Track A : Mastering Energy Management

Chapter 1: Navigating State Level Climate Compliance Requirements Kristin Gustafson, PE, CEM, Principal, Sustainability & Energy Incentives	1
Chapter 2: Building Performance in Practice: Lessons from Washington and What they Mean for Oregon Alex Inman, CEM, Owner/Principle, A Inman Consulting	12
Chapter 3: BPS & Climate Compliance is Hiring: Why Energy Managers and Auditors are in Demand Marika Erdely, Principal, VCA Green	25
Chapter 4: Strategic Energy and Decarbonization Management: A Roadmap for State-Level Compliance and Operational Excellence Xinpei Li, CEM, Energy Engineer, Kroger Co.	36
Chapter 5: From Overwhelming to Achievable: Making Utility M&V & Rebate Programs Work Kerry Rowland, Energy Efficiency Principal, Public Service Company of OK Curtis Robbins, Senior Director, Qualus – Demand Analytics & Solutions Natalie Cota, Outreach Consultant, TRC Companies	46
Chapter 6: Rebate it Till You Make It: The BPS Plan that Pencils Ben Levine, Director of Business Development, Touchstone IQ	59
Chapter 7: Case Study: Washington State University: Chilled Water System Redesign for Energy and Performance Lauren Donley, CEM, Vice President, Millig Design Build	65
Chapter 8: Enhancing Peak Load Management and Grid Resiliency Jhanvi Rana, Energy Engineer, King County Wastewater Treatment Division	76
Chapter 9: Beyond Hardware: Build your Metering Case Sara York, PE, Cascade Energy	87
Chapter 10: Evaluating Decarbonization Potential in Natatoriums Joe Iaccarino PE, CEM, Director of Energy Services, Systems West Engineers	97

Track B : Energy Services and Emerging Technologies

Chapter 11: From Data Overload to Energy Action Empowering Building Owners/Operators with Utility Data Intelligence	111
Alastair Hood, CEO, Verdafero	
Chapter 12: Beyond the AI Hype: From Insights to Action	122
Robby Martin, Building Analytics Lead, ATS Automation	
Chapter 13: Transformative Prefabricated Housing Solutions	128
Safia Sheerin Abdul Kadhar, Energy Data & Strategy Analyst, Lincus, Inc.	
Chapter 14: Optimizing Industrial Sustainability Through Smart Dust Collection Management	138
Brad Evans, Retrofit Solutions Manager, Hastings Air Energy Control	
Chapter 15: Measurement & Verification Demystified: Leveraging M&V as a Tool for Watch Outs for Building Owners	150
Zara Fahim, Associate, Arup	
Nataka White, Associate, Arup	
Chapter 16: Using Digital MRV to Verify Decarbonization	166
Mike Dieterich, Sustainability Officer, Decarb Advisory	
Chapter 17: ISO 50001 for ESPC: Using Maturity Modeling to Ensure Long Term Savings in Public Sector Projects	173
Saikrishna Ganesan, Project Development Engineer, Performance Services Inc.	
Chapter 18: Rethinking Rooftops: Where the Real RTU Savings Are	181
Rebecca Hovey, Senior Engineer, Energy 350	
Chapter 19: Flexible Efficiency from Multifamily HPWHs: Technology Ready for Utility Program Support	193
Jon Heller, PE, President, Ecotope	
Chapter 20: Chilled Water System Optimization	205
Duane Warren, Engineering Director, Jones Lang LaSalle	
Chapter 21: Advances in Industrial Cooling Towers and Energy Saving Opportunities	211
Ethan Languri, Professor, Tennessee Tech University	
Track C: Decarbonization and Electrification Strategies	
Chapter 22: Why Invest in a Decarbonization Master Plan?	222
Lauren Donley, CEM, Co-Founder and Vice President of Millig Design Build	

