## Table of Contents

Conference Report .....1

### Theme: Water-related Hazard and Risk Reduction

Effects of Extreme Flood Events on River Morphology and Riparian Vegetation .....10

Difficulty of Evacuation Considering Evacuation Distance in case of Flood inundation Hazard .....17

Research on evacuation model in case of dam-break disaster based on Bass Diffusion Model.....27

Hydraulic characteristics of Meandering Compound Channel Flows with Embankment .....37

Simulation Analysis of Dam Collapse Flooding in the Reservoir of Lingzintan Hydroelectric Station .....44

Coastal Compound Flood Modelling and Impact Analysis for a Low-Lying Region of Hong Kong.....50

Modeling of Water-Sediment Inundation Process Incorporating with a Rainfall-Sediment Runoff model .....58

Research on the Current Ecological Environment Status and Ecological Restoration Measures of Zhangdu Lake in Wuhan City .....69

Effect of Driftwood Jamming on Characteristics of Bed Deformation around Traditional River Structure “Seigyū” .....79

Planform Evolution of a Channel Composed of Non-Cohesive Heterogeneous Sediment .....89

Real-time Prediction of River Water Level based on Radar Observation .....96

The Study on Hierarchical Operation Scheme of Floodplains and Polders ..... 102

Research on Reservoir Dam Failure Flood Simulation and Risk Evaluation Based on HEC-RAS..... 106

Fusion of Sentinel-1 and Sentinel-2 Image Time Series for Rapid Flood Mapping based on Deep Learning Method..... 115

Numerical Study of Surge-River Compound Flooding in Shanghai: a Case Study of Typhoon Muifa (2212) 121

Estimation of Probable Maximum Flood in Himalayan Region Based on SWAT Model..... 131

Experimental Study on the Transport and Trapping of Floating Debris by Standing Trees during a Flood Event ..... 139

Evaluation Method and its Application Study of Agricultural Drought Based on the Modified Soil Moisture Condition Index..... 145

Spatial and temporal distribution of internal solitary waves in the South China Sea based on MODIS data . 151

Splashing Rainfall Characteristics Caused by the Impingement Between The Nappe Flow And a Plunge Pool ..... 162

Multi-Point Water Level Forecasting by a Hybrid Type Flood Forecasting Model and Evaluation of the Impact of Missing Observation Data ..... 171

Research on the Diversion and Confluence Relationship between Dongting Lake and Changjiang River under Extreme Water Conditions..... 181

A Study on the Flood Discharge and Storage Function of Typical floodplains and polders in the Middle and Lower Reaches of the Yangtze River ..... 189

Enzymatic Approach for Automatic Measurement of Microbial Water Quality - Results from the First 10 Years of Field Testing and Scientific Evaluations ..... 199

