICAL ENGINEERING

- 14132 OI **The influence of human body electrostatic discharge on the false triggering of sensor** [14132-74]
- 14132 OJ **Distribution network operation situation deduction method based on digital twin model** [14132-58]
- 14132 OK **Optimization method of distribution network topology computing performance based on graph model** [14132-60]
- 14132 OL **Evaluation method for AI models in multi-scenario applications of power grid safety supervision** [14132-62]
- 14132 OM **Research on intelligent electromagnetic brake for cable winding based on electromagnetic eddy current braking** [14132-16]
- 14132 ON **Fast fault repair methodology for medium low voltage distribution equipment in power service applications** [14132-63]
- 14132 OO **Energy efficiency optimization of smart building electrical systems based on automated control technology** [14132-105]
- 14132 OP **Research on combined optical-ultrasonic diagnosis method of Gas insulated particle discharge** [14132-102]
- 14132 OQ **A panoramic data modeling method for power supply services that satisfies multibusiness collaboration** [14132-84]
- 14132 OR **Research on circuit performance optimization based on a 4-bit absolute value comparator** [14132-25]
- 14132 OS **Extraction of junction temperature of SiC power devices: load current classification, parameter analysis and application boundary of TSEP** [14132-32]
- 14132 OT **Comparison of the short circuit protection for the silicon carbide MOSFET** [14132-44]
- 14132 OU **The mesh partitioning method based on voltage level in modern power system** [14132-85]
- 14132 OV **Panoramic dynamic topology model of distribution network based on multimodal data fusion** [14132-61]

- 14132 0W **Research on ordered charging of electric vehicles based on an improved Harris Eagle algorithm** [14132-4]
- 14132 0X **Active energy configuration scheme based on SDN** [14132-83]
- 14132 0Y **An improved YOLO11 algorithm for small traffic sign detection in complex road environments** [14132-77]
- 14132 0Z **Localizing partial discharge sources in switchgear based on coupled sensors** [14132-3]
- 14132 10 **Research on network automatic slicing technology under the converged architecture of SDN-based IP and optical transport networks** [14132-82]
- 14132 11 **Partial discharge detection method for switchgear based on hierarchical clustering** [14132-5]
- 14132 12 **Insulation performance of PPLP in cryogenic environments** [14132-14]
- 14132 13 **Research on multi-site collaborative control method and frequency stability improvement of grid-connected energy storage based on VSG** [14132-8]
- 14132 14 **Research on self-test and fault diagnosis mechanism of wireless intelligent pressure plate monitoring system** [14132-106]
- 14132 15 **Research on short-term wind and photovoltaic power generation prediction based on GRU neural network model** [14132-101]
- 14132 16 **Control design of liquid automatic mixing system based on MCGS and PLC** [14132-36]
- 14132 17 **A study on multisource sensory data fusion methods in GIS devices based on multimodal deep learning** [14132-109]
- 14132 18 **Research on visual navigation and autonomous route planning methods for drones in distribution lines** [14132-110]
- 14132 19 **Space-ground collaborated information security performance evaluation of the low altitude flight system** [14132-45]
- 14132 1A **Application of UAV aerial surveying technology based on “point-surface integration” in settlement monitoring of surcharge preloading foundations** [14132-55]
- 14132 1B **LQR optimal control method for high switching frequency single phase lorentz motor drive system** [14132-28]
- 14132 1C **Uncertainty-aware integrated energy management for energy storage system of deep-sea mining ship** [14132-30]
- 14132 1D **Autonomous underwater vehicle-focused improved snake optimization with stepwise decrement speed for trajectory tracking** [14132-52]

- 14132 1E **Research on stand assignment of dual-agent in collaborative scheduling based on improved SO algorithm** [14132-26]
- 14132 1F **Fuzzy C-means (FCM) clustering-based segmentation of customer outage attributes and intelligent assessment** [14132-57]
- 14132 1G **Research on multidimensional data aggregation for smart grids based on fog computing** [14132-99]
- 14132 1H **Research on coordinated control strategy for active power output of energy storage systems based on multi-infeed UHV and CIGRE DC standard test model** [14132-92]
- 14132 1I **Research on the control scheme and strategy of energy storage power station in the precise control system of power source, grid and load at the DC receiving end grid** [14132-34]
- 14132 1J **Quantitative assessment of stability in high-renewable power systems based on low-carbon targets** [14132-38]
- 14132 1K **The semi-physical simulation system for unmanned surface vehicle based on ROS** [14132-51]
- 14132 1L **Analysis of research hotspots and trends in power grids using CiteSpace: a case study of CNKI data** [14132-64]
- 14132 1M **Optimization design of underwater biological monitoring robot based on TRIZ theory** [14132-111]
- 14132 1N **Optimal path algorithm of apple picking robot based on improved A* algorithm** [14132-112]
- 14132 1O **Design and implementation of high-performance and high-reliability programming architecture based on SoC chip** [14132-113]
- 14132 1P **Research on unmanned vehicle delivery route planning considering time window problem** [14132-115]
- 14132 1Q **Analysis of fault mechanism and fault maintenance technology of axial piston pump** [14132-119]

