

PROCEEDINGS OF SPIE

***Fifth International Conference on
Water Conservancy, Hydropower,
and Building Engineering
(WCHBE 2025)***

Balaram Kundu
Editor

29–30 November 2025
Wuhan, China

Organized by
Jiangxi University of Water Resources and Electric Power (China)
Civil Engineering Academy of Jiangxi Province (China)
Hubei Zhongke Institute of Geology and Environment Technology (China)

Published by
SPIE

Volume 14173

Proceedings of SPIE 0277-786X, V. 14173

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Fifth International Conference on Water Conservancy, Hydropower, and Building Engineering (WCHBE 2025)*, edited by Balaram Kundu, Proc. of SPIE 14173, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

xi *Conference Committee*

CIVIL AND BUILDING ENGINEERING

- 14173 02 **Research on parameter sensitivity in the uniaxial compression test of FLAC^{3D} simulated rock samples** [14173-4]
- 14173 03 **Experimental study on the earth pressure coefficient in soilbags** [14173-5]
- 14173 04 **Study on the influence of connector on the integrity of UHPC-steel keel composite wallboard** [14173-8]
- 14173 05 **Parameter analysis of the mechanical performance of bidirectionally diagonal self-buckling-restrained corrugated steel plate shear walls** [14173-13]
- 14173 06 **Exploring the anti-distortion ability of the 17-node quartic serendipity element Q17** [14173-15]
- 14173 07 **Application of full concrete prefabricated technology in substation construction: a case study of Tai'an Agricultural University's 110kV substation** [14173-19]
- 14173 08 **Field investigation on soil strength evolution around PHC pile during driving** [14173-23]
- 14173 09 **A practical force analysis method for pile under coupling effect of excavation and vertical load in cohesiveless soil** [14173-37]
- 14173 0A **An exploration of curvilinear architecture motion based on Runge-Kutta methods and single-objective planning models** [14173-39]
- 14173 0B **Experimental study on shear resistance of liquefiable sand improved by steel slag fine aggregate** [14173-43]
- 14173 0C **Research on characteristics of multiplanar cylindrical shell structure and factors influencing pressure resistance performance** [14173-45]
- 14173 0D **Vibration characteristics of curved beams under moving loads** [14173-46]
- 14173 0E **Structural optimization and mechanical performance analysis of screw-type insulator fixing device for distribution overhead lines** [14173-48]
- 14173 0F **Experimental study on the bending resistance of new lightweight integrated composite wall panels** [14173-1]
- 14173 0G **Study on flexural toughness of hybrid fiber reinforced concrete** [14173-44]

- 14173 OH **The influence of heat treatment on the corrosion resistance of 30Cr15MoY alloy steel coatings fabricated by laser direct deposition** [14173-51]
- 14173 OI **Long-term displacement behavior of energy piles in saturated soft soils under thermomechanical loads** [14173-3]
- 14173 OJ **Rapid removal of the overpass continuous beam based on the SPMT with the BIM 4D simulation study** [14173-24]
- 14173 OK **On compact layout of a high-altitude ± 800 kV voltage source converter station** [14173-28]
- 14173 OL **Application of lightweight BIM technology in construction management of prefabricated buildings** [14173-31]
- 14173 OM **Stability investigation of geogrid-reinforced slopes subjected to combined rainfall and seismic actions** [14173-36]
- 14173 ON **Application of BIM technology in the construction phase of intercity railway** [14173-108]
- 14173 OO **Spatial kinematic control and mechanical behavior of a large-radius curved steel box girder during incremental launching** [14173-77]
- 14173 OP **Dynamic fracture study of three-point bending beam model based on scaled boundary finite element method** [14173-97]
- 14173 OQ **Study on the influence of wind cable layout form on the wind performance of cable-supported pedestrian suspension bridges** [14173-64]
- 14173 OR **Research on application technology of MPC bonded steel plate reinforced hollow slab bridge** [14173-71]
- 14173 OS **Experimental study on MPC composite material bonded steel plate strengthening hollow slab beam** [14173-70]
- 14173 OT **Design method of shear strength for new one-side bolted strengthened connection** [14173-55]
- 14173 OU **Analysis of Hertz contact surface pressure and lubrication performance in cams** [14173-125]
- 14173 OV **Study on modeling of long-span pedestrian suspension bridge** [14173-98]
- 14173 OW **Study of effects of louvers on indoor wind environment of a high-rise sports building with CFD simulation** [14173-103]
- 14173 OX **Construction monitoring and numerical simulation analysis of Xiaoyuan Tunnel** [14173-81]
- 14173 OY **Research on construction control of single-pylon steel-concrete composite girder cable-stayed bridge** [14173-89]