Three-dimensional Modelling and Application of Large-scale Arc-shaped Bank Erosion Process in the Lower Yangtze River .....	205
Optimal Arrangement of Small-Scale Countermeasures in Densely Populated Areas against Combined Inundation Caused by Debris Flows and River Floods .....	218
Parameter Optimization of Hydrological Model for Multiple Flood Events by SCE-UA and Combination of Evaluation Functions: A Case Study in Yamato River, Japan.....	229
The Prediction Model of Downstream River Water Level Based on GRU Method .....	237
Study on Riverbank Stability Assessment Method and its Application in the Jingjiang Reach in the Middle Yangtze River .....	243
The Model Experiment on the Effects of the Crack on the Stability of River Embankments .....	250
Evaluation of Flood Emergency Remote Sensing Monitoring Effectiveness based on Unmanned Aerial Vehicle Swarm.....	256
Saltwater Intrusion Prediction in Yangtze River Estuary Based on Machine Learning Algorithms.....	261
Extreme Hydrological Processes Variations in the River Source Regions in Qinghai-Tibet Plateau .....	268
Multiphysics Simulation Study on the Corrosion Resistance of Water Supply Pipelines During the Plum Rain Season.....	276
River Surfaces Extraction Based on Multi-Source Remote Sensing and River Bed Characteristics.....	284
How Community-Driven Anticipatory Action Can Improve Flood Response in Northeastern Bangladesh during the 2022 Extreme Event .....	290
The Impact of Abrupt Sediment Supply from Tributary Debris Flow on the Main River in Alpine Environments .....	298
Analysis of Riverbank Erosion and Sediment Dynamics around a River Bend in Konaweha River.....	305
Numerical Analysis of Flow Structure and Suspended Matter Behavior around Hybrid Groyne in the Aizuma River.....	315
Mountain flood inundation simulation and disaster analysis of key cities and towns based on HEC-RAS model - a case study of Guanba Town, Chongqing .....	323
Study on Leakage Detection Method and Control Grouting Technology of Sleeve Valve Tube of Asphalt Concrete Core Wall Rockfill Dam .....	330
The Impact of Severe Drought on Freshwater Supply in Estuary and the Corresponding Strategies for Improving the Security of Freshwater Supply from a Basin Perspective--Taking the Yangtze River Basin and Yangtze River Estuary as Example.....	336
Evaluation of the Pangu Weather Forecasting Model in simulating Precipitation over the Yangtze River Basin, China: A Case Study .....	348
Computational Investigation of Landslide-induced Tsunami Waves Impacts on Downstream Vessels .....	356
Analysis of the Land Use and Land Cover Changes on Flooding in the Bagmati River Basin, Nepal .....	367
Evaluation of Two Multi-Phase CFD Models for Air-Water Two-Phase Flow in Spillway Tunnels .....	374
Modeling Flow and Pollutant Transport in Urban Areas during Flood Disasters.....	383
An Effect of Hydraulic Heave Phenomenon on Fine Sands Permeability in Laboratory Conditions .....	390
Analysis of extreme rainfall during major flooding in Kuala Lumpur and Selangor, Malaysia in December 2021 .....	400
A Study on Detection of Flooded Areas by Complex Neural Network of SAR Observation Data.....	407

---

Numerical Study on Effectiveness of Anti-Flood Pond in Awano-Gawa River Basin.....	413
Analysis & suggestions of reinforcement evaluation of small reservoirs.....	420
Effectiveness Analysis of Rural Water Safety Inspection in Six Provinces of the Yangtze River Basin from 2022 to 2023.....	427
Experimental Study on Characteristics of Landslide-Generated Impulse Waves in a River-Type Reservoir Near the Dam Area.....	434
Characterization of Drought-Flood Abrupt Alternation Events in the Yangtze River Basin Based on Improved Multi-Scale Standardized Dry-Flood Abrupt Alternation Index.....	444
Countermeasures and Suggestions for Strengthening the Operation of Three Gorges and Upstream Reservoirs and Dealing with the Impact on the Middle and Lower Reaches of the Yangtze River .....	460
The Elementary Study of Storm Surge in Typical Estuaries of South China .....	464
A High-performance Hydrodynamic Model Based on Taichi Parallel Programming Language.....	474
A Case Study of Two Storm Surge Forecasting Models in Changjiang Estuary.....	483
Hydraulic Characteristics of Inlet Flow of Plunging Dropshaft.....	490
Preventing Contamination of Drinking Water Sources by In-situ Treatment of Sanitary .....	500
Study on Leakage Detection Method and Control Grouting Technology of Sleeve Valve Tube of Asphalt Concrete Core Wall Rockfill Dam.....	508
Exploration of New Technologies for Online Monitoring of River Flow .....	515
Research on the application of automatic hydrological situation monitoring and reporting system in Irrigation and hydraulics engineering.....	523
Simulating and predicting river valley contraction induced by Baihetan dam impoundment .....	533
Construction and Application of Rainfall Retaining Capacity Model of Small Reservoirs within Ungauged Region .....	544
Application of Automatic Monitoring System of Slope Deformation Flexible Inclinator in Hydraulic Engineering .....	555
Hydrological Changes and Regional Water Security Assessment in the Tail End Region of the Ganjiang River .....	562
Validation of Depth-Averaged Numerical Model Against Benchmark Models in Perfect Fluids and Viscoplastic Fluids Simulation .....	571
Influence of Horizontal Curved Water Conveyance Tunnel on Hydraulic Characteristics of Side Inlet/Outlet	580

