# TABLE OF CONTENTS

|                                                                                                                                              |    |
|----------------------------------------------------------------------------------------------------------------------------------------------|----|
| AI-Based Technique for Odia-to-English Language Translation Using LSTM: Breaking the Communication Barriers .....                            | 1  |
| <i>Sasadhara Sahoo, Rojalina Priyadrashini, Ram Chandra Barik</i>                                                                            |    |
| A Lightweight Real-Time Multilingual Video Communication System using On-Device Speech Translation .....                                     | 9  |
| <i>Rajat Kumar, Kuldeep Malviya, Avijit Mondal, Priya Pandey, Pravin Kumar</i>                                                               |    |
| RSO-Optimized Federated Multi-Agent Actor-Critic RL for IoT Edge .....                                                                       | 14 |
| <i>Balla Shailesh Chowdary, Karnam Poojitha, Bopparaju Meher Lakshmi Meghana, B. Swapna Ganesh B. Regulwar, K Ravindranath</i>               |    |
| Optimizing Cardiovascular Disease Prediction with Advanced Feature Selection and Machine Learning .....                                      | 20 |
| <i>Shuvam Das, Manish Prajapati, Biswajit Bhoi, Ashish Kumar Mishra, Kakita Murali Gopal, Sitanshu Kar</i>                                   |    |
| Identification of Key Genes in Prostate Cancer via RNA Sequencing and Network-Based Bioinformatics .....                                     | 26 |
| <i>VasudevaRao Badana, Ramesh Chappa, Chalapathi Rao Tippa, Jagadeeswara Rao G</i>                                                           |    |
| Towards a Green Smart City: Modelling the Barriers to a Circular Economy Based E-Waste Management in Bhubaneswar .....                       | 32 |
| <i>Sudeshna Rath, Jyotiranjana Hota, Sushanta Tripathy</i>                                                                                   |    |
| Novel Hybrid Metaheuristic Combining Grey Wolf and Jellyfish Algorithms for WSN Node Localization .....                                      | 38 |
| <i>Kottu Santosh Kumar, Saroja Kumar Rout, Sujit Kumar Panda, Pradyumna Kumar Mohapatra</i>                                                  |    |
| A Multitasking Framework for End-to-End Aspect Category Sentiment Analysis on Multimodal Product Reviews .....                               | 44 |
| <i>Nilanjana Das, Shahin Ara Begum</i>                                                                                                       |    |
| Can Alzheimer's Disease be Detected using Minimum Number of EEG Signals? .....                                                               | 50 |
| <i>Arya Kanta, Abhijit Chandra</i>                                                                                                           |    |
| Non-invasive Electroencephalography Based Word Recognition for Thought-Driven Communication .....                                            | 55 |
| <i>Veena Karjigi, Aditya Keshav Harikantra, Harsha M, Rahul Jain S V, Rohith Ingaleswar</i>                                                  |    |
| Event-Driven Fixed-Time Adaptive Neural Sliding Mode Control for Altitude Tracking of Quadrotor .....                                        | 60 |
| <i>Madhumita Pal, Sanjoy Mondal, Amal Barman, Ashish Raj Verma, Satyaajeet Prakash, Sagnik Chakraborty, Avishek Soe Mondal</i>               |    |
| Deep Latent Representation Learning for Pan-Cancer Classification with Explainable Boosting from High-Dimensional Gene Expression Data ..... | 66 |
| <i>Diptadip Maiti, Madhuchhanda Basak</i>                                                                                                    |    |
| DLBOD: A Deep Learning Framework for Wrong-Way Vehicle Detection in Intelligent Transport Systems .....                                      | 72 |
| <i>Swetanjali Maharana, Sudhir Ranjan Patnaik, Raj Kumar Baliyar Singh, Debasish Padhy</i>                                                   |    |
| Bridging Interpretability and Performance: Attention-Based Explainable Deep Learning Architecture for Braille Character Recognition .....    | 78 |
| <i>Apurba Nandi, Hritajit Sur, Neepa Kundu, Danisha Basu, Anirban Bhandari, Sankalpa Dutta</i>                                               |    |

