## TABLE OF CONTENTS

|                                                                                                                                           |     |
|-------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Field Experiences Testing Current Transformers .....                                                                                      | 1   |
| <i>A. Gonzalez, J.L. Megger</i>                                                                                                           |     |
| Line Relay Upgrade – Testing & Commissioning Without an Outage .....                                                                      | 21  |
| <i>B. Karki</i>                                                                                                                           |     |
| Investigating the Influence of Magnetized Cores on Transformers During Electrical Testing .....                                           | 30  |
| <i>B.F. Cursey, J. Aguirre</i>                                                                                                            |     |
| Line Impedance Resonance Analysis (LIRA) .....                                                                                            | 35  |
| <i>D. Jacobsen</i>                                                                                                                        |     |
| Transformer Diagnostic Testing: Leakage Reactance and Frequency Response of Stray Losses .....                                            | 45  |
| <i>D. Welton</i>                                                                                                                          |     |
| A Practical Guide to Relay Settings Files .....                                                                                           | 59  |
| <i>E. Goetz</i>                                                                                                                           |     |
| Practical Considerations for Relay Testing .....                                                                                          | 80  |
| <i>J. Loyd</i>                                                                                                                            |     |
| Handheld Partial Discharge Survey Method to Detect Early Warning of Deterioration of Insulation<br>of High Voltage Electrical Asset ..... | 91  |
| <i>J. Gosalia, J. Chiu, D. Lee, C. Fan, J. Jesing</i>                                                                                     |     |
| Life Management and Life Extension of Power Transformers on the Island of Puerto Rico .....                                               | 107 |
| <i>K.G. Peterson</i>                                                                                                                      |     |
| The Many Pitfalls with Power System Studies .....                                                                                         | 117 |
| <i>K. Maynard</i>                                                                                                                         |     |
| Advanced Risk Factors for Electrical Safety .....                                                                                         | 125 |
| <i>H.L. Floyd</i>                                                                                                                         |     |
| What Does Capacitance Tell Us About the Transformer? .....                                                                                | 130 |
| <i>M. Anderson</i>                                                                                                                        |     |
| IEC 61850 and the Future of Modern Workforce: Embracing Digital Substations .....                                                         | 141 |
| <i>M. Talebi</i>                                                                                                                          |     |
| Lessons Learned from Lessons Learned: Learning Through Reflecting on Past Actions .....                                                   | 143 |
| <i>M. Talebi</i>                                                                                                                          |     |
| Medium Voltage Shielded Power Cable Dielectric Test Selection .....                                                                       | 145 |
| <i>C. Tedder</i>                                                                                                                          |     |
| Ground Fault Protection for Ungrounded Distribution Network .....                                                                         | 156 |
| <i>P. Gaure</i>                                                                                                                           |     |
| Comparative Analysis of Offline Testing and Online Monitoring Techniques for Power<br>Transformers .....                                  | 164 |
| <i>S. Farhang, C. Nybeck</i>                                                                                                              |     |

|                                                                                                                         |     |
|-------------------------------------------------------------------------------------------------------------------------|-----|
| Assessment of Diagnostic Effectiveness: Tan Delta Vs. Partial Discharge Testing Methods for Power Shielded Cables ..... | 174 |
| <i>J. Aguirre, S. Farhang</i>                                                                                           |     |
| HP&D'S Approach to Impactful Onboarding .....                                                                           | 183 |
| <i>S. McLaughlin</i>                                                                                                    |     |
