

PROCEEDINGS OF SPIE

International Conference on Pattern Recognition and Image Analysis (PRIA 2025)

Jixin Ma
Philippe Fournier-Viger
Qian Zheng
Deepak Kumar Jain
Editors

26–28 December 2025
Zhengzhou, China

Organized by
Zhengzhou University of Light Industry (China)

Published by
SPIE

Volume 14172

Proceedings of SPIE 0277-786X, V. 14172

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *International Conference on Pattern Recognition and Image Analysis (PRIA 2025)*, edited by Jixin Ma, Philippe Fournier-Viger, Qian Zheng, Deepak Kumar Jain, Proc. of SPIE 14172, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

- vii *Conference Committee*
- ix *Introduction*

COMPUTER VISION AND PATTERN RECOGNITION

- 14172 02 **Feature contrastive analysis and training strategy of figure-of-8 flight based on video feature extraction and parameter identification of system controller** [14172-8]
- 14172 03 **PSCF-NER: prompt-driven Chinese scholarly entity recognition and knowledge graph construction** [14172-15]
- 14172 04 **Synergistic quality-aware proposal network for open-vocabulary object detection in aerial images** [14172-53]
- 14172 05 **MSCollaborEM: a hierarchical graph-based multi-semantic collaborative self-supervised framework for entity matching** [14172-28]
- 14172 06 **A survey on deep learning-based pavement crack segmentation methods** [14172-56]
- 14172 07 **MLKA-NER: a large kernel convolution paradigm for span-based nested entity recognition** [14172-60]
- 14172 08 **OpenFusion-NER: in-context named entity recognition with open-source embedding fusion** [14172-39]
- 14172 09 **Role-dependent allocation of visual attention in dual-crew manual flight operations** [14172-4]
- 14172 0A **Hybrid graph-aware and diminishing-risk learning for medical image segmentation** [14172-23]
- 14172 0B **Continual learning in medical image analysis: technical advances and digital twin-driven optimization** [14172-42]
- 14172 0C **Attention-enhanced multi-scale feature network for text detection in seal script** [14172-12]
- 14172 0D **Hybrid structural parsing of ancient Chinese architectures via Segment Anything Model and graph attention network** [14172-24]
- 14172 0E **A low-resolution fingerprint matching scheme based on the improved ORB algorithm** [14172-52]
- 14172 0F **Image encryption scheme based on 2D Ikeda-Zaslavski chaotic map and DNA coding** [14172-9]

- 14172 OG **Augmented StarNet: boosting discriminative power through hierarchical ParNet attention modules** [14172-69]
- 14172 OH **CoPR-DTO: collaboratively driven and periodically recalibrated dynamic topology optimization** [14172-27]
- 14172 OI **Robust tracking control of flexible robots based on zero-sum games** [14172-63]
- 14172 OJ **Relation-aware scene graph generation framework via fusion of similar and abstract triplets** [14172-33]
- 14172 OK **Deep active image classification via adaptive uncertainty and representativeness** [14172-38]
- 14172 OL **Clustering analysis of tourism data based on improved K-means and implementation** [14172-30]
- 14172 OM **CurveNetLite: a lightweight 3D point cloud classification network for edge devices** [14172-1]

INTELLIGENT DETECTION AND IDENTIFICATION

- 14172 ON **Intelligent recognition of abnormal working conditions in pipe networks based on multimodal information fusion** [14172-49]
- 14172 OO **Research on multi-object detection methods for complex traffic scenes based on deep learning** [14172-75]
- 14172 OP **Hyperspectral anomaly detection algorithm based on band selection and multiscale collaborative representation** [14172-62]
- 14172 OQ **Dual-model cascade algorithm driven by unsupervised and supervised detection for cigarette package appearance inspection on FX2 high-speed packaging machine** [14172-32]
- 14172 OR **Third-party activity recognition for oil and gas pipelines based on contrastive learning** [14172-14]
- 14172 OS **Research on deepfake audio detection methods based on feature fusion** [14172-55]
- 14172 OT **LRT-DETR: enhancing RT-DETR for real-time PCB defect detection via MobileNetV3 and hybrid attention** [14172-47]
- 14172 OU **Research on target fusion recognition method in complex environment of naval battlefield** [14172-11]
- 14172 OV **Robust blink detection via confidence-weighted binocular EAR and subject-specific baseline calibration** [14172-43]