- 14173 0Z **Computational simulations of single bolt joints of bamboo curtain plywood** [14173-80]
- 14173 10 **Study on the influence of the layers of batten plate on the mechanical performance of double-limb shelf column** [14173-79]
- 14173 11 **A hybrid method for design, analysis, and validation of an 1800-tonne walking-type crane for modular bridge construction** [14173-119]
- 14173 12 **Mechanical behavior of a long-span flexible steel trough girder during incremental launching: a case study** [14173-118]
- 14173 13 **Research on the mechanical properties of prestressed concrete bent caps for prefabricated bridges** [14173-127]
- 14173 14 **Study on erosion of elbow fittings in vacuum waste pipelines and their optimization** [14173-128]
- 14173 15 **Utilization of recycled asphalt pavement (RAP) as aggregate in Portland cement concrete** [14173-122]
- 14173 16 **Effect of waste clay brick powder and clinker fineness on properties of blended cement** [14173-131]
- 14173 17 **Investigation on the road performance of the high-modulus asphalt mixture CHAM-13 in Southern China** [14173-130]
- 14173 18 **Stability and evaluation of upper steps of super-large cross-section subway station strengthened by central rock column** [14173-117]
- 14173 19 **Evaluation of construction method of super-large section shallow buried tunnel in complex environment based on AHP-TOPSIS coupling** [14173-120]
- 14173 1A **Influence analysis of construction stability of super-large section subway station tunnel in central urban area based on excavation footage** [14173-121]
- 14173 1B **Mix proportion design and engineering application of cement modified phosphogypsum (CMPG) filling materials** [14173-129]
- 14173 1C **Application of intelligent layout robot system in the construction of large-span arch beams with complex curvature** [14173-138]
- 14173 1D **Experimental and theoretical investigation on the residual mechanical performance of HRB600 steel bars after high-temperature exposure** [14173-139]
- 14173 1E **Study on structural safety characteristics of asphalt concrete face rockfill dam for pumped storage power station** [14173-144]
- 14173 1F **Research on the application of gel-fiber-bacteria composite soil stabilization technology in slope protection** [14173-148]

- 14173 1G **Analysis of factors affecting the corrosion resistance of concrete in cold saline soil areas** [14173-149]
- 14173 1H **Study on compatibility of waterborne epoxy emulsified asphalt based on multiscale analysis** [14173-150]
- 14173 1I **Numerical simulation and applied research on the cooling effect of reflective film installation for coal storage in sheds under high-temperature environments** [14173-152]
- 14173 1J **Design and analysis of stem-leaf separation device for tall mulberry orchards in Guangxi** [14173-153]

OPTOELECTRONIC TECHNOLOGY INTEGRATION IN WATER AND BUILDING SECTORS

- 14173 1K **Research on humidification deformation of artificial structured loess** [14173-87]
- 14173 1L **Research on data cleaning method for slope displacement monitoring based on isolated forest algorithm** [14173-90]
- 14173 1M **Early detection and warning technology for forest fires based on multisource meteorological radar and satellite data fusion** [14173-113]
- 14173 1N **Three-dimensional characterization and dynamic analysis of wildfire smoke plumes using Doppler radar WER slices** [14173-112]
- 14173 1O **Improvement of FCLS algorithm considering the influence of sensor's point spread function** [14173-124]
- 14173 1P **Defect identification method for cast-in-place piles based on distributed fiber-optic temperature-strain integrated monitoring** [14173-132]
- 14173 1Q **Nonlinear wavelet threshold denoising of dam deformation monitoring data and its application** [14173-99]