Chapter 23: Loads & Codes: Why Updating “Rules of Thumb” is Essential to Delivering Value Nathan Kegel, Vice President, IES Ltd	229
Chapter 24: Evaluating Hybrid VRF + Gas DOAS Systems Across Climate Zones Rohit Jogineedi, Engineer, GTI Energy	248
Chapter 25: Meydenbauer Center: A Clean Buildings Journey Kris Johanson, Engineering Manager, Macdonald-Miller Facility Solutions Pete Davila, Lead Energy Engineer, Macdonald-Miller Facility Solutions	262
Chapter 26: Thermal Energy Networks in WA: Pipedream or Possibility Beth Robinweiler, Sr Product Development Manager, Puget Sound Energy	266
Chapter 27: Optimizing Industrial Refrigeration Ted Brown, Energy Management Analyst Supervisor, Seattle City Light	273
Chapter 28: Competing for Kilowatts: Energy Strategy in the Era of Data Center Expansion and Climate Change Acceleration Siddharth Premkumar, Senior Mechanical Engineer, Arup	280
Chapter 29: Steam Production from an Air Sourced Electric Heat Pump: Decarbonization of the Steam Process Richard Costello, PE, CEM, President – Acela Energy Group Inc. & Acela Thermal Energy	295
Chapter 30: Data Centers and Energy Supply Rapid Deployment of Hybrid Gas Solutions for Volatile AI Loads Justin Lenoff, Group Application Manager, Microgrids, Clarke Energy	304
Chapter 31: When EV’s get Parked for Good – Understanding the Behavioral Drivers of EV Disengagement Joshua Oluwatumise, Graduate Student Researcher, Colorado State University	319
Chapter 32: Puget Sound Energy Up & Go Electric for Fleet Nick Altberg, Fleet and Commercial Account Manager, Puget Sound Energy	328
Track D: Clean Energy Transition: Challenges and Opportunities	
Chapter 33: Financing Decarbonization: A Future Beyond Grants Dan Potash, Energy Consultant	335

Chapter 34: Federal Funding for Renewables: The Latest on the Inflation Reduction Act and OBBBA	353
Josh Steinmetz, Director, 179D Energy Incentives, Eide Bailey, LLP	
Chapter 35: The BEACON Fellowship Project: Accelerating the Clean Buildings Flywheel in Washington	371
Isabel Baird, WA State Department of Commerce	
Rebecca Sheppard, Smart Buildings Center	
Cyrus Para Allen, Strategic Energy Innovations	
Chapter 36: Engineering the Pipeline: Strategies for High Velocity Development of Multi-Measure Energy Projects	387
Mirazun Mitu, Project Development Manager, SiteLogIQ	
Chapter 37: Urban Climate Disasters: What the LA Wildfires, Maui Wildfires, Hurricane Helene, and Winter Storm Uri tell us about Energy and Water Infrastructure	400
James Dodenhoff, Principal, Silent Running LLC	
Chapter 38: From Programs to People : Curating Contacts and Messaging to Increase Program Reach	420
Armando Berdiel, Energy Program Delivery Manager, Seattle City Light	
Chapter 39: Seattle Public Schools Compliance with CBPS and BEPS	432
Ian Brown, CEM, Resource Conservation Specialist, Seattle Public Schools	
Chapter 40: Efficiency to Resiliency: Providing Resiliency for the Federal Government	440
Andreas Winardi, PE, CEM, Senior Project Developer, NORESKO – Carrier Corporation	
Chapter 41: Leveraging Utility Incentives and Energy Design Assistance to Advance Affordable Housing Outcomes in the Pacific Northwest	448
Gunnar Brent, Energy Efficiency Program Manager, Willdan Group, Inc.	
Chapter 42: Assuring On-Time Delivery: Long Lead Electrical Power Infrastructure Components	460
Randal Kaufman, VP of Sales, Voltaris Power	
Chapter 43: The Value of Peak Resources	466
Nickolas Gemperle, Economic Forecast Analyst, Puget Sound Energy
