

PROCEEDINGS OF SPIE

International Conference on AI-Generated Content (AIGC 2025)

Feng Zhao
Duoqian Miao
Editors

27–28 December 2025
Hangzhou, China

Organized by
University of Science and Technology of China (China)
Tongji University (China)

Published by
SPIE

Volume 14183

Proceedings of SPIE 0277-786X, V. 14183

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *International Conference on AI-Generated Content (AIGC 2025)*, edited by Feng Zhao, Duoqian Miao, Proc. of SPIE 14183, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

- vii *Conference Committee*
- xi *Introduction*

FOUNDATIONS AND METHODS FOR AI-GENERATED CONTENT

- 14183 02 **Integration of the Hough transform method into the layers of convolutional neural network for character recognition** [14183-45]
- 14183 03 **Sliding window similarity prior-based diffusion model with DDIM-accelerated inference for probabilistic time series forecasting** [14183-9]
- 14183 04 **Semantic-guided flow matching for multimodal audio generation** [14183-3]
- 14183 05 **Structure matters more: efficient domain adaptation for SLMs via QA-based data reconstruction** [14183-18]
- 14183 06 **LLM as feature generator: semantic augmentation for sentiment analysis in low-resource scenarios** [14183-14]
- 14183 07 **GRA-Net: a global recurrent adversarial framework for spatiotemporal forecasting** [14183-38]
- 14183 08 **A BERT-BiLSTM-based approach for news text classification** [14183-8]
- 14183 09 **Emotion-controllable neural translation: dynamic gating between semantic fidelity and affective consistency** [14183-13]

MULTIMODAL CONTENT GENERATION AND CREATIVE TECHNOLOGIES

- 14183 0A **Multimodal content generation for emotional engagement in political education using text-to-image AI models** [14183-41]
- 14183 0B **Text2Traffic: a text-to-image generation and editing method for traffic scenes** [14183-19]
- 14183 0C **Text-to-image generation using NLP: transformer vs. hybrid ML approaches** [14183-37]
- 14183 0D **CNN-based automatic artistic creation for AIGC: dataset, training strategy, and multidimensional evaluation of generated works** [14183-24]
- 14183 0E **Controllable color harmony and layout generation for visual communication via GANs with multiscale attention** [14183-15]

- 14183 OF **Real-time 3D asset optimization for digital media: edge-collapse simplification and hybrid illumination with dual-depth shadowing** [14183-16]
- 14183 OG **Multimodal AI data fusion and feature recognition technology for art and design** [14183-49]

AIGC IN ARTS, CULTURE, AND CREATIVE INDUSTRIES

- 14183 OH **AI autonomy and human-AI co-collaboration in artistic creation** [14183-32]
- 14183 OI **A LoRA and motion retargeting-based framework for digital generation and animation of Chinese shadow puppetry** [14183-30]
- 14183 OJ **The dual role of AI in the inheritance of Jingdezhen's porcelain craft: a grounded theory study** [14183-51]
- 14183 OK **Human-machine collaboration and content regeneration: an academic exploration of the path to interpreting historical figures driven by AI music's unexpectedness, with the reconstruction of Yang Guifei's image in *Yang Fei's Wish* as a case study** [14183-46]
- 14183 OL **What does it sound like? Reconstructing and reimagining cultural soundscapes** [14183-10]
- 14183 OM **Creotech's near-future emergence analysis** [14183-43]
- 14183 ON **Characteristic-melody mining for AI music generation: a CNN-RNN framework with objective and human evaluations** [14183-23]
- 14183 OO **AI-driven image restoration and creative compositing for film post-production: a GAN-based workflow with frame interpolation and inpainting** [14183-25]
- 14183 OP **Controllable ancient-poetry generation with Chinese LMs: dynamic prosody checking, KG-enhanced semantics, and RL optimization** [14183-17]
- 14183 OQ **Multidimensional semantic consistency modeling and optimization method of movie script based on retrieval-augmented generation** [14183-26]
- 14183 OR **Multimodal dynamic GNN for music genre recognition and recommendation: robust classification and diversity-aware ranking** [14183-27]
- 14183 OS **Personalized vocal training via multimodal adaptation and RL-driven feedback: from EGG-audio fusion to human-in-the-loop coaching** [14183-28]

AIGC FOR EDUCATION, KNOWLEDGE SYSTEMS, AND SOCIAL APPLICATIONS

- 14183 OT **MicroVibe learning: synergy of vibe coding and microlearning in modern programming education** [14183-11]

- 14183 0U **A privacy-preserving framework for identifying AI contribution in educational writing**
[14183-21]
- 14183 0V **Rediscovering the value of academic papers in universities using a RAG system built on institutional repository papers** [14183-5]
- 14183 0W **Dissecting the impact of AI agents' attributes on user loyalty in digital environment**
[14183-29]
- 14183 0X **AI-generated content-driven intelligent teaching system for aviation security and maintenance education** [14183-12]
- 14183 0Y **An AI-driven immersive classroom for ideological education based on 3D scene generation and NLP scripting** [14183-42]
- 14183 0Z **AI-based assessment of the collective information learning style according to the Gregorc Style Delineator** [14183-35]
- 14183 10 **AIGC empowering vocational education: how to empower, what capabilities to empower, and by what means to empower** [14183-6]

TRUSTWORTHY, ETHICAL, AND APPLIED AIGC SYSTEMS

- 14183 11 **A survey on test case generation based on prompt engineering and large language models** [14183-44]
- 14183 12 **The double edge of generative AI: identifying and addressing gender bias through LLMs**
[14183-22]
- 14183 13 **Construction of an evaluation index system for the effect of AIGC empowering financial management in publishing enterprises: based on the multistage expert consultation method** [14183-31]
- 14183 14 **SmallChat: a Chinese mental health model based on liquid neural networks for device deployment** [14183-20]
- 14183 15 **Krishi Saathi: a farmer-centric conversational assistant for scalable agriculture advisory in India** [14183-39]
- 14183 16 **Investigating multiple intelligence types of the corporate board members using AI tools**
[14183-36]
- 14183 17 **Advanced AI and computer vision-based real-time plant disease and pest detection system: a systematic literature review** [14183-33]

- 14183 18 **A systematic approach to quality scoring of AI-generated legal texts** [14183-34]
- 14183 19 **Bridging generative AI and formal methods for high-assurance test generation in safety-critical embedded systems** [14183-40]