SMART AND SUSTAINABLE INFRASTRUCTURE

- 14173 1R **Study on creep of high-volume fly ash concrete based on rheological theory** [14173-53]
- 14173 1S **Calculation method for determining buffer design parameters of high-level radioactive waste repository based on the effective density of montmorillonite** [14173-56]
- 14173 1T **Research on accurate short-term building load forecasting based on the physics-informed transformer** [14173-58]
- 14173 1U **Photocatalysis in electrospun carbon nanofiber/zinc oxide nanorod composites** [14173-21]

- 14173 1V **Application of city information modeling to the management of housing expropriation and demolition** [14173-6]
- 14173 1W **Optimization management of construction duration-cost for prefabricated substations based on BIM** [14173-12]
- 14173 1X **Research on the evolution of rural power characteristics and grid challenges under the rural revitalization strategy** [14173-16]
- 14173 1Y **Research on risk management of urban infrastructure in China under the PPP model** [14173-17]
- 14173 1Z **A study on the spatial distribution of elderly care facilities in Huangshan City under the dual constraints of topography and transportation** [14173-33]
- 14173 20 **Evaluation of park accessibility in Shenyang under the goal of service equalization based on the Gaussian two-step float search method** [14173-34]
- 14173 21 **Failure mechanism and probability analysis of multiple types of power infrastructure under rainstorm and mountain torrent disasters** [14173-38]
- 14173 22 **Technical method for thermal impact assessment of thermal discharge from npp on ris using thermal impact parameters** [14173-41]
- 14173 23 **Quantifying the multidimensional urban perception of historic districts based on deep learning models** [14173-42]
- 14173 24 **A path optimization algorithm for picking robots** [14173-47]
- 14173 25 **Feature selection algorithm based on PCA and LDA for power system** [14173-59]
- 14173 26 **Research on influencing factors of traffic carbon emission in Jilin Province based on STIRPAT model** [14173-67]
- 14173 27 **Analysis and prediction of spatial and temporal variation of carbon storage in Jinsha River Basin taking Xichang City as an example** [14173-50]
- 14173 28 **Accessibility analysis of elderly care facilities in Shanghai** [14173-69]
- 14173 29 **Basic research on delayed curing low-viscosity MPC composites material for bonding steel plates** [14173-72]
- 14173 2A **Optimization of waste high-density polyethylene content based on performance evaluation of asphalt mixtures** [14173-63]
- 14173 2B **Research on the influencing factors of EPC project cost management** [14173-91]
- 14173 2C **A study on the distribution characteristics and suitability of elderly care facilities in Nantong City from a multi-core distribution perspective** [14173-62]

- 14173 2D **Investigation on passenger composition and behavioral characteristics in subway stations adjacent to different urban functional areas** [14173-54]
- 14173 2E **A review of plant adaptability of urban roof greening under extreme high-temperature conditions** [14173-126]
- 14173 2F **Experimental study on the drying shrinkage performance of concrete based on multicomponent composite admixtures** [14173-110]
- 14173 2G **Life cycle assessment of high-volume waste glass powder in mortar: identifying the optimal balance for sustainable construction materials** [14173-111]
- 14173 2H **Study on the effect of plant extracts as low-carbon green admixtures on sulfate erosion resistance of cement mortar** [14173-106]
- 14173 2I **A study on the effects of particulate matter on learning efficiency based on E-Prime** [14173-83]
- 14173 2J **Study on durability and micro-mechanism of carbonated-GGBS stabilized silt clay** [14173-107]
- 14173 2K **Experimental analysis on mechanical properties of coal gangue mixture as roadbed filling** [14173-86]
- 14173 2L **Experimental study on mechanical properties of fiber-reinforced red clay** [14173-114]
- 14173 2N **Intelligent cockpit personalized service system based on deep reinforcement learning algorithm** [14173-115]
- 14173 2O **Intelligent cockpit service interaction page optimization system based on particle swarm algorithm** [14173-116]
- 14173 2P **A stop-skipping strategy for urban rail train rescheduling under delay conditions** [14173-143]
- 14173 2Q **Research on optimal capacity configuration of onboard energy storage device in urban rail transit** [14173-142]
- 14173 2R **Comparative multiphysics analysis of geometric configurations for Martian habitats** [14173-141]
- 14173 2S **Research on the identification method for value co-creation oriented air-rail passenger flow OD** [14173-137]
- 14173 2T **Integrated cost analysis of multimodal cold-chain transport** [14173-135]
- 14173 2U **Research on the evaluation index for integrated development level of rural passenger freight and postal service** [14173-134]
- 14173 2V **Carbon emission policy impacts on cold-chain multimodal transport route optimization and costs** [14173-133]

