# TABLE OF CONTENTS

|                                                                                                                                                                     |    |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| AI-driven Financial Risk Monitoring: Comprehensive Framework for Proactive Risk Awareness .....                                                                     | 1  |
| <i>Fei Cheng</i>                                                                                                                                                    |    |
| Optimizing E-Commerce Performance through Intelligent Supply Chain and Logistics Management<br>Based on Data-Driven Analytical Framework .....                      | 6  |
| <i>Chaosheng Han</i>                                                                                                                                                |    |
| Research on Intelligent Adaptation Mechanism of Digital Transformation Resources for Hierarchical<br>Enterprises .....                                              | 13 |
| <i>Qiongni Zhang</i>                                                                                                                                                |    |
| Empirical Research on Constructing a Multi-Layer Dual-Channel Supply Chain for E-commerce<br>Decision Model .....                                                   | 20 |
| <i>Chaosheng Han</i>                                                                                                                                                |    |
| Research on improving digital technology adaptability of elderly workers in rural areas—— Empirical<br>analysis based on Jiangxi Province .....                     | 28 |
| <i>Fanrong Kong, Hongxia Lu</i>                                                                                                                                     |    |
| Assessing the Impact of Family-Size-Based Electricity Pricing on Energy Equity among Chinese<br>Households .....                                                    | 34 |
| <i>Lijian Zheng, Chaofeng Zheng, Lichun Tian, Nan Ye, Shiming Zhang, Yingjin Ye</i>                                                                                 |    |
| The Impacts of Tiered Pricing on Residential Electricity Consumption and Energy Poverty in China .....                                                              | 41 |
| <i>Shiming Zhang, Shiyuan Lin, Nan Ye, Yafang Zhu, Sijie Cai, Hongyang Lin</i>                                                                                      |    |
| Evolutionary Dynamics of Green Technology Innovation in Logistics Enterprises under Policy and<br>Market Drivers .....                                              | 51 |
| <i>Yuxian Ou, Mohd Azril Ismail, Kamal Imran Mohd Sharif, Yuyan Liang</i>                                                                                           |    |
| A Study on the Interaction between Standardization and Regional Economic Integration : Granger<br>Causality Test based on EU Panel Data .....                       | 59 |
| <i>Yabin Yu, Haocheng Lyu, Jielu Fu, Siqu Zhang</i>                                                                                                                 |    |
| What Drives Data Asset Disclosure? A Complex Intermediary Analysis of Corporate Standardization .....                                                               | 63 |
| <i>Lu Cheng, Yabin Yu, Qian Xu, Yin Wang</i>                                                                                                                        |    |
| Tracing and Quantitative Analysis of Cost Fluctuations in Transmission and Transformation Projects in<br>Fujian Region Based on Cross-Contribution Decoupling ..... | 67 |
| <i>Huiying Wu, Minquan Ye, Mengqian Zhang, Hongyi Chen, Yue Zhang</i>                                                                                               |    |
| Investigation and Analysis of the Current Situation of Campus Second-hand Transaction Based on<br>Statistical Methods .....                                         | 73 |
| <i>Shenyi Ma, Zaiyi Zhu, Yuanyuan Du, Lin Guang</i>                                                                                                                 |    |
| Purchase Intention of Cross-border Imported Cosmetic Products: Evidence from China .....                                                                            | 77 |
| <i>Xinye Huang, Wanmin Ni</i>                                                                                                                                       |    |
| Data-Driven Study on the Regulatory Landscape of Motor Vehicle Recalls .....                                                                                        | 82 |
| <i>Zewei Zhang, Jingjing Tian, Yan Yin, Jie Ding</i>                                                                                                                |    |

|                                                                                                                                                                                            |     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Factors Influencing Consumer Satisfaction with Fresh Seafood Purchases through Live Streaming E-commerce .....                                                                             | 87  |
| <i>Youjia Lin, Ruihan Su, Yan Li</i>                                                                                                                                                       |     |
| Factors Influencing the Willingness and Adoption of Digital Sales by Smallholder Farmers in China .....                                                                                    | 93  |
| <i>Qicheng Zou, Tianyu Xiao, Yan Li</i>                                                                                                                                                    |     |
| Bibliometric Analysis on the Security and Scalability of Digital Currency Payment Methods .....                                                                                            | 98  |
| <i>Xinqi Ling, Haopeng Kuang</i>                                                                                                                                                           |     |
| Creation Mode Choices and Traffic Investment Strategies in Social E-commerce: A Comparative Analysis of AIGC and PGC .....                                                                 | 102 |
| <i>Huanwei Sun</i>                                                                                                                                                                         |     |
| The Impact of Artificial Intelligence on Corporate ESG Performance: The Mediation of R&D Intensity .....                                                                                   | 111 |
| <i>Yuhan Qiu, Yabin Yu, Haocheng Lyu, Lu Qian</i>                                                                                                                                          |     |
| Research on AI-Empowered Curriculum–Competition Integrated Teaching Reform Based on the CDIO Framework : A Case Study of the Course Intelligent Logistics Technology and Application ..... | 115 |
| <i>Yuxian Ou, Yuyan Liang, Fuyuan Zhang</i>                                                                                                                                                |     |
| Research on the Value Mechanism of Multiple Factors Influencing Consumers' Purchase Decisions on Social E-commerce Platforms : A Case Study of Xiaohongshu .....                           | 120 |
| <i>Lihong Mao, Yihan Dong</i>                                                                                                                                                              |     |
| Research on the Influence Mechanism of Host-Driven Personalized IP Shaping on Consumer Trust Construction in Live-Stream E-Commerce .....                                                  | 129 |
| <i>Huimei Ke, Chunli Li, Peng Lyu, Qiang Wan</i>                                                                                                                                           |     |
| Mechanisms of ICT-Enabled Development in China's Taobao villages .....                                                                                                                     | 136 |
| <i>Qingmin Zhang, Yan Xu, Tengfei He</i>                                                                                                                                                   |     |
