

PROCEEDINGS OF SPIE

Fifth International Conference on Mechatronics and Intelligent Control (MIC 2025)

Mohamed Arezki Mellal
Zipeng Wang
Editors

26–28 December 2025
Zhengzhou, China

Organized by
Shanghai Institute of Technology (China)

Sponsored by
AEIC—Academic Exchange Information Centre (China)

Published by
SPIE

Volume 14186

Proceedings of SPIE 0277-786X, V. 14186

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Fifth International Conference on Mechatronics and Intelligent Control (MIC 2025)*, edited by Mohamed Arezki Mellal, Zipeng Wang, Proc. of SPIE 14186, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

xi *Conference Committee*

INTELLIGENT CONTROL AND OPTIMIZATION METHODS

- 14186 02 **A speed control system for MEMS traveling wave motor rotary platform** [14186-18]
- 14186 03 **Digital twin-driven multidimensional resilient interactive optimisation of traffic-distribution grids: a co-regulation approach based on improved deep reinforcement learning** [14186-138]
- 14186 04 **Dynamic obstacle avoidance trajectory planning for manipulators based on deep reinforcement learning** [14186-122]
- 14186 05 **Kinematics calibration and absolute positioning accuracy optimization of industrial robots based on particle swarm optimization** [14186-110]
- 14186 06 **Safety-constrained soft actor-critic for optimizing hybrid hydrogen-electric energy systems** [14186-49]
- 14186 07 **Optimal selection of coolant flow rate in u-tube heat exchangers: finite element study on balance between heat transfer efficiency and pressure safety** [14186-35]
- 14186 08 **Temperature control algorithm for waste incinerator based on DQN** [14186-142]
- 14186 09 **Research on adaptive terminal cooperative guidance algorithm for UAV swarms** [14186-81]
- 14186 0A **Research on fuel allocation for air-to-air missiles with terminal secondary thrust** [14186-106]
- 14186 0B **Modeling and optimization of circulating cooling water system for photovoltaic glass production** [14186-34]
- 14186 0C **Vehicle behaviour prediction algorithm in dynamic road environments** [14186-16]
- 14186 0D **Research on the closed-loop control strategy for the boost power of hybrid transmissions** [14186-3]
- 14186 0E **Optimization design and tidal-flat adaptability study of the ducted-fan propulsion system for a catamaran planing craft** [14186-70]
- 14186 0F **A review of structural design and functional optimization of high-speed machine tool guide rail protective cover** [14186-54]

- 14186 OG **Research on speed effect optimization of online eddy current testing for stainless steel argon arc welded pipes** [14186-80]
- 14186 OH **Generation and screening of configuration schemes for high load-sharing and high-torque planetary gear transmission** [14186-117]
- 14186 OI **Study on self-adaptive control strategy for a self-balancing transport vehicle carrying fragile goods over irregular terrains** [14186-116]
- 14186 OJ **Design of a constant flow regulation and monitoring system for a cooling lubrication oil station** [14186-129]
- 14186 OK **Research on the application of intelligent control technology in sluice pump engineering** [14186-32]
- 14186 OL **Research on the grid infrastructure investment forecasting model based on an LSTM neural network** [14186-133]
- 14186 OM **An improved butterfly optimization algorithm** [14186-143]
- 14186 ON **Process optimization for high-precision 3D printing of GeIMA via synchronous extrusion-photocuring** [14186-84]
- 14186 OO **Real-time task allocation optimization for service humanoid robots based on improved YOLO-pose and multimodal sensor fusion** [14186-123]
- 14186 OP **Spatial registration method for optical surgical navigation considering respiratory effects** [14186-77]
- 14186 OQ **Research on digital twin technology for the machining process of compound grinding center** [14186-76]
- 14186 OR **A CAD assembly model-guided method for part-level point cloud segmentation** [14186-13]
- 14186 OS **A five-axis CNC tool axis vector planning method based on virtual potential field** [14186-89]
- 14186 OT **Research on process optimization and moisture control of tobacco shreds machine based on distributed temperature monitoring** [14186-112]
- 14186 OU **Multidimensional attitude and pose error analysis and optimization of intelligent excavators** [14186-93]
- 14186 OV **Research on coordinated control of ABS and ESC based on road adhesion coefficient estimation** [14186-46]
- 14186 OW **Study on flow field characteristics and drying performance of leaf-wire dryer** [14186-92]
- 14186 OX **Design and research of relay protection for substation with lightweight prefabricated cabins** [14186-90]

