

PROCEEDINGS OF SPIE

***Third International Conference
on Emerging Trends in AI and
Computational Technologies
(ICONEST 2025)***

**Ahmed J. Obaid
Muthmainnah Muthmainnah
Zdzislaw Polkowski
Adriana Schiopoiu**
Editors

**18–19 November 2025
Tuban, Indonesia**

Organized by
Universitas PGRI Ronggolawe (Indonesia)
Faculty of Mathematics and Natural Sciences (Indonesia)
Faculty of Teacher Training and Education (Indonesia)
Faculty of Engineering (Indonesia)

Volume 14141

Proceedings of SPIE 0277-786X, V. 14141

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Third International Conference on Emerging Trends in AI and Computational Technologies (ICONEST 2025)*, edited by Ahmed J. Obaid, Muthmainnah Muthmainnah, Zdzislaw Polkowski, Adriana Schiopoiu, Proc. of SPIE 14141, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

EMERGING TRENDS IN AI AND COMPUTATIONAL TECHNOLOGIES (ICONEST 2025)

- 14141 02 **LC–MS profiling of bioactive compounds from liquid culture of endophytic fungi isolated from the roots of Siwalan (*Borassus flabellifer*)** [14141-6]
- 14141 03 **Analyze the learning style profile of students using E-module-based PjBL and local wisdom at MA Nurul Huda Kragan** [14141-5]
- 14141 04 **Artificial intelligence as digital activism: analyzing and mapping the communication strategies of young activists** [14141-1]
- 14141 05 **Bridging coding and climate: a socio-ecological framework for integrating computational thinking into elementary mathematics education** [14141-14]
- 14141 06 **Analysis of the deep learning approach using multimedia by PGSD Unirow students** [14141-7]
- 14141 07 **AI metadata as a determinant of digital communication strategy: an examination of the Freepik platform** [14141-15]
- 14141 08 **Transformative role of AI as learning media towards higher order cognitive skills in biology learning** [14141-18]
- 14141 09 **Improving understanding concepts and science literacy through Google Sites-based digital teaching modules: a research development** [14141-11]
- 14141 0A **Bridging minds and hearts: the role of STEM education in developing elementary students' social and emotional skills** [14141-2]
- 14141 0B **Enhanced ransomware traffic detection using a hybrid ResNeSt101 and Isolation Forest framework** [14141-17]
- 14141 0C **Students and the digital era: the problem of artificial intelligence (AI) addiction in lectures for PBSI students at STKIP PGRI Ponorogo** [14141-10]
- 14141 0D **Optimizing HOTS skills and learning motivation of elementary school students through science interactive multimedia based on PBL with Google Sites: a development research** [14141-12]
- 14141 0E **Preliminary exploration of indigenous fungi from rice fields affected by volcanic ash from Mount Semeru in Lumajang with CNN-based image support** [14141-20]

- 14141 OF **Implementation of the problem-based learning model assisted by an augmented reality-based interactive e-book to improve the learning outcomes of 5th grade elementary school students** [14141-25]
- 14141 OG **Analysis of student perceptions towards AI-based chatbot technology using the Technology Acceptance Model (TAM)** [14141-19]
- 14141 OH **UI/UX prototype development for a web-based English academic course using design thinking** [14141-8]
- 14141 OI **FTIR-based detection technology to characterize microplastics in vannamei shrimp (*Litopenaeus vannamei*) ponds** [14141-24]
- 14141 OJ **An integration of Tomek Links as cleaning step and SMOTE for handling imbalanced class in rainfall classification** [14141-13]
- 14141 OK **Bayesian optimization method in XGBoost hyperparameter tuning: a novel approach for robust diabetes disease classification** [14141-3]
- 14141 OL **Comparative study of deep learning architectures and vision transformers for lemon leaf disease classification** [14141-23]
- 14141 OM **Utilization of optical character recognition (OCR) in a web-based internship information system for administrative efficiency and data validation** [14141-21]
- 14141 ON **Data-driven profiling of students based on the big five, motivation, and academic using correlation and clustering analysis** [14141-26]
- 14141 OO **Classification of animal sounds based on PCA and YOLO v8m by available dataset collected** [14141-27]
- 14141 OP **Liver diseases detection and classification using hybrid CNN with SVMs** [14141-31]
- 14141 OQ **Integrating MCMC with modularity maximization-based methods for community detection in complex networks** [14141-33]
- 14141 OR **Modern technique for solving nonlinear problems of combinatorial optimization based on approximate methods** [14141-42]
- 14141 OS **Balancing sustainability with efficiency and fault tolerance** [14141-39]
- 14141 OT **An improved Spider Wasp Optimizer based on CNN for respiratory sounds classification** [14141-32]
- 14141 OU **Cyberbullying detection using deep learning: RoBERTa and CNN approaches** [14141-29]
- 14141 OV **MalNet-Quantum: a CNN-based malware detection framework enhanced by Quantum Grey Wolf Optimizer** [14141-34]