### **Theme: Integrated Water Resources Management**

Development, and its impact on water resources, cases from New Zealand and Japan .....	589
Analysis of the Potential Use of Urban Rainwater Resources in the Receiving Areas of the Eastern Route Project of the South-to-North Water Diversion Project.....	594
Uncertainty Analysis of Rainfall Frequency Analysis Based on Pivotal Quantities in the Three-parameter Weibull Distribution: Using Rainfall Records in Shanghai.....	604
Reservoir Operation Simulation Based on Chaotic Artificial Electric Field Algorithm Enhanced Long Short-Term Memory Network.....	613
Effects of Layered Heterogeneity on Transverse Hyporheic Flow in Compound Channels .....	621

Influence of Ecological Sluice in Green Water Bay Wetland Park on Flood Control and River Evolution .....	627
Perspective on China - Myanmar Water Cooperation Based on the Five - Year Plan of Action on the LMC (2023 - 2027) .....	636
Cooperative Pattern Research on China-Vietnam Water Area Based on Vietnamese National Master Plan on Water (2021-2030) and the Five-Year Plan of Action on the LMC (2023-2027).....	641
Homogeneity and Trends of Precipitation in the Peninsular Malaysia East Coast Using National Hydrological Network Datasets .....	645
The Impact of Shuangjiang Navigation Hydropower Junction.....	655
Water Use Efficiency Calculation of Typical Crops in Three Gorges Reservoir Area Based on HYDRUS Model .....	665
Research on Trends of Hydrological Regimes in the middle and lower reaches of the Yalong River Basin Based on IHA Indicators with Trend Analysis Technology .....	669
Assessment of Effective Green Water Resources in the Yangtze River Basin Based on Dynamic Crop Coefficient.....	680
Support-Free Interfacial Polymerized Thin Film Nanocomposite (TFN) Membranes with Dopamine-Modified Multi-Walled Carbon Nanotubes Constructed Interlayer for Nanofiltration Applications.....	687
Research on Risk Assessment Method for Water Supply Pipelines Based on Fuzzy TOPSIS and Cloud Inference Model.....	701
Dominant Factors Identification of Refill Operation of Cascade Reservoirs Based on Sobol' Sensitivity Analysis .....	713
Analysis on the Influence of Typhoons on Precipitation in the Upper Reaches of the Yangtze River During the Storage Period of the Three Gorges Reservoir.....	727
Hydropower Units Analysis of the Operating Characteristics and Optimization of the TGS Hydropower Station .....	739
Characterization of Spatial and Temporal Evolution of Water Ecological Footprint in Ordos City.....	749
Development of Water Resources Decision Support System - A Case Study of Yangtze River Main Stream Reservoirs Group.....	755
Optimal Operation of Hydropower Stations in Dry Season Under the Load Demands of Power Grids.....	763
Case Study on the Comprehensive Reform of Agricultural Water Price, a Key Link in the Benign Construction and Management of Irrigation and Drainage Facilities in China .....	770
Research on Ecological Flow Management of Reservoirs in Northern Hubei Province .....	779
Flood Routing Network Construction in Mega-Basin Using Data-Driven Artificial Intelligence Model.....	785
Research on the Path of Intensive and Economical Utilization of Urban Water Resources .....	792
Monthly Runoff Simulation Based on BP-ANN and Correlation Analysis .....	799
Runoff simulation in the source region of the Yangtze River based on SWAT model .....	804
Achieving SDG6 for Sustainable Water Supply and Wastewater Management in Southeastern Europe .....	809
Experimental investigation on the filling process of a long-distance pressurized water conveyance tunnel ..	817

