

PROCEEDINGS OF SPIE

Fifth International Conference on Computing Innovation and Applied Physics (CIAP 2026)

Guozheng Rao
Editor

30 January - 1 February 2026
Beijing, China

Organized by
Hangzhou Innovation Institute of Beihang University (China)

Sponsored by
Illinois Institute of Technology (United States)
Beijing Institute of Technology (China)

Published by
SPIE

Volume 14188

Proceedings of SPIE 0277-786X, V. 14188

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Fifth International Conference on Computing Innovation and Applied Physics (CIAP 2026)*, edited by Guozheng Rao, Proc. of SPIE 14188, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

COMPUTATIONAL PHYSICS AND NUMERICAL SIMULATION

- 14188 02 **Simulation analysis of optimal stand-off detonation for trigger fuses based on fuze-warhead coordination** [14188-1]
- 14188 03 **High-resolution imaging simulation of lens systems** [14188-4]
- 14188 04 **Search for orbital decay in the HATS-18 system** [14188-5]
- 14188 05 **Research on the stability of DC/DC converters under parameter perturbation** [14188-7]
- 14188 06 **Boundary sensitivity in Poisson and Laplace equations: numerical modeling with FDM and SOR** [14188-9]

MACHINE LEARNING AND INTELLIGENT PERCEPTION

- 14188 07 **Dense charge cluster detection: a hybrid framework combining watershed and convolutional neural network** [14188-3]
- 14188 08 **Higher-order interaction analysis of traffic networks based on information dynamics** [14188-6]
- 14188 09 **Parameter redundancy and model compression in diffusion-based MIMO channel estimation** [14188-8]
- 14188 0A **Multitask YOLO framework for concurrent structural deformation and surface defect perception in wind turbines** [14188-11]
- 14188 0B **A contrastive learning-based algorithm for target recognition and continuous trajectory tracking** [14188-14]

NETWORK OPTIMIZATION AND SYSTEM CONTROL

- 14188 0C **Cache-aware intra-kernel scheduling optimization for computation graphs under hierarchical memory awareness and constrained data movement** [14188-2]
- 14188 0D **Dynamic routing optimization and management in low Earth orbit satellite networks: a machine learning approach** [14188-10]

- 14188 OE **An adaptive personalized learning path recommendation system via deep reinforcement learning** [14188-12]
- 14188 OF **An integrated machine learning framework for Olympic medal prediction and performance fluctuation analysis** [14188-13]
