Table of contents

Welcome message	8
Keynote speakers.....	10
Program	14
Organizing committee	20
International program committee.....	21
Support and sponsorship	22

Oral presentations 24

Technical support for regional, PDO, PGI and TSG labels. The contribution of the distributed research infrastructure of the METROFOOD-RI Greek node.....	25
Building up citizen awareness on food safety and sustainability through participation	27
Combination of -omics strategies with traditional methods allows for comprehensive assessment of protective and adverse effect of ω -3 polyunsaturated fatty acids in parenteral nutrition.....	29
The food nutrition security cloud in Europe.....	31
Combined non-traditional isotopes for quality, authenticity and high geographical resolution assessments of wines	33
Development of inorganic and isotopic analytical strategies for the geographical authentication of olive oil	34
Stable isotope ratios of herbs and spices commonly used as herbal infusions on the Italian market	36
Laser photoacoustic spectroscopy for food fraud detection	37
Food reformulation – a challenge (not only) for the food industry.....	38
Quality assurance / quality control in cannabis products analysis	39
Essential oils in foods. Dead end or light at the end of the tunnel?	41
The use of tailored microbial consortia for enhancing crop yield and quality	42

Improving crop plants growth and health with the help of microorganisms: SIMBA EU project	44
Open data in the context of FNS-Cloud and METROFOOD-RI	46
The first certified reference materials for somatic cell counting (SCC) in milk	48
Research statistical study of various dietary supplements through measurements of their energy content	50
Nutritional features of Australian grown Feijoa (<i>Acca sellowiana</i>) fruit	52
Personalised nutrition.....	53
Nutritional value of edible insects and perspectives of their use as an alternative source of proteins.....	54
Natural food supplements from microalgae <i>via</i> supercritical CO ₂ extraction	56

Posters 58

Omega-3 and omega-6 fatty acids from sustainable crops	59
Characterization and assays of wild growing plants used in herbal medicine	61
Protein quality of foods of plant origin available in Portugal	63
Determination of fat content and profile of fatty acids in new varieties of oats	64
The effect of microwave treatment on quality and oxidation stability of nuts and almonds.....	66
Behaviour of polyphenols and antioxidant activity after boiling of heads from a globe artichoke improved genotype	68
A method for determination of acrylamide in bread by UPLC-MS/MS	70
Characterization of food from burnt areas in the Central Region of Portugal	71
Mackerel seasonality effect on Se content	73
Assessment of the mechanisms and pathways of fish contamination and mercury-selenium antagonism	75
Open access to METROFOOD-RI* services	77

Screening for Microcystins and Nodularin in food supplements on the Belgium market	78
Magnetic aptamer-based oligoprecipitation as innovative sample treatment strategy for food allergen determination: egg white lysozyme as case study.....	80
Characterization and discrimination of salt samples of different geographical areas and kind by Neutron Activation Analysis and chemometric methods.	82
Building a database for provenance studies of origin wines from the Douro Valley	83
Protected Geographical Indication “České pivo”	85
Determination of genetically modified DNA in foods by PNA-functionalized magnetic microbeads as substrates for enzyme-labelled amperometric genoassay	86
Antioxidant properties of white wines from different geographical origins	88
Authenticity of dairy products by capillary electrophoresis	90
Optimization of HPLC method for determination of cholesterol	92
Variations in the fatty acids profile of the meat by adding hempseed cake in the diet of multiparous cull cows	94
The effect of frying oil on the fat content of fish fingers and potato croquettes and its stability	96
Food Research Institute Prague – part of the European Research Infrastructure METROFOOD	98
Policies and strategies in food and healthy lifestyles	99
EPA and DHA content in fish oil supplements on the Italian market: A preliminary study	101
Is the nutrition of the Czech badminton representatives adequate?.....	103
Non-coeliac gluten sensitivity.....	104
Omega-3 recovery from food processing waste	106
METROFOOD: an Infrastructure for Promoting Metrology in Food and Nutrition	107
Joint Research Unit – METROFOOD-MK and its Contribution to Food Safety and Quality	108

Use of a certified reference material (CRM) of metals in hydrobiological products in a laboratory intercomparison program	110
Active food packaging joins quality by design for the development of antimicrobial materials containing essential oil-based cocrystals	112
<i>Clitoria ternatea</i> extract as a source of antioxidant compounds in chitosan based edible films and their intelligent properties	114
Capacity development within the Greek Node of METROFOOD RI regarding food processing. Challenges and opportunities for fermented food product reformulation	116
Data sharing to improve food supply chain management.....	118
The effect of the addition of cricket flour on the quality of bakery products	120