**Theme: Eco-hydraulics and Environment**

Performance Analysis of Wastewater Treatment Plant Using Anaerobic-Aerobic System and Membrane Bioreactor at Merah Putih Regional Hospital in Magelang Regency, Indonesia..... 827

Study on the Swimming Ability of Typical Stream Fish in Zhejiang and its Application in Fishway Design... 836

The riparian Zones of the Three Gorges Reservoir Region: Protection, Restoration or Governance? ..... 842

Release of Total Dissolved Gas over a Stepped Spillway ..... 851

Characteristics of Tailrace Channel Flow and Appropriate Location of Fish Collection System (FCS)..... 860

Study on Land Cover and Exposure Pattern of the Three Gorges Reservoir Water-level Fluctuation zone based on Multi-source Spatio-temporal Datasets ..... 865

Numerical Modelling of Capture of Floating Seeds by Single Cylinder through Capillary Force ..... 878

Hydro-morphodynamic Computation for Physical Habitat Simulation..... 887

Machine Learning Based Total Nitrogen Retrieval in Small Inland Waterbodies..... 890

A Computational Model for Upstream Migration of *Ayu (Plecoglossus altivelis)* in an Agricultural Canal Considering Tilting Weir Conditions ..... 902

Toxicity and Control Technology of By-products of Chlorine Disinfection in Rural Drinking Water..... 910

Modeling Flow Structure around a Channel-centered Vegetation Patch With Streamwise Extension ..... 918

In-situ Treatment of Nitrogen, Phosphorus and Algae in Eutrophic Water by the Water Cleanser™ Bio-wax 925

Water Quality Characteristics in a Small-scale Stagnant Water Body ..... 934

A Study on the Flow Characteristic in the Artificial Riffle Zone ..... 943

Water Environment Impact of Continued Construction and Modernization Renovation Projects in Large Irrigation Areas..... 951

Evaluation on the Artificial Reproduction for the *Gymnocypris eckloni* (Teleostei: Cyprinidae) Population Recovery in the Upper Yellow River Using Matrix Population Modeling..... 956

Research on the Ecological Health Assessment Method of Urban Water Source Lakes..... 962

Reduce the Total Nitrogen from the Typical Gate Controlling Tributary to the Sea—A Case Study of Nanzhu River Flowing into Hangzhou Bay ..... 968

Evaluation of Global Warming Effects on Hypoxia in Osaka Bay based on Multiple Climate Model Projections ..... 975

Ecological Risk Assessment of Huaibei Plain Based on Landscape Pattern..... 985

Application of Unmanned Aerial Vehicle Hyperspectral Remote Sensing for Chlorophyll-a Monitoring in Typical River..... 996

Design of the Three Gorges Discharge Outlet Tracking Management System Driven by Digital Twin Technology ..... 1002

Study on the Enhanced Phosphorus Removal of Convergent Sewage in Combined Sewer Systems by Ozone Micro-nano Bubbles..... 1007

An Experimental Observation of River Turbidity Using Camera Image and Optical Fiber Sensor..... 1018

A Data Assimilation Approach Coupled with Gaussian Process to Resolving Model Structural Error for Reactive Solute Transport ..... 1027

The Effect of Multi-factors on Water Exchange in the Bohai Sea ..... 1048

Characterizing Urban Runoff Pollution in Malaysia: Impacts, Analysis, and Strategies ..... 1060