- 14173 2W **Environmental performance-driven interior daylight optimization: a case study of a transportation building in Hainan** [14173-146]
- 14173 2X **Applied research on low-energy trends of portable modular houses** [14173-151]

WATER CONSERVANCY AND HYDROPOWER ENGINEERING

- 14173 2Y **Integration of lateral pressure coefficients and erosion simulation for in situ stress inversion in complex terrains** [14173-26]
- 14173 2Z **Main parameter selection of pump turbine for Tiantai pumped storage power station** [14173-57]
- 14173 30 **Targeted design for tunnels in long-distance water diversion projects crossing adverse geological conditions** [14173-7]
- 14173 31 **Hydraulic performances of emergency gate closing in high-head moving water** [14173-10]
- 14173 32 **Post-earthquake structural response analysis of roller-compacted concrete (RCC) double-curvature arch dam: a case study of hydropower station X in Guizhou Province** [14173-18]
- 14173 33 **Research and discuss on division of flood season of Jingou River Basin in northern slope of the Tianshan Mountains** [14173-20]
- 14173 34 **Seepage monitoring and assessment for Huaishuguan Reservoir Dam** [14173-27]
- 14173 35 **Application of a DAS-based high-density surface-wave method for seepage detection in an earth-fill dam** [14173-30]
- 14173 36 **Research about hydraulics of surge chamber and flow-induced vibration on stop gate in hydraulic power** [14173-32]
- 14173 37 **Test research on the hydraulic characteristics and shape optimization of the bottom hole** [14173-35]
- 14173 38 **Comprehensive evaluation system for dam safety based on multiphysical field coupling and mechanical analysis** [14173-40]
- 14173 39 **Study on wind-induced response of $\pm 800\text{kV}$ UHV large-span transmission tower-line system** [14173-73]
- 14173 3A **Lateral bearing behavior of rigid square piles in sandy soils for transmission line foundations** [14173-66]
- 14173 3C **The influence mechanism of lining cracks on the dynamic response of tunnel structures under cyclic train loads** [14173-68]

- 14173 3D **Height sensitivity analysis of long intermittent pouring of RCC dams in cold regions**
[14173-88]
- 14173 3E **Sensitivity analysis of bridge pile deformation under multiple foundation pit superposition effect based on Midas GTS NX** [14173-100]
- 14173 3F **Research on underwater inspection technology combining dual-frequency side-scan sonar and high-definition imaging** [14173-94]
- 14173 3G **Rigless technology of water injection profile control in carbonate oilfield** [14173-96]
- 14173 3H **Research on three-dimensional seepage analysis of underground caverns of a hydropower station** [14173-74]
- 14173 3I **Study on seismic safety of the dam-foundation system under different intensity earthquakes**
[14173-85]
- 14173 3J **Research on the safety of the upstream cofferdam structure of Jiexu Hydropower Station**
[14173-145]
- 14173 3K **A study on stress-deformation characteristics of an ultra-high concrete face rockfill dam at the Houziyan Hydropower Station in a narrow valley** [14173-147]
