# TABLE OF CONTENTS

## VOLUME 1

|                                                                                             |    |
|---------------------------------------------------------------------------------------------|----|
| SAMPLING CHALLENGES ASSOCIATED WITH UNCONVENTIONAL GAS SOURCES.....                         | 1  |
| <i>M. Firmin</i>                                                                            |    |
| MEASUREMENT SCENE INVESTIGATIONS.....                                                       | 6  |
| <i>C. Hodges</i>                                                                            |    |
| MANUFACTURED METER PULSES – AN EXPLANATION .....                                            | 16 |
| <i>R. Fritz</i>                                                                             |    |
| UPDATE ON API, GPA AND ASTM STANDARDS.....                                                  | 21 |
| <i>N/A</i>                                                                                  |    |
| DETERMINATION OF H <sub>2</sub> S AND TOTAL SULFUR IN NATURAL GAS.....                      | 22 |
| <i>C. Tuble, D. Haydt</i>                                                                   |    |
| RESOLVING LIQUID MEASUREMENT DIFFERENCES.....                                               | 28 |
| <i>R. Mitchener</i>                                                                         |    |
| OPERATIONAL EXPERIENCE WITH LIQUID CORIOLIS METERS .....                                    | 34 |
| <i>J. Crews</i>                                                                             |    |
| MASS METERS FOR LIQUIDS MEASUREMENT.....                                                    | 40 |
| <i>D. Newcomb</i>                                                                           |    |
| EFFECTS OF ATMOSPHERIC PRESSURE ON GAS MEASUREMENT .....                                    | 46 |
| <i>J. Howell</i>                                                                            |    |
| CONDITION-BASED MONITORING OF NATURAL GAS ULTRASONIC METERING<br>FACILITIES.....            | 50 |
| <i>E. Hanks</i>                                                                             |    |
| FUNDAMENTALS OF LIQUID MEASUREMENT II .....                                                 | 63 |
| <i>J.W. Brackett</i>                                                                        |    |
| WITNESSING ORIFICE METER VERIFICATION/CALIBRATION.....                                      | 70 |
| <i>K. Harper</i>                                                                            |    |
| NEW TECHNOLOGIES IN S&W MEASUREMENT .....                                                   | 74 |
| <i>W. Scott</i>                                                                             |    |
| EFFECTS OF C <sub>6</sub> + SPLIT VERSUS C <sub>9</sub> + ANALYSIS ON GAS MEASUREMENT ..... | 79 |
| <i>R. Spann, K. Jameson</i>                                                                 |    |
| FLUID VOLUME CALCULATIONS .....                                                             | 86 |
| <i>M. Holmes</i>                                                                            |    |
| MEASUREMENT ACCOUNTING OVERVIEW.....                                                        | 91 |
| <i>N. Davis</i>                                                                             |    |
| PROVING LIQUID ULTRASONIC METERS .....                                                      | 98 |
| <i>D. Seiler</i>                                                                            |    |