Modeling the Mean Flow and Turbulent Structures of Vegetated Flow Based on an Improved Double Averaging Procedure Considering Wake Kinetic Energy Generation .....	1066
Systematic Review and Practice on the Governing of Black-Odororous Water Bodies in County-Level Cities	1082
The Interaction Between Counterflowing Estuarine Bottom Currents: Insights from Laboratory Experiments .....	1087
Muti-scale Hydrodynamic processes of Water-vegetation Interfaces in Eco-rivers .....	1094
Impact of Layered Water Withdrawal from Xiluodu Reservoir on Downstream Water Temperature .....	1104
Research and Verification of Pollutant Emission and Water Quality Model in Wuhan East Lake Basin .....	1112
Research and Application of Water Quality Models for Typical Tributaries of Danjiangkou Reservoir .....	1120
Experimental analysis of river development processes with floodplain vegetation.....	1127
Numerical Simulation of Habitat Creation for Fish in the Upper Yangtze River .....	1134
Study on Acoustic Field Model and Dispatching Response of High Dam Flood Discharge Noise .....	1144
River Water Quality Prediction Model Based on WOA-RBFNN.....	1155
Decline in the Danjiangkou Reservoir Total Nitrogen Concentration in Response to the Input Decrease in Tributaries .....	1162
Near-surface Turbulent Dissipation at a Laboratory-scale Confluence: Implications on Gas Transfer .....	1169
Hydro-ecological integration framework for medium- to long-term bio-hydro morphology dynamics prediction of an actual river .....	1179
Ecological regulation and effectiveness evaluation of <i>Elodea nuttallii</i> controlling in the Danjiangkou-Wangfuzhou section of Hanjiang River.....	1184
Characterization of spatial and temporal evolution of water ecological footprint in Ordos City .....	1195
Strategies and Reflections on Improving the Quality and Efficiency of urban drainage system in the Southern Plain river Network.....	1201
The Environmental Influence and Control Techniques for the East Route Phase II Project along the Coast .....	1210
Characteristics and Storage Law of Weak-Middle Mineralized Groundwater in Mudstone of Suining Formation in Sichuan Basin .....	1220
The water quantity and quality characteristics of Four Lakes Main Channel and its response to the changes in agricultural cropping-breeding mode .....	1227
Urban channel confluence shifts microbial community assembly and stimulates nitrogen removal.....	1240
Identifying the relationship between algal blooms and key driving factors in a tributary backwater area of the Three Gorges Reservoir, China.....	1250
Study on the Treatment of Shale Gas Wastewater by Persulfate Advanced Oxidation .....	1257
Transport and Distribution of Microplastics in the Hyporheic Zone .....	1266
Estimating the Hydraulic Complexity Metrics based on the Entropy Model and Surface-velocity Measurements .....	1276
Variation of Flow-sediment Transport and Total Phosphorus Flux in the Jialing River.....	1285
Construction and Application of an Online Health Assessment and Restoration Platform for Expansive Soil Bank Slopes .....	1291
The Role of Over-Winter Oxygen Dynamics in Setting the Spring-Summer Dissolved Oxygen Levels in the Large Ice-Covered Lake Simcoe .....	1301

Practices and suggestions on urban lake management in the middle and lower reaches of the Yangtze River: A case study of Tangxun Lake in Wuhan ..... 1307

**Theme: Water-Energy-Food Nexus and Sustainable Economic Development**

A Multi-objective Fuzzy Flexible Programming for Agricultural Water-Energy-Food Nexus Management Based on Dynamic Water Cycle and Environmental Impact Evaluation ..... 1316  
Research on the Comprehensive Investment Benefits of the Three Gorges Project Based on DEA Model 1333  
Study on Ecological Water Supplementation of the Middle Route of the South-to-North Water Diversion Project ..... 1344  
Research and Suggestions on Promoting the High Quality Development Path of the Three Gorges Reservoir Area in the New Era..... 1356  
Suggestions for High-quality Development of the Resettlement Area for Immigrants in the Three Gorges Reservoir Area..... 1362  
Ten Critical Issues in China's River Basin Water Economy Research for the New Era ..... 1372

