# TABLE OF CONTENTS

|                                                                                                                                       |    |
|---------------------------------------------------------------------------------------------------------------------------------------|----|
| Collision Avoidance Planning and Collaborative Planning for Dexterous Hands .....                                                     | 1  |
| <i>Longfei Jia, Bohan Lv, Yifan Ma, Fan Yang, Xiaobin Hu</i>                                                                          |    |
| An Environment-Based Adaptive Optimal Path Planning Strategy .....                                                                    | 6  |
| <i>Jiandong Lai, Chen Zhu</i>                                                                                                         |    |
| Swarm Control of Rat Robots: Modeling and Simulation .....                                                                            | 13 |
| <i>Haobo Xie, Haoze Xu, Kedi Xu, Chaonan Yu, Wei Yang, Canjun Yang</i>                                                                |    |
| Escaping Local Minima in APF via RRT for Obstacle Avoidance of Redundant Manipulators .....                                           | 18 |
| <i>Yadong Wang, Junjun Li</i>                                                                                                         |    |
| Recurrent Neural Modeling and Controller Design for a Lightweight Actuator Driven by Cable<br>Transmission for a Robotic Arm .....    | 24 |
| <i>Italo I. Luque, Carlos A. Perea, Julio Ronceros, Ayrton Nieves, Joel Figueroa</i>                                                  |    |
| A Novel Deployable Structure Inspired by Insect Wings .....                                                                           | 33 |
| <i>Yin Liang, Xingyu Liu, Fan Zhao, Ziming Chen, Zheng Lian, Jiashuo Wu</i>                                                           |    |
| Development of a Screw-Driven Modular Articulated Robot for Ash Silo Outlet Cleaning .....                                            | 43 |
| <i>Yang Xu, Hongtao Yu, Wu Yang, Zhifang Zhu, Quanguo Lu, Guohui Liu</i>                                                              |    |
| Safety-Driven Path Selection Using Reinforcement Learning in Autonomous Driving .....                                                 | 48 |
| <i>Shi He, Junhao Lyu, Wentao Fan, Ricky Yuan-Tan Hou</i>                                                                             |    |
| A Motor Bearing Fault Diagnosis Framework Based on Multi Model Data Fusion and Multi Scale<br>Kernel Ensemble Residual Learning ..... | 56 |
| <i>Yuan Zhuang, Boning Wu, Yanbo Wang, Hongwei Li</i>                                                                                 |    |
| Secure Multi-Platoon Control of Automated Vehicles Under Hidden Denial-Of-Service Attacks .....                                       | 61 |
| <i>Zhenhao Qian, Yijun Zhang</i>                                                                                                      |    |
| The Speed of an Economic Vehicle Based on the Improved Gray Wolf Algorithm is Solved in the<br>Connected Environment .....            | 68 |
| <i>Xichen Xu, Zhaoquo Zhang, Faan Wang, Yanbo Lu, Jinhao Liang, Guanxu Ren</i>                                                        |    |
| Hierarchical Frequency Mutual-Attention Network Based Open Circuit Fault Diagnosis Method for<br>Voltage Source Inverters .....       | 73 |
| <i>Baofu Qin, Kailong Fang, Yang Fu, Zhenzhen Jin</i>                                                                                 |    |
| Research on Path Tracking of Tracked Vehicles Based on Particle Swarm Optimization Pure Pursuit<br>Algorithm .....                    | 78 |
| <i>Shiliang Zhu, Zhaoquo Zhang, Faan Wang, Boyang Wang, Jiahao Zhang, Kaiwei Zeng</i>                                                 |    |
| Sampling Control of Bilateral Teleoperation System Under Hidden DoS Attacks .....                                                     | 83 |
| <i>Sun Jian, Yijun Zhang</i>                                                                                                          |    |
| A Lightweight Forest Fire Smoke Detection Method from a UAV Perspective .....                                                         | 90 |
| <i>Wentao Zhou, Chao Liu, Zishi Deng, Deqiang He</i>                                                                                  |    |
| Insulator Defect Detection Method Based on Transformer and Dynamic Feature Fusion .....                                               | 95 |
| <i>Yunshou Mao, Zijun Liao, Jingheng Yuan, Wei Liang, Hongxiang Lin, Dafeng Long, Kai Wan, Kai Wan</i>                                |    |

|                                                                                                                                              |     |
|----------------------------------------------------------------------------------------------------------------------------------------------|-----|
| DBNE-RRT: An Efficient Frontier Detection Algorithm .....                                                                                    | 101 |
| <i>Han Yin, Bo Ji, Yuheng Gao, Rui Yuan</i>                                                                                                  |     |
| Visual Classification and Evaluation of Insulator Icing State for Automated Power Grid Maintenance .....                                     | 107 |
| <i>Wei Liang, Dafeng Long, Yunshou Mao, Juncheng Zou, Hongxiang Lin, Kai Wan</i>                                                             |     |
| Research on Real-Time Inference Based on Atlas200 Heterogeneous Acceleration YOLO V10 .....                                                  | 113 |
| <i>Wang Yuanyu, Zhang Qiang, Yang Heng, Li Wei, Zi Ruixiao, Fan Qingshuai, Yan Ming, Luo Yajiang</i>                                         |     |
| Epileptic Seizure Detection Method Based on Dynamic Time Warping Recurrence Plot .....                                                       | 118 |
| <i>Guangyu Yang, Dafeng Long, Hongxiang Lin, Juncheng Zou, Yuning Xu, Yunshou Mao, Kai Wan</i>                                               |     |
| Accidentllama: A Large Language Model-Based Framework for Accident Detection .....                                                           | 125 |
| <i>Ma Ziqi</i>                                                                                                                               |     |
| Design of an Automated Milk Processing Machine for Producing Cheese Fortified with Milk Powder in Rural Areas .....                          | 133 |
| <i>Alexis Camarena, Leonardo Rodriguez, Sario Chamorro</i>                                                                                   |     |
| Automation and Efficiency in the Textile Industry: Application of IoT and Machine Learning to Optimize Production .....                      | 141 |
| <i>Genesis Cuba-Levano, Jherald Quispe-Gutierrez, Martin Saenz-Moron, Ieva Andersone</i>                                                     |     |
| Bearing Remaining Useful Life Prediction Based on Dynamic Multiscale Spatio-Temporal Implicit Neural Differential Graph Neural Network ..... | 150 |
| <i>Jiayang Zhao, Chao Liu, Yuan Xu, Yang Fu</i>                                                                                              |     |
| Multi-Scale Incremental Modeling for Enhanced Human Motion Prediction in Human-Robot Collaboration .....                                     | 155 |
| <i>Juncheng Zou, Dafeng Long, Guangyu Yang, Wei Liang, Hongxiang Lin</i>                                                                     |     |