- 14186 0Y **Simulation of gas–liquid water hammer based on CFD in boiler wastewater system**
[14186-98]
- 14186 0Z **Analysis of the impact of key quality indicators on the mixed oil of sequential transportation of methanol and diesel** [14186-71]
- 14186 10 **Simulation and experimental study on brake noise of axle disc brake system based on complex modal method** [14186-86]
- 14186 11 **Study on the stability of 200µm polycaprolactone microscale extrusion for tissue engineering scaffolds** [14186-85]
- 14186 12 **Experimental study on the evolution of annulus multiphase flow pattern during long open-hole drilling gas intrusion** [14186-48]
- 14186 13 **Exploring gated recurrent unit autoencoders for efficient representation learning of transient audio: a case study on crash cymbal sounds** [14186-43]
- 14186 14 **Design of an electromagnetic scale prevention network for industrial water transmission pipelines** [14186-17]
- 14186 15 **Research and application of model-based forward design of the brake system** [14186-59]
- 14186 16 **Numerical simulation and aerodynamic analysis of rotor in hover based on overset grid method** [14186-140]
- 14186 17 **Research on 3D model construction method of automobile parts based on neural radiance field** [14186-21]
- 14186 18 **Review on the design of Baja racing car transmission system** [14186-113]
- 14186 19 **Design of a vacuum moisturizer cooling water circulation system based on energy efficiency improvement** [14186-104]
- 14186 1A **Research on a distributed news information pool based on Python and Flask framework**
[14186-68]

SENSING AND MONITORING TECHNOLOGIES

- 14186 1B **Testability estimation of electric operation systems of rocket launchers** [14186-41]
- 14186 1C **RUL prediction of rolling bearings using VMD-enhanced transformer model** [14186-11]
- 14186 1D **Research on the detection method of asphalt pavement compaction degree based on a vibratory roller** [14186-132]
- 14186 1E **Insulation assessment of vehicle cable terminals via hypergraph gated attention network**
[14186-107]

- 14186 1F **Simulated ton bag cutting experimental platform and status monitoring** [14186-9]
- 14186 1G **PHM architecture design for EMU traction system based on MBSE** [14186-61]
- 14186 1H **Research on test and evaluation method of vehicle rear emergency braking system based on regulations and traffic accident data analysis** [14186-36]
- 14186 1I **Big data-driven fault diagnosis for railway turnout equipment** [14186-22]
- 14186 1J **Research on blockage fault of control valve based on CFD in dust removal pipeline system** [14186-103]
- 14186 1K **Recognition of urban rail transit passengers' travel patterns based on deep temporal embedding clustering** [14186-19]
- 14186 1L **Design of multi-axis vibration sensors and their application in new energy powertrain testing** [14186-66]
- 14186 1M **Equipment status evaluation of data communication subsystem in fully automatic operation signaling systems based on D-S evidence theory** [14186-1]
- 14186 1N **Intelligent detection of faults in power metering equipment based on deep neural networks** [14186-75]
- 14186 1O **Measurement method of wafer surface roughness based on metrological atomic force microscopy** [14186-33]
- 14186 1P **Research on ship enclosed compartment fires based on computer simulation technology** [14186-83]
- 14186 1Q **Intelligent monitoring system for edible fish cold chain transportation environment based on ThingSpeak and Wokwi platforms** [14186-23]
- 14186 1R **Research on surface contour drawing and dynamic focal tracking of glass cup in electronic cam system** [14186-121]
- 14186 1S **Research on the technical review process for the electromagnetic environment assessment of maritime radio safety facilities based on big data technology** [14186-96]
- 14186 1T **Microfluidic platform for real-time particle separation and detection** [14186-55]
- 14186 1U **Design and application of an offline automatic acceptance platform for substation-monitoring information** [14186-124]
- 14186 1V **A multimodal deep learning framework for process monitoring and defect detection in laser processing** [14186-87]
- 14186 1W **Study on the influence of clearance size between wedge-shaped shock absorbers and lifting equipment on equipment fatigue** [14186-26]