**Theme: Climate Change: Adaptation, Mitigation and Resilience**

Proposal Construction Measures for Adapting to Salinity Intrusion in Mekong Estuaries ..... 1378  
Study on the Permeability and Durability Performance of Resin-based permeable Bricks for Pavement Materials in Sponge Cities..... 1384  
Assessing the Possibility of Summer Hypoxia Occurrence Due to Flooding Events in Coastal Waters Under Large Ensemble Climate Simulation ..... 1397  
Research on the Characteristics and Influencing Factors of Split Pattern Changes in the Tongling reach of Lower Yangtze River ..... 1404  
A preliminary study on water volume change of typical lakes in QTP region with the space-ground stereo monitoring system..... 1412  
Future Changes in Winter Storm Surges induced by explosive cyclones passing over the Japan Sea and Sea of Okhotsk..... 1419  
Diagnosing Non-stationarity of Runoff Generation Using Bayesian Model Averaging ..... 1428  
Reconstruction of runoff in the source region of the Yangtze River based on the ice core records of the Qinghai-Tibet Plateau..... 1443  
Impacts of Climate Change on Flood Control and Management Projects for Important Tributaries of the Hanjiang River Basin and Adaptive Choices ..... 1454  
Modelling response of the Dutch Wadden Sea to relative sea level rise ..... 1461  
Evaluating Variations in Hydroclimatic indices over the upper regions of the Indus River Basin ..... 1462  
Long-Term Dynamics of Land Use and Land Cover Change in Response to Surface Runoff Management: The Case of The River Irwell ..... 1473

**Theme: Smart Water**

Development of a Rainfall-rainwater Monitoring System for Urban Flood Management.....	1488
Estimation of Grass Yield in Alpine Meadow of Dangqu Basin Based on GF-5B Satellite Hyperspectral Data .....	1494
A Review of Research on Water Conservancy Knowledge Graph .....	1502
Reflection on the Construction and Development of Smart Water Conservancy under the "Carbon Peak and Carbon Neutralization" Strategy .....	1511
Correlation Between Discharge Noise and Flow Field Characteristics of Hydraulic Turbine.....	1518
Research Concept on Informationization of Key Technologies for Flood Control and Emergency Response .....	1531
A review of hyperspectral inversion methods for inland water quality.....	1536
Data-driven modelling for urban flooding forecasting in Birmingham.....	1544
Smart water safety construction .....	1558
Explore the Realization of the "Four Precautions" for Flood Control of the Digital Twin of Water Conservancy Project.....	1569
The Construction Scheme of Digital Twin Wuling Reservoir Irrigation Area .....	1577
Exploring the Construction of a Multidimensional Perception Data Platform for Digital Twin Watershed and Water Conservancy Project: A Case Study of the Lishui Watershed, Jiangya and Zaoshi Water Conservancy Project.....	1590
Application and Considerations of Digital Twin Technology in Flood Control Scheduling of the Li River Basin .....	1600
Prediction of River Cross Section Morphology Below Water Surface Based on Deep Learning.....	1605
Research on Key Technologies of Intelligent Protective Materials Spraying System for Ultra-long Tunnel in Hydro-engineering .....	1614
The Practice of Cross-platform Digital Twin Scene Construction Technology Based on GIS Engine and Unreal Engine Fusion.....	1619
River Surfaces Extraction Based on Multi-Source Remote Sensing and River Bed Characteristics.....	1626
Water Depth Retrieval of the Lower Yellow River Based on Multispectral Satellite Imagery.....	1632
Research on Rainfall and Runoff Similarity Based on Machine Learning.....	1638
Research on the Combination Prediction Model for Dam Deformation Based on Machine Learning .....	1647
Determination of Scheduling Plan for Hydropower Station Adapting to the Load Demands of Multiple Power Grids .....	1654
Research and Development Progress of Intelligent Online Monitoring System for Gravity Dams .....	1661
Constructing and Applying a Multi-Modal Knowledge Graph for Flash Flood Disasters Based on Spatiotemporal Processes .....	1669
An Improved Multi-source Image Registration Method for Refined Calculation of Soil Erosion .....	1679
Research on Key Technologies for Building Digital Twin Platform for Water Management .....	1688
Application Prospect of Block Chain Technology in Construction of Intelligent Water Conservancy System .....	1696
Water depth retrieval of the lower Yellow River based on multispectral satellite imagery .....	1704

