

PROCEEDINGS OF SPIE

International Conference on Optoelectronic Information and Communication Technology (OICT 2026)

Giuseppe Buja

Hai-Han Lu

Editors

20 - 22 February 2026

Kuala Lumpur, Malaysia

Organized by

National Taipei University of Technology (Taiwan)

Sponsored by

University of Padova (Italy)

Simon Fraser University (Canada)

Published by

SPIE

Volume 14184

Proceedings of SPIE 0277-786X, V. 14184

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *International Conference on Optoelectronic Information and Communication Technology (OICT 2026)*, edited by Giuseppe Buja, Hai-Han Lu, Proc. of SPIE 14184, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

ISSN: 0277-786X

ISSN: 1996-756X (electronic)

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

xi *Conference Committee*

OPTOELECTRONIC DEVICES AND APPLICATIONS

- 14184 02 **Construction and implementation of an adaptive digital literacy assessment model for grid practitioners focused on industry-technology integration** [14184-15]
- 14184 03 **Standardized design of power-energy boundary modeling and optimization control for vehicle-to-grid interaction** [14184-17]
- 14184 04 **Design and simulation of power management modules for low-power MCU chips** [14184-29]
- 14184 05 **Application of LSTM Transformer models with attention mechanisms in short-term electricity load forecasting** [14184-31]
- 14184 06 **Application of improved SVR model in predicting the dielectric strength of modified mesoporous silicon dioxide reinforced cable sheath materials** [14184-34]
- 14184 07 **Construction of geological parameter database and intelligent query system for power transmission and transformation projects in mined-out areas and collapsible loess regions** [14184-35]
- 14184 08 **Power data privacy protection model and algorithm optimization based on machine learning** [14184-58]
- 14184 09 **Operational analysis of power control strategies in community microgrids with large-scale energy storage systems** [14184-39]
- 14184 0A **Optimization model of electricity market settlement mechanism and algorithm design for node electricity price signal guidance** [14184-22]
- 14184 0B **Additive screening strategies and electrochemical performance optimization for constructing artificial solid electrolyte interfacial layers** [14184-26]
- 14184 0C **The transformation path of energy and power systems and carbon emission prediction models under the dual carbon goals** [14184-25]
- 14184 0D **Multiobjective optimization model for regulating capacity of multienergy coupled watershed system** [14184-40]
- 14184 0E **Thickness measurement of epitaxial layers in wide-bandgap semiconductors based on dual-/multi-beam infrared interferometry** [14184-42]

- 14184 OF **Damping coefficient tuning strategy for VSG-controlled BESS under ultra-weak grid condition** [14184-6]
- 14184 OG **The evolution law and prediction method of the total electricity consumption structure of the whole society under the background of high energy consumption capacity reduction and the scale-up of new business forms** [14184-7]
- 14184 OH **Semiconductor epitaxial layer thickness calculation based on Drude–Lorentz hybrid model** [14184-52]
- 14184 OI **Multi-source heterogeneous data fusion methods and risk assessment models in digital supervision of the electricity market** [14184-10]
- 14184 OJ **Multidimensional data analysis and control model of load and energy supply fluctuation under basin energy structure** [14184-43]
- 14184 OK **Optical model of PDMS air based on transfer matrix method (TMM)** [14184-53]
- 14184 OL **Triple-layer glazing thickness optimization using PSO for enhanced optical transmittance** [14184-8]
- 14184 OM **Multi-channel LED spectral regulation based on random forest regression and adaptive learning optimization model** [14184-56]
- 14184 ON **Intelligent energy-saving technologies for high-speed railway station air conditioning systems in the context of green railway construction** [14184-61]
- 14184 OO **Edge-cloud collaborative computing for gun camera pan-tilt units in smart grid digital transformation** [14184-63]
- 14184 OP **Multiobjective evolutionary algorithms for sustainable grid** [14184-64]
- 14184 OQ **Platform design and research based on big data governance in power systems** [14184-68]
- 14184 OR **Batch scheduling method for power material procurement based on synergistic integration of large models and operations optimization** [14184-73]
- 14184 OS **Multiobjective environmental economic dispatching algorithm of power system based on adaptive spatial division** [14184-74]
- 14184 OT **An interference-enhanced data-driven model for precise thickness measurement of semiconductor thin films** [14184-69]
- 14184 OU **Establishment of a dual-beam, energy-splitting interference thickness measurement model for parallel epitaxial layers** [14184-80]
- 14184 OV **Precise measurement and reliability study of epitaxial layer thickness in semiconductor electronic devices based on infrared interferometry and Fresnel theory** [14184-81]