|                                                                                                   |     |
|---------------------------------------------------------------------------------------------------|-----|
| OPERATIONAL EXPERIENCE WITH SMALL VOLUME PROVERS .....                                            | 107 |
| <i>B. Massey, C. Woods</i>                                                                        |     |
| IDENTIFYING AND ELIMINATING EFFECTS OF INDUCED SIGNALS ON<br>MEASUREMENT SYSTEM ELECTRONICS ..... | 118 |
| <i>P.P. Jakubenas</i>                                                                             |     |
| REAL TIME ELECTRONIC GAS MEASUREMENT .....                                                        | 130 |
| <i>M. Johnson</i>                                                                                 |     |
| OPTIMIZING SEPARATOR PERFORMANCE WITH LIQUID CARRYOVER DETECTION<br>AND AI .....                  | 138 |
| <i>H. Thorpe, V. Strong, P. Stockwell</i>                                                         |     |
| TECHNIQUES OF NATURAL GAS COMPOSITE SAMPLING.....                                                 | 158 |
| <i>B. Hutchinson</i>                                                                              |     |
| TECHNIQUES OF GAS COMPOSITE SAMPLING .....                                                        | 164 |
| <i>D. Parrott</i>                                                                                 |     |
| HELICAL TURBINE METERS FOR LIQUID MEASUREMENT.....                                                | 172 |
| <i>J.M. Pettinato</i>                                                                             |     |
| FUNDAMENTALS OF GAS MEASUREMENT I .....                                                           | 180 |
| <i>J. Haney</i>                                                                                   |     |
| REFINED PRODUCT SAMPLING SYSTEMS .....                                                            | 192 |
| <i>M. VonBorstel</i>                                                                              |     |
| SELECTION, SIZING AND OPERATION OF CONTROL VALVES FOR GASES AND<br>LIQUIDS.....                   | 196 |
| <i>M. Stinn</i>                                                                                   |     |
| LIQUID METER PROVING TECHNIQUES .....                                                             | 206 |
| <i>K. Fields</i>                                                                                  |     |
| FUNDAMENTALS OF LIQUID MEASUREMENT III - DYNAMIC.....                                             | 228 |
| <i>C. Levy</i>                                                                                    |     |
| COMMUNICATION SYSTEMS FOR GAS MEASUREMENT DATA.....                                               | 237 |
| <i>T. Cleveland</i>                                                                               |     |
| THERMOMETRY IN GAS MEASUREMENT .....                                                              | 239 |
| <i>S.T. Stark</i>                                                                                 |     |
| BEST PRACTICES FOR THE DESIGN OF GAS METERING SYSTEMS FOR CUSTODY<br>TRANSFER.....                | 246 |
| <i>R.T. Stephens</i>                                                                              |     |
| GAS ULTRASONIC DIAGNOSTICS.....                                                                   | 256 |
| <i>D. Harris</i>                                                                                  |     |
| UNDERSTANDING HAZARDOUS AREA CLASSIFICATIONS .....                                                | 275 |
| <i>A. Wagner</i>                                                                                  |     |
| BTU DETERMINATION OF NATURAL GAS USING A PORTABLE CHROMATOGRAPH.....                              | 277 |
| <i>B. Cantwell</i>                                                                                |     |

|                                                                                                       |     |
|-------------------------------------------------------------------------------------------------------|-----|
| USING PORTABLE CHROMATOGRAPHS FOR DETERMINING BTU IN NATURAL GAS .....                                | 283 |
| <i>S. Peterson</i>                                                                                    |     |
| THE UNCERTAINTY OF A WATERDRAW CALIBRATION VS GRAVIMETRIC<br>CALIBRATION ON SMALL VOLUME PROVERS..... | 289 |
| <i>C. Woods</i>                                                                                       |     |
| PYCNOMETER INSTALLATION, OPERATION, AND CALIBRATION .....                                             | 295 |
| <i>B. Burton</i>                                                                                      |     |
| THE MEASUREMENT DATA HANDLING PROCESS-NOW AND IN THE FUTURE .....                                     | 298 |
| <i>P. Umlauf</i>                                                                                      |     |
| THE MEASUREMENT DATA HANDLING PROCESS-NOW AND IN THE FUTURE .....                                     | 303 |
| <i>F. Rucobo</i>                                                                                      |     |
| UNCERTAINTY CONSIDERATIONS OF TANK STATIC MEASUREMENT SYSTEMS.....                                    | 307 |
| <i>A. David</i>                                                                                       |     |
| MULTIPHASE FLOW MEASUREMENT.....                                                                      | 310 |
| <i>R. Steven</i>                                                                                      |     |
| EFFECTS OF PETROLEUM PROPERTIES ON PIPELINE MEASUREMENT .....                                         | 322 |
| <i>D. Householder; E. Streetman</i>                                                                   |     |
| MEASUREMENT ACCURACY AND SOURCES OF ERROR IN TANK GAUGING .....                                       | 332 |
| <i>T. Himes</i>                                                                                       |     |
| OVER PRESSURE PROTECTION METHODS.....                                                                 | 338 |
| <i>N. Harris</i>                                                                                      |     |
| WATER VAPOR EFFECTS ON NATURAL GAS QUALITY AND NATURAL GAS<br>MEASUREMENT.....                        | 343 |
| <i>S. Zarrabian</i>                                                                                   |     |
| MEASUREMENT OF PETROLEUM ON BOARD MARINE VESSELS.....                                                 | 351 |