---

Prediction of River Cross Section Morphology Below Water Surface Based on Deep Learning.....	1711
The Application of Integrated Water-Land Measurement Technology in the Underwater Topographic Survey of Mountain Gorge River.....	1720
Comparison of Semantic Segmentation and Object Detection Models in Measuring Water Levels of Drainage Channels.....	1728
Research on the Application of Digital Management in Water Conservancy Engineering Construction .....	1735

### **Theme: Sediment Regulation and Management**

Impact of Sediment Deposition in the Three Gorges Reservoir on the Spatiotemporal Distribution of Dissolved Methane Concentration .....	1741
Research on the Influence of pool and point bar on Continuous Bends Flow .....	1747
Reach-scale morphodynamics in the gravel-sand transition of Yangtze River: 50 years of observations and model simulations .....	1756
Suspended sediment forecast model based on Microsoft Azure AutoML.....	1757
Quantitative Indicators and Methods for the Benefits of Reservoir Dredging .....	1762
Impacts of man-made flood peaks of the Xiaolangdi reservoir .....	1768
Reservoir Sedimentation of the Xiaolangdi Reservoir and its Influence on Channel in the Lower Yellow River .....	1772
Evaluations of River Channel Evolution and Impacts in the Middle-lower Yangtze River after the Operation of Three Gorges Reservoir.....	1777
Study on the Characteristics of Continuous Deposition in the Ma'anshan Reach under the Condition of Sub-saturated Flow Scouring.....	1787
Experimental Study on Countermeasures with Guide Piles against Local Scouring around A Bridge Pier ..	1795
Experimental Study on Non-uniform Suspended Load Sediment-carrying Capacity under Equilibrium Sediment Transport .....	1803
The Impact of Silt in the Three Gorges Reservoir on the Adsorption and Desorption of Nitrogen .....	1814
Prediction of the non-equilibrium response process in the Middle Yangtze River after the operation of Three Gorges Reservoir.....	1822
A Preliminary Study on the Non-equilibrium Adjustment Process of the Middle Reaches of the Yangtze River after the Operation of the Three Gorges Reservoir.....	1830
Cumulative Impacts on the Ma'anshan Reach of the Lower Yangtze River Under Varying Water and Sediment Conditions .....	1837
Study of Very Large-Scale Coherent Structures in large-scale Open Channel Flows.....	1844
Research on the Evolution Mechanism and Engineering Accumulative Impact of Typical Branched River Sections in the Middle and Lower Reaches of the Yangtze River .....	1851
Hydrodynamic characteristics of runoff and sediment yield on slopes in typical mountainous areas under incremental and continuous rainfall conditions.....	1861
A Study on the Impact of Downstream Sandy Riverbed Erosion and Incision on the Flow Diversion at Songzi Outlet .....	1875
Characteristics of Secondary Flow and Separation Zone with Different Confluence Hydraulic Conditions	