- 14184 0W **Intelligent terminal battery life prediction based on random load simulation and multilevel feature sensitivity identification** [14184-82]
- 14184 0X **Dynamic prediction of smartphone battery life based on multiphysics coupling and uncertainty quantification** [14184-83]
- 14184 0Y **Predictive control and energy efficiency optimization of permanent magnet synchronous motors for nuclear power plant cooling systems** [14184-32]
- 14184 0Z **Data operationalization method for pumped storage power station: a framework integrating ontology and information theory** [14184-87]
- 14184 10 **Temporal convolutional network for forecasting fluctuations in grid-connected renewable energy power** [14184-85]
- 14184 11 **A collaborative data sharing mechanism for multibrand power trading based on federated learning** [14184-90]
- 14184 12 **Testing and implementation of an FPGA-based micro-thruster hardware-in-the-loop simulation system** [14184-91]
- 14184 13 **Research on electric vehicle charging load characteristics analysis and LSTM prediction application in multiple scenarios** [14184-70]
- 14184 14 **Research on calibration method and uncertainty evaluation of infrared thermometer** [14184-102]

OPTICAL COMMUNICATION AND NETWORKS

- 14184 15 **Data-driven decision-making and intelligent scheduling model in the promotion of agricultural products on new media platforms** [14184-12]
- 14184 16 **Design of intelligent manufacturing data acquisition and analysis system based on industrial Internet** [14184-1]
- 14184 17 **Next-generation network optimization scheme based on joint communication and computing** [14184-16]
- 14184 18 **Research on optimizing cross-departmental collaboration efficiency based on data-driven and network analysis** [14184-100]
- 14184 19 **Transparent cold chain logistics through blockchain and IoT integration** [14184-2]
- 14184 1A **Blockchain-enabled industry-education integration platform certificate authentication method** [14184-28]
- 14184 1B **Data fusion and processing of intelligent sensor networks in ecological environment monitoring** [14184-13]

- 14184 1C **Soil displacement monitoring method for geological disaster points of transmission lines based on optical fiber sensing technology** [14184-101]
- 14184 1D **Development issues and solutions for a distributed drone emergency rescue collaboration system under the OpenHarmony platform** [14184-30]
- 14184 1E **An end-to-end intelligent early-warning system for pipeline excavation safety via multimodal data fusion** [14184-21]
- 14184 1F **Modulation recognition of wireless communication signals based on CNN-LSTM fusion model** [14184-98]
- 14184 1G **Processing strongly non-stationary AE/EMR signals based on the VMD-SWT-TEO adaptive time-frequency signal framework** [14184-51]
- 14184 1H **Evaluation and optimization of dust removal efficiency of 5G+edge intelligent energy-enabled slag removal system** [14184-54]
- 14184 1I **Data fusion and intelligent diagnosis method of tunnel structure health monitoring based on IoT perception and AI driving** [14184-36]
- 14184 1J **Analysis of lateral vibration characteristics and full-information optimal control research for vehicles based on centrifugal actuators** [14184-57]
- 14184 1K **Design and implementation of a teleoperation humanoid robot** [14184-48]
- 14184 1L **Analysis of a multilevel and multidimensional risk evaluation model for cybersecurity** [14184-27]
- 14184 1M **On SRUNM tasks performance comparison of offline RL methods and IQL hyperparameter study** [14184-37]
- 14184 1N **Collaborative intelligent driving test methods under the vehicle-road-cloud integrated system** [14184-44]
- 14184 1O **IoT resource scheduling method based on deep reinforcement learning** [14184-33]
- 14184 1P **An intelligent BiLSTM-driven chaotic demodulation scheme for secure and reliable UAV networks** [14184-45]
- 14184 1Q **A research on the transmission mode of 5G network base stations based on intelligent optimization algorithms** [14184-46]
- 14184 1R **Remote control and adjustment technology for high voltage cleaning of transmission line insulators by unmanned aerial vehicle** [14184-24]
- 14184 1S **Adaptive resource allocation for industrial IoT endpoints in edge AI-driven heterogeneous networks** [14184-62]
- 14184 1T **Construction of a semantic extraction model for UAV video images based on the transformer algorithm** [14184-65]

