Table of contents

Welcome message.....	7
Keynote speakers	8
Program.....	9
Organizers.....	14
Support and sponsorship	16

Keynote speakers abstracts

Mass tourism – a challenge to food safety <i>Ljevaković-Musladin I.</i>	19
ETP abstract Sept 2022 <i>Hogg T.</i>	20
Quality and safety systems of agricultural and food products in the Croatian Agency for Agriculture and Food <i>Sokolić D., Pintić Pukec N.</i>	21
6th IMEKOFOODS hybrid Conference <i>Martin L.</i>	22
Accreditation, Proficiency Testing and Reference Materials <i>Jones S.</i>	23

Oral presentations

METROFOOD-RI physical facilities active in the food safety sector by the end of the preparatory phase of the infrastructure.....	25
The influence of lifestyle choices (food, alcohol, smoking) on the blood concentration of Cd, Pb and Hg of newborns, adolescents and adults from Wallonia (Belgium).	26
Accumulation and depuration assessment of microcystin congeners in Basil grown on a hydroculture	27
The combined use of elemental analysis and pattern recognition to detect frauds: an added value for asparagus recognised with a Protected Geographical Indication.....	28
Elemental analysis as a simple tool to classify beans according to their geographical origin	29
Elemental analysis combined with pattern recognition as a tool for fraud detection in canned red peppers.....	30

Organochlorines as contaminants in butter, margarine, and other shortenings available on the market.....	31
The Good, the Bad and the Ugly about food additives multi-methods.....	32
Creation of a European Metrology Network for Safe and Sustainable Food.....	33
Exposure to lead when manufacturing cookware from scrap metal: A public health threat in the artisanal sector in DR Congo	34
Fish fraud detection: can Raman spectroscopy be an alternative?.....	35
The propagation of measurement uncertainty in PCA: the case study of the elemental composition of cooking salts.....	36
Raman spectroscopy as a new measurement tool in winemaking	37
Production and Certification of Reference Materials to Prevent Food Adulteration.....	38
Occurrences of phytoestrogens as potential endocrine disruptors in food.....	39
Financial stress and eating habits among university students: pilot study	40
Classification of liquid samples with NIR spectroscopy.....	41
Chemometric discrimination of X-ray irradiated mozzarella cheese based on the volatile profile by HS-SPME/GC-MS	42
Determination of phosphorus content as an alternative way of quantification of nucleic acids in food	43
The impact of dietary nucleic acids and their components on the growth of human alimentary tract cells <i>in vitro</i>	44
Stable isotope ratio of native honey and cheese from the Republic of Croatia	45
METROFOOD-RI ⁱ Service Chart: Service provision via RI for the promotion of metrology in food & nutrition.....	46
Anisakis in seafood: unwanted guest on a plate	47
The effect of culinary processing on the microbiological quality of <i>Tenebrio molitor</i>	48
Are edible insects suitable for people suffering gout?	49
Optimisation of Method for pesticide analysis using Gas Chromatography with ECD detection	50
Occurrence, Importance and Control of Mycotoxins: A review	51
Use of Brewers' Spent Grains as a Potential Functional Ingredient for the Production of Traditional Herzegovinian Product Čufter	52
Comparison of HPLC-FLD and LC-Q-TOF-MS methods for the quantitative determination of aflatoxin B1 and ochratoxin A in raw nuts collected from local markets in Valencia	54
Biosensors in the meat chain continuum as a tool for animal health, food safety, food quality and food crime control.....	55
Enabling Chemical Metrology for Food Safety in Africa	56
A Web Application to provide Food Contamination Data to Consumers	57

Electronic Core Components of METROFOOD-RI	58
Forgotten pathogen.....	59
Stable isotope ratio of Strawberry fruit (<i>Fragaria x ananassa</i> Duch., cv. 'Albion') at two stages of ripeness and after processing	60
Safety and quality of the <i>Spirulina</i> nutritional supplements on the Slovenian market.....	62
Smart nutraceuticals for the prevention of childhood obesity.....	63
Stigmastadienes – indicators of the presence of refined vegetable oils in cold-pressed vegetable oils.....	N/A
New plant-based food products enhanced by microbial processing.....	65
Adaptation of Onion Varieties and Their Agronomic Performance Under Tropical Z imbabwe Conditions.....	66
Providing Proficiency Testing Schemes for Elemental Content in a variety of Food Products: Highlights and Lessons learned	67
Development of methods and matrix certified reference materials for toxic and nutritional elements in food.....	68
Production of Proudly (South) African Mycotoxin Certified Reference Material Calibration Solutions	69
Food crime cases–qualification and prosecution	70
Effects of beneficial microbial consortia and biochar application on rhizosphere biodiversity and maize growth: The SIMBA Project	71
The SOLE project: a plant greenhouse demonstrator for fresh food production in space	72
Supporting a safe transition towards sustainable food systems: FoodSafety4EU	73
EPA extraction from microalgae through supercritical carbon dioxide at pilot scale	74
Characterization and discrimination of Italian olive cultivars by production prea using elemental analysis and LPAS combined with chemometric analysis	75
Integrated research infrastructures’ initiatives in support to the agrifood and the agroecological transition	76
METROFOOD-IT - The Italian Research Infrastructure for Metrology and Open Access Data in support to the Agrifood	77
Agriculture, pesticide analysis and the importance of proficiency testing: An African perspective	78
Metrology in food authenticity and traceability: stable isotope approach	79
Chickpea Proteins and Functional Properties.....	80
Impact of various fish cooking processes on the fate of Hg and Se species and the Hg-Se antagonism.....	81
Efficiency investigation of different solvents for Ochratoxin-A extraction from <i>Aspergillus</i> section <i>Nigri</i> strains	82
Worldwide Mycotoxin Management via Co-Creation of Innovative Strategies MycoTWIN.....	83