|                                                                                                                                                                  |     |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Student Behaviour Analysis in Online Proctoring Using XGBoost .....                                                                                              | 84  |
| <i>Vijaya Shetty S, Jyoti Neeli, Srujana S N, Tilak S K, Sudeep H M, Thejesh M</i>                                                                               |     |
| Hybrid Clustering Framework for Intelligent House Recommendation .....                                                                                           | 90  |
| <i>Vijaya Shetty S, Jyoti Neeli, Srujana S N</i>                                                                                                                 |     |
| A Comprehensive Analysis of MARL Approaches for Age-of-Information Optimization in C-V2X Networks .....                                                          | 96  |
| <i>Ashutosh Choubey, Satish Kumar Negi, Pushpendra Kumar Chandra</i>                                                                                             |     |
| ML-Driven Estimation of Remaining Useful Life and Charging Time in Battery Management Systems for Electric Vehicles .....                                        | 102 |
| <i>Shreeram V Kulkarni, Teja V, Vinay Y R, Damodar Pandu Lamani, Arjun G, Nagaraj B Baligar</i>                                                                  |     |
| AI-Driven Tourism Demand Forecasting Using Multi-Source Mobility, Crisis, and Sentiment Data .....                                                               | 108 |
| <i>Anil Kumar Biswal, Rajat Kumar Behera</i>                                                                                                                     |     |
| Smart Farming Using Deep Learning: Detection of Soybean Leaf Disease from UAV-Captured Images .....                                                              | 114 |
| <i>Swarnali Nath, Saroj Kr. Biswas, Sounak Majumdar, Kunal Kumar, Tapodhir Acharjee</i>                                                                          |     |
| Sentiment Analysis of IMDB Movie Dataset Using Logistic Regression .....                                                                                         | 120 |
| <i>Wafa Kanwal, Jasmine Garnaik, Sanjit Kumar Dash, Princy Diwan, Banaja Basini Rath</i>                                                                         |     |
| Emerging Technologies in Cystic Fibrosis Monitoring: Beyond Traditional Imaging .....                                                                            | 126 |
| <i>Yuvraj Pattanaik, Pratigyan Pattanayak, Adyasha Dash, Subhashree Darshana, Roshni Pradhan<br/>Ronali Padhy</i>                                                |     |
| Comparison of Classification Techniques for Fake Review Detection .....                                                                                          | 132 |
| <i>Sritama Mitra, Abhishek Pal, Saurav Suman, Chittaranjan Pradhan</i>                                                                                           |     |
| KAN-FusionNet-MedTB: A Lightweight Multimodal CNN-KAN Architecture for Tuberculosis Detection using PadChest Chest X-Rays and Translated Radiology Reports ..... | 138 |
| <i>Sonam Juneja, Sachin Malhotra, Jaspreet Kaur, Jagdeep Walia, Kiran Singh Sisodiya Bais, Rajesh A</i>                                                          |     |
| Roadkill Hotspots and Policy Advocacy (RHPA): A Multi-Layered AI and IoT Approach for Real-Time Wildlife Preservation .....                                      | 144 |
| <i>Lokesh Patra, Indigibilli Harshit, Saumendra Kumar Mohapatra, Apurva Singh, Mihir Narayan Mohanty</i>                                                         |     |
| AI BASED BLENDED LEARNING FOR HIGHER EDUCATION IN SCIENCE, ENGINEERING & TECHNOLOGY .....                                                                        | 147 |
| <i>Bishnu Prasad Samantaray, Sisir Ranjan Dash, Sabyasachi Dey, Retno Agus Setiawan, Rajani Agrawalla<br/>Rashmikanta Tripathy</i>                               |     |
| Automatic Speech Recognition on Mao Language .....                                                                                                               | 152 |
| <i>Pfokreni Adahrii, Malay Kumar Majhi, Sujan Kumar Saha</i>                                                                                                     |     |
| Evaluating Best Practices of Financial Management in Healthcare Service Sector for Integration with AI .....                                                     | 158 |
| <i>Rashmikanta Tripathy, Susanta Kumar Mishra, Sisir Ranjan Dash, Purwono Purwono, Amit Kumar<br/>Ajitav Acharya</i>                                             |     |
| RSTMG: A Computationally Efficient Framework for Region Specific Tissue Segmentation of Whole Slide Images .....                                                 | 164 |
| <i>Pillai Praveen Thulasidharan, Leena Mary, Keshab Nath, Jayakrushna Sahoo</i>                                                                                  |     |

|                                                                                                                                                    |     |
|----------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Speeding Up and Lowering Memory Footprint of Neural Networks by Decision Rules Extraction for<br>LSB Steganalysis .....                            | 170 |
| <i>Sagnik Pramanik, Saheli Rana, Rima Kar, Koushiki Das, Sabyasachee Banerjee</i>                                                                  |     |
| Next-Generation Time-Series Forecasting: The Shift from Deep Learning to Spiking Neural Networks .....                                             | 176 |
| <i>Sneha Sasidharan, Bindu P V</i>                                                                                                                 |     |
| A Web-Enabled Dual-Microcontroller Architecture for Secure and Remote Ignition Control in Model<br>Rocketry .....                                  | 182 |
| <i>Bismaya Guruprasad Panda, K Rajtilak, Debasish Nayak, Jasmine Kaur, Jyoti Ranjan Nayak<br/>Ladu Kishore Sahoo</i>                               |     |
| A Dual Attention-Driven Neural Ensemble Framework for Student Outcome Prediction .....                                                             | 187 |
| <i>Minakshi Sharma, Vibhakar Mansotra</i>                                                                                                          |     |
| Software Effort Prediction Using Class Model Metrics Augmented with Ensemble Regression Method .....                                               | 193 |
| <i>Krishna Priyadarsani, Siba Prasada Tripathy, Pulak Sahoo, J. R. Mohanty</i>                                                                     |     |
| A Deep Learning Driven Framework for Real-Time Lane Detection and Departure Warning System .....                                                   | 198 |
| <i>Yavish Sahrawat, Thota Rishik Sai Santhosh, Shubham Gangwar, Janhvi Singh, Deepthi Godavarthi<br/>Tauseef Khan</i>                              |     |
| Variance-Weighted Random Forests for Robust Keystroke Dynamics Authentication .....                                                                | 204 |
| <i>Subhadeep Sasmal, Rajashree Konwar, Indrajit Banerjee</i>                                                                                       |     |
| Real-Time Smart Surveillance System for Threat Detection Using YOLOv5 .....                                                                        | 209 |
| <i>Archit Jain, Tarun Bansal, Himanshu Suyal, Ram Kishan Devangan, Rohit Singh</i>                                                                 |     |
| IOT Based Real-Time Wireless Data Acquisition System for Vehicle .....                                                                             | 215 |
| <i>D. Manoj Kumar, Arthi. R, Mahesh Kumar. N, Praveenkumar Babu</i>                                                                                |     |
| Solar Power Based Grass Cutting and Pesticide Spraying Robot .....                                                                                 | 221 |