- 14184 1U **Application research of low-altitude UAV photogrammetry in dynamic mining monitoring of open-pit mines** [14184-75]
- 14184 1V **Self-interference-resistant recursive state estimation for a class of nonlinear systems in full-duplex relay networks** [14184-76]
- 14184 1W **The classification system of IoT perception data layers for pumped storage power stations** [14184-94]
- 14184 1X **Reactive power compensation optimization of distribution network based on sensitivity analysis** [14184-106]
- 14184 1Y **Social media image-text irony detection based on multimodal semantic collaborative fusion network** [14184-59]
- 14184 1Z **Joint optimization algorithm for UAV swarm cooperative control and wireless communication channels** [14184-86]
- 14184 20 **MP-OTNet: motion-prior and optimal transport-based network for unified detection and tracking with UAVs** [14184-88]
- 14184 21 **Application of ant colony algorithm in path planning for cloud UAV swarms** [14184-99]
- 14184 22 **Energy-aware path planning and wireless charging-based endurance enhancement for unmanned aerial vehicles** [14184-104]
- 14184 23 **The application of numerical control technology in the precise spraying system of agricultural drones** [14184-95]
- 14184 24 **End-to-end low-light object detection via task-driven illumination enhancement** [14184-93]
- 14184 25 **A method for reducing IoT energy consumption based on edge energy-efficient computing** [14184-92]
- 14184 26 **Optimization of driving warning prompt modalities based on human-computer interaction** [14184-71]
- 14184 27 **Design and implementation of a lightweight TCN-based anomaly detection system for in-vehicle CAN bus** [14184-96]

INFORMATION TECHNOLOGY

- 14184 28 **Construction and application analysis of the pre-project progress control system for new energy projects integrating information technology means** [14184-11]
- 14184 29 **Innovative research on blockchain-based supply chain financing for small and medium-sized enterprises** [14184-3]

- 14184 2A **A supply chain traceability algorithm and platform for Lanzhou beef noodles based on smart contract optimization and data encryption** [14184-14]
- 14184 2B **Adaptive algorithm for predicting transmission line losses in response to non-stationary load fluctuations** [14184-20]
- 14184 2C **Research on spatial correlation prediction of regional power load based on graph neural networks (GNN)** [14184-4]
- 14184 2D **A study on the application of virtual reality technology in immersive marketing experiences** [14184-38]
- 14184 2E **An interactive recognition and understanding model for college English reading based on multimodal fusion** [14184-19]
- 14184 2F **Local minimum variance recursive estimation for nonlinear systems with multiplicative noise under non-logarithmic sensor resolution** [14184-41]
- 14184 2G **The realization of the transmission line external damage early warning technology based on the fusion of YOLOv5s and 3D point cloud** [14184-18]
- 14184 2H **The architecture of an intelligent video deep understanding and multimodal analysis platform based on the DeepSeek large model** [14184-47]
- 14184 2I **Data-driven classification of excitation waveforms and modeling of core loss temperature correction** [14184-55]
- 14184 2J **Design and implementation of remote monitoring platform based on embedded system** [14184-9]
- 14184 2K **Optimization of information storage and distribution in intelligent library systems** [14184-23]
- 14184 2L **FRisk-averse distributional planning for swarm screening against hybrid automata-based kinetic threats** [14184-49]
- 14184 2M **Leakage-free multiscale forecasting of nonstationary financial time series via adaptive VMD and kernel mapping** [14184-5]
- 14184 2N **Numerical simulation and quantum mechanics analysis of single photon double slit interference** [14184-50]
- 14184 2O **DCAP: a dynamic uncertainty-aware risk-constrained framework for conservative investors** [14184-66]
- 14184 2P **AI-driven logistics network layout and dynamic scheduling model for carbon emission minimization** [14184-67]
- 14184 2Q **A knowledge graph-based approach for semantic association and intelligent Q&A on the “Fu” cultural symbol system of Quanzhou** [14184-60]

- 14184 2R **Intelligent identification system for debugging status of ice monitoring terminals based on enhanced LSTM** [14184-105]
- 14184 2S **Real-time optimization of tobacco pneumatic conveying systems based on deep reinforcement learning** [14184-77]
- 14184 2T **Low-complexity compression coding method for surveillance videos in power substations based on artificial intelligence and edge computing** [14184-78]
- 14184 2U **Design of multilevel neural network model in data processing of controlled source electromagnetic method** [14184-89]
- 14184 2V **Lightweight implementation and optimization of conditional scene generation model driven by depth estimation** [14184-103]
- 14184 2W **A feature mining and classification system for heterogeneous medical data based on the fusion of convolutional neural networks and random forest** [14184-72]
- 14184 2X **A deep-learning-based system for detecting PCB defects** [14184-84]
- 14184 2Y **Design of an efficient vehicle recognition model for FPGA-based edge computing** [14184-97]