- 14186 1X **Design of mushroom growth environment detection system** [14186-67]
- 14186 1Y **Research on UAV-assisted power pipeline inspection technology before sub-grade construction in soft foundation silt areas** [14186-8]
- 14186 1Z **Voltage sag source type identification based on motif difference field and self-organizing map** [14186-58]
- 14186 20 **Design of intelligent electrical system based on rail track state detection** [14186-99]
- 14186 21 **Research on oil leakage and oil level discrimination device based on fluorescence probing** [14186-39]
- 14186 22 **Static mechanical analysis of clamping force and conductor stress in aerial wiring clamps for 220kV transformers** [14186-52]
- 14186 23 **An optimized ensemble-learning virtual sensor for the EGR mass flow of diesel engine under multicondition operation** [14186-2]
- 14186 24 **Deformation reconstruction for phased array antenna array by combining inverse finite element and KAN neural network** [14186-50]
- 14186 25 **A square-wave-excited capacitive angular displacement sensor** [14186-14]
- 14186 26 **Design of standard operation monitoring system for distribution transformer inspection** [14186-78]
- 14186 27 **Research on intelligent operation and maintenance system for rail transit power supply by integrating DeepSeek multimodal analysis** [14186-64]
- 14186 28 **Structural design of centroid detection device for rotating parts based on multipoint weighing method** [14186-47]

ROBOTICS AND AUTOMATION SYSTEMS

- 14186 29 **Structural design and simulation analysis of a highly adaptable three-finger robotic hand** [14186-27]
- 14186 2A **Egg packaging line system design based on ABB robots** [14186-97]
- 14186 2B **Design of a portable intelligent image-assisted inspection system for substations based on edge computing** [14186-30]
- 14186 2C **Research on key technologies for intelligent assembly of small motor gear sets** [14186-111]
- 14186 2D **Key technologies and application prospects of intelligent perception robots in aerospace assembly** [14186-69]

- 14186 2E **Research and application of key technologies for an augmented reality-based intelligent operation and maintenance platform for relay protection** [14186-45]
- 14186 2F **Design and fabrication of a soft robotic manipulator for early gastric tumor screening** [14186-7]
- 14186 2G **Design of robot repair workstation for gluing defects at the bottom of BIW based on visual inspection** [14186-25]
- 14186 2H **Structural design and experimental study of a dual-arm transfer care robot** [14186-24]
- 14186 2I **Research on flexible production line AR glasses-assisted fault diagnosis based on knowledge graph** [14186-5]
- 14186 2J **Design of a full life cycle management system for cigarette comprehensive test bench integrated with automatic monitoring and early warning** [14186-100]
- 14186 2K **Automatic in-building access control system based on single access interval** [14186-115]
- 14186 2L **Research on MEMS-based fully automatic intelligent inclinometer** [14186-119]
- 14186 2M **Dynamic anti-tipping control for a high-consistency basketball training robot** [14186-44]
- 14186 2N **Research on the construction of an integrated safety management system for intelligent connected vehicles** [14186-130]
- 14186 2O **Design and implementation of electric displacement device for personnel on single conductor** [14186-51]
- 14186 2P **Design and analysis of an intelligent, integrated garlic harvester** [14186-141]
- 14186 2Q **Implementation and development of a novel amphibious robot** [14186-131]
- 14186 2R **Design and implementation of a logistics sorting system based on HALCON** [14186-56]
- 14186 2S **Design and implementation of workpiece sorting system based on HALCON** [14186-65]
- 14186 2T **Variable-diameter multitask modular pipeline robot** [14186-105]
- 14186 2U **Unmanned aerial vehicle smoke screen generation and dispersion strategy** [14186-95]
- 14186 2V **Activating system development for vehicle dynamic electrical performance testing based on vehicle-in-the-loop** [14186-42]
- 14186 2W **Design of an intelligent interactive retail service robot system** [14186-15]

- 14186 2X **Research on agent process integration and visualization construction technology for production environments** [14186-31]
- 14186 2Y **Advances in the study of driving modes for flexible exoskeleton robots** [14186-108]
- 14186 2Z **Embedded-based automatic instrument supply system** [14186-114]
- 14186 30 **Design of a portable error printer** [14186-29]
- 14186 31 **Modeling and experimental verification of bionic stingray muscle-skeleton drive structure** [14186-6]
- 14186 32 **The research on beyond-visual-range teleoperation technology for integrated tunnel construction machine** [14186-72]
- 14186 33 **Research on optical fiber harnessing robot utilizing spatial non-coplanar principles** [14186-118]
- 14186 34 **Design of cylindrical battery outerwear automatic packaging machine** [14186-88]
- 14186 35 **Design and application of intelligent cigarette pack recognition system** [14186-63]
- 14186 36 **An industrial intelligent scheduling method and system based on agent clusters** [14186-91]
- 14186 37 **Structural design of a cable lead sealing device based on flame fusing technology** [14186-82]