---

.....	1884
Starting Test Study of Frozen Water-Sand Mixture.....	1891
Estimation of Sediment Load in Arun River Basin.....	1898
The impact of "flood season anti drought" on scouring and silting changes in main stream of middle and lower reaches of Changjiang River under Extreme Water Conditions.....	1907
Removal of Fixed Weirs and its Influence on River-bed Evolution .....	1914
Gravel Mobilization and Bed Evolution due to Sand Supply to Gravel-Bed.....	1925
Regulating effect of check dams on erosion dynamics and sediment transport during flooding .....	1935
Research on the Reservoir Sedimentation during Design of Hydroelectric Stations .....	1941
Prediction of the Evolution of the Relationship between Rivers and Lakes in the Middle Reaches of the Yangtze River.....	1947
Influence of Variation of Water and Sediment Conditions on Evolution of Sandy Riverbed in Jingjiang River .....	1953
Investigation of Bank Collapse in the Middle and Lower Reaches of the Yangtze River and Recent Changes in Influencing Factors of Bank Collapse .....	1959
Investigation of Water Level Fluctuations in the Main Stream of the Middle Reaches of the Yangtze River Before and After the Three Gorges Reservoir Impounded .....	1966
Effects of River Migration and water-sediment regulation scheme on total nitrogen transport in the Yellow River Estuary.....	1976
Evolution Mechanism of the River Channel and Sandbars at the Jingjiang Reach of the Yangtze River under the New Conditions of Water and Sediment .....	1990
Changes of Water and Sediment Characteristics in the Middle Reaches of the Yangtze River in Recent 40 Years .....	1998
A novel grain size distribution expression for suspended sediment.....	2005
Response of Channel Morphology in the Lower Yellow River to Water and Sediment Regulation of Xiaolangdi Reservoir .....	2009
Experimental study on fractal characteristics and surface form resistance of riverbeds .....	2016
Advances in the Morphological Evolution Mechanism and Influences of River-Connected Lakes in the Changjiang River .....	2027
The Change Law and Formation Cause of Sediment Erosion and Deposition in the Three Gorges Reservoir in the Past 20 Years .....	2038
Research on the Characteristics and Influencing Factors of Split Pattern Changes in the Tongling reach of Lower Yangtze River .....	2050
Research on the Formula of Sand Peak Propagation Time During Flood Season in Three Gorges Reservoir .....	2058
Research on the Ecological Health Assessment Method of Urban Water Source Lakes.....	2063
Advances in River Evolution and Ecological Governance in the Downstream of the Three Gorges Reservoir .....	2069

**Theme: Estuarine and Coastal Engineering**

Determine The Timing of Freshwater Appearance In DinhAn Branch of Mekong Estuaries .....	2084
Analysis and Countermeasure Study on Low-Water Situations in the Middle and Lower Reaches of the Yangtze River after the Operation of the Three Gorges Project.....	2092
Modelling of Sediment Clump Dynamics in Open Water Disposal .....	2101
Semi-Empirical Wave Shoaling Model .....	2108
Implications of swimming pools for the safety of buildings under tsunami affection .....	2117
Study on the Influence of Runoff and Wind Direction Change on the Hydrodynamics of the Yangtze Estuary .....	2123
Dynamic Analysis and Simulation Study of Salt Tide Intrusion in the Yangtze River Estuary at Extreme Low Water Levels.....	2132
Discussion on soil and Water Conservation Design of Wuhan Xingang Yangluo port Area Third Operation Zone Phase I Project .....	2140
Numerical Simulation on the Mass Transport during Focused Waves Passing a Submerged Breakwater based a Liquid-liquid Two-phase VOF Method .....	2147
Prediction of morphological evolution trends in the South Branch of the Changjiang Estuary based on numerical and physical models .....	2156
Numerical Study on the Hydrodynamic Characteristics of Regular and Irregular Waves Propagating over an Estuarine Compound Dike.....	2166
Hydrodynamic Performance of a Submerged Flexible Membrane Breakwater on a Permeable Foundation.....	2180
Computational investigation of the influence of landslide-related conditions on resultant overtopping waves .....	2191
Effects of modifying stratification reality and biogeochemical model parameters on hypoxia using DN-4DVar .....	2200
Numerical Experiments on The Effects of Coastline Alteration on Circulation Patterns in Hakata Bay .....	2211
A Copula-joined Wind-surge Risk Analyse: case study for Quinhon coast, Vietnam .....	2216
Numerical Simulation on the Mass Transport during Focused Waves Passing a Submerged Breakwater based a Liquid-liquid Two-phase VOF Method .....	2222
A Study of Estuarine Hypoxia Resolution Based on Random Forest Algorithm and Wavelet Transform: A Case Study of Shenzhen River Estuary.....	2231
Effects of bottom slope on salinization in coastal reservoirs.....	2240
Numerical simulation of storm surges under wave-current interaction: a case study of “Chan-hom” .....	2249