- 14172 0W **An enhanced YOLOv8 framework for MRI brain tumor detection: integrating dense connectivity and dynamic attention mechanisms** [14172-10]
- 14172 0X **Research on YOLOv5 dump truck detection algorithm for complex nighttime scenarios** [14172-54]
- 14172 0Y **An intelligent detection method for egg cracks based on self-supervised pre-training and dual-branch multiscale fusion** [14172-26]
- 14172 0Z **Frequency-domain convolution for boost of YOLO microscopic blood cell detection** [14172-37]
- 14172 10 **T-YOLO: a multi-object detection algorithm for complex traffic scenes based on full-dimensional dynamic convolution and attention fusion modules** [14172-76]
- 14172 11 **CS-YOLOv8: a robust water surface object detection model** [14172-79]
- 14172 12 **An algorithm for removing impurities from glass slides based on clustering threshold segmentation** [14172-5]
- 14172 13 **Mamba-driven spatial-temporal fusion network for infrared dim-small target detection in satellite videos** [14172-66]
- 14172 14 **Design of an automatic rat detection algorithm for food production safety** [14172-45]
- 14172 15 **Enhancing trash detection performance with YOLOv11n architecture using convolutional block attention module (CBAM)** [14172-61]

VISION SYSTEMS AND APPLICATIONS

- 14172 16 **Multimodal vision-based pavement quality monitoring with CLIPSelf for fine-grained defect detection** [14172-17]
- 14172 17 **Comparative study on pedestrian detection technologies for the anti-collision truss of a ship lift** [14172-51]
- 14172 18 **Design of wheat seed grading system based on image feature extraction** [14172-50]
- 14172 19 **Research on enhancing UAV photogrammetry for efficient flood prevention riprap volume estimation** [14172-65]
- 14172 1A **Lightweight YOLOv8s-CLS variant using reconfigured ControlNeXt and layer removal for tomato disease and pest classification** [14172-13]
- 14172 1B **Real-time traffic sign recognition method based on improved YOLOv13n** [14172-18]
- 14172 1C **CSGM: a cross-scale gated network for pavement damage detection and classification** [14172-22]

- 14172 1D **Research on non-contact safety monitoring for continuous beam bridge rotation process**
[14172-70]
- 14172 1E **Research on intelligent vehicle autonomous trajectory planning based on LSTM-Transformer**
[14172-48]
- 14172 1F **A classroom gesture recognition method based on pose keypoint distance features and stacking ensemble learning** [14172-41]
- 14172 1G **A machine vision-based target recognition system for navel orange harvesting robots**
[14172-59]
- 14172 1H **ODT-3DConv-SlowFast: a video-based cattle behavior recognition model** [14172-31]
- 14172 1I **SCSM: a self-calibrated selection MambaOut for pavement damage detection and classification** [14172-25]
- 14172 1J **A multi-source data fusion-based system for inspecting border defense vehicle chassis**
[14172-19]
- 14172 1K **A 3D CNC machining trajectory optimization method based on deep deterministic policy gradient (DDPG) algorithm** [14172-46]
- 14172 1L **Design of a construction site violation target detection system based on YOLOv8** [14172-44]
- 14172 1M **An enhanced MobileNetV4 architecture with CBAM for accurate classification mushroom toxicity** [14172-58]
- 14172 1N **Accuracy and efficiency improvement of MobileNetV3 small using CBAM attention module for road damage classification** [14172-57]
