Volume 13944

Proceedings of SPIE 0277-786X, V. 13944

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Biologically Inspired Materials, Processes, and Systems (BIMPS) 2026*, edited by Mato Knez, Akhlesh Lakhtakia, Raúl J. Martín-Palma, Proc. of SPIE 13944, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

MATERIALS

13944 02 **Monitoring using living materials: mycelium-based sensing of structures** [13944-3]

DEVICES AND SYSTEMS

13944 03 **Optically transparent aligners with cellulose coating and naturally derived plasticizers for orthodontic treatments** [13944-5]

13944 04 **Application to infrared region of the *Morpho*-type optical diffuser** [13944-9]

BIOINSPIRED DESIGN AND LOCOMOTION

13944 05 **A biomimetic scale substrate as a physical reservoir computer** [13944-10]

13944 06 **Biomimetic analysis for drones may reveal a new hoverfly flight control reflex** [13944-12]

13944 07 **Towards an astromagnetic compass: real-world flight testing of a biomimetic celestial navigation system** [13944-13]

MATERIALS AND BIOINSPIRED DESIGN

13944 08 **Hierarchically engineered ALD multilayers for sustainable protection of stone cultural heritage (Invited Paper)** [13944-14]

13944 09 **Engineered biopolymer composite: an affordable, cement-free material for sustainable construction (Best Student Presentation Award - First Place)** [13944-15]

13944 0A **Is artificial intelligence a good servant but a bad master?** [13944-17]

13944 0B **Wearable ultrasound transducer materials and devices for applications in sensing, imaging, and therapy** [13944-8]

13944 0C **Evanescent-field-enhanced LSPR sensor for real-time glucose monitoring** [13944-7]

SOFT ROBOTICS: JOINT SESSION WITH CONFERENCES 13944 AND 13945

13944 0D **AI and mechanics driving the rise of bio-inspired robotic swarms** [13944-19]