ELECTRONICS

- 14132 1R **Design of multisensor gas detection and alarm system based on nonlinear temperature and humidity compensation** [14132-29]
- 14132 1S **The impact of wide-bandgap semiconductor properties on RF/microwave device performance** [14132-81]
- 14132 1T **Design and implementation of IoT smart doorbell** [14132-31]

- 14132 1U **Design of an intelligent home security alarm system based on single-chip microcomputer** [14132-21]
- 14132 1V **Research on anti-interference optimization of high sensitivity fiber Bragg grating sensors in structural health monitoring** [14132-19]
- 14132 1W **Research on the design of autonomous vehicles** [14132-9]
- 14132 1X **Design and implementation of intelligent air purifier based on STM32** [14132-1]
- 14132 1Y **Research on exercise intervention methods for the elderly based on wearable device data** [14132-20]
- 14132 1Z **Design of a signal generator with multiple adjustable parameters** [14132-97]
- 14132 20 **A sensors data-driven method for assessing airport runway conditions** [14132-122]
- 14132 21 **Research on Indusi-Balise-TH type track responder testing device** [14132-71]

IMAGE PROCESSING

- 14132 22 **Addressing multifaceted heterogeneity: a practice of federated learning strategy fusion for medical image segmentation** [14132-22]
- 14132 23 **Research on robot vision technology for automated transplanting of seedlings in trays** [14132-7]
- 14132 24 **Research on deep learning-based MRI image reconstruction and denoising** [14132-48]
- 14132 25 **Optimization of automatic generation and light rendering of film and television scenes based on generative adversarial network and multimodal feature fusion algorithm** [14132-79]
- 14132 26 **Research on robot positioning based on visual information in complex environments** [14132-6]
- 14132 27 **A Diagnostic model for multichannel EEG seizure detection based on graph convolutional networks** [14132-96]
- 14132 28 **FPGA-based high-speed image processing system design** [14132-49]
- 14132 29 **Sobel-enhanced dual-branch convolutional neural network for facial expression recognition** [14132-47]
- 14132 2A **Robustness of facial expression recognition to image corruptions: a comparison of Vision Transformer and VGG-16 on FER2013** [14132-118]

- 14132 2B **Application of normal distribution based on deep learning in image processing** [14132-95]
- 14132 2C **A defect detection method for lithium battery electrodes based on BM3D and mean-shift** [14132-10]
- 14132 2D **Robust cartoon zero-watermarking based on non-subsampled shearlet transform and discrete cosine transform** [14132-2]
- 14132 2E **Design of a mobile image recognition system based on lightweight neural networks** [14132-76]
- 14132 2F **Deep learning-driven multimodal image fusion system research** [14132-78]
- 14132 2G **Few-shot image generation based on denoising diffusion probabilistic model and optimal transport theory** [14132-41]
- 14132 2H **A comparative study of federated learning algorithms on Tiny ImageNet** [14132-23]
- 14132 2I **An integrated method for image enhancement and defect detection in UAV inspection of transmission lines** [14132-107]
- 14132 2J **Dynamic safety assessment technology of mine ventilation system based on 3D digital twinning** [14132-66]
- 14132 2K **A creative design study on intelligent image perception systems for traditional cultural experiences** [14132-108]
- 14132 2L **Research on application of 3D laser dynamic scanning technology in measurement of power line foundation pit parameters** [14132-33]
- 14132 2M **A preliminary study on the comparison between KAN and traditional networks in PolSAR ship target detection** [14132-27]
- 14132 2N **Incremental image restoration of mural art via transformer-based edge recovery and control net-enhanced diffusion** [14132-35]
- 14132 2O **Application of CNN with fused attention mechanism for UAV-based forest fire image segmentation** [14132-68]
- 14132 2P **Real-time detection and tracking of small flames in forest scenes based on dual-model fusion and three-stage ROI refinement** [14132-42]
- 14132 2Q **Practical application of face recognition technology in financial anti-fraud big data analysis system** [14132-116]
- 14132 2R **Improved cartoon character face detection method based on RT-DETR algorithm** [14132-120]

- 14132 2S **Research on innovative applications and challenges of key technologies of intelligent vision systems in industrial robots [14132-121]**
- 14132 2T **Algorithmic research on enhancing the teaching effect of distance hydraulic teaching using image processing technology [14132-75]**
